(a) The Secretary of Agriculture shall permit, subject to such terms and conditions as the Secretary shall prescribe, all or any part of the acreage set aside or diverted under the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.] from the production of a commodity for any crop year to be devoted to the production of any commodity for conversion into alcohol or hydrocarbons for use as motor fuel or other fuel, if the Secretary of Agriculture determines that such production is desirable in order to provide an adequate supply of commodities for such conversion, is not likely to increase the cost of price support programs, and will not adversely affect farm income.

(b)(1) During any year in which no set-aside or diversion of acreage is in effect under the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.] the Secretary of Agriculture may formulate and administer a program for the production, subject to such terms and conditions as he may prescribe, of commodities for conversion into alcohol or hydrocarbons for use as motor fuel or other fuel. Under such program, producers of wheat, feed grains, upland cotton, and rice shall be paid incentive payments to devote a portion of their acreage to such production.

(2) The payments under this subsection shall be made at such rate or rates as the Secretary of Agriculture determines to be fair and reasonable, taking into consideration the participation necessary to ensure an adequate supply of commodities for such conversion.

See Effective and Termination Dates note below.

EFFECTIVE AND TERMINATION DATES

Section 601 of Pub. L. 99198 provided that this section is effective only for 1986 through 1990 crops of rice.

§14411a. Marketing certificates for rice

(a) Authority of Commodity Credit Corporation to issue negotiable marketing certificates

Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1986, and ending July 31, 1991, the world price for a class of rice (adjusted to United States qualities and location), as determined by the Secretary of Agriculture, is below the current loan repayment rate for that class of rice, to make United States rice competitive in world markets and to maintain and expand exports of rice produced in the United States, the Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments, through the issuance of negotiable marketing certificates, to persons who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this section. Such payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make rice produced in the United States available at competitive prices consistent with the purposes of this section, including such payments as may be necessary to make rice in inventory on August 1, 1986, available on the same basis.

(b) Determination of value of certificates

The value of each certificate issued under subsection (a) of this section shall be based on the difference between—

- (1) the loan repayment rate for the class of rice; and
- (2) the prevailing world market price for the class of rice, as determined by the Secretary of Agriculture under a published formula submitted for public comment before its adoption.

(c) Commodity Credit Corporation assistance in redemption, marketing, or exchange of certificates

The Commodity Credit Corporation, under regulations prescribed by the Secretary of Agriculture, may assist any person receiving marketing certificates under this section in the redemption of certificates for cash, or marketing or exchange of such certificates for (1) rice

owned by the Commodity Credit Corporation or (2) (if the Secretary and the person agree) other agricultural commodities or the products thereof owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this section. Notwithstanding any other provision of law, any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this section.

(d) Exchange of certificates for commodities and products

Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, such owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of such certificate (as determined by the Secretary), reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after such reasonable number of days and ending with the date of the presentation of such certificate to the Commodity Credit Corporation.

(e) Prevention of adverse effects

The Secretary of Agriculture shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and the products thereof for certificates under this section from adversely affecting the income of producers of such commodities or products.

(f) Transfer of certificates

Under regulations prescribed by the Secretary of Agriculture, certificates issued to rice exporters under this section may be transferred to other exporters and persons approved by the Secretary.

CODIFICATION

Section was enacted as part of the Food Security Act of 1985, and not as part of the Agricultural Act of 1949 which is classified principally to this chapter. For complete classification of the 1949 Act to the Code, see Short Title note set out under section 1421 of this title and Tables.

§14412. Loans, payments, and acreage reduction programs for 1991 through 1995 crops of rice

(a) Loans and purchases

(1) In general

Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm nonrecourse loans and purchases for each of the 1991 through 1995 crops of rice produced on the farm at a level that is not less than the higher of—

- (A) 85 percent of the simple average price received by producers, as determined by the

Secretary, during the marketing years for the immediately preceding 5 crops of rice, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

(B) \$6.50 per hundredweight.

(2) Maximum reduction

The loan level for any crop of rice determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop.

(3) Announcement of loan level and established price

The loan and purchase level and the established price for each of the 1991 through 1995 crops of rice shall be announced not later than January 31 of each calendar year for the crop harvested in the calendar year or, in the case of the 1991 crop, as soon as practicable after November 28, 1990.

(4) Term

A loan made under this subsection shall have a term of not more than 9 months beginning after the month in which the application for the loan is made.

(5) Marketing loan provisions

(A) In general

In order to ensure that a competitive market position is maintained for rice, the Secretary shall permit a producer to repay a loan made under paragraph (1) for a crop at a level that is the lesser of—

(i) the loan level determined for the crop; or

(ii) the higher of—

(I) the loan level determined for the crop multiplied by 70 percent; or

(II) the prevailing world market price for rice, as determined by the Secretary.

(B) Prevailing world market price

The Secretary shall prescribe by regulation—

(i) a formula to define the prevailing world market price for rice; and

(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for rice.

(C) Producer purchase of marketing certificates

(i) In general

As a condition of permitting a producer to repay a loan as provided in subparagraph (A), the Secretary may require a producer to purchase marketing certificates equal in value to an amount that does not exceed one-half the difference, as determined by the Secretary, between the amount of the loan obtained by the producer and the amount of the loan repayment.

(ii) Redemption for rice or cash

The certificates shall be redeemable for agricultural commodities owned by the Commodity Credit Corporation valued at the prevailing market price, as determined

by the Secretary or for cash, under such terms and conditions as the Secretary may prescribe.

(iii) Redemption, marketing, or exchange

The Commodity Credit Corporation, under regulations prescribed by the Secretary, shall assist any person receiving marketing certificates under this subparagraph in the redemption or marketing or exchange of the certificates at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this section.

(iv) Charges

If any such certificate is not presented for redemption or marketing within a reasonable number of days after issuance, as determined by the Secretary, reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after the reasonable number of days and ending with the date of the presentation of the certificate to the Commodity Credit Corporation.

(v) Designation of commodities and products

Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, the owners would prefer to receive in exchange for certificates.

(vi) Sales price restrictions

Notwithstanding any other provision of law, any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subparagraph.

(vii) Displacement

The Secretary shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and the products thereof for certificates under this subparagraph from adversely affecting the income of producers of the commodities or products.

(viii) Transfers

Under regulations prescribed by the Secretary, certificates issued under this subparagraph may be transferred to other persons approved by the Secretary.

(D) Certificates to maintain competitiveness

(i) In general

Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1991, and ending July 31, 1996, the prevailing world market price for a class of rice (adjusted to United States quality and location), as determined by the Secretary, is below the current loan repayment rate for that class of rice, to make

United States rice competitive in world markets and to maintain and expand exports of rice produced in the United States, the Commodity Credit Corporation shall make payments, through the issuance of marketing certificates, to persons who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this subparagraph. The payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make rice produced in the United States available at competitive prices consistent with the purposes of this subparagraph.

(ii) Value

The value of each certificate issued under this subparagraph shall be based on the difference between—

- (I) the loan repayment rate for the class of rice; and
- (II) the prevailing world market price for the class of rice, as determined by the Secretary.

(iii) Terms and conditions of certificates

Marketing certificates issued under this subparagraph shall be subject to the same terms and conditions as certificates issued under subparagraph (C).

(6) Simple average price

For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

(b) Loan deficiency payments

(1) In general

The Secretary shall, for each of the 1991 through 1995 crops of rice, make payments (hereafter in this section referred to as “loan deficiency payments”) available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a) of this section, agree to forgo obtaining the loan or agreement in return for payments under this subsection.

(2) Computation

A payment under this subsection shall be computed by multiplying—

- (A) the loan payment rate; by
- (B) the quantity of rice the producer is eligible to place under loan (or obtain a purchase agreement) but for which the producer forgoes obtaining the loan or agreement in return for payments under this subsection.

(3) Loan payment rate

For purposes of this subsection, the loan payment rate shall be the amount by which—

- (A) the loan level determined for the crop under subsection (a) of this section; exceeds
- (B) the level at which a loan may be repaid under subsection (a) of this section.

(4) Marketing certificates

The Secretary may make up to one-half the amount of a payment under this subsection

available in the form of marketing certificates, subject to the terms and conditions provided in subsection (a)(5)(C) of this section.

(c) Payments; crop insurance requirement

(1) Deficiency payments

(A) In general

The Secretary shall make available to producers payments (hereafter in this section referred to as “deficiency payments”) for each of the 1991 through 1995 crops of rice in an amount computed by multiplying—

- (i) the payment rate; by
- (ii) the payment acres for the crop; by
- (iii) the farm program payment yield established for the crop for the farm.

(B) Payment rate

(i) Payment rate for 1991 through 1993 crops

The payment rate for each of the 1991 through 1993 crops of rice shall be the amount by which the established price for the crop of rice exceeds the higher of—

- (I) the national average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary; or
- (II) the loan level determined for the crop.

(ii) Payment rate of 1994 and 1995 crops

The payment rate for each of the 1994 and 1995 crops of rice shall be the amount by which the established price for the crop of rice exceeds the higher of—

- (I) the lesser of—
 - (aa) the national average market price received by producers during the calendar year that contains the first 5 months of the marketing year for the crop, as determined by the Secretary; or
 - (bb) the national average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus an appropriate amount that is fair and equitable in relation to wheat and feed grains (as determined by the Secretary); or
- (II) the loan level determined for the crop.

(iii) Minimum established price

The established price for rice shall not be less than \$10.71 per hundredweight for each of the 1991 through 1995 crops.

(C) Payment acres

Payment acres for a crop shall be the lesser of—

- (i) the number of acres planted to the crop for harvest within the permitted acreage; or
- (ii) 85 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D) of this section).

(D) 50/85 program

(i) In general

If an acreage limitation program under subsection (e)(2) of this section is in effect

for a crop of rice and the producers on a farm devote a portion of the maximum payment acres for rice as calculated under subparagraph (C)(ii) for equal to more than 8 percent for each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (v)(II)), of such rice acreage of the farm for the crop to conservation uses (except as provided in subparagraph (E))—

(I) such portion of the maximum payment acres in excess of 8 percent for each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (v)(II)), of such acreage devoted to conservation uses (except as provided in subparagraph (E)) shall be considered to be planted to rice for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D) of this section; and

(II) the producers shall be eligible for payments under this paragraph with respect to such acreage, subject to the compliance of the producers with clause (ii).

(ii) Minimum planting requirement

To be eligible for payments under clause (i), except as provided in clauses (iv) and (v), the producers on a farm must actually plant rice for harvest on at least 50 percent of the maximum payment acres for rice for the farm.

(iii) Deficiency payments

Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for rice for the farm to conservation uses (or other uses as provided in subparagraph (E)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to rice and eligible for payments under this subparagraph for the crop at a per-hundredweight rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which rice producers may agree to participate in the program for the crop.

(iv) Quarantines

If a State or local agency has imposed in an area of a State or county a quarantine on the planting of rice for harvest on farms in the area, the State committee established under section 590h(b) of title 16 may recommend to the Secretary that payments be made under this paragraph, without regard to the requirement imposed under clause (ii), to producers in the area who were required to forgo the planting of rice for harvest on acreage to alleviate or eliminate the condition requiring the quarantine. If the Secretary deter-

mines that the condition exists, the Secretary may make payments under this paragraph to the producers. To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)).

(v) Prevented planting and reduced yields

(I) 1991 through 1993 crops

In the case of each of the 1991 through 1993 crops of rice, if an acreage limitation program under subsection (e) of this section is in effect for any crop of rice and if the Secretary determines that producers on a farm are prevented from planting the acreage intended for rice to rice because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make available to such producers payments under this subparagraph without regard to the requirement imposed under clause (ii). To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)). Any such acreage shall be considered to be planted to rice.

(II) 1994 through 1997 crops

In the case of each of the 1994 through 1997 crops of rice, producers on a farm shall be eligible to receive deficiency payments as provided in clause (iii) without regard to clause (ii) if an acreage limitation program under subsection (e) of this section is in effect for the crop and—

(aa) the producers have been determined by the Secretary (in accordance with section 1463(c) of this title) to be prevented from planting the crop or have incurred a reduced yield for the crop (due to a natural disaster) and the producers elect to devote a portion of the maximum payment acres for rice (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the rice acreage, to conservation uses; or

(bb) the producers elect to devote a portion of the maximum payment acres for rice (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the rice acreage, to alternative crops as provided in subparagraph (E).

(vi) Crop acreage and payment yield

The rice crop acreage base and rice farm program payment yield of the farm shall not be reduced due to the fact that a portion of the permitted rice acreage of the farm was devoted to conserving uses (except as provided in subparagraph (E)) under this subparagraph.

(vii) Limitation

Other than as provided in clauses (i) through (vi), payments may not be made under this paragraph for any crop on a

greater acreage than the acreage actually planted to rice.

(viii) Conservation use acreage under other programs

Any acreage considered to be planted to rice in accordance with clauses (i) and (vi) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

(E) Alternative crops

(i) Industrial and other crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sweet sorghum, guar, castor beans, plantago ovato, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

(I) the production is not likely to increase the cost of the price support program; and

(II) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

(ii) Sesame and crambe

The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame and crambe. In implementing this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 1446f of this title, the Secretary shall provide that, in order to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 1446f of this title for the crop of sesame or crambe produced on the farm.

(2) Crop insurance requirement

A producer shall obtain catastrophic risk protection insurance coverage in accordance with section 1433f of this title.

(d) Payment yields

The farm program payment yields for farms for each crop of rice shall be determined under subchapter IV of this chapter.

(e) Acreage reduction programs

(1) In general

(A) Establishment

Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of rice, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of rice an acreage limitation program as described in paragraph (2).

(B) Agricultural resources conservation program

In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

(C) Announcements

(i) Preliminary announcement

If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall make a preliminary announcement of any such program not later than December 1 of the calendar year preceding the year in which the crop is harvested (or, for the 1992 crop, as soon as practicable after December 13, 1991). The preliminary announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the rice crop acreage base described in paragraph (2)(A).

(ii) Final announcement

Not later than January 31 of the calendar year in which the crop is harvested, the Secretary shall make a final announcement of the program. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the rice crop described in paragraph (2)(A).

(D) Carry-over

The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of rice in a manner that will result in carry-over stocks equal to 16.5 to 20 percent of the simple average of the total disappearance of rice for each of the 3 marketing years preceding the year for which the announcement is made. For the purpose of this subparagraph, the term "total disappearance" means all rice utilization, including total domestic, total export, and total residual disappearance.

(2) Acreage limitation program**(A) Percentage reductions**

Except as provided in paragraph (3), if a rice acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (from 0 to 35 percent) to the rice crop acreage base for the crop for each rice-producing farm.

(B) Compliance

Except as provided in section 1464 of this title, producers who knowingly produce rice in excess of the permitted rice acreage for the farm, as established in accordance with subparagraph (A), shall be ineligible for rice loans, purchases, and payments with respect to that farm.

(C) Crop acreage bases

Rice crop acreage bases for each crop of rice shall be determined under subchapter IV of this chapter.

(D) Acreage devoted to conservation uses

A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the rice crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is hereafter in this subsection referred to as “reduced acreage”. The remaining acreage is hereafter in this subsection referred to as “permitted acreage”. Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 1464 of this title.

(E) Individual farm program acreage

Except as otherwise provided in subsection (c) of this section, the individual farm program acreage shall be the acreage planted on the farm to rice for harvest within the permitted rice acreage for the farm as established under this paragraph.

(F) Planting designated crops on reduced acreage**(i) “Designated crop” defined**

As used in this subparagraph, the term “designated crop” means a crop defined in section 1464(b)(1) of this title, excluding any program crop as defined in section 1462(3) of this title.

(ii) In general

Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

(iii) Limitations

If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) of this section shall be reduced, for each acre (or portion thereof) that is planted

to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

(3) Targeted option payments**(A) In general**

Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of rice and announces an acreage limitation percentage of 20 percent or less, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(D) of this section for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

(B) Payment options

If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of rice under an acreage limitation program in accordance with this paragraph.

(C) Increased acreage limitation option**(i) Increase in established price**

If the Secretary elects to carry out this paragraph, a producer shall be eligible to receive an increase in the established price for rice under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers’ rice acreage base above the acreage limitation percentage announced by the Secretary.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for rice by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers’ rice acreage base.

(iii) Limitation

The acreage limitation percentage to be applied to the producers’ rice acreage base

shall not be increased by more than 5 percentage points above the acreage limitation percentage announced by the Secretary.

(iv) Adjustment for underplantings

In determining the increased acreage limitation percentage that is applied to the producer's rice acreage base under this paragraph, the Secretary shall exclude an amount of acreage equal to the average difference between the producer's permitted rice acreage and the acreage actually planted (including acreage devoted to conserving uses under subsection (c)(1)(D) of this section) to rice for harvest during the previous 2 years.

(D) Decreased acreage limitation option

(i) Decrease in acreage limitation requirement

If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers' rice acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for rice under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for rice by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers' rice acreage base.

(iii) Limitation

A producer may not choose to decrease the acreage limitation percentage applicable to the producers' rice acreage base under this paragraph by more than one-half of the announced acreage limitation percentage.

(E) Participation and production effects

Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary's determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(4) Administration

(A) Protection from weeds and erosion

The regulations issued by the Secretary under paragraph (2) with respect to acreage

required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

(B) Annual or perennial cover

(i) Required

(I) In general

Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of rice under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of rice, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

(II) Arid areas

Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 590h(b) of title 16 may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

(III) Approval of cover crops and practices

The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.

(ii) Multiyear program

(I) Cost-share assistance

If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is re-

quired to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

(II) Agreement of producer

If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with respect to the cover, the producer, under such terms and conditions as may be prescribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle G of title XII of the Food Security Act of 1985 [16 U.S.C. 3861 et seq.], shall agree to maintain the perennial cover for a minimum of 3 years.

(iii) Conserving crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

(C) Haying and grazing

(i) In general

Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(D) of this section, and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 590h(b) of title 16 for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

(ii) Natural disasters

In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

(D) Water storage uses

(i) In general

The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses,

but not to exceed 5 years subsequent to its conversion to water storage uses.

(ii) Limitations

Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

(5) Land diversion program

(A) In general

The Secretary may make land diversion payments to producers of rice, whether or not an acreage limitation program for rice is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of rice to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

(B) Amounts

The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

(C) Limitation on diverted acreage

The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

(6) Conservation practices

(A) Wildlife food plots or habitat

The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

(B) Public access

The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, sub-

ject to applicable State and Federal regulations.

(7) Participation agreements

(A) In general

Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

(B) Modification or termination

The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of rice.

(f) Inventory reduction payments

(1) In general

The Secretary may, for each of the 1991 through 1995 crops of rice, make payments available to producers who meet the requirements of this subsection.

(2) Form

The payments may be made in the form of marketing certificates.

(3) Payments

(A) In general

Payments under this subsection shall be determined in the same manner as provided in subsection (b) of this section.

(B) Quantity of rice made available

The quantity of rice to be made available to a producer under this subsection shall be equal in value to the payments so determined under this subsection.

(4) Eligibility

A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

(A) agrees to forgo obtaining a loan or purchase agreement under subsection (a) of this section;

(B) agrees to forgo receiving payments under subsection (c) of this section;

(C) does not plant rice for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (e) of this section; and

(D) otherwise complies with this section.

(g) Equitable relief

(1) Loans and payments

If the failure of a producer to comply fully with the terms and conditions of the program

conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

(2) Deadlines and program requirements

The Secretary may authorize the county and State committees established under section 590h(b) of title 16 to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of the program.

(h) Regulations

The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

(i) Commodity Credit Corporation

The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(j) Assignment of payments

The provisions of section 590h(g) of title 16 (relating to assignment of payments) shall apply to payments under this section.

(k) Sharing of payments

The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

(l) Tenants and sharecroppers

The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(m) Cross-compliance

(1) In general

Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

(2) Compliance on other farms

The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the rice program with respect to any other farm operated by the producers.

(n) Crops

Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of rice.

EFFECTIVE DATE OF 1981 AMENDMENT

Amendment by Pub. L. 9798 effective Dec. 22, 1981, see section 1801 of Pub. L. 9798, set out as an Effective Date note under section 4301 of this title.

§1442. Price support and acreage requirements for corn and other feed grains

(a) Conditions of eligibility

Notwithstanding any other provision of law, whenever base acreages are in effect for corn, the Secretary shall require, as a condition of eligibility for price support on corn, that the producer (1) devote an acreage of cropland (tilled in normal rotation), at the option of the producer, to either the acreage reserve program for corn or the conservation reserve program, equal to 15 per centum of such producer's farm base acreage for corn, and (2) not exceed such farm base acreage for corn: *Provided*, That price support may be made available to any producer who does not meet the foregoing requirements at such level, not in excess of the level of price support to producers who meet such requirements, as the Secretary determines will facilitate the effective operation of the price support program. Corn acreage allotments shall not be effective for the 1956 crop.

(b) Referendum of producers of corn

Not later than December 15, 1956, the Secretary shall conduct a referendum of producers of corn in 1956 in the commercial corn-producing area to determine whether such producers favor a price-support program as provided in subsection (c) of this section for the 1957 and subsequent crops in lieu of acreage allotments as provided in the Agricultural Adjustment Act of 1938, as amended [7 U.S.C. 1281 et seq.], and price support as provided in section 1441 of this title.

(c) Restriction on acreage allotment of corn; price support level

Notwithstanding any other provision of law, if two-thirds or more of the producers voting in the referendum conducted pursuant to subsection (b) of this section favor a price-support program as provided in this subsection, no acreage allotment of corn shall be established for the commercial corn-producing area for any county, or for any farm, with respect to the 1957 and subsequent crops, and price support made available for such crops by Commodity Credit Corporation shall be at such level as the Secretary determines will assist producers in marketing corn in the normal channels of trade but not encourage the uneconomic production of corn.

(d) Price support level for 1956 and 1957 crops of grain sorghums, barley, rye, oats, and corn

Notwithstanding any other provision of law, (1) the level of price support for the 1956 crop of grain sorghums, barley, rye, and oats, respectively, shall be 76 per centum of the parity price for the commodity as of May 1, 1956, (2) the level of price support for corn produced outside the

commercial corn-producing area, for any crop for which base acreages are in effect (except as provided in (3) below), shall be 82½ per centum of the level of price support for corn in the commercial corn-producing area to producers complying with acreage limitations, and (3) if price support is made available for the 1957 crop of corn in the commercial corn-producing area to producers not complying with acreage limitations, price support shall be made available for the 1957 crop of grain sorghums, barley, rye, oats, and corn produced outside the commercial corn-producing area, respectively, at a level, not less than 70 per centum of the parity price as of the beginning of the marketing year, determined by the Secretary to be fair and reasonable in relation to the level at which price support is made available for corn in the commercial corn-producing area to producers not complying with acreage limitations, taking into consideration the normal price relationships between such commodity and corn in the commercial area, the feed value of such commodity in relation to corn, the supply of such commodity in relation to the demand therefor, and the ability to dispose of stocks of such commodity acquired through price support programs.

§1443. Omitted

CODIFICATION

Section, act Oct. 31, 1949, ch. 792, title I, §102, as added Aug. 28, 1958, Pub. L. 85835, title I, §101, 72 Stat. 988, related to acreage allotment and price support levels for the 1959 and 1960 crops of upland cotton.

§1444. Cotton price support levels

(a) Basic support levels for 1961 and subsequent years

Notwithstanding the provisions of section 1441 of this title, price support to cooperators for each crop of upland cotton, beginning with the 1961 crop, for which producers have not disapproved marketing quotas shall be at such level not more than 90 per centum of the parity price therefor nor less than the minimum level prescribed below as the Secretary determines appropriate after consideration of the factors

specified in section 1421(b) of this title. For the 1961 crop the minimum level shall be 70 per centum of the parity price therefor, and for each subsequent crop the minimum level shall be 65 per centum of the parity price therefor: *Provided*, That the price support for the 1965 crop shall be a national average support price which reflects 30 cents per pound for Middling one-inch cotton. Price support in the case of noncooperators and in case marketing quotas are disapproved shall be as provided in section 1441(d)(3) and (5) of this title.

(b) Additional support levels for 1964 and 1965

If producers have not disapproved marketing quotas, the Secretary shall provide additional price support on the 1964 and 1965 crops of upland cotton to cooperators on whose farms the acreage planted to upland cotton for harvest does not exceed the farm domestic allotment established under section 1350 of this title. Such additional support shall be at a level up to 15 per centum in excess of the basic level of support established under subsection (a) of this section and shall be provided on the normal yield of the acreage planted for harvest within the farm domestic allotment. For purposes of this subsection, an acreage on the farm which the Secretary finds was not planted to cotton in 1965 because of flood, drought, or other natural disaster shall be deemed by the Secretary to be an actual acreage of cotton planted on the farm for harvest, provided such acreage is not subsequently devoted to any price supported crop for 1965.

(c) Alternative operations for carrying out additional price support; payment-in-kind certificates: value, marketing assistance, redemption, and deductions after thirty day period

In order to keep upland cotton to the maximum extent practicable in the normal channels of trade, any additional price support under subsection (b) of this section may be carried out through the simultaneous purchase of cotton at the support price therefor under subsection (b) of this section and the sale of such cotton at the support price therefor under subsection (a) of this section or similar operations, including loans under which the cotton would be redeemable by payment of the amount for which the cotton would be redeemable if the loan thereon had been made at the support price for such cotton under subsection (a) of this section, or payments-in-kind through the issuance of certificates which the Commodity Credit Corporation shall redeem for cotton under regulations issued by the Secretary. If such additional support is provided through the issuance of payment-in-kind certificates, such certificates shall have a value per pound of cotton equal to the difference between the level of support established under subsection (a) of this section and the level of support established under subsection (b) of this section. The corporation may, under regulations prescribed by the Secretary, assist the producers and persons receiving payment-in-kind certificates under this section and section 1348 of this title, in the marketing of such certificates at such time and in such manner as the Secretary determines will best effectuate the purposes of the program authorized by this section and such section 1348. In the case of any certificate not

presented for redemption within thirty days of the date of its issuance, reasonable costs of storage and other carrying charges as determined by the Secretary for the period beginning thirty days after its issuance and ending with the date of its presentation for redemption shall be deducted from the value of the certificate.

(d) Price support and diversion payments for 1966 through 1970 crops

(1) Notwithstanding any other provision of this Act, if producers have not disapproved marketing quotas, price support and diversion payments shall be made available for the 1966 through 1970 crops of upland cotton as provided in this subsection.

(2) Price support for each such crop of upland cotton shall be made available to cooperators through loans at such level, not exceeding a level which will reflect for Middling one-inch upland cotton at average location in the United States 90 per centum of the estimated average world market price for Middling one-inch upland cotton for the marketing year for such crop, as the Secretary determines will provide orderly marketing of cotton during the harvest season and will retain an adequate share of the world market for cotton produced in the United States taking into consideration the factors specified in section 1421(b) of this title: *Provided*, That the national average loan rate for the 1966 crop shall reflect 21 cents per pound for Middling one-inch upland cotton.

(3) The Secretary also shall provide additional price support for each such crop through payments in cash or in kind to cooperators at a rate not less than 9 cents per pound: *Provided*, That the rate shall be such that the amount obtained by—

- (i) multiplying the rate by the farm domestic acreage allotment percentage, and
- (ii) dividing the product thus obtained by the cooperator percentage established under section 1428(b) of this title, and
- (iii) adding the result thus obtained to the national average loan rate

shall not be less than 65 per centum or more than 90 per centum of the parity price for cotton as of the month in which the payment rate provided for by this paragraph is announced. Such payments shall be made on the quantity of cotton determined by multiplying the projected farm yield by the acreage planted to cotton within the farm domestic acreage allotment: *Provided*, That any such farm planting not less than 90 per centum of such domestic acreage allotment shall be deemed to have planted the entire amount of such allotment. An acreage on a farm in any such year which the Secretary finds was not planted to cotton because of drought, flood, or other natural disaster shall be deemed to be planted to cotton for purposes of payments under this subsection if such acreage is not subsequently devoted to any other crop for which there are marketing quotas or voluntary adjustment programs in effect.

(4) The Secretary shall make diversion payments in cash or in kind in addition to the price support payments authorized in paragraph (3) to cooperators who reduce their cotton acreage by diverting a portion of their cotton acreage allot-

ment from the production of cotton to approved conservation practices to the extent prescribed by the Secretary: *Provided*, That no reduction below the domestic acreage allotments established under section 1350 of this title shall be prescribed: *Provided further*, That payment under this paragraph shall be made available for diverting to conserving uses that part of the acreage allotment which must be diverted from cotton in order that the producer may qualify as a cooperator. The rate of payment for acreage required to be diverted in order to qualify as a cooperator shall not be less than 25 per centum of the parity price for upland cotton as of the month in which such rate is announced. The rate of payment for additional acreage diverted shall be such rate as the Secretary determines to be fair and reasonable, but shall not exceed 40 per centum of such parity price. Payment at each applicable rate shall be made on the quantity of cotton determined by multiplying the acreage diverted from the production of cotton at such rate by the projected farm yield. In addition to the foregoing payment, if any, payment at the rate applicable for acreage required to be diverted to qualify as a cooperator shall be made to producers on small farms as defined in section 1428(b) of this title who do not exceed their farm acreage allotments on a quantity of cotton determined by multiplying an acreage equal to 35 per centum of such farm acreage allotment by the projected farm yield.

(5) The Secretary may make not to exceed 50 per centum of the payments under this subsection to producers in advance of determination of performance and the balance of such payments shall be made at such time as the Secretary may prescribe.

(6) Where the farm operator elects to participate in the diversion program authorized in this subsection and no acreage is planted to cotton on the farm, diversion payments shall be made at the rate established under paragraph (4) for acreage required to be diverted to qualify as a cooperator on the quantity of cotton determined by multiplying that part of the farm acreage allotment required to be diverted to qualify as a cooperator by the projected farm yield, and the remainder of such allotment may be released under the provisions of section 1344(m)(2) of this title. The acreage on which payment is made under this paragraph shall be regarded as planted to cotton for purposes of establishing future State, county, and farm acreage allotments, and farm bases.

(7) Payments in kind under this subsection shall be made through the issuance of certificates which the Commodity Credit Corporation shall redeem for cotton under regulations issued by the Secretary at a value per pound equal to not less than the current loan rate therefor. The Corporation may, under regulations prescribed by the Secretary, assist the producers in the marketing of such certificates at such times and in such manner as the Secretary determines will best effectuate the purposes of the program authorized by this subsection.

(8) Payments under this subsection shall be conditioned on the farm having an acreage of approved conservation uses equal to the sum of (i) the reduction in cotton acreage required to

qualify for such payments (hereinafter called "diverted acreage"), and (ii) the average acreage of cropland on the farm devoted to designated soil-conserving crops or practices, including summer fallow and idle land, during a base period prescribed by the Secretary: *Provided*, That the Secretary may permit all or any part of such diverted acreage to be devoted to the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, and flaxseed, if he determines that such production is necessary to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not adversely affect farm income, subject to the condition that payment under paragraph (4) or (6) with respect to diverted acreage devoted to any such crop shall be at a rate determined by the Secretary to be fair and reasonable, taking into consideration the use of such acreage for the production of such crops, but in no event shall the payment exceed one-half the rate which otherwise would be applicable if such acreage were devoted to conservation uses.

(9) The acreage regarded as planted to cotton on any farm which qualifies for payment under this subsection except under paragraph (6) shall, for purposes of establishing future State, county, and farm acreage allotments and farm bases, be the farm acreage allotment established under section 1344 of this title, excluding adjustments under subsection (m)(2) thereof.

(10) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers, including provision for sharing diversion payments on a fair and equitable basis under this subsection. The Secretary shall provide for the sharing of price support payments among producers on the farm on the basis of their respective shares in the cotton crop produced on the farm, or the proceeds therefrom, except that in any case in which the Secretary determines that such basis would not be fair and equitable, the Secretary shall provide for such sharing on such other basis as he may determine to be fair and equitable.

(11) In any case in which the failure of a producer to comply fully with the terms and conditions of the programs formulated under this Act preclude the making of payments under this section, the Secretary may, nevertheless, make such payments in such amounts as he determines to be equitable in relation to the seriousness of the default.

(12) Notwithstanding any other provision of this Act, if, as a result of limitations hereafter enacted with respect to price support under this subsection, the Secretary is unable to make available to all cooperators the full amount of price support to which they would otherwise be entitled under paragraphs (2) and (3) of this subsection for any crop of upland cotton, (A) price support to cooperators shall be made available for such crop (if marketing quotas have not been disapproved) through loans or purchases at such level not less than 65 per centum nor more than 90 per centum of the parity price therefor as the Secretary determines appropriate; (B) in order to keep upland cotton to the maximum extent practicable in the normal channels of trade, such price support may be carried out through

the simultaneous purchase of cotton at the support price therefor and resale at a lower price or through loans under which the cotton would be redeemable by payment of a price therefor lower than the amount of the loan thereon; and (C) such resale or redemption price shall be such as the Secretary determines will provide orderly marketing of cotton during the harvest season and will retain an adequate share of the world market for cotton produced in the United States.

(13) The provisions of section 590h(g) of title 16 (relating to assignment of payments), shall also apply to payments under this subsection.

(14) The Commodity Credit Corporation is authorized to utilize its capital funds and other assets for the purpose of making the payments authorized in this subsection and to pay administrative expenses necessary in carrying out this subsection.

(e) Price support, diversion, and cropland set-aside program for crops beginning with 1971 crop

(1) The Secretary shall upon presentation of warehouse receipts reflecting accrued storage charges of not more than 60 days make available for the 1971 through 1977 crops of upland cotton to cooperators nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at such level as will reflect the Middling one-inch upland cotton (micronaire 3.5 through 4.9) at average location in the United States 90 per centum of the average price of American cotton in world markets for such cotton for the three-year period ending July 31 in the year in which the loan level is announced, except that if the loan rate so calculated is higher than the then current level of average world prices for American cotton of such quality, the Secretary is authorized to adjust the current calculated loan rate for cotton to 90 per centum of the then current average world price. The average world price for such cotton for such preceding three-year period shall be determined by the Secretary annually pursuant to a published regulation which shall specify the procedures and the factors to be used by the Secretary in making the world price determination. The loan level for any crop of upland cotton shall be determined and announced not later than November 1 of the calendar year preceding the marketing year for which such loan is to be effective. Notwithstanding the foregoing, if the carryover of upland cotton as of the beginning of the marketing year for any of the 1972 or 1973 crops exceeds 7.2 million bales, producers on any farm harvesting cotton of such crop from an acreage in excess of the base acreage allotment for such farm shall be entitled to loans and purchases only on an amount of the cotton of such crop produced on such farm determined by multiplying the yield used in computing payments for such farm by the base acreage allotment for such farm.

(2) Payments shall be made for each crop of cotton to the producers on each farm at a rate equal to the amount by which the higher of—

(1) the average market price received by farmers for upland cotton during the calendar year which includes the first five months of

the marketing year for such crop, as determined by the Secretary, or

(2) the loan level determined under paragraph (1) for such crop

is less than the established price of 38 cents per pound in the case of the 1974 and 1975 crops, 38 cents per pound adjusted to reflect any change during the calendar year 1975 in the index of prices paid by farmers for production items, interest, taxes, and wage rates in the case of the 1976 crop, and the established price for the 1976 crop adjusted to reflect any change during the calendar year 1976 in such index in the case of the 1977 crop: *Provided*, That any increase that would otherwise be made in the established price to reflect a change in the index of prices paid by farmers shall be adjusted to reflect any change in (i) the national average yield per acre of cotton for the three calendar years preceding the year for which the determination is made, over (ii) the national average yield per acre of cotton for the three calendar years preceding the year previous to the one for which the determination is made. If the Secretary determines that the producers on a farm are prevented from planting any portion of the allotment to cotton because of drought, flood, or other natural disaster, or condition beyond the control of the producer, the rate of payment for such portion shall be the larger of (A) the foregoing rate, or (B) one-third of the established price. If the Secretary determines that, because of such a disaster or condition, the total quantity of cotton which the producers are able to harvest on any farm is less than 66⅔ percent of the farm base acreage allotment times the average yield established for the farm, the rate of payment for the deficiency in production below 100 percent shall be the larger of (A) the foregoing rate, or (B) one-third of the established price. The payment rate with respect to any producer who (i) is on a small farm (that is, a farm on which the base acreage allotment is ten acres or less, or on which the yield used in making payments times the farm base acreage allotment is five thousand pounds or less, and for which the base acreage allotment has not been reduced under section 1350(f) of this title, (ii) resides on such farm, and (iii) derives his principal income from cotton produced on such farm, shall be increased by 30 per centum; but, notwithstanding paragraph (3), such increase shall be made only with respect to his share of cotton actually harvested on such farm within the quantity specified in paragraph (3).

(3) Such payments shall be made available for a farm on the quantity of upland cotton determined by multiplying the acreage planted within the farm base acreage allotment for the farm for the crop by the average yield established for the farm: *Provided*, That payments shall be made on any farm planting not less than 90 per centum of the farm base acreage allotment on the basis of the entire amount of such allotment. For purposes of this paragraph, an acreage on the farm which the Secretary determines was not planted to cotton because of drought, flood, other natural disaster, or a condition beyond the control of the producer shall be considered to be an acreage planted to cotton. The average yield for the farm for any year shall be determined on

the basis of the actual yields per harvested acre for the three preceding years, except that the 1970 farm projected yield shall be substituted in lieu of the actual yields for the years 1968 and 1969: *Provided*, That the actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, or other natural disaster: *Provided further*, That the average yield established for the farm for any year shall not be less than the yield used in making payments for the preceding year if the total cotton production on the farm in such preceding year is not less than the yield used in making payments for the farm for such preceding year times the farm base acreage allotment for such preceding year (for the 1970 crop, the farm domestic allotment).

(4)(A) The Secretary shall provide for a set aside of cropland if he determines that the total supply of agricultural commodities will, in the absence of such a set-aside, likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. If a set-aside of cropland is in effect under this paragraph (4), then as a condition of eligibility for loans and payments on upland cotton the producers on a farm must set aside and devote to approved conservation uses an acreage of cropland equal to (i) such percentage of the farm base acreage allotment for the farm as may be specified by the Secretary (not to exceed 28 per centum of the farm base acreage allotment), plus, if required by the Secretary, (ii) the acreage of cropland on the farm devoted in preceding years to soil conserving uses, as determined by the Secretary. The Secretary is authorized for the 1974 through 1977 crops to limit the acreage planted to upland cotton on the farm in excess of the farm base acreage allotment to a percentage of the farm base acreage allotment. The Secretary shall permit producers to plant and graze on set-aside acreage sweet sorghum, and the Secretary may permit, subject to such terms and conditions as he may prescribe, all or any of the set-aside acreage to be devoted to hay and grazing or the production of guar, sesame, safflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, oats, rye, or other commodity, if he determines that such production is needed to provide an adequate supply, is not likely to increase the cost of the price-support program, and will not adversely affect farm income.

(B) To assist in adjusting the acreage of commodities to desirable goals, the Secretary may make land diversion payments, in addition to the payments authorized in subsection (e)(2) of this section, to producers on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in addition to that required to be so devoted under subsection (e)(4)(A) of this section. The land diversion payments for a farm shall be at such rate or rates as the Secretary determines to be fair and reasonable taking into consideration to the diversion undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to ad-

versely affect the economy of the county or local community.

(5) The upland cotton program formulated under this section shall require the producer to take such measures as the Secretary may deem appropriate to protect the set-aside acreage and the additional diverted acreage from erosion, insects, weeds, and rodents. Such acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may in the case of programs for the 1974 through 1977 crops, pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentences. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm as the Secretary may prescribe by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

(6) If the operator of the farm desires to participate in the program formulated under this section, he shall file his agreement to do so no later than such date as the Secretary may prescribe. Loans and purchases on upland cotton and payments under this section shall be made available to the producers on such farm only if producers set aside and devote to approved soil conserving uses an acreage on the farm equal to the number of acres which the operator agrees to set aside and devote to approved soil conserving uses, and the agreement shall so provide. The Secretary may, by mutual agreement with the producer, terminate or modify any such agreement entered into pursuant to this subsection (e)(6) if he determines such action necessary because of an emergency created by drought or other disaster or in order to alleviate a shortage in the supply of agricultural commodities.

(7) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers, including provision for sharing on a fair and equitable basis, in payments under this section.

(8) In any case in which the failure of a producer to comply fully with the terms and conditions of the program formulated under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as he determines to be equitable in relation to the seriousness of the default.

(9) The Secretary is authorized to issue such regulations as he determines necessary to carry out the provisions of this subchapter.

(10) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(11) The provisions of section 590h(g) of title 16 (relating to assignment of payments), shall apply to payments under this subsection.

(f), (g) Omitted

(h) Program for extra long staple cotton beginning with 1984 crop

(1) For purposes of this subsection, extra long staple cotton means cotton which is produced

from pure strain varieties of the Barbados species or any hybrid thereof, or other similar types of extra long staple cotton, designated by the Secretary, having characteristics needed for various end uses for which American upland cotton is not suitable and grown in irrigated cotton-growing regions of the United States designated by the Secretary or other areas designated by the Secretary is suitable for the production of such varieties or types and which is ginned on a roller-type gin or, if authorized by the Secretary, ginned on another type gin for experimental purposes.

(2) The Secretary shall, upon presentation of warehouse receipts reflecting accrued storage charges of not more than sixty days, make available to producers nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at a level which is not less than 85 percent of the simple average price received by producers of extra long staple cotton, as determined by the Secretary, during 3 years of the 5-year period ending July 31 in the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period.¹ If authorized by the Secretary, nonrecourse loans provided for in this subsection may, upon request of the producer during the tenth month of the loan period for the cotton, be made available for an additional term of eight months. The loan level for any crop of extra long staple cotton shall be determined and announced by the Secretary not later than December 1 of the calendar year preceding the marketing year for which such loan is to be effective and such level shall not thereafter be changed.

(3)(A) In addition, payments shall be made for each crop of extra long staple cotton to producers on each farm at a rate equal to the amount by which the higher of—

- (i) the average market price received by farmers for extra long staple cotton during the first eight months of the marketing year for such crop, as determined by the Secretary, or
- (ii) the loan level determined under paragraph (2) of this subsection for such crop,

is less than the established price per pound times, in each case, the farm program acreage for extra long staple cotton (determined in accordance with paragraph (5)(A), but in no event on a greater acreage than the acreage actually planted to extra long staple cotton for harvest), multiplied by the farm program payment yield for extra long staple cotton (determined in accordance with paragraph (4)).

(B) The established price for each crop of extra long staple cotton shall be 120 per centum of the loan level determined for such crop under paragraph (2) of this subsection.

(C) If the Secretary establishes an acreage limitation program for a crop of extra long staple cotton in accordance with paragraph (5)(A) and determines that deficiency payments will likely be made for such crop of extra long staple cotton under subparagraph (A) of this paragraph, the Secretary may make available ad-

vance deficiency payments for such crop to producers who agree to participate in the acreage limitation program. Such advance payments shall be made available to producers as soon as practicable after the producer files a notice of intention to participate in such acreage limitation program and in such amount as the Secretary determines appropriate to encourage adequate participation in such program, except that such amount shall not exceed an amount determined by multiplying (i) the estimated farm program acreage for the crop, by (ii) the farm program payment yield for the crop, by (iii) 50 per centum of the projected payment rate, as determined by the Secretary. In any case in which the deficiency payment payable to a producer for a crop, as finally determined by the Secretary under subparagraph (A) of this paragraph, is less than the amount paid to the producer as an advance deficiency payment under this paragraph, the producer shall refund an amount equal to the difference between the amount advanced and the amount finally determined by the Secretary to be payable to the producer. If the Secretary determines that no deficiency payments are due producers on a crop, the producer who received advanced payments on such crop shall refund such payments. If a producer fails to comply with the requirements under the acreage limitation program after obtaining an advance deficiency payment under this paragraph, the producer shall immediately repay the amount of the advance, plus interest thereon in such amount as the Secretary shall prescribe.

(4) The farm program payment yield for each crop of extra long staple cotton shall be determined on the basis of the actual yields per harvested acre on the farm for the preceding three years, except that the actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, or other natural disaster, or other condition beyond the control of the producers. In case farm yield data for one or more years are unavailable or there was no production, the Secretary shall provide for appraisals to be made on the basis of actual yields and program payment yields for similar farms in the area for which data are available. Notwithstanding the foregoing provisions of this paragraph in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this paragraph. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

(5)(A)(i) Notwithstanding any other provision of this subsection, the Secretary may establish a limitation on the acreage planted to extra

¹So in original.

long staple cotton if the Secretary determines that the total supply of extra long staple cotton, in the absence of such limitation, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable prices and to meet a national emergency. Such limitation shall be achieved by applying a uniform percentage reduction (including a zero percentage reduction) to the acreage base for each extra long staple cotton-producing farm. Producers who knowingly produce extra long staple cotton in excess of the permitted acreage for the farm shall be ineligible for extra long staple cotton loans and payments with respect to that farm. The acreage base for any farm for the purpose of determining any reduction required to be made for any year as a result of a limitation under this subparagraph shall be the average acreage planted on the farm to extra long staple cotton for harvest in the three crop years immediately preceding the year prior to the year for which the determination is made. For the purpose of the preceding sentence, acreage planted to extra long staple cotton for harvest shall include any acreage which the producers were prevented from planting to extra long staple cotton or other nonconserving crops in lieu of extra long staple cotton because of drought, flood, or other natural disaster or other condition beyond the control of the producers. The Secretary may make adjustments to reflect established crop-rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable base. There is hereby established for the 1984, 1985, and 1986 crops an acreage base reserve equal to 5 per centum of the total of the farm acreage bases established for the crop under the foregoing provisions of this subparagraph. Such reserve shall be in addition to the total of the farm acreage bases and shall be used by the county committees, in accordance with regulations of the Secretary, for making adjustments of farm acreage bases to correct inequities and prevent hardship, and for establishing bases for farms on which no extra long staple cotton was planted during the preceding four years. A number of acres on the farm determined by dividing (i) the product obtained by multiplying the number of acres required to be withdrawn from the production of extra long staple cotton times the number of acres actually planted to such commodity, by (ii) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary, shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, which will assure protection of such acreage from weeds and wind and water erosion. The number of acres so determined is hereafter in this subsection referred to as "reduced acreage". The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the reduced acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely

to increase the cost of the price support program, and will not affect farm income adversely. The individual farm program acreage shall be the actual acreage planted on the farm to extra long staple cotton for harvest within the permitted extra long staple cotton acreage for the farm as established under this paragraph.

(ii) Notwithstanding any other provision of this Act, the Secretary shall ensure, under such terms and conditions as may be prescribed by the Secretary, that the total of the crop acreage bases established on a farm which is enrolled in a production adjustment program for any commodity shall not be increased as a result of the application of the provisions set forth in paragraph (13)(C), as extended for the 1989 and 1990 crop.

(B) The Secretary may make land diversion payments to producers of extra long staple cotton, whether or not an acreage limitation program for extra long staple cotton is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of extra long staple cotton to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

(C) The reduced acreage and the diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purpose of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

(6) An operator of a farm desiring to participate in the program conducted under paragraph (5) shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary may, by mutual agreement with the producers on the farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency

created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

(7) The Secretary shall provide for the sharing of payments made under this subsection for any farm among the producers on the farm on a fair and equitable basis.

(8) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(9) If the failure of a producer to comply fully with the terms and conditions of the program formulated under this subsection precludes the making of loans and payments, the Secretary may, nevertheless, make such loans and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 590h(b) of title 16 to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

(10) The Secretary may issue such regulations as the Secretary determines necessary to carry out the provisions of this subsection.

(11) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

(12) The provisions of section 590h(g) of title 16 (relating to assignment of payments) shall apply to payments made under this subsection.

(13)(A) Compliance on a farm with the terms and conditions of any other commodity program or compliance with crop acreage base requirements for any other commodity may not be required as a condition of eligibility for loans or payments under this section.

(B) The Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this section for the farm, to comply with the terms and conditions of the extra long staple cotton program with respect to any other farm operated by the producers.

(14) In order to encourage and assist producers in the orderly ginning and marketing of their extra long staple cotton production, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act [15 U.S.C. 714 et seq.].

(15) References made in sections 1422, 1423, 1426, 1427, and 1431 of this title to the terms "support price", "level of support", and "level of price support" shall be considered to apply as well to the level of loans for extra long staple cotton under this subsection; and references to the terms "price support", "price support operations", and "price support program" in such sections and in section 1421(a) of this title shall be considered as applying as well to the loan operations for extra long staple cotton under this subsection.

(16) Notwithstanding any other provision of law, this subsection shall not be applicable to the 1996 and subsequent crops of extra long staple cotton.

(ii) which read as follows: “In the case of each of the 1988 and 1989 crops of extra long staple cotton, the established price for each such crop shall be 118.3 percent of the loan level determined for such crop under paragraph (2).”

1986—Subsec. (h)(16). Pub. L. 99500, Pub. L. 99591, and Pub. L. 99641, in generally amending par. (16) identically, designated existing provisions as subpar. (A), inserted “except as provided in subparagraph (B),” and added subpars. (B) and (C).

1985—Subsec. (h)(2). Pub. L. 99198, §507(1), in first sentence substituted “85 percent or the simple average price received by producers of extra long staple cotton, as determined by the Secretary, during 3 years of the 5-year period ending July 31 in the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period.” for “50 percent in excess of the loan level established

Pub. L. 98258, §302(2), inserted sentences providing that for the 1985 crop of upland cotton, if the Secretary estimates that the quantity of upland cotton on hand in the United States on July 31, 1985 (not including any quantity of upland cotton produced in the United States during calendar year 1985), will exceed three million seven hundred thousand bales, the Secretary (i) shall provide for a land diversion [diversion] program as described under subparagraph (B) under which the acreage planted to upland cotton for harvest on the farm would be limited to the acreage base for the farm reduced by not less than 5 per centum and (ii) may provide for an acreage limitation program as described under this subparagraph under which the acreage planted to upland cotton for harvest on the farm would be limited to the acreage base for the farm reduced by not more than 20 per centum in addition to the reduction required under clause (i), that if the Secretary implements a combined acreage limitation program and land diversion [diversion] program, any reduction required by the Secretary in excess of 25 per centum of the acreage base for the farm shall be made under the land diversion program, and that, as a condition of eligibility for loans, purchases, and payments on the 1985 crop of upland cotton, if the Secretary implements a land diversion program or a combined acreage limitation and land diversion program, the producers on a farm must comply with the terms and conditions of such program.

Subsec. (g)(9)(B). Pub. L. 98258, §302(3), inserted sentences providing that if the Secretary implements a land diversion program for the 1985 crop of upland cotton under the provisions of subparagraph (A), the Secretary shall make crop retirement and conservation payments to any producer of the 1985 crop of upland cotton whose acreage planted to upland cotton for harvest on the farm is reduced so that it does not exceed the upland cotton acreage base for the farm less an amount equivalent to the percentage of the acreage base specified by the Secretary, but not less than 5 per centum, in addition to the reduction required under the acreage limitation program under subparagraph (A), if any, and who devotes to approved conservation uses an acreage of cropland equivalent to the reduction required from the upland cotton acreage base under this subparagraph, that such payments shall be made in an amount computed by multiplying (i) the diversion payment rate, by (ii) the farm program payment yield for the crop, by (iii) the acreage diverted under this subparagraph, that the diversion payment rate shall be established by the Secretary at not less than \$0.275 per pound: *Provided*, That if the Secretary estimates that the quantity of upland cotton on hand in the United States on July 31, 1985 (not including any quantity of

upland cotton produced in the United States during calendar year 1985), will exceed (I) four million one hundred thousand bales, such rate shall be established by the Secretary at not less than \$0.30 per pound, and (II) four million seven hundred thousand bales such rate shall be established by the Secretary at not less than \$0.35 per pound, that the Secretary shall make not less than 50 per centum of any payments under this subparagraph to producers of the 1985 crop as soon as practicable after a producer enters into a land diversion contract with the Secretary and in advance of any determination of performance, and that if a producer fails to comply with a land diversion contract after obtaining an advance payment under this subparagraph, the producer shall repay the advance immediately and, in accordance with regulations issued by the Secretary, pay interest on the advance.

1983—Subsec. (h). Pub. L. 9888 added subsec. (h).

Subsec. (f)(3). Pub. L. 97446 temporarily substituted provision relating to the special quota status of Tariff Schedule items 955.01 and 955.03 before a special quota established under this subsection is filled and the cotton in question is duty free, for provision that, notwithstanding any other provision of law, the foregoing provisions of this subsection with respect to extension of the loan period and to proclamation of the special quota was to become effective Oct. 1, 1977, even though the cotton might have been of a crop prior to the 1978 crop. See Effective and Termination Dates of 1983 Amendment note below.

1981—Subsec. (g). Pub. L. 9798 temporarily added subsec. (g). See Effective and Termination Dates of 1981 Amendment note below.

1980—Subsec. (f)(5)(A). Pub. L. 96365, §201(b)(1), substituted "Except as otherwise provided in subparagraph (C) of this paragraph, effective with respect to the 1978 through 1981 crops of upland cotton" for "Effective only with respect to the 1978, 1979, and 1980 crops of upland cotton".

Subsec. (f)(5)(B). Pub. L. 96365, §201(b)(2), substituted "Except as otherwise provided in subparagraph (C) of this paragraph, effective with respect to the 1978 through 1981 crops of upland cotton" for "Effective only with respect to the 1978, 1979, and 1980 crops of upland cotton".

Subsec. (f)(5)(C). Pub. L. 96365, §201(b)(3), added subpar. (C).

1978—Subsec. (f)(1). Pub. L. 95402 purported to strike out the fourth sentence of subsec. (f)(1). The enacting clause, however, stated that Pub. L. 95402 was enacted to amend subsec. (f)(1) ". . . to ensure that the interest rates on price support loans for upland cotton are not less favorable to producers than the interest rates for such loans on other commodities". Accordingly, the third sentence of subsec. (f)(1) was struck out as the probable intent of Congress because it related to interest rates while the fourth sentence related to extension of the loan period and establishment of a special limited global import quota.

Pub. L. 95279 temporarily substituted "during three years of the five-year period ending July 31" for "during the four-year period ending July 31" and inserted "excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period" in cl. (i), substituted "for the fifteen-week period beginning July 1" for "for the first two full weeks of October" in cl. (ii), and inserted proviso relating to the minimum loan level and the power of the Secretary to raise the loan level as he may deem appropriate when the average Northern European price is less than the average United States spot market price. 1973—Subsec. (e)(1). Pub. L. 9386, §1(20)(A), (B), substituted "1971 through 1977 crops of upland cotton" for "1971, 1972, and 1973 crops of upland cotton", "three-year period" for "two-year period" in two places, "except that if the loan rate so calculated is higher than the then current level of average world prices for American cotton of such quality, the Secretary is authorized to adjust the current calculated loan rate for cotton to 90 per centum of the then current average world price" for "except that to prevent the establishment of such a loan level as would adversely affect the competitive position of United States upland cotton, following one or more years of excessively high prices the Secretary shall make such adjustments as are necessary to keep United States upland cotton competitive and to retain an adequate share of the world market for such cotton", "average price of American cotton in world markets" for "acreage world price", and "any of the 1972 through 1977 crops" for "the 1972 or 1973 crop".

Subsec. (e)(2). Pub. L. 9386, §1(20)(C), substituted provisions setting out the formula for determining payments for each crop of cotton to the producers on each farm using, as elements of such formula, the average market price received by farmers for upland cotton during the calendar year which includes the first five months of the marketing year for such crop, as determined by the Secretary, the loan level determined under paragraph (1) for such crop, an established price of 38 cents per pound in the case of the 1974 and 1975 crops, adjusted prices in the case of the 1976 and 1977 crops, adjustment of increases to reflect changes in the national average yield per acre of cotton for the three calendar years preceding the year for which the determination is made over the national average yield per acre of cotton for the three calendar years preceding the year previous to the one for which the determination is made, and covering prevention of planting due to natural disasters and conditions for provisions authorizing payments by the Secretary to cooperators on the 1971, 1972, and 1973 crops of upland cotton, and struck out provisions directing preliminary payments to producers as soon as practicable after July 1 of the year in which the crop is harvested at a rate equal to 15 cents per pound.

Pub. L. 93125 substituted "prevented from planting any portion" for "prevented from planting, any portion".

Subsec. (e)(4)(A). Pub. L. 9386, §1(20)(D)(F), inserted ", if required by the Secretary," before "(ii) the acreage of cropland on the farm devoted in preceding years to soil conserving uses, as determined by the Secretary", substituted "The Secretary is authorized for the 1974 through 1977 crops to limit the acreage planted to upland cotton on the farm in excess of the farm base acreage allotment to a percentage of the farm base acreage allotment" for "If the Secretary determines prior to the planting season for such crop that the carryover of upland cotton as of the beginning of the marketing year for the 1972 or 1973 crop will exceed 7.2 million bales, the Secretary is authorized for such crop to limit the acreage planted to upland cotton on the farm in excess of the farm base acreage allotment to such percentage of the farm base acreage allotment as he determines necessary to reduce the total supply to a reasonable level", deleted provision prohibiting grazing during any of the five principal months of the normal growing season as determined by the county committee established pursuant to section 590h(b) of Title 16, and inserted provisions authorizing the raising of hay on set-aside acreage and the production of triticale, oats, and rye.

Subsec. (e)(5). Pub. L. 9386, §1(20)(G), authorized Secretary in case of programs for 1974 through 1977 crops to pay an appropriate share of cost of practices designed to protect set-aside acreage from erosion, insects, weeds, and rodents and to provide wildlife food plots or wildlife habitat.

1970—Subsec. (e). Pub. L. 91524 added subsec. (e).

1968—Subsec. (d)(1). Pub. L. 90559 provided for a one year extension, substituting "1966 through 1970" for "1966, 1967, 1968, and 1969".

1966—Subsec. (d)(3). Pub. L. 89451 substituted “crop for which there are marketing quotas or voluntary adjustment programs in effect” for “income producing crop in such year” in last sentence.

1965—Subsec. (b). Pub. L. 89112 provided that the Secretary shall deem an acreage on a farm which he finds was not planted to cotton in 1965 because of flood, drought, or other natural disaster to be an actual acreage of cotton planted on the farm for harvest when that acreage was not subsequently devoted to any price support crop in 1965.

Subsec. (d). Pub. L. 89321 added subsec. (d).

1964—Subsec. (a). Pub. L. 88297, §103(b)(1), (2), designated existing provisions as subsec. (a) and provided that the price support for the 1964 cotton crop shall be a national average support price which reflects 30 cents per pound for Middling one-inch cotton.

Subsecs. (b), (c). Pub. L. 88297, §103(b)(3), added subsecs. (b) and (c).

§14442. Loans, payments, and acreage reduction programs for 1991 through 1997 crops of upland cotton

(a) Loans

(1) In general

Except as otherwise provided in this subsection, the Secretary shall, on presentation of warehouse receipts or other acceptable evidence of title, as determined by the Secretary, reflecting accrued storage charges of not more than 60 days, make available for the 1991 through 1997 crops of upland cotton to producers on a farm nonrecourse loans for upland cotton produced on the farm for a term of 10 months from the first day of the month in which the loan is made at such loan level, per pound, as will reflect for the base quality of upland cotton, as determined by the Secretary, at average location in the United States a level that is not less than the smaller of—

(A) 85 percent of the average price (weighted by market and month) of the base quality of cotton as quoted in the designated United States spot markets during 3 years of the 5-year period ending July 31 in the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

(B) 90 percent of the average, for the 15-week period beginning July 1 of the year in which the loan level is announced, of the 5 lowest-priced growths of the growths quoted for Middling one and three-thirty-seconds inch cotton C.I.F. Northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between the average Northern European price quotation of such quality of cotton and the market quotations in the designated United States spot markets for the base quality of upland cotton), as determined by the Secretary.

(2) Adjustments to loan level

(A) Limitation on decrease in loan level

The loan level for any crop determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop, and may not be reduced below 50 cents per pound.

(B) Limitation on increase in loan level

If for any crop the average Northern European price determined under paragraph (1)(B) is less than the average United States spot market price determined under paragraph (1)(A), the Secretary may increase the loan level to such level as the Secretary may consider appropriate, not in excess of the average United States spot market price determined under paragraph (1)(A).

(3) Announcement of loan level

The loan level for any crop of upland cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which the loan is to be effective or, in the case of the 1991 crop, as soon as is practicable after November 28, 1990. The loan level shall not thereafter be changed.

(4) Extension of loan period

(A) In general

Except as provided in subparagraph (B), nonrecourse loans provided for in this section shall, on request of the producer during the 10th month of the loan period for the cotton, be made available for an additional term of 8 months.

(B) Limitation

A request to extend the loan period shall not be approved in any month in which the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for the preceding month exceeded 130 percent of the average price of such base quality of cotton in the designated United States spot markets for the preceding 36-month period.

(5) Marketing loan provisions

(A) In general

If the Secretary determines that the prevailing world market price for upland cotton (adjusted to United States quality and location) is below the loan level determined under the foregoing provisions of this subsection, in order to make United States upland cotton competitive in world markets, the Secretary shall permit a producer to repay a loan made for any crop at—

(i) a level that is the lesser of—

(I) the loan level determined for the crop; or

(II) the higher of—

(aa) the loan level determined for the crop multiplied by 70 percent; or

(bb) the prevailing world market price for upland cotton (adjusted to United States quality and location), as determined by the Secretary; or

(ii) such other level (not in excess of the loan level determined for the crop nor less than 70 percent of such loan level) that the Secretary determines will—

(I) minimize potential loan forfeitures;

(II) minimize the accumulation of cotton stocks by the Federal Government;

(III) minimize the cost incurred by the Federal Government in storing cotton; and

(IV) allow cotton produced in the United States to be marketed freely and competitively, both domestically and internationally.

(B) First handler marketing certificates

(i) In general

During the period beginning August 1, 1991, and ending July 31, 1998, if a program carried out under subparagraph (A) or subsection (b) of this section fails to make United States upland cotton fully competitive in world markets and the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary, is below the current loan repayment rate for upland cotton determined under subparagraph (A), to make United States upland cotton competitive in world markets and to maintain and expand domestic consumption and exports of upland cotton produced in the United States, the Secretary shall provide for the issuance of marketing certificates or cash payments in accordance with this subparagraph.

(ii) Payments

The Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments, through the issuance of marketing certificates or cash payments, to first handlers of cotton (persons regularly engaged in buying or selling upland cotton) who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this subparagraph. The payments shall be made in

such monetary amounts and subject to such terms and conditions as the Secretary determines will make upland cotton produced in the United States available at competitive prices, consistent with the purposes of this subparagraph.

(iii) Value

The value of each certificate or cash payment issued under clause (ii) shall be based on the difference between—

(I) the loan repayment rate for upland cotton; and

(II) the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary.

(iv) Redemption, marketing, or exchange

The Commodity Credit Corporation, under regulations prescribed by the Secretary, may assist any person receiving marketing certificates under this subparagraph in the redemption of certificates for cash, or marketing or exchange of the certificates for agricultural commodities or products owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this subparagraph. Any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subparagraph.

(v) Designation of commodities and products; charges

Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, the owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of the certificate (as determined by the Secretary), reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after the reasonable number of days and ending with the date of the presentation of the certificate to the Commodity Credit Corporation.

(vi) Displacement

The Secretary shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and products for certificates under this subsection from adversely affecting the income of producers of the commodities or products.

(vii) Transfers

Under regulations prescribed by the Secretary, certificates issued to cotton handlers under this subparagraph may be transferred to other handlers and persons approved by the Secretary.

(C) Prevailing world market price

(i) In general

The Secretary shall prescribe by regulation—

(I) a formula to define the prevailing world market price for upland cotton (adjusted to United States quality and location); and

(II) a mechanism by which the Secretary shall announce periodically the prevailing world market price for upland cotton (adjusted to United States quality and location).

(ii) Use

The prevailing world market price for upland cotton (adjusted to United States quality and location) established under this subparagraph shall be used under subparagraphs (A), (B), and (E).

(D) Adjustment of prevailing world market price

(i) In general

During the period beginning August 1, 1991, and ending July 31, 1998, the prevailing world market price for upland cotton (adjusted to United States quality and location) established under subparagraph (C) shall be further adjusted if—

(I) the adjusted prevailing world market price is less than 115 percent of the current crop year loan level for the base quality of upland cotton, as determined by the Secretary; and

(II) the Friday through Thursday average price quotation for the lowest-priced United States growth as quoted for Middling (M) one and three-thirty seconds inch cotton delivered C.I.F. Northern Europe is greater than the Friday through Thursday average price of the five lowest-priced growths of upland cotton, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe (hereafter in this subsection referred to as the "Northern Europe price").

(ii) Further adjustment

Except as provided in clause (iii), the adjusted prevailing world market price shall be further adjusted on the basis of some or all of the following data, as available:

(I) The United States share of world exports.

(II) The current level of cotton export sales and cotton export shipments.

(III) Other data determined by the Secretary to be relevant in establishing an accurate prevailing world market price for upland cotton (adjusted to United States quality and location).

(iii) Limitation on further adjustment

The adjustment under clause (ii) may not exceed the difference between—

(I) the Friday through Thursday average price for the lowest-priced United States growth as quoted for Middling one and three-thirty seconds inch cotton delivered C.I.F. Northern Europe; and

(II) the Northern Europe price.

(E) Cotton user marketing certificates

(i) Issuance

Subject to clause (iv), during the period beginning August 1, 1991, and ending July 31, 1998, the Secretary shall issue marketing certificates or cash payments to domestic users and exporters for documented purchases by domestic users and sales for export by exporters made in the week following a consecutive 4-week period in which—

(I) the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound; and

(II) the prevailing world market price for upland cotton (adjusted to United States quality and location), established under subparagraph (C), does not exceed 130 percent of the current crop year loan level for the base quality of upland cotton, as determined by the Secretary.

(ii) Value

The value of the marketing certificates or cash payments shall be based on the amount of the difference (reduced by 1.25 cents per pound) in such prices during the 4th week of the consecutive 4-week period multiplied by the quantity of upland cotton included in the documented sales.

(iii) Administration

Clauses (iv) through (vii) of subparagraph (B) shall apply to marketing certificates issued under this subparagraph. Any such certificates may be transferred to other persons in accordance with regulations issued by the Secretary.

(iv) Exception

The Secretary shall not issue marketing certificates or cash payments under clause (i) if, for the immediately preceding consecutive 10-week period, the Friday through Thursday average price quotation for the lowest priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificate issued under this subparagraph, exceeds the Northern Europe price by more than 1.25 cents per pound.

(F) Special import quota

(i) Establishment

The President shall, within 180 days after December 8, 1994, establish an import quota program which shall provide that, during the period beginning August 1991 and ending July 31, 1998, whenever the Secretary determines and announces that for any consecutive 10-week period, the Friday through Thursday average price quotation for the lowest-priced United States

growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificates issued under subparagraph (E), exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special import quota.

(ii) Quantity

The quota shall be equal to 1 week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which data are available.

(iii) Application

The quota shall apply to upland cotton purchased not later than 90 days after the date of the Secretary's announcement under clause (i) and entered into the United States not later than 180 days after such date.

(iv) Overlap

A special quota period may be established that overlaps any existing quota period if required by clause (i), except that a special quota period may not be established under this paragraph if a quota period has been established under subsection (n) of this section.

(v) Preferential tariff treatment

The quantity under a special import quota shall be considered to be an in-quota quantity for purposes of section 2703(d) of title 19, section 3203 of title 19, section 2463(d) of title 19, and General Note 3(a)(iv) to the HTS.

(vi) "Special import quota" defined

As used in this subparagraph, the term "special import quota" means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota.

(6) Recourse loans for seed cotton

In order to encourage and assist producers in the orderly ginning and marketing of their production of upland cotton, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.).

(b) Loan deficiency payments

(1) In general

The Secretary shall, for each of the 1991 through 1997 crops of upland cotton, make payments (hereafter in this section referred to as "loan deficiency payments") available to producers who, although eligible to obtain a loan under subsection (a) of this section, agree to forgo obtaining the loan in return for payments under this subsection.

(2) Computation

A payment under this subsection shall be computed by multiplying—

(A) the loan payment rate; by

(B) the quantity of upland cotton the producer is eligible to place under loan but for

which the producer forgoes obtaining the loan in return for payments under this subsection.

(3) Loan payment rate

For purposes of this subsection, the loan payment rate shall be the amount by which—

- (A) the loan level determined for the crop under subsection (a) of this section; exceeds
- (B) the level at which a loan may be repaid under subsection (a) of this section.

(4) Marketing certificates

The Secretary may make up to one-half the amount of a payment under this subsection available in the form of marketing certificates, subject to the terms and conditions provided in subsection (a)(5)(B) of this section.

(c) Payments; crop insurance requirement

(1) Deficiency payments

(A) In general

The Secretary shall make available to producers payments (hereafter in this section referred to as “deficiency payments”) for each of the 1991 through 1997 crops of upland cotton in an amount computed by multiplying—

- (i) the payment rate; by
- (ii) the payment acres for the crop; by
- (iii) the farm program payment yield established for the crop for the farm.

(B) Payment rate

(i) In general

The payment rate for upland cotton shall be the amount by which the established price for the crop of upland cotton exceeds the higher of—

- (I) the national average market price received by producers during the calendar year that includes the first 5 months of the marketing year for the crop, as determined by the Secretary; or
- (II) the loan level determined for the crop.

(ii) Minimum established price

The established price for upland cotton shall not be less than \$0.729 per pound for each of the 1991 through 1997 crops.

(C) Payment acres

Payment acres for a crop shall be the lesser of—

- (i) the number of acres planted to the crop for harvest within the permitted acreage; or
- (ii) 85 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D) of this section).

(D) 50/85 program

(i) In general

If an acreage limitation program under subsection (e)(2) of this section is in effect for a crop of upland cotton and the producers on a farm devote a portion of the maximum payment acres for upland cotton as calculated under subparagraph (C)(ii) of the farm equal to more than 8 percent for

each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (v)(II)), of such upland cotton acreage of the farm for the crop to conservation uses (except as provided in subparagraph (E))—

(I) such portion of the maximum payment acres in excess of 8 percent for each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (v)(II)), of such acreage devoted to conservation uses (except as provided in subparagraph (E)) shall be considered to be planted to upland cotton for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D) of this section; and

(II) the producers shall be eligible for payments under this paragraph with respect to such acreage, subject to the compliance of the producers with clause (ii).

(ii) Minimum planting requirement

To be eligible for payments under clause (i), except as provided in clauses (iv) and (v), the producers on a farm must actually plant upland cotton for harvest on at least 50 percent of the maximum payment acres for cotton for the farm.

(iii) Deficiency payments

Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for upland cotton for the farm to conservation uses (or other uses as provided in subparagraph (E)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to upland cotton and eligible for payments under this subparagraph for the crop at a per-pound rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which upland cotton producers may agree to participate in the program for the crop.

(iv) Quarantines

If a State or local agency has imposed in an area of a State or county a quarantine on the planting of upland cotton for harvest on farms in the area, the State committee established under section 590h(b) of title 16 may recommend to the Secretary that payments be made under this paragraph, without regard to the requirement imposed under clause (ii), to producers in the area who were required to forgo the planting of upland cotton for harvest on acreage to alleviate or eliminate the condition requiring the quarantine. If the Secretary determines that the condition exists, the Secretary may make payments under this paragraph to the producers. To

be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)).

(v) Prevented planting and reduced yields

(I) 1991 through 1993 crops

In the case of each of the 1991 through 1993 crops of upland cotton, if an acreage limitation program under subsection (e) of this section is in effect for any crop of upland cotton and if the Secretary determines that producers on a farm are prevented from planting the acreage intended for upland cotton to upland cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make available to such producers payments under this subparagraph without regard to the requirement imposed under clause (ii). To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)). Any such acreage shall be considered to be planted to upland cotton.

(II) 1994 through 1997 crops

In the case of each of the 1994 through 1997 crops of upland cotton, producers on a farm shall be eligible to receive deficiency payments as provided in clause (iii) without regard to clause (ii) if an acreage limitation program under subsection (e) of this section is in effect for the crop and—

(aa) the producers have been determined by the Secretary (in accordance with section 1463(c) of this title) to be prevented from planting the crop or have incurred a reduced yield for the crop (due to a natural disaster) and the producers elect to devote a portion of the maximum payment acres for upland cotton (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the upland cotton acreage, to conservation uses; or

(bb) the producers elect to devote a portion of the maximum payment acres for upland cotton (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the upland cotton acreage, to alternative crops as provided in subparagraph (E).

(vi) Crop acreage and payment yield

The upland cotton crop acreage base and upland cotton farm program payment yield of the farm shall not be reduced due to the fact that a portion of the permitted cotton acreage of the farm was devoted to conserving uses (except as provided in subparagraph (E)) under this subparagraph.

(vii) Limitation

Other than as provided in clauses (i) through (vi), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to upland cotton.

(viii) Conservation use acreage under other programs

Any acreage considered to be planted to upland cotton in accordance with clauses (i) and (vi) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

(ix) Black-eyed peas for donation

The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, all or any part of the acreage required to be devoted to conservation uses as a condition for qualifying for payments under this subparagraph to be devoted to the production of black-eyed peas if—

(I) the producer agrees to donate the harvested peas from the acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note)) that is approved by the Secretary; and

(II) the Secretary finds that such action will not result in the disruption of normal channels of trade.

(E) Alternative crops

(i) Industrial and other crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sweet sorghum, guar, castor beans, plantago ovato, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

(I) the production is not likely to increase the cost of the price support program; and

(II) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

(ii) Sesame and crambe

The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of

acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame and crambe. In implementing this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 1446f of this title, the Secretary shall provide that, in order to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 1446f of this title for the crop of sesame or crambe produced on the farm.

(2) Crop insurance requirement

A producer shall obtain catastrophic risk protection insurance coverage in accordance with section 1433f of this title.

(d) Payment yields

The farm program payment yields for farms for each crop of upland cotton shall be determined under subchapter IV of this chapter.

(e) Acreage reduction programs

(1) In general

(A) Establishment

Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of upland cotton, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of upland cotton an acreage limitation program as described in paragraph (2).

(B) Agricultural resources conservation program

In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

(C) Announcements

(i) Preliminary announcement

If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall make a preliminary announcement of any such program not later than November 1 of the calendar year preceding the year in which the crop is harvested, except that in the case of the 1991 crop, the Secretary shall announce the program as soon as practicable after November 28, 1990. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the upland cotton crop acreage base described in paragraph (2)(A).

(ii) Final announcement

Not later than January 1 of the calendar year in which the crop is harvested, the Secretary shall make a final announce-

ment of the program. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the upland cotton crop described in paragraph (2)(A).

(iii) Optional programs in early planting areas

The Secretary shall allow producers in early planting areas to elect to participate in the program on the terms of the acreage limitation program—

(I) first announced for the crop under clause (i); or

(II) as subsequently revised under clause (ii),

if the Secretary determines that the producers may be unfairly disadvantaged by the revision.

(D) Desired carry-over

The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of upland cotton in a manner that will result in a ratio of carry-over to total disappearance of 30 percent for each of the 1991 through 1994 crops, 29½ percent for each of the 1995 and 1996 crops, and 29 percent for the 1997 crop, based on the Secretary's most recent projection of carry-over and total disappearance at the time of announcement of the acreage limitation program. For the purpose of this subparagraph, the term "total disappearance" means all upland cotton utilization, including total domestic, total export, and total residual disappearance.

(2) Acreage limitation program

(A) Uniform percentage reduction

Except as provided in paragraph (3), if an upland cotton acreage limitation program is announced under paragraph (1), the limitation shall be achieved by applying a uniform percentage reduction (from 0 to 25 percent) to the upland cotton crop acreage base for the crop for each upland cotton-producing farm.

(B) Compliance

Except as provided in section 1464 of this title, producers who knowingly produce upland cotton in excess of the permitted upland cotton acreage for the farm, as established in accordance with subparagraph (A), shall be ineligible for upland cotton loans and payments with respect to that farm.

(C) Crop acreage bases

Upland cotton crop acreage bases for each crop of upland cotton shall be determined under subchapter IV of this chapter.

(D) Acreage devoted to conservation uses

A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the upland cotton crop acreage base by the percentage reduction required by the Secretary. The number of acres so deter-

mined is hereafter in this subsection referred to as “reduced acreage”. The remaining acreage is hereafter in this subsection referred to as “permitted acreage”. Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 1464 of this title.

(E) Individual farm program acreage

Except as otherwise provided in subsection (c) of this section, the individual farm program acreage shall be the acreage planted on the farm to upland cotton for harvest within the permitted upland cotton acreage for the farm as established under this paragraph.

(F) Planting designated crops on reduced acreage

(i) “Designated crop” defined

As used in this subparagraph, the term “designated crop” means a crop defined in section 1464(b)(1) of this title, excluding any program crop as defined in section 1462(3) of this title.

(ii) In general

Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

(iii) Limitations

If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) of this section shall be reduced, for each acre (or portion thereof) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

(G) Black-eyed peas for donation

The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, producers on a farm to plant black-eyed peas on not more than one-half of the reduced acreage on the farm if—

(i) the producer agrees to donate the harvested peas from such acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note)) that is approved by the Secretary; and

(ii) the Secretary finds that such action will not result in the disruption of normal channels of trade.

(3) Targeted option payments

(A) In general

Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of upland cotton, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(D) of this section for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

(B) Payment options

If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of upland cotton under an acreage limitation program in accordance with this paragraph.

(C) Increased acreage limitation option

(i) Increase in established price

If the Secretary elects to carry out this paragraph, a producer shall be eligible to receive an increase in the established price for upland cotton under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers’ upland cotton acreage base above the acreage limitation percentage announced by the Secretary.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for upland cotton by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers’ upland cotton acreage base.

(iii) Limitation

The acreage limitation percentage to be applied to the producers’ upland cotton acreage base shall not be increased by more than 10 percentage points above the acreage limitation percentage announced by the Secretary for the crop or above 25 percent total for the crop.

(iv) Adjustment for underplantings

In determining the increased acreage limitation percentage that is applied to the producer’s upland cotton base under this paragraph, the Secretary shall exclude an amount of acreage equal to the average difference between the producer’s permitted upland cotton acreage and the acreage actually planted (including acre-

age devoted to conserving uses under subsection (c)(1)(D) of this section) to upland cotton for harvest during the previous 2 years.

(D) Decreased acreage limitation option

(i) Decrease in acreage limitation requirement

If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers' upland cotton acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for upland cotton under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for upland cotton by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers' upland cotton acreage base.

(iii) Limitation

A producer may not choose to decrease the acreage limitation percentage applicable to the producers' upland cotton acreage base under this paragraph by more than one-half of the announced acreage limitation percentage.

(E) Participation and production effects

Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary's determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(4) Administration

(A) Protection from weeds and erosion

The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

(B) Annual or perennial cover

(i) Required

(I) In general

Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of upland cotton under this subsection shall be re-

quired to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of upland cotton, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

(II) Arid areas

Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 590h(b) of title 16 may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

(III) Approval of cover crops and practices

The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.

(ii) Multiyear program

(I) Cost-share assistance

If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is required to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

(II) Agreement of producer

If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with respect to the cover, the producer, under such terms and conditions as may be pre-

scribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle G of title XII of the Food Security Act of 1985 [16 U.S.C. 3861 et seq.], shall agree to maintain the perennial cover for a minimum of 3 years.

(iii) Conserving crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

(C) Haying and grazing

(i) In general

Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(D) of this section, and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 590h(b) of title 16 for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

(ii) Natural disasters

In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

(D) Water storage uses

(i) In general

The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 years subsequent to its conversion to water storage uses.

(ii) Limitations

Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

(5) Land diversion program

(A) Payments

(i) In general

The Secretary may make land diversion payments to producers of upland cotton, whether or not an acreage limitation program for upland cotton is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of upland cotton to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

(ii) Excess carry-over

If, at the time of final announcement of the acreage limitation program established under this subsection, the projected carry-over of upland cotton for the crop year is equal to or greater than 8 million bales, the Secretary shall offer a paid land diversion program to producers of upland cotton. Payments to producers under such a program shall be determined by multiplying—

(I) the payment rate, of not less than 35 cents per pound of cotton, established by the Secretary; by

(II) the program payment yield established for the crop for the farm; by

(III) the number of permitted upland cotton acres diverted on the farm.

(B) Bids for contracts

The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

(C) Limitations on diverted acreage

(i) Maximum acreage per farm, county, or community

The Secretary shall limit the total acreage to be diverted under this paragraph—

(I) to not more than 15 percent of the upland cotton crop acreage base for a farm; and

(II) under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

(ii) Lower participation levels

The Secretary may allow producers to participate in a land diversion program under this paragraph at a level lower than the maximum level announced by the Secretary, at the option of the producer, if the Secretary determines that it will increase participation in the program.

(6) Conservation practices**(A) Wildlife food plots or habitat**

The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

(B) Public access

The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

(7) Participation agreements**(A) In general**

Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

(B) Modification or termination

The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of upland cotton.

(f) Inventory reduction payments**(1) In general**

The Secretary may, for each of the 1991 through 1995 crops of upland cotton, make payments available to producers who meet the requirements of this subsection.

(2) Form

The payments may be made in the form of marketing certificates.

(3) Payments**(A) In general**

Payments under this subsection shall be determined in the same manner as provided in subsection (b) of this section.

(B) Quantity of cotton made available

The quantity of upland cotton to be made available to a producer under this subsection shall be equal in value to the payments so determined under this subsection.

(4) Eligibility

A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

(A) agrees to forgo obtaining a loan under subsection (a) of this section;

(B) agrees to forgo receiving payments under subsection (c) of this section;

(C) does not plant upland cotton for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (e) of this section; and

(D) otherwise complies with this section.

(g) Equitable relief**(1) Loans and payments**

If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans and payments, the Secretary may, nevertheless, make such loans and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

(2) Deadlines and program requirements

The Secretary may authorize the county and State committees established under section 590h(b) of title 16 to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

(h) Regulations

The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

(i) Commodity Credit Corporation

The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(j) Assignment of payments

The provisions of section 590h(g) of title 16 (relating to assignment of payments) shall apply to payments under this section.

(k) Sharing of payments

The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

(l) Tenants and sharecroppers

The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(m) Cross-compliance**(1) In general**

Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans or payments under this section.

(2) Compliance on other farms

The Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this section for the farm, to comply with the terms and conditions of the upland cotton program with respect to any other farm operated by the producers.

(n) Limited global import quota**(1) In general**

The President shall, within 180 days after December 8, 1994, establish an import quota program which shall provide that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in such markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a limited global import quota subject to the following conditions:

(A) Quantity

The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

(B) Quantity if prior quota

If a quota has been established under this subsection during the preceding 12 months, the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated as set forth in subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

(C) Preferential tariff treatment

The quantity under a limited global import quota shall be considered to be an in-quota quantity for purposes of section 2703(d) of title 19, section 3203 of title 19, section 2463(d) of title 19, and General Note 3(a)(iv) to the HTS.

(D)¹ Definitions

As used in subparagraph (B):

(i) Supply

The term “supply” means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury—

(I) the carry-over of upland cotton at the beginning of the marketing year (adjusted to 480-pound bales) in which the quota is established; plus

(II) production of the current crop; plus

(III) imports to the latest date available during the marketing year.

(ii) Demand

The term “demand” means—

(I) the average seasonally adjusted annual rate of domestic mill consumption in the most recent 3 months for which data are available; plus

(II) the larger of—

(aa) average exports of upland cotton during the preceding 6 marketing years; or

(bb) cumulative exports of upland cotton plus outstanding export sales for the marketing year in which the quota is established.

(iii) “Limited global import quota” defined

As used in this subsection, the term “limited global import quota” means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota.

(D)¹ Quota entry period

When a quota is established under this subsection, cotton may be entered under the quota during the 90-day period beginning on the date the quota is established by the Secretary.

(2) No overlap

Notwithstanding paragraph (1), a quota period may not be established that overlaps an existing quota period or a special quota period established under subsection (a)(5)(F) of this section.

(o) Crops

Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1997 crops of upland cotton.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1308, 1426, 1463, 5822 of this title.

§1444a. Corn and feed grains and cotton programs

(a) Referendum of 1958 corn producers

Not later than December 15, 1958, the Secretary shall conduct a referendum of producers of corn in 1958 in the commercial corn-producing area for 1958 to determine whether such producers favor a price support program as provided in subsection (b) of this section for the 1959 and subsequent crops in lieu of acreage allotments as provided in the Agricultural Adjustment Act of 1938, as amended [7 U.S.C. 1281 et seq.], and price support as provided in section 1441 of this title.

(b) Operative status of certain provisions

Notwithstanding any other provision of law, if less than a majority of the producers voting in the referendum conducted pursuant to subsection (a) of this section favor a price support program as provided in this subsection (b), the following provisions of law shall become inoperative:

- (1) [Section enacted section 1329a of this title.]
- (2) [Section enacted section 1444b of this title.]
- (3) [Section repealed section 1441(d)(4) of this title.]

(c) Cotton research program

The Secretary of Agriculture is hereby authorized and directed to conduct a special cotton research program designed to reduce the cost of producing upland cotton in the United States at the earliest practicable date. There are hereby authorized to be appropriated such sums, not to exceed \$10,000,000 annually, as may be necessary for the Secretary to carry out this special research program. The Secretary shall report annually to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate with respect to the results of such research.

(d) Cotton insect eradication

In order to reduce cotton production costs, to prevent the movement of certain cotton plant insects to areas not now infested, and to enhance the quality of the environment, the Secretary is authorized and directed to carry out programs to destroy and eliminate cotton boll weevils in infested areas of the United States as provided herein and to carry out similar programs with respect to pink bollworms or any other major cotton insect if the Secretary determines that methods and systems have been developed to the point that success in eradication of such insects is assured. The Secretary shall carry out the eradication programs authorized

by this subsection through the Commodity Credit Corporation. In carrying out insect eradication projects, the Secretary shall utilize the technical and related services of appropriate Federal, State, private agencies, and cotton organizations. Producers and landowners in an eradication zone, established by the Secretary, who are receiving benefits from any program administered by the United States Department of Agriculture, shall, as a condition of receiving or continuing any such benefits, participate in and cooperate with the eradication project, as specified in regulations of the Secretary.

The Secretary may issue such regulations as he deems necessary to enforce the provisions of this subsection with respect to achieving the compliance of producers and landowners who are not receiving benefits from any program administered by the United States Department of Agriculture. Any person who knowingly violates any such regulation promulgated by the Secretary under this subsection may be assessed a civil penalty of not to exceed \$5,000 for each offense. No civil penalty shall be assessed unless the person shall have been given notice and opportunity for a hearing on such charge in the county, parish, or incorporated city of the residence of the person charged. In determining the amount of the penalty the Secretary shall consider the appropriateness of such penalty to the size of the business of the person charged, the effect on the person's ability to continue in business, and the gravity of the violation. Where special measures deemed essential to achievement of the eradication objective are taken by the project and result in a loss of production and income to the producer, the Secretary shall provide reasonable and equitable indemnification from funds available for the project and also provide for appropriate protection of the allotment, acreage history, and average yield for the farm. The cost of the program in each eradication zone shall be determined, and cotton producers in the zone shall be required to pay up to one-half thereof, with the exact share in each zone area to be specified by the Secretary upon his finding that such share is reasonable and equitable based on population levels of the target insect and the degree of control measures normally required. Each producer's pro rata share shall be deducted from his cotton payment under this Act or otherwise collected, as provided in regulations of the Secretary. Insofar as practicable, cotton producers and other persons engaged in cotton production in the eradication zone shall be employed to participate in the work of the project in such zone. Funding of the program shall be terminated at such time as the Secretary determines and reports to the Congress that complete eradication of the insects for which programs are undertaken pursuant to this subsection has been accomplished. Funds in custody of agencies carrying out the program shall, upon termination of such program, be accounted for to the Secretary for appropriate disposition.

The Secretary is authorized to cooperate with the Government of Mexico in carrying out operations or measures in Mexico which he deems necessary and feasible to prevent the movement into the United States from Mexico of any in-

sects eradicated under the provisions of this subsection. The measure and character of cooperation carried out under this subsection on the part of the United States and on the part of the Government of Mexico, including the expenditure or use of funds made available by the Secretary under this subsection, shall be such as may be prescribed by the Secretary. Arrangements for the cooperations authorized by this subsection shall be made through and in consultation with the Secretary of State. The Commodity Credit Corporation shall not make any expenditures for carrying out the purposes of this subsection unless the Corporation has received funds to cover such expenditures from appropriations made to carry out the purposes of this subsection. There are hereby authorized to be appropriated to the Commodity Credit Corporation such sums as the Congress may from time to time determine to be necessary to carry out the purposes of this subsection.

Subsec. (a)(1). Pub. L. 91524 substituted par. (1) provisions making loans and purchases available on corn crop at such level, not less than \$1.00 per bushel nor in excess of 90 per centum of the parity price therefor, as the Secretary determines will encourage exportation of feed grains and not result in excessive total stocks of feed grains in the United States for former subsec. (a) provisions for such corn price support level, beginning with 1964 crop, not less than 50 per centum or more than 90 per centum of the parity price therefor, as the Secretary determines will not result in increasing Commodity Credit Corporation stocks of corn, including proviso for such corn price support level, in the case of any crop for which an acreage diversion program is in effect for feed grains, not less than 65 per centum or more than 90 per centum of the parity price therefor as the Secretary determines necessary to achieve the acreage reduction goal established by him for the crop.

Subsec. (a)(2). Pub. L. 91524 substituted par. (2) provisions making loans and purchases available on each crop of barley, oats, and rye, at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value of such commodity in relation to corn and other factors specified in section 1421(b) of this title, and on each crop of grain sorghums at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value and average transportation costs to market of grain sorghums in relation to corn for former subsec. (b) provisions for such price support level on each crop of oats, rye, barley, and grain sorghums, beginning with the 1959 crop, at such level of the parity price therefor as the Secretary of Agriculture determines is fair and rea-

sonable in relation to the level at which price support is made available for corn, taking into consideration the feeding value of such commodity in relation to corn, and the other factors set forth in section 1421(b) of this title.

Subsec. (b)(1). Pub. L. 91524 made payments available for crops of corn, grain sorghums, and barley; prescribed as payment rate for corn such rate as, together with the national average market price received by farmers during first five months of the marketing year for the crop would not be less than (A) \$1.35 per bushel, or (B) 70 per centum of the parity price of corn as of the beginning of the marketing year, whichever was the greater; prescribed as payment rate for grain sorghums and barley such rate as was fair and reasonable in relation to the rate at which payments were made available for corn; and prescribed rate of payment for 1973 crop would not be such as would result in a total amount of payments which Secretary estimated would be made pursuant to this subsection with respect to 1973 crop of feed grains above total amount of payments made pursuant to this subsection with respect to 1972 crop of feed grains by reason of level specified in clause (B) being fixed above 68 per centum of the parity price for the corn.

Subsec. (b)(2). Pub. L. 91524 made payments with respect to a farm available on 50 per centum of the feed grain base for the farm and for computation of the payments on the basis of the yield established for the farm for the preceding crop with such adjustments as the Secretary determines necessary to provide a fair and equitable yield.

Subsec. (b)(3). Pub. L. 91524 added par. (3).

Former subsec. (b) provided that "Beginning with the 1959 crop, price support shall be made available to producers for each crop of oats, rye, barley, and grain sorghums at such level of the parity price therefor as the Secretary of Agriculture determines is fair and reasonable in relation to the level at which price support is made available for corn, taking into consideration the feeding value of such commodity in relation to corn, and the other factors set forth in section 1421(b) of this title," and is now incorporated in subsec. (a)(2) of this section.

Subsec. (c)(1). Pub. L. 91524 required cropland set-aside, taking into consideration excessive stocks and adequate carryover, and provided for conservation uses acreage, crop year feed grain acreage limitation, "feed grains" for consideration of wheat as feed grain acreage, consideration of section 1339c feed grains diversion program, grazing restriction, and authorization of set-aside acreage for grazing and production of other commodities.

Subsec. (d). Pub. L. 91524 redesignated ninth sentence of former subsec. (e) as (d) and substituted "sharing of payments under this section among producers on the farm on a fair and equitable basis" for "sharing of such certificates among producers on the farm on the basis of their respective shares in the feed grain crop produced on the farm, or the proceeds therefrom, except that in any case in which the Secretary determines that such basis would not be fair and equitable, the Secretary shall provide for such sharing on such other basis as he may determine to be fair and equitable".

Subsec. (e). Pub. L. 91524 added subsec. (e).

Subsec. (f). Pub. L. 91524 redesignated last sentence of former subsec. (e) as (f) and substituted "under this

for harvest by the adjusted average yield per acre, and inserted proviso respecting consideration of soybean as feed grain acreage to such extent and subject to such terms and conditions as Secretary determined would not impair effective operation of price support program and proviso deeming entire feed grains acreage as so planted when 90 per centum of feed grains acreage permitted to be planted has been so planted.

Subsec. (e) fifth sentence. Pub. L. 89321 authorized reduction of that portion of the support price which was made available through loans and purchases for the 1966 through 1969 crops below the loan level for the 1965 crop by such amounts and in such stages as might be necessary to promote increased participation in the feed grain program, taking into account increases in yields, but so as not to disrupt the feed grain and livestock economy, without modifying or affecting Secretary's discretion to maintain or increase total price support levels to cooperators.

Subsec. (e) sixth sentence. Pub. L. 89321 incorporated eleventh sentence of former subsec. (d) as sixth sentence of subsec. (e) and substituted "planted to feed grains" for "planted to feed grains in 1965" and "deemed to be an actual acreage of feed grains planted for harvest for purposes of such payments provided such acreage is not subsequently planted to any other income-producing crop during such year" for "deemed by the Secretary to be an actual acreage of feed grains planted on the farm for harvest for purposes of this subsection, provided such acreage is not subsequently devoted to any price supported crop for 1965".

Subsec. (d) second sentence. Pub. L. 8826, §2(2), required as a condition of eligibility for price support on crop of feed grain included in the acreage diversion program, participation of producer in the diversion program to the extent prescribed by the Secretary, and as a condition of eligibility for such price support if a diversion program was not in effect for 1964 or 1965 crop, that feed grain base be not exceeded by producer and excepted producer of malting barley from requirement of participation in the acreage diversion program for feed grains if such producer had previously produced a malting variety of barley, planted barley only of an acceptable malting variety for harvest, did not devote barley farm acreage in excess of 110 per centum of average acreage devoted to barley in 1959 and 1960, did not devote corn and grain sorghums farm acreage in excess of average acreage devoted to corn and grain sorghums in 1959 and 1960, and did not devote oats and rye acreage in 1959 and 1960 to production of wheat pursuant to section 1339c of this title.

Subsec. (d) tenth sentence. Pub. L. 8826, §2(2), conditioned availability of price support for feed grains included in acreage diversion program, where operator of farm elected to participate in the acreage diversion program, to producers on farm diverting from feed grain production under the program an acreage on the farm equal to number of acres which operator agreed to divert, and agreement so provided.

1962—Pub. L. 87703 enacted feed grains price support program for 1963.

Pub. L. 87425 amended feed grains support program for 1962.

Subsec. (a). Pub. L. 87703, §305, substituted provisions for such corn price support level, beginning with 1964

crop, not less than 50 per centum or more than 90 per centum of the parity price therefor, as the Secretary determines will not result in increasing Commodity Credit Corporation stocks of corn for former corn price support, beginning with 1959 crop, at 90 per centum of the average price received by farmers during the three calendar years immediately preceding the calendar year in which the marketing year for such crops began, adjusted to offset the effect on such price of any abnormal quantities of low-grade corn marketed during any of such year, provided the level of price support for any crop of corn be not less than 65 per centum of the parity price therefor.

Subsec. (c). Pub. L. 87703, §301, in adding pars. (5) and (6), enacted feed grains price support program for 1963, as described hereunder.

Subsec. (c)(4). Pub. L. 87425 excepted producer of barley on a summer-fallow farm from requirement of participation in special agricultural conservation program for 1962 for barley if such producer did not devote barley farm acreage in excess of average acreage devoted to barley in 1959 and 1960 plus the acreage devoted to summer fallow in 1961 which was diverted from the production of wheat under the special 1962 wheat program and did not devote corn, grain sorghums, and barley farm acreage in excess of 80 per centum of average acreage devoted to corn, grain sorghums, and barley in 1959 and 1960.

Subsec. (c)(5). Pub. L. 87703, §301, required establishment of 1963 corn crop price support at such level not less than 65 per centum of parity price as Secretary might determine; provided for: payments in kind in amount of 18 cents per bushel of support price for corn, and comparable portion of support price for grain sorghums and barley; such payments on number of bushels of such feed grain determined by multiplying actual acreage of such feed grain planted on the farm for harvest in 1963 by the adjusted average yield per acre for 1959 and 1960 crop acreage of such feed grain; such payments through issuance of negotiable certificates redeemable by CCC for corn, grain sorghums, and barley (such feed grains to be valued by the Secretary at not less than support price minus that part of support price made available through payments in kind) and for CCC assistance to producer in marketing of such certificates; deduction from value of the certificate, in the case of any certificate not presented for redemption within 30 days of date of its issuance, reasonable costs of storage and other carrying charges for period beginning 30 days after its issuance and ending with the date of its presentation for redemption; and basis for sharing of such certificate among producers on the farm; and conditioned availability of price support to inclusion of prescribed acreage diversion where operator of farm elected to participate in the special agricultural conservation program for 1963, for corn, grain sorghums, and barley.

Subsec. (c)(6). Pub. L. 87703, §301, required as a condition of eligibility for price support on 1963 crop of corn, grain sorghums, and barley participation of producer in special agricultural conservation program for 1963 for corn, grain sorghums, and barley to the extent prescribed by the Secretary and excepted producer of malting barley from requirement of participation in special agricultural conservation program for 1963 if such producer had previously produced a malting variety of barley, planted barley only of an acceptable malting variety for harvest in 1963, and did not devote barley farm acreage in excess of 110 per centum of average acreage devoted to barley in 1959 and 1960, and did not devote corn and grain sorghums farm acreage in excess of average acreage devoted to corn and grain sorghums in 1959 and 1960.

1961—Pub. L. 87128 enacted feed grains price support program for 1962.

Pub. L. 875 enacted special feed grains price support program for 1961.

Subsec. (c). Pub. L. 87128, in adding pars. (3) and (4), enacted feed grains price support program for 1962.

Pub. L. 875, in adding pars. (1) and (2), enacted special feed grains price support program for 1961.

Subsec. (c)(1). Pub. L. 875 required establishment of 1961 corn crop price support at such level not less than 65 per centum of parity price as Secretary might determine and made corn and grain sorghums price support available on not to exceed the normal production of 1961 acreage of corn and grain sorghums of each eligible farm based on average yield per acre for 1959 and 1960 crop acreage.

Subsec. (c)(2). Pub. L. 875 required as a condition of eligibility for price support on 1961 crop of corn, grain sorghums, and any other feed grain designated by the Secretary, participation of producer in special agricultural conservation program for 1961 for corn and grain sorghums to the extent prescribed by the Secretary.

Subsec. (c)(3). Pub. L. 87128 required establishment of 1962 corn crop price support at such level not less than 65 per centum of parity price as Secretary might determine and made corn, grain sorghums, and barley price support available on not to exceed the normal production of 1962 acreage of corn, grain sorghums, and barley of each eligible farm based on average yield per acre for 1959 and 1960 crop acreage.

Subsec. (c)(4). Pub. L. 87128 required as a condition of eligibility for price support on 1962 crop of corn and grain sorghums participation of producer in special agricultural conservation program for 1962 for corn and grain sorghums to the extent prescribed by the Secretary and prohibited farm acreage devoted to barley in excess of average acreage devoted to barley in 1959 and 1960; required as a condition of eligibility for price support on 1962 crop of barley participation of producer in special agricultural conservation program for 1962 for barley to the extent prescribed by the Secretary and prohibited farm acreage devoted to corn and grain sorghums in excess of average acreage devoted to corn and grain sorghums in 1959 and 1960; and excepted producer of malting barley from requirement of participation in special agricultural conservation program for 1962 for barley if such producer had previously produced a malting variety of barley, planted barley only of an acceptable malting variety for harvest in 1962, and did not devote barley farm acreage in excess of 110 per centum of average acreage devoted to barley in 1959 and 1960, and did not devote corn and grain sorghums farm acreage in excess of average acreage devoted to corn and grain sorghums in 1959 and 1960.

1958—Pub. L. 85835 enacted corn and feed grains price support provisions, beginning with the 1959 crop.

Subsec. (a). Pub. L. 85835 made corn price support available, beginning with 1959 crop, at 90 per centum of average price received by farmers during three calendar years immediately preceding calendar year in which marketing year for the crop begins, adjusted to offset effect on such price of any abnormal quantities of low-grade corn marketed during any of such year, with minimum price support level at 65 per centum of parity price for any crop of corn.

Subsec. (b). Pub. L. 85835 made price support available, beginning with 1959 crop, for each crop of oats, rye, barley, and grain sorghums, at such level of parity price as Secretary of Agriculture determined was fair and reasonable in relation to price support level for corn, taking into consideration the feeding value of such commodity in relation to corn, and the other factors set forth in section 1421(b) of this title.

1996 crops of corn**

(a) Notwithstanding any other provision of law, effective only for each of the 1986 through 1996 crops of feed grains, the Secretary of Agriculture may make available loans and purchases, as provided in this section, to producers on a farm who—

(1) for silage—

(A) cut corn (including mutilated corn) that the producers have produced in such crop year; or

(B) purchase or exchange corn (including mutilated corn) that has been produced in such crop year by another producer (including a producer that is not participating in an acreage limitation or set-aside program for such crop established by the Secretary); and

(2) participate in an acreage limitation or set-aside program for such crop of corn established by the Secretary.

(b) Such loans and purchases may be made on a quantity of corn of the same crop, other than the corn obtained for silage, acquired by the producer equivalent to a quantity determined by multiplying—

(1) the acreage of corn obtained for silage; by

(2) the lower of the farm program payment yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such silage was obtained.

AMENDMENTS

1990—Subsec. (a). Pub. L. 101624 substituted “1996” for “1990” in introductory provisions.

EFFECTIVE DATE OF 1990 AMENDMENT

Amendment by Pub. L. 101624 effective beginning with 1991 crop of an agricultural commodity, with provision for prior crops, see section 1171 of Pub. L. 101624, set out as a note under section 1421 of this title.

§1444f. Loans, payments, and acreage reduction programs for 1991 through 1995 crops of feed grains

(a) Loans and purchases

(1) In general

Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm loans and purchases for each of the 1991 through 1995 crops of corn produced on the farm at such level as the Secretary determines will encourage the exportation of feed grains and not result in excessive total stocks of feed grains after taking into consideration the cost of producing corn, supply and demand conditions, and world prices for corn.

(2) Minimum loan and purchase level

Except as provided in paragraphs (3) and (4), the loan and purchase level determined under paragraph (1) shall not be less than 85 percent of the simple average price received by producers of corn, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of corn, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

(3) Adjustments to support level

(A) Stocks to use ratio

If the Secretary estimates for any marketing year that the ratio of ending stocks of corn to total use for the marketing year will be—

- (i) equal to or greater than 25 percent, the Secretary may reduce the loan and purchase level for corn for the corresponding crop by an amount not to exceed 10 percent in any year;
- (ii) less than 25 percent but not less than 12.5 percent, the Secretary may reduce the loan and purchase level for corn for the corresponding crop by an amount not to exceed 5 percent in any year; or
- (iii) less than 12.5 percent the Secretary may not reduce the loan and purchase level for corn for the corresponding crop.

(B) Report to Congress

(i) In general

If the Secretary adjusts the level of loans and purchases for corn under subparagraph (A), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

(I) certifying such adjustment as necessary to prevent the accumulation of stocks and to retain market share; and

(II) containing a description of the need for such adjustment.

(ii) Effective date of adjustment

The adjustment shall become effective no earlier than 60 calendar days after the date of submission of the report to the Committees, except that in the case of the 1991 crop of feed grains, the adjustment shall become effective on the date of the submission of the report.

(C) Competitive position

Notwithstanding subparagraph (A), if the Secretary determines, not later than 60 days prior to the beginning of a marketing year for a crop, that the effective loan rate established for such crop will not maintain a competitive market position for corn, the Secretary may reduce the loan and purchase level for corn for the marketing year by an amount, in addition to any reduction under subparagraph (A), not to exceed 10 percent in any year.

(D) No effect on future years

Any reduction in the loan and purchase level for corn under this paragraph shall not be considered in determining the loan and purchase level for corn for subsequent years.

(E) Minimum loan rate

Notwithstanding subparagraph (A), the loan rate for corn shall not be less than \$1.76 per bushel, unless such rate would exceed 80 percent of the 5-year average market price determination.

(4) Marketing loan provisions

(A) In general

The Secretary may permit a producer to repay a loan made under this subsection for a crop at a level (except as provided in subparagraph (C)) that is the lesser of—

- (i) the loan level determined for the crop;
- (ii) the higher of—
 - (I) 70 percent of such level;
 - (II) if the loan level for a crop was reduced under paragraph (3), 70 percent of the loan level that would have been in effect but for the reduction under paragraph (3); or
 - (iii) the prevailing world market price for feed grains (adjusted to United States quality and location), as determined by the Secretary.

(B) Prevailing world market price

If the Secretary permits a producer to repay a loan in accordance with subparagraph (A), the Secretary shall prescribe by regulation—

- (i) a formula to determine the prevailing world market price for feed grains, adjusted to United States quality and location; and
- (ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for feed grains.

(C) Alternative repayment rates

For each of the 1991 through 1995 crops of feed grains, if the world market price for feed grains (adjusted to United States quality and location) as determined by the Secretary, is less than the loan level determined for the crop, the Secretary may permit a producer to repay a loan made under this subsection for a crop at such level (not in excess of the loan level determined for the crop) as the Secretary determines will—

- (i) minimize potential loan forfeitures;
- (ii) minimize the accumulation of feed grain stocks by the Federal Government;
- (iii) minimize the cost incurred by the Federal Government in storing feed grains; and
- (iv) allow feed grains produced in the United States to be marketed freely and competitively, both domestically and internationally.

(5) Simple average price

For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

(6) Other feed grains

The Secretary shall make available to producers loans and purchases for each of the 1991 through 1995 crops of grain sorghums, barley, oats, and rye, respectively, produced on the farm at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value of the commodity in relation to corn and other factors specified in section 1421(b) of this title.

(b) Loan deficiency payments**(1) In general**

The Secretary may, for each of the 1991 through 1995 crops of feed grains, make payments (hereafter in this section referred to as “loan deficiency payments”) available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a) of this section, agree to forgo obtaining the loan or agreement in return for payments under this subsection.

(2) Computation

A payment under this subsection shall be computed by multiplying—

- (A) the loan payment rate; by
- (B) the quantity of feed grains the producer is eligible to place under loan (or obtain a purchase agreement) but for which the producer forgoes obtaining the loan or agreement in return for payments under this subsection.

(3) Loan payment rate

For purposes of this subsection, the loan payment rate shall be the amount by which—

- (A) the loan level determined for the crop under subsection (a) of this section; exceeds
- (B) the level at which a loan may be repaid under subsection (a) of this section.

(c) Payments; crop insurance requirement**(1) Deficiency payments****(A) In general**

The Secretary shall make available to producers payments (hereafter in this section referred to as “deficiency payments”) for each of the 1991 through 1995 crops of corn, grain sorghums, oats, and barley, in an amount computed by multiplying—

- (i) the payment rate; by
- (ii) the payment acres for the crop; by
- (iii) the farm program payment yield established for the crop for the farm.

(B) Payment rate**(i) Payment rate for 1991 through 1993 crops**

The payment rate for each of the 1991 through 1993 crops of corn, grain sorghums, oats, and barley shall be the amount by which the established price for the respective crop of feed grains exceeds the higher of—

- (I) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary; or
- (II) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) of this section for the marketing year for the crop.

(ii) Payment rate of 1994 and 1995 crops

The payment rate for each of the 1994 and 1995 crops of corn, grain sorghums, oats, and barley shall be the amount by which the established price for the respective crop of feed grains exceeds the higher of—

- (I) the lesser of—
 - (aa) the national weighted average market price received by producers during the marketing year for the crop, as determined by the Secretary; or
 - (bb) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 7 cents per bushel; or
- (II) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) of this section for the marketing year for the respective crop of feed grains.

(iii) Minimum established prices**(I) Corn**

The established price for corn shall not be less than \$2.75 per bushel for each of the 1991 through 1995 crops of corn.

(II) Oats

The established price for oats shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, but not less than \$1.45 per bushel.

(III) Grain sorghums

The established price for each of the 1991 through 1995 crops of grain sorghums shall not be less than \$2.61 per bushel.

(IV) Barley**(aa) In general**

The established price for barley shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, taking into consideration the various feed and food uses for barley. The established price for barley shall not be less than 85.8 percent of the established price for corn.

(bb) Barley calculations

The Secretary shall, for purposes of determining the payment rate for barley under clauses (i) and (ii) and subparagraph (D)(ii), use the national weighted average market price received by producers of barley sold primarily for feed purposes.

(cc) Advance payments

In the case of the 1991 crop of barley, the Secretary shall, for purposes of determining any advance deficiency payment made to the producers of barley under section 1445j of this title, use the national weighted average market price received by producers for all barley, as determined by the Secretary.

(dd) Equity

In implementing this subsection, the Secretary shall make available to producers of the 1991 crop of barley, notwithstanding the method of calculation or the amount of the advance deficiency payment, the total amount of payments as calculated under clause (bb).

(C) Payment acres

Payment acres for a crop shall be the lesser of—

- (i) the number of acres planted to the crop for harvest within the permitted acreage; or
- (ii) 85 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D) of this section).

(D) Emergency compensation**(i) In general**

Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for feed grains under subsection (a)(3) of this section, the Secretary shall provide emergency compensation by increasing the deficiency payments for feed grains by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made.

(ii) Calculation

In determining the payment rate, per bushel, for emergency compensation payments for a crop of feed grains under this subparagraph, the Secretary shall use the national weighted average market price, per bushel of feed grains, received by producers during the marketing year for the crop, as determined by the Secretary.

(E) 0/85 program**(i) In general**

If an acreage limitation program under subsection (e)(2) of this section is in effect for a crop of feed grains and the producers on a farm devote a portion of the maximum payment acres for feed grains as calculated under subparagraph (C)(ii) of the farm equal to more than 8 percent for each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (vii)), of such feed grain acreage of the farm for the crop, to conservation uses (except as provided in subparagraph (F))—

(I) such portion of the maximum payment acres of the farm in excess of 8 percent for each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (vii)), of such acreage devoted to conservation uses (except as provided in subparagraph (F)) shall be considered to be planted to feed grains for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D) of this section; and

(II) the producers shall be eligible for payments under this paragraph with respect to such acreage.

(ii) Deficiency payments

Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for feed grains for the farm to conservation uses (or other uses as provided in subparagraph (F)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to feed grains and eligible for payments under this subparagraph for the crop at a per-bushel rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which feed grain producers may agree to participate in the program for the crop.

(iii) Adverse effect on agribusiness and other interests

The Secretary shall implement this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph,

the Secretary is authorized to restrict the total quantity of feed grain acreage that may be taken out of production under this subparagraph, taking into consideration the total quantity of acreage that has or will be removed from production under other price support, production adjustment, or conservation program activities. No restrictions on the quantity of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 1961 of this title as a result of a disaster that occurred during the crop year.

(iv) Crop acreage and payment yield

The feed grain crop acreage base and feed grain farm program payment yield of the farm shall not be reduced due to the fact that a portion of the permitted feed grain acreage of the farm was devoted to conserving uses (except as provided in subparagraph (F)) under this subparagraph.

(v) Limitation

Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to feed grains.

(vi) Conservation use acreage under other programs

Any acreage considered to be planted to feed grains in accordance with clauses (i) and (iv) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

(vii) Exceptions to 0/85

In the case of each of the 1994 through 1997 crops of feed grains, producers on a farm shall be eligible to receive deficiency payments as provided in clause (ii) if an acreage limitation program under subsection (e) of this section is in effect for the crop and—

(I)(aa) the producers have been determined by the Secretary (in accordance with section 1463(c) of this title) to be prevented from planting the crop or have incurred a reduced yield for the crop (due to a natural disaster); and

(bb) the producers elect to devote a portion of the maximum payment acres for feed grains (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the feed grain acreage, to conservation uses; or

(II) the producers elect to devote a portion of the maximum payment acres for feed grains (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the feed grain acreage, to alternative crops as provided in subparagraph (F).

(F) Alternative crops

(i) Industrial and other crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sweet sorghum, guar, castor beans, plantago ovato, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

(I) the production is not likely to increase the cost of the price support program; and

(II) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

(ii) Oilseeds

The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sunflowers, rapeseed, canola, safflower, flaxseed, mustard seed, sesame, crambe, and other minor oilseeds designated by the Secretary (excluding soybeans). In implementing this clause, the Secretary shall provide that, in order to receive payments under subparagraph (E), the producers shall agree to forgo eligibility to receive a loan under section 1446f of this title for the crop of any such oilseed produced on the farm.

(iii) Double cropping

The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 1464(b)(1) of this title. The planting of soybeans as such subsequently planted crop shall be limited to farms determined by the Secretary to have an established his-

tory of double cropping soybeans during at least 3 of the preceding 5 years. In implementing this clause, the Secretary shall require producers to agree to forego eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.

(2) Crop insurance requirement

A producer shall obtain catastrophic risk protection insurance coverage in accordance with section 1433f of this title.

(d) Payment yields

The farm program payment yields for farms for each crop of feed grains shall be determined under subchapter IV of this chapter.

(e) Acreage reduction programs

(1) In general

(A) Establishment

Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of corn, grain sorghum, barley, or oats, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of corn, grain sorghum, barley, or oats an acreage limitation program as described in paragraph (2).

(B) Agricultural resources conservation program

In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

(C) Announcements

If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall announce the program not later than September 30 prior to the calendar year in which the crop is harvested, except that in the case of the 1991 crop, the Secretary shall announce the program as soon as practicable after November 28, 1990.

(D) Adjustments

Not later than November 15 of the year previous to the year in which the crop is harvested, the Secretary may make adjustments in the program announced under subparagraph (C) if the Secretary determines that there has been a significant change in the total supply of feed grains since the program was first announced.

(E) Compliance

As a condition of eligibility for loans, purchases, and payments for any such crop of feed grains, except as provided in subsections (f) and (g) of this section and section 1464 of this title, the producers on a farm must comply with the terms and condi-

tions of the acreage limitation program and, if applicable, a land diversion program as provided in paragraph (5).

(F) Acreage limitation program for 1991 crop

In the case of the 1991 crop of corn, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to corn for harvest on a farm would be limited to the corn crop acreage base for the farm for the crop reduced by not less than 7.5 percent.

(G) Acreage limitation programs for 1992 through 1995 crops

In the case of each of the 1992 through 1995 crops of corn, if the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of corn to total disappearance of corn for the preceding marketing year will be—

(i) more than 25 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to corn for harvest on a farm would be limited to the corn crop acreage base for the farm for the crop reduced by not less than 10 percent nor more than 20 percent; or

(ii) equal to or less than 25 percent, the Secretary may provide for such an acreage limitation program under which the acreage planted to corn for harvest on a farm would be limited to the corn crop acreage base for the farm for the crop reduced by not more than 0 to 12.5 percent.

For the purpose of this subparagraph, the term "total disappearance" means all corn utilization, including total domestic, total export, and total residual disappearance.

(H) Acreage limitation program for 1991 through 1995 crops of oats

In the case of each of the 1991 through 1995 crops of oats, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to oats for harvest on a farm would be limited to the oat crop acreage base for the farm for the crop reduced by not more than 0 percent.

(2) Acreage limitation program

(A) Percentage reductions

Except as provided in paragraph (3), if a feed grain acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (from 0 to 20 percent) to the crop acreage base for corn, grain sorghum, barley, or oats, respectively, for each feed grain-producing farm.

(B) Compliance

Except as provided in subsection (g) of this section and section 1464 of this title, producers who knowingly produce a feed grain in excess of the respective permitted feed grain acreage for the farm shall be ineligible for feed grain loans, purchases, and payments with respect to that farm.

(C) Crop acreage bases

Feed grain crop acreage bases for each crop of feed grains shall be determined under subchapter IV of this chapter.

(D) Acreage devoted to conservation uses

A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the respective feed grain crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is hereafter in this subsection referred to as "reduced acreage". The remaining acreage is hereafter in this subsection referred to as "permitted acreage". Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 1464 of this title.

(E) Individual farm program acreage

Except as otherwise provided in subsection (c) of this section, the individual farm program acreage shall be the acreage planted on the farm to feed grains for harvest within the permitted feed grain acreage for the farm as established under this paragraph.

(F) Planting designated crops on reduced acreage**(i) "Designated crop" defined**

As used in this subparagraph, the term "designated crop" means a crop defined in section 1464(b)(1) of this title, excluding any program crop as defined in section 1462(3) of this title.

(ii) In general

Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

(iii) Limitations

If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) of this section shall be reduced, for each acre (or portion thereof) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

(G) Exception for malting barley

The Secretary may provide that no producer of malting barley shall be required as

a condition of eligibility for feed grain loans, purchases, and payments to comply with any acreage limitation under this paragraph if the producer has previously produced a malting variety of barley for harvest, plants barley only of an acceptable malting variety for harvest, and meets such other conditions as the Secretary may prescribe. The Secretary shall make an annual determination of whether to exempt such producers from compliance with any acreage limitation under this paragraph and shall announce such determination in the Federal Register.

(H) Corn and sorghum bases

Notwithstanding any other provision of this Act, with respect to each of the 1992 through 1995 crops of corn and grain sorghums—

(i) the Secretary shall combine the permitted acreages established under subparagraph (D) for a farm for a crop year for corn and grain sorghums;

(ii) for each crop year, the sum of the acreage planted and considered planted to corn and grain sorghum, as determined by the Secretary under this section and subchapter IV of this chapter, shall be prorated to corn and grain sorghum based on the ratio of the crop acreage base for the individual crop of corn or grain sorghum, as applicable, to the sum of the crop acreage bases for corn and grain sorghum established for each crop year; and

(iii) for each crop year, the sum of the corn and grain sorghum payment acres, as determined under subsection (c) of this section, shall be prorated to corn and grain sorghum based on the ratio of the maximum payment acres for the individual crop of corn or grain sorghum, as applicable, to the sum of the maximum payment acres for corn and grain sorghum established for each crop year.

(3) Targeted option payments**(A) In general**

Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of feed grains, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(E) of this section for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

(B) Payment options

If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of feed grains under an acreage limitation program in accordance with this paragraph.

(C) Increased acreage limitation option**(i) Increase in established price**

If the Secretary elects to carry out this paragraph, a producer shall be eligible to

receive an increase in the established price for corn under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers' corn acreage base above the acreage limitation percentage announced by the Secretary.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for corn by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers' corn acreage base.

(iii) Limitation

The acreage limitation percentage to be applied to the producers' corn acreage base shall not be increased by more than 5 percentage points for the 1991 crop and 10 percentage points for each of the 1992 through 1995 crops above the acreage limitation percentage announced by the Secretary for the crop or above 20 percent total for the crop.

(D) Decreased acreage limitation option

(i) Decrease in acreage limitation requirement

If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers' corn acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for corn under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for corn by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers' corn acreage base.

(iii) Limitation

A producer may not choose to decrease the acreage limitation percentage applicable to the producers' corn acreage base under this paragraph by more than one-half of the announced acreage limitation percentage.

(E) Other feed grains

The Secretary shall implement the program provided for by this paragraph for other feed grains similar to the manner in which the program is implemented for corn.

(F) Participation and production effects

Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary's determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(4) Administration

(A) Protection from weeds and erosion

The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

(B) Annual or perennial cover

(i) Required

(I) In general

Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of feed grains under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of feed grains, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

(II) Arid areas

Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 590h(b) of title 16 may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

(III) Approval of cover crops and practices

The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical

committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.

(ii) Multiyear program

(I) Cost-share assistance

If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is required to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

(II) Agreement of producer

If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with respect to the cover, the producer, under such terms and conditions as may be prescribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle G of title XII of the Food Security Act of 1985 [16 U.S.C. 3861 et seq.], shall agree to maintain the perennial cover for a minimum of 3 years.

(iii) Conserving crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

(C) Haying and grazing

(i) In general

Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(E) of this section, and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 590h(b) of title 16 for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

(ii) Natural disasters

In the case of a natural disaster, the Secretary may permit unlimited haying and

grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

(D) Water storage uses

(i) In general

The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 years subsequent to its conversion to water storage uses.

(ii) Limitations

Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

(E) Summer fallow

In determining the quantity of land to be devoted to conservation uses under an acreage limitation program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

(5) Land diversion payments

(A) In general

The Secretary may make land diversion payments to producers of feed grains, whether or not an acreage limitation program for feed grains is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of feed grains to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

(B) Amounts

The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

(C) Limitation on diverted acreage

The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

(6) Conservation practices**(A) Wildlife food plots or habitat**

The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

(B) Soil and water conservation practices

The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on acreage required to be devoted to conservation uses or on additional diverted acreage.

(C) Public accessibility

The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

(7) Participation agreements**(A) In general**

Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

(B) Modification or termination

The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of feed grains.

(8) Special oats plantings

In any crop year that the Secretary determines that projected domestic production of oats will not fulfill the projected domestic demand for oats, notwithstanding the foregoing provisions of this subsection, the Secretary—

(A) may provide that any reduced acreage may be planted to oats for harvest;

(B) may make program benefits (including loans, purchases, and payments) available under the annual program for oats under this section available to producers with respect to acreage planted to oats under this paragraph; and

(C) shall not make program benefits other than the benefits specified in subparagraph (B) available to producers with respect to acreage planted to oats under this paragraph.

(f) Inventory reduction payments**(1) In general**

The Secretary may, for each of the 1991 through 1995 crops of feed grains, make payments available to producers who meet the requirements of this subsection.

(2) Form

The payments may be made in the form of marketing certificates.

(3) Payments

Payments under this subsection shall be determined in the same manner as provided in subsection (b) of this section.

(4) Eligibility

A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

(A) agrees to forgo obtaining a loan or purchase agreement under subsection (a) of this section;

(B) agrees to forgo receiving payments under subsection (c) of this section;

(C) does not plant feed grains for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (e) of this section; and

(D) otherwise complies with this section.

(g) Pilot voluntary production limitation program**(1) In general**

Effective for the 1992 or 1993 crops (and, if the Secretary so determines, the 1994 and 1995 crops), if a feed grain acreage limitation program or a land diversion program is announced under subsection (e) of this section for such crops, the Secretary shall carry out a pilot program in at least 15 counties in at least 2 States where producers express an interest in participating in the pilot program under which the producers on a farm shall be considered to have met the requirements of such acreage limitation or land diversion program if the producers meet the requirements of the voluntary production limitation program established under this subsection.

(2) Limitation on marketing

In order to comply with the voluntary production limitation program, the producers on a farm must agree not to market, barter, donate, or use on the farm (including use as feed for livestock) in a marketing year a quantity of feed grains in excess of the feed grain pro-

duction limitation quantity for the farm for the marketing year.

(3) Production limitation quantity

For purposes of this subsection, the production limitation quantity for a farm for a marketing year for a crop shall equal the product obtained by multiplying—

(A) the acreage permitted to be planted to feed grains under the acreage reduction program or land diversion program in effect for the crop for the farm; by

(B) the higher of—

(i) the farm program payment yield for the farm; or

(ii) the average of the yield per harvested acre for feed grains for the farm for each of the 5 crop years immediately preceding the crop year during which the producers first participate in the program established under this subsection, excluding the crop years with the highest and lowest yield per harvested acre and any crop year in which the commodity was not planted on the farm.

(4) Terms and conditions

Producers on a farm who elect to participate in the program established under this subsection for a crop of feed grains shall—

(A) enter into an agreement with the Secretary providing that the producers shall comply with the program for the crop;

(B) not plant program commodities for harvest in a quantity in excess of the sum of the crop acreage bases for the farm; and

(C) be considered to have complied with the terms and conditions of the feed grain acreage reduction program or land diversion program for the crop, even though the acreage planted to feed grains on the farm exceeds the permitted acreage provided under the acreage reduction or land diversion program.

(5) Excess production

(A) In general

Any quantity of feed grains produced in a crop year on a farm in excess of the production limitation quantity for the farm may be stored by the producers for a period of not to exceed 5 marketing years and may be used only in accordance with this paragraph.

(B) Marketing in subsequent year

(i) Participants in program

Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess feed grains referred to in subparagraph (A) equal to the difference between the production limitation quantity for the farm for the crop year subsequent to the crop year in which the excess feed grains are produced less the quantity of feed grains produced on the farm during the crop year.

(ii) Participants in acreage reduction program

Producers on a farm who are participating in an acreage reduction or a land di-

version program for a crop of feed grains may market, barter, or use a quantity of the excess feed grains referred to in subparagraph (A) in an amount that reflects the quantity of feed grains that would be expected to be produced on acreage that the producers agree to devote to approved conservation uses (in excess of any acreage reduction or land diversion requirements) during a crop year, as determined by the Secretary.

(6) Duties of Secretary

In carrying out the pilot program established under this subsection, the Secretary—

(A) shall issue such regulations as are necessary to carry out the program;

(B) may require increased acreage reduction or land diversion requirements with respect to producers who have had excess feed grain production in order to allow the producers to market, barter, or use the production in subsequent years;

(C) shall take appropriate measures designed to prevent the circumvention of the program established under this subsection, including the imposition of penalties;

(D) may require producers who participate in the program for a crop, but who fail to comply with the terms and conditions of the program, to refund all or a part of any deficiency payments received with respect to the crop;

(E) may require the forfeiture to the Commodity Credit Corporation of any feed grains that are produced in excess of the production limitation quantity and that are not marketed, bartered, or used within 5 marketing years; and

(F) shall ensure equitable treatment for producers who participate in the pilot program if the Secretary allows increases (based on actual production levels) in the determination of farm program payment yields for feed grains for the farm.

(7) Report

(A) In general

The Comptroller General of the United States shall prepare a report that evaluates the pilot program carried out under this subsection.

(B) Submission

The Comptroller General shall submit a copy of the report required by subparagraph (A) to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Secretary.

(h) Equitable relief

(1) Loans, purchases, and payments

If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer

made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

(2) Deadlines and program requirements

The Secretary may authorize the county and State committees established under section 590h(b) of title 16 to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

(i) Regulations

The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

(j) Commodity Credit Corporation

The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(k) Assignment of payments

The provisions of section 590h(g) of title 16 (relating to assignment of payments) shall apply to payments under this section.

(l) Sharing of payments

The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

(m) Tenants and sharecroppers

The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(n) Cross-compliance

(1) In general

Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

(2) Compliance on other farms

The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the feed grains program with respect to any other farm operated by the producers.

(o) Public comment on feed grains program

(1) In general

In order to ensure that producers and consumers of feed grains are provided with reasonable opportunity to comment on the annual program determinations concerning the price support and acreage reduction program for each of the 1992 and subsequent crops of feed grains, the Secretary shall request public comment regarding the feed grains program in accordance with this subsection.

(2) Options

Not less than 60 days before the program is announced for a crop of feed grains under this section, the Secretary shall propose for public comment various program options for the crop of feed grains.

(3) Analyses

Each option proposed by the Secretary shall be accompanied by an analysis that includes the estimated planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that would likely result from each option.

(4) Estimates

In announcing the program for a crop of feed grains under this section, the Secretary shall include an estimate of the planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that is expected to result from the program as announced.

(p) Malting barley

(1) Assessment required

In order to help offset costs associated with deficiency payments made available under this section to producers of barley, the Secretary shall provide for an assessment for each of the 1991 through 1995 crop years to be levied on any producer of malting barley produced on a farm that is enrolled for the crop year in the production adjustment program under this section. The Secretary shall establish such assessment at not more than 5 percent of the value of the malting barley produced on program payment acres on the farm during each of the 1991 through 1995 crop years. The production per acre on which the assessment is based shall not be greater than the farm program payment yield.

(2) Value of malting barley

The Secretary may establish the value of such malting barley at the lesser of the State or national weighted average market price received by producers of malting barley for the first 5 months of the marketing year. In calculating the State or national weighted average market price, the Secretary may exclude the value of malting barley that is contracted for sale by producers prior to planting.

(3) Exception to assessment

In counties where malting barley is produced, participating barley producers may certify to the Secretary prior to computation of final deficiency payments that part or all of the producer's production was (or will be) sold or used for nonmalting purposes. The portion certified as sold or used for nonmalting purposes shall not be subject to the assessment. The Secretary may require producers to provide to the Secretary such documentation as the Secretary considers appropriate to carry out this paragraph.

(q) Price support for high moisture feed grains

(1) Recourse loans

Notwithstanding any other provision of law, effective for each of the 1991 through 1995 crops of feed grains, the Secretary (through the Commodity Credit Corporation) shall make available recourse loans, as determined by the Secretary, to producers on a farm who—

(A) normally harvest all or a portion of their crop of feed grains in a high moisture

state, hereinafter in this subsection defined as a feed grain having a moisture content in excess of Commodity Credit Corporation standards for loans made by the Secretary under paragraphs (1) and (6) of subsection (a) of this section;

(B)(i) present certified scale tickets from an inspected, certified commercial scale, including licensed warehouses, feedlots, feed mills, distilleries, or other similar entities approved by the Secretary, pursuant to regulations issued by the Secretary; or

(ii) present field or other physical measurements of the standing or stored feed grain crop in regions of the country, as determined by the Secretary, that do not have certified commercial scales from which certified scale tickets may be obtained within reasonable proximity of harvest operation;

(C) certify that they were the owners of the feed grain at the time of delivery to, and that the quantity to be placed under loan was in fact harvested on the farm and delivered to, a feedlot, feed mill, or commercial or on-farm high-moisture storage facility, or to such facilities maintained by the users of such high-moisture feed grain;

(D) comply with deadlines established by the Secretary for harvesting the feed grain and submit applications for loans within deadlines established by the Secretary; and

(E) participate in an acreage limitation program for the crop of feed grains established by the Secretary.

(2) Eligibility of acquired feed grains

The loans shall be made on a quantity of feed grains of the same crop acquired by the producer equivalent to a quantity determined by multiplying—

(A) the acreage of the feed grain in a high moisture state harvested on the producer's farm; by

(B) the lower of the farm program payment yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such high moisture feed grain was obtained.

(r) Crops

Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of feed grains.

Section, Pub. L. 101624, title IV, §404, Nov. 28, 1990, 104 Stat. 3419, related to price support for high moisture feed grains. See section 1444f(q) of this title.

§1445. Tobacco price support levels for 1960 and subsequent years

Notwithstanding any of the provisions of section 1441 of this title: (a) For the 1960 crop of any kind of tobacco for which marketing quotas are in effect, or for which marketing quotas are not disapproved by producers, the support level in cents per pound shall be the level at which the

1959 crop of such kind of tobacco was supported, or if marketing quotas were disapproved for the 1959 crop of such kind of tobacco, the level at which the 1959 crop of such kind of tobacco would have been supported if marketing quotas had been in effect. (b) For the 1961 crop and each subsequent crop of any kind of tobacco for which marketing quotas are in effect, or for which marketing quotas are not disapproved by producers, the support level in cents per pound shall be determined by adjusting the support level for the 1959 crop of such kind of tobacco, or if marketing quotas were disapproved for the 1959 crop of such kind of tobacco, the level at which the 1959 crop of such kind of tobacco would have been supported if marketing quotas had been in effect, by multiplying such support level for the 1959 crop by the ratio of (i) the average of the index of prices paid by farmers, including wage rates, interest, and taxes, as defined in section 1301(a)(1)(C) of this title, for the three calendar years immediately preceding the calendar year in which the marketing year begins for the crop for which the support level is being determined to (ii) the average index of such prices paid by farmers, including wage rates, interest, and taxes for the calendar year 1959.

(c) If acreage poundage or poundage farm marketing quotas are in effect under section 1314c or 1314e of this title, (1) price support shall not be made available on tobacco marketed in excess of 103 per centum of the marketing quota (after adjustments) for the farm on which such tobacco was produced, and (2) for the purpose of price-support eligibility, tobacco carried over from one marketing year to another shall, when marketed, be considered tobacco of the then current crop.

(d) Notwithstanding the provisions of section 1423 of this title, if the Secretary determines that the supply of any grade of any kind of tobacco of a crop for which marketing quotas are in effect or are not disapproved by producers will likely be excessive, the Secretary, after prior consultation with the association through which price support for the grade and kind of tobacco is made available to producers, may reduce the support rate which would otherwise be established for such grade of tobacco after taking into consideration the effect such reduction may have on the supply and price of other grades of other kinds of quota tobacco: *Provided*, That the weighted average of the support rates for all eligible grades of such kind of tobacco shall, after such reduction, reflect not less than (1) 65 per centum of the increase in the support level for such kind of tobacco which would otherwise be established under this section, if the support level therefor is higher than the support level for the preceding crop, or (2) the support level for such kind of tobacco established under this section, if the support level therefor is not higher than the support level for the preceding crop. In determining whether the supply of any grade of any kind of tobacco of a crop will be excessive, the Secretary shall take into consideration the domestic supply, including domestic inventories, the amount of such tobacco pledged as security for price support loans, and anticipated domestic and export demand, based

on the maturity, uniformity and stalk position of such tobacco.

(e) Omitted

(f) Notwithstanding the foregoing provisions of this section—

(1) For the 1984 crop of Flue-cured tobacco, the support level shall be the level in cents per pound at which the 1982 crop was supported.

(2) For the 1985 crop of Flue-cured tobacco, the support level shall be the level in cents per pound at which the 1982 crop was supported, plus or minus, respectively, the amount by which (A) the support level for the 1985 crop, as determined under subsection (b) of this section, is greater or less than (B) the support level for the 1984 crop, as determined under subsection (b) of this section, as that difference may be adjusted by the Secretary under subsection (d) of this section if the support level under clause (A) is greater than the support level under clause (B), except that the support level for the 1985 crop shall be the level in cents per pound at which the 1982 crop was supported if the support level as determined under subsection (b) of this section for the 1985 crop would not be more than 5 per centum greater than the support level as determined under subsection (b) of this section for the 1984 crop.

(3) For the 1984 crop of any kind of tobacco (other than Flue-cured tobacco) for which marketing quotas are in effect or are not disapproved by producers and for the 1985 crop of any kind of tobacco (other than Flue-cured and Burley tobacco) for which marketing quotas are in effect or are not disapproved by producers, the Secretary shall establish the support level at such level as will not narrow the normal price support differential between Flue-cured tobacco and such other kind of tobacco. Before establishing the support level under this paragraph for any such kind of tobacco the Secretary shall publish in the Federal Register a notice of the level the Secretary proposes to establish and give an opportunity for the public to comment on the proposal. In determining the level to be established under this paragraph for a particular kind of tobacco, the Secretary shall take into consideration the cost of producing such kind of tobacco, the supply and demand conditions for such kind of tobacco, the comments received in response to the public notice of the proposal, and such other relevant factors as the Secretary determines appropriate.

(4) For the 1985 and 1986 crops of Burley tobacco, the support level shall be \$1.488 per pound.

(5) For the 1986 crop of Flue-cured tobacco, the support level shall be \$1.438 per pound.

(6)(A) Except as provided in subparagraph (B), for the 1986 and each subsequent crop of any kind of tobacco (other than Flue-cured and Burley tobacco) for which marketing quotas are in effect or are not disapproved by producers, the support level shall be the level in cents per pound at which the immediately preceding crop was supported, plus or minus, respectively, the amount by which—

(i) the support level for the crop for which the determination is being made, as deter-

mined under subsection (b) of this section; is greater or less than

(ii) the support level for the immediately preceding crop, as determined under subsection (b) of this section,

as that difference may be adjusted by the Secretary under subsection (d) of this section if the support level under clause (i) is greater than the support level under clause (ii).

(B) Notwithstanding subparagraph (A) and subsection (d) of this section, if requested by the board of directors of an association through which price support for the respective kind of tobacco specified in subparagraph (A) is made available to producers, the Secretary may reduce the support level for such kind of tobacco to the extent requested by the association to more accurately reflect the market value and improve the marketability of such tobacco.

(7)(A) For the 1987 and each subsequent crop of Flue-cured and Burley tobacco for which marketing quotas are in effect or are not disapproved by producers, the support level shall be the level in cents per pound at which the immediately preceding crop was supported, plus or minus, respectively, an adjustment of not less than 65 percent nor more than 100 percent of the total, as determined by the Secretary after taking into consideration the supply of the kind of tobacco involved in relation to demand, of—

(i) 66.7 percent of the amount by which—

(I) the average price received by producers for Flue-cured and Burley tobacco, respectively, on the United States auction markets, as determined by the Secretary, during the 5 marketing years immediately preceding the marketing year for which the determination is being made, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, is greater or less than

(II) the average price received by producers for Flue-cured and Burley tobacco, respectively, on the United States auction markets, as determined by the Secretary, during the 5 marketing years immediately preceding the marketing year prior to the marketing year for which the determination is being made, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period; and

(ii) 33.3 percent of the change, expressed as a cost per pound of tobacco, in the index of prices paid by tobacco producers from January 1 to December 31 of the calendar year immediately preceding the year in which the determination is made.

(B) For purposes of subparagraph (A)—

(i) the average market price for Burley tobacco for the 1985 marketing year shall be reduced by \$0.039 per pound;

(ii) the average market price for Burley tobacco for the 1984 and each prior applicable marketing year shall be reduced by \$0.30 per pound;

(iii) the average market price for Flue-cured tobacco for the 1985 marketing year shall be reduced by \$0.25 per pound;

(iv) the average market price for Flue-cured tobacco for the 1984 and each prior applicable marketing year shall be reduced by \$0.30 per pound; and

(v) the index of prices paid by tobacco producers shall include items representing general, variable costs of producing tobacco, as determined by the Secretary, but shall not include the cost of land, risk, overhead, management, purchase or leasing of quotas, marketing contributions or assessments, and other costs not directly related to the production of tobacco.

(g)(1) Effective only for each of the 1994 through 1998 crops of tobacco for which price support is made available under this Act, each producer and purchaser of such tobacco, and each importer of the same kind of tobacco, shall remit to the Commodity Credit Corporation a nonrefundable marketing assessment in an amount equal to—

(A) in the case of a producer or purchaser of domestic tobacco, .5 percent of the national price support level for each such crop; and

(B) in the case of an importer of tobacco, 1 percent of the national support price for the same kind of tobacco;

as provided for in this section.

(2) Such producer, purchaser, and importer assessments shall be—

(A) collected in the same manner as provided for in section 14451(d)(2) or 14452(d)(3) of this title, as applicable; and

(B) enforced in the same manner as provided in section 14451(h) or 14452(j) of this title, as applicable.

(3) The Secretary may enforce this subsection in the courts of the United States.

(Oct. 31, 1949, ch. 792, title I, §106, as added Feb. 20, 1960, Pub. L. 86389, §1, 74 Stat. 6; amended Apr. 16, 1965, Pub. L. 8912, §3, 79 Stat. 72; Apr. 14, 1971, Pub. Any such reduction shall not be taken into consideration in determining the support level for a subsequent crop of tobacco.

“(B) In lieu of making any such reduction, the Secretary may impose assessments on the producers and purchasers in an amount sufficient to realize a reduction in outlays equal to the amount that would have been achieved as a result of the reduction required under subparagraph (A). TOBACCO PROGRAM IMPROVEMENTS: CONGRESSIONAL FINDINGS AND STATEMENT OF PURPOSES

Section 1101 of subtitle B (§§11011112) of title I of Pub. L. 99272 provided that:

“(a) FINDINGS.—Congress finds that—

“(1) the maintenance of a viable tobacco price support and production adjustment program is in the interests of tobacco producers, purchasers of tobacco, persons employed directly or indirectly by the tobacco industry, and the localities and States whose economies and tax bases are dependent on the tobacco industry;

“(2) the present tobacco price support program is in jeopardy and in need of reform;

“(3) under present law, the levels of price support for tobacco have resulted in market prices for tobacco that are not competitive on the world market;

“(4) as a consequence, extremely large quantities of domestic tobacco have been put under loan and placed in the inventories of the producer-owned cooperative marketing associations that administer the tobacco price support program;

“(5) the increased inventories have led to a significant increase in the assessments producers are required to pay to maintain the tobacco price support program on a ‘no net cost’ basis;

“(6) such increasingly large assessments are creating a severe hardship on producers;

“(7) the existence of such large inventories poses a threat to the orderly marketing of future crops of tobacco;

“(8) inventories of producer associations must be significantly reduced or the tobacco price support program will collapse;

“(9) the Commodity Credit Corporation is threatened with substantial losses on disposition of these inventories should the tobacco price support program collapse;

“(10) it is imperative that such excess inventories of tobacco be disposed of, under the supervision of the Secretary of Agriculture, in a manner that—

“(A) will not disrupt the orderly marketing of new tobacco crops;

“(B) will minimize any losses to the Federal Government; and

“(C) will be fair and equitable to all tobacco producers and purchasers;

“(11) the mutual cooperation of tobacco producers, tobacco purchasers, producer associations, and the Secretary of Agriculture is necessary—

“(A) to restore the tobacco price support program to a stable condition; and

“(B) to prevent substantial losses to taxpayers that would result from the collapse of the program;

“(12) restoration of stability to the tobacco price support program through a sharing of the cost of that program by purchasers of tobacco along with producers of tobacco is necessary to prevent undue burdens on, or obstruction of, interstate and foreign commerce in tobacco; and

“(13) the system of grading tobacco should be thoroughly reviewed to ensure that grades are assigned to tobacco that properly state the quality of such tobacco.

“(b) PURPOSES.—The purposes of this subtitle [see Effective Date of 1986 Amendment note above] are—

“(1) to encourage cooperation among tobacco producers, tobacco purchasers, and the Secretary of Agriculture in reducing tobacco price support levels, assessment costs, the size of inventories of producer associations, and the exposure of taxpayers to large budget outlays;

“(2) to adjust the method by which price support levels and production quotas are calculated to reflect actual market conditions;

“(3) to facilitate the purchase and sale of Flue-cured and Burley tobacco presently in the inventories of producer associations through which producers of Flue-cured and Burley tobacco are provided price support;

“(4) to provide that purchasers and producers of domestic tobacco share equally in the cost of maintaining the tobacco price support program at no net cost to the taxpayers; and

“(5) to expedite reform of the system of grading tobacco so that grades assigned to tobacco more accurately reflect the quality of such tobacco.”

RULEMAKING PROCEDURES

Secretary of Agriculture to implement amendments by Pub. L. 99272 without regard to provisions requiring notice and other procedures for public participation in rulemaking contained in section 553 of Title 5, Government Organization and Employees, or in any other directive of the Secretary, see section 1108(c) of Pub. L. 99272, set out as a note under section 1301 of this title.

BURLEY TOBACCO IMPORTS; EFFECT ON PRICE-SUPPORT PROGRAM; REVIEW BY SECRETARY OF AGRICULTURE

Secretary of Agriculture to review the effects of imports of Burley tobacco on the Department's Burley-tobacco price-support program whenever the level of price support for any crop of Burley tobacco is increased by less than 65 per centum of the amount that it would have otherwise been increased if the level of price support would have been determined in accordance with subsec. (b) of this section, see section 625 of this title.

TOBACCO PROGRAM COST

Pub. L. 9798, title XI, §1109, Dec. 22, 1981, 95 Stat. 1266, required Secretary of Agriculture, by January 1982, to promulgate regulations and policies necessary to carry out intent of Congress that tobacco price support and production adjustment program result in no net cost to taxpayers other than such administrative expense as was incidental to implementation of any commodity program.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 625 of this title.

§14451. Producer contributions and purchaser assessments for No Net Cost Tobacco Fund

(a) Definitions

As used in the section—

(1) the term “association” means a producer-owned cooperative marketing association which has entered into a loan agreement with the Corporation to make price support available to producers;

(2) the term “Corporation” means the Commodity Credit Corporation, an agency and instrumentality of the United States within the Department of Agriculture through which the Secretary makes price support available to producers;

(3) the term “Fund” means the capital account to be established within each association, which account shall be known as the “No Net Cost Tobacco Fund”;

(4) the term “to market” means to dispose of quota tobacco by voluntary or involuntary sale, barter, exchange, gift inter vivos, or consigning the tobacco to an association for a price support advance;

(5) the term “net gains” means the amount by which total proceeds obtained from the sale by an association of a crop of quota tobacco pledged to the Corporation for price support loan exceeds the principal amount of the price support loan made by the Corporation to the association on such crop, plus interest and charges;

(6) the term “purchaser” means any person who purchases in the United States, either directly or indirectly for the account of such person or another person, Flue-cured or Burley quota tobacco; and

(7) the term “quota tobacco” means any kind of tobacco for which marketing quotas are in effect or for which marketing quotas are not disapproved by producers.

(b) Commodity Credit Corporation loans to associations

The Secretary may carry out the tobacco price support program through the Corporation and shall, except as otherwise provided by this section, continue to make price support available to producers through loans to associations that, under agreements with the Corporation, agree to make loan advances to producers.

(c) Establishment of No Net Cost Tobacco Funds

Each association shall establish within the association a Fund. The Fund shall be comprised of amounts contributed by producer-members or paid by or on behalf of purchasers and importers as provided in subsection (d) of this section.

(d) Requirements

The Secretary shall—

(1) require—

(A) that—

(i) as a condition of eligibility for price support, each producer of each kind of quota tobacco shall agree, with respect to all such kind of quota tobacco marketed by the producer from a farm, to contribute to the appropriate association, for deposit in the association's Fund, an amount determined from time to time by the association with the approval of the Secretary;

(ii) each purchaser of Flue-cured and Burley quota tobacco shall pay to the appropriate association, for deposit in the Fund of the association, an assessment, in an amount determined from time to time by the association with the approval of the Secretary, with respect to purchases of all such kind of tobacco marketed by a producer from a farm (including purchases of such tobacco from the 1986 and subsequent crops from the association); and

(iii) each importer of Flue-cured or Burley tobacco shall pay to the appropriate association, for deposit in the Fund of the association, an assessment, in an amount that is equal to the product obtained by multiplying—

(I) the number of pounds of tobacco that is imported by the importer; by

(II) the sum of the amount of per pound producer contributions and purchaser assessments that are payable by domestic producers and purchasers of Flue-cured and Burley tobacco under clauses (i) and (ii); and

(B) that, upon making a contribution under subparagraph (A)—

(i) in the case of quota tobacco marketed other than by consignment to an association for a price support advance, the producer shall receive from the association capital stock or, if the association does

not issue such stock, a capital certificate having a par value or face amount, respectively, equal to the contribution; and

(ii) in the case of quota tobacco consigned by the producer to an association for a price support advance, the producer shall receive from the association a qualified per unit retain certificate, as defined in section 1388(h) of title 26, having a face amount equal to the amount of the contribution and representing an interest in the association's Fund.

The amount of producer contributions and purchaser assessments shall be determined in such a manner that producers and purchasers share equally, to the maximum extent practicable, in maintaining the Fund of an association. In making such determination with respect to the assessment of a purchaser, only 1985 and subsequent crops of Flue-cured and Burley quota tobacco shall be taken into account. The Secretary shall approve the amount of the contributions and assessments determined by an association from time to time under this paragraph only if the Secretary determines that such amount will result in accumulation of a Fund adequate to reimburse the Corporation for any net losses which the Corporation may sustain under its loan agreements with the association, based on reasonable estimates of the amounts which the Corporation will lend to the association under such agreements and the proceeds which will be realized from the sales of tobacco which are pledged to the Corporation by the association as security for loans;

(2) require that any producer contribution or purchaser or importer assessment due under paragraph (1) shall be collected—

(A) from the person who acquired the tobacco involved from the producer, except that if the tobacco is marketed by sale, an amount equal to the producer contribution may be deducted by the purchaser from the price paid to such producer;

(B) if the tobacco involved is marketed by a producer through a warehouseman or agent, from such warehouseman or agent, who may—

(i) deduct an amount equal to the producer contribution from the price paid to the producer; and

(ii) add an amount equal to the purchaser assessment to the price paid by the purchaser;

(C) if the tobacco involved is marketed by a producer directly to any person outside the United States, from the producer, who may add an amount equal to the purchaser assessment to the price paid by the purchaser; and

(D) if the tobacco involved is imported by an importer, from the importer.¹

(3) require that the Fund established by each association shall be kept and maintained separate from all other accounts of the association and shall be used exclusively, as prescribed by the Secretary, for the purpose of ensuring, in-

sofar as practicable, that the Corporation, under its loan agreements with the association with respect to 1982 and subsequent crops of quota tobacco, will suffer no net losses (including, but not limited to, recovery of the amount of loans extended to cover the overhead costs of the association), after any net gains are applied to net losses of the corporation² under paragraph (5); *Provided*, That, notwithstanding any other provision of law, use by the association of moneys in the Fund, including interest and other earnings, for the purposes of reducing the association's outstanding indebtedness to the Corporation associated with 1982 and subsequent crops of quota tobacco and making loan advances to producers is authorized, and use of such moneys for any other purposes that will be mutually beneficial to producers and purchasers who contribute or pay to the Fund and to the Corporation, shall, if approved by the Secretary, be considered an appropriate use of the Fund;

(4) permit an association to invest the monies in the Fund in such manner as the Secretary may approve, and require that the interest or other earnings on such investment shall become a part of the Fund;

(5) require that loan agreements between the Corporation and the association provide that the Corporation shall retain the net gains from each of the 1982 and subsequent crops of tobacco pledged by the association as security for price support loans, and that such net gains will be used for the purpose of (A) offsetting any losses sustained by the Corporation under its loan agreements with the association for any of the 1982 and subsequent crops of loan tobacco, or (B) reducing the outstanding balance of any price support loan made by the Corporation to the association under such agreements for 1982 and subsequent crops of tobacco, or for both such purposes;

(6) effective for the 1982 through 1985 crops of quota tobacco, provide, in loan agreements between the Corporation and an association, that if the Secretary determines that the amount in the Fund or the net gains referred to in paragraph (5) exceed the amounts necessary for the purposes specified in this section, such excess (A) in the case of an association making price support available to producers of quota tobacco other than Burley tobacco, will be released to the association by the Corporation and may be devoted to other purposes by the association, and (B) in the case of an association making price support available to producers of Burley quota tobacco, will be released to the association by the Corporation and may be distributed, as determined by the association, to the producer-members of the association as a capital distribution or net gain distribution; and

(7) effective for the 1986 and subsequent crops of quota tobacco, provide, in loan agreements between the Corporation and an association, that if the Secretary determines that the amount in the Fund or the net gains referred to in paragraph (5) exceeds the amounts necessary for the purposes specified in this

section, the association, with the approval of the Secretary, may suspend the payment and collection of contributions and assessments under this section on terms and conditions established by the association, with the approval of the Secretary.

(e) Failure or refusal of association to comply

If any association which has entered into a loan agreement with the Corporation with respect to 1982 or subsequent crops of quota tobacco fails or refuses to comply with the provisions of this section, the regulations issued by the Secretary thereunder, or the terms of such agreement, the Secretary may terminate such agreement or provide that no additional loan funds may be made available thereunder to the association. In such event, the Secretary shall make price support available to producers of the kind or kinds of tobacco, the price of which had been supported through loans to such association, through such other means as are authorized by this Act or the Commodity Credit Corporation Charter Act [15 U.S.C. 714 et seq.].

(f) Termination of loan agreement; dissolution or merger of association; disposition of amounts in Fund

If, under subsection (e) of this section, a loan agreement with an association is terminated, or if an association having a loan agreement with the Corporation is dissolved, merges with another association, or otherwise ceases to operate, the Fund or the net gains referred to in subsection (d)(5) of this section shall be applied or disposed of in such manner as the Secretary may approve or prescribe, except that they shall, to the extent necessary, first be applied or used for the purposes therefor prescribed in this section.

(g) Regulations

The Secretary shall issue regulations necessary to carry out the provisions of this section.

(h) Failure to collect contribution or assessment; marketing penalty; civil action for review of penalty

(1)(A) Each person who fails to collect any contribution or assessment as required by subsection (d)(2) of this section and remit such contribution or assessment to the association, at such time and in such manner as may be prescribed by the Secretary, shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to 75 percent of the average market price (calculated to the nearest whole cent) for the kind of tobacco involved for the immediately preceding year on the quantity of tobacco as to which the failure occurs.

(B) Each importer who fails to pay to the association an assessment as required by subsection (d)(2) of this section at such time and in such manner as may be prescribed by the Secretary, shall be liable, in addition to any amount due, for a marketing penalty at a rate equal to 75 percent of the average market price (calculated to the nearest whole cent) for the respective kind of tobacco for the immediately preceding year on the quantity of tobacco as to which the failure occurs.

(C) The Secretary may reduce any such marketing penalty in such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person concerned.

(D) Any penalty provided for under this paragraph shall be assessed by the Secretary after notice and opportunity for a hearing.

(2)(A) Any person against whom a penalty is assessed under this subsection may obtain review of such penalty in an appropriate district court of the United States by filing a civil action in such court not later than 30 days after such penalty is imposed.

(B) The Secretary shall promptly file in such court a certified copy of the record on which the penalty is based.

(3) The district courts of the United States shall have jurisdiction to review and enforce any penalty imposed under this subsection.

(4) An amount equivalent to any penalty collected by the Secretary under this subsection shall be transmitted by the Secretary to the appropriate association, for deposit in the Fund of such association.

(5) The remedies provided in this subsection shall be in addition to, and not exclusive of, other remedies that may be available.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1314, 1314h, 1445, 14452 of this title.

§14452. Marketing assessments to No Net Cost Tobacco Account

(a) Definitions

As used in this section—

(1) the term "association" means a producer-owned cooperative marketing association which has entered into a loan agreement with the Corporation to make price support available to producers of a kind of tobacco;

(2) the term "Account" means an account established by and in the Corporation for an association, which account shall be known as the "No Net Cost Tobacco Account";

(3) the term "to market" means to dispose of tobacco by voluntary or involuntary sale, barter, exchange, gift inter vivos, or consigning the tobacco to an association for a price support advance;

(4) the term "net gains" means the amount by which total proceeds obtained from the sale by an association of a crop of a kind of tobacco pledged to the Corporation for price support loan exceeds the principal amount of the price support loan made by the Corporation to the association on such crop, plus interest and charges;

(5) the term "tobacco" means any kind of tobacco, as defined in section 1301(b)(15) of this title, for which marketing quotas are in effect or for which marketing quotas are not disapproved by producers;

(6) the term "area", when used in connection with an association, means the general geographical area in which farms of the producer-members of such association are located, as determined by the Secretary;

(7) the term "Corporation" shall have the meaning given to it in section 14451(a)(2) of this title; and

(8) the term "purchaser" means any person who purchases in the United States, either di-

rectly or indirectly for the account of such person or another person, Flue-cured or Burley quota tobacco.

(b) Continued availability of price support; establishment of No Net Cost Tobacco Account

Notwithstanding section 14451 of this title, the Secretary shall, upon the request of any association, and may, if the Secretary determines, after consultation with such association, that the accumulation of the No Net Cost Tobacco Fund for such association under section 14451 of this title is, and is likely to remain, inadequate to reimburse the Corporation for net losses which the Corporation sustains under its loan agreement with such association—

(1) continue to make price support available to producers through such association in accordance with loan agreements entered into between the Corporation and such association; and

(2) establish and maintain in accordance with this section a No Net Cost Tobacco Account for such association in lieu of the No Net Cost Tobacco Fund established within such association under section 14451 of this title.

(c) Establishment of No Net Cost Tobacco Account within Commodity Credit Corporation; disposition of amounts in No Net Cost Tobacco Fund

(1) Any Account established for an association under subsection (b)(2) of this section shall be established within the Corporation and shall be comprised of amounts paid by producers, purchasers, and importers under subsection (d) of this section.

(2) Upon the establishment of an Account for an association, any amount in the No Net Cost Tobacco Fund established within such association under section 14451 of this title shall be applied or disposed of in such manner as the Secretary may approve or prescribe, except that such amount shall, to the extent necessary, first be applied or used for the purposes therefor prescribed in such section.

(d) Payment of assessments to Corporation for deposit into Account; determination and adjustment of amounts; collection

(1)(A) If an Account is established for an association under subsection (b)(2) of this section, then the Secretary shall require (in lieu of any requirement under section 14451(d)(1) of this title) that each producer of the kind of tobacco involved whose farm is within such association's area shall, as a condition of eligibility for price support, agree, with respect to all of such kind of tobacco marketed by the producer from the farm, to pay to the Corporation, for deposit in such association's Account, marketing assessments as determined under paragraph (2) and collected under paragraph (3).

(B) The Secretary shall also require (in lieu of any requirement under section 14451(d)(1) of this title) that each purchaser of Flue-cured and Burley quota tobacco shall pay to the Corporation, for deposit in the Account of such association, an assessment, as determined under paragraph (2) and collected under paragraph (3), with respect to purchases of all such kind of tobacco

marketed by a producer from a farm (including purchases of such tobacco from the 1986 and subsequent crops from the association).

(C) The Secretary shall also require (in lieu of any requirement under section 14451(d)(1) of this title) that each importer of Flue-cured and Burley tobacco shall pay to the Corporation, for deposit in the Account of the association, an assessment, as determined under paragraph (2) and collected under paragraph (3), with respect to purchases of all such kinds of tobacco imported by the importer.

(2)(A) For purposes of paragraph (1), the Secretary shall determine and adjust from time to time, in consultation with such association, the amount of the marketing assessment which shall be imposed, as a condition of eligibility for price support, on each pound of the kind of tobacco involved marketed by a producer from a farm within such association's area and the amount of the assessment to be paid by purchasers of tobacco. The amount of the assessment to be paid by producers and purchasers shall be determined in such a manner that producers and purchasers share equally, to the maximum extent practicable, in maintaining the Account of an association. In making such determination with respect to the assessment of a purchaser, only 1985 and subsequent crops of Flue-cured and Burley quota tobacco shall be taken into account. The amount of the assessment shall be equal to an amount which, when collected, will result in an accumulation of an Account for such association adequate to reimburse the Corporation for any net losses which the Corporation may sustain under its loan agreements with such association, based on reasonable estimates of the amounts which the Corporation will lend to such association under such agreements and the proceeds which will be realized from the sales of the kind of tobacco involved which are pledged to the Corporation by such association as security for loans. Notwithstanding the foregoing provisions of this paragraph, the amount of any assessment that is determined by the Secretary for the 1986 and subsequent crops of Burley quota tobacco shall be determined without regard to any net losses that the Corporation may sustain under the loan agreements of the Corporation with such association with respect to the 1983 crop of such tobacco.

(B) With respect to the 1985 crop of Burley tobacco, for the purposes of paragraph (1), the marketing assessment shall not be more than 4 cents per pound.

(C) The amount of the assessment to be paid by importers shall be an amount that is equal to the product obtained by multiplying—

(i) the number of pounds of tobacco that is imported by the importer; by

(ii) the sum of the amount of per pound producer and purchaser assessments that are payable by domestic producers and purchasers of the respective kind of tobacco under this paragraph.

(3)(A) Except as provided in subparagraphs (B) and (C), any assessment to be paid by a producer or a purchaser under paragraph (1) shall be collected from the person who acquired the tobacco involved from such producer, except that if the

tobacco is marketed by sale, an amount equal to the producer assessment may be deducted by the purchaser from the price paid to such producer.

(B) If tobacco of the kind for which an Account is established is marketed by a producer through a warehouseman or agent, both the producer and the purchaser assessment shall be collected from such warehouseman or agent, who may—

(i) deduct an amount equal to the producer assessment from the price paid to the producer; and

(ii) add an amount equal to the purchaser assessment to the price paid by the purchaser.

(C) If tobacco of the kind for which an Account is established is marketed by a producer directly to any person outside the United States, both the producer and the purchaser assessment shall be collected from the producer, who may add an amount equal to the purchaser assessment to the price paid by the purchaser.

(D) If Flue-cured or Burley tobacco is imported by an importer, any importer assessment required by subsection (d) of this section shall be collected from the importer.

(e) Deposits into Account; insurance against net losses

Amounts deposited in an Account established for an association shall be used by the Secretary for the purpose of ensuring, insofar as practicable, that the Corporation under its loan agreements with such association will suffer, with respect to the crop involved, no net losses (including, but not limited to, recovery of the amount of loans extended to cover the overhead costs of the association), after any net gains are applied to net losses of the Corporation pursuant to subsection (h) of this section.

(f) Suspension of payment and collection of marketing assessments

The Secretary shall provide, in any loan agreement between the Corporation and an association for which an Account has been established under subsection (b)(2) of this section, that if the Secretary determines that the amount in such Account or the net gains referred to in subsection (h) of this section exceed the amounts necessary for the purposes of this section, then the Secretary, in consultation with such association, may suspend the payment and collection of marketing assessments under this section upon terms and conditions established by the Secretary.

(g) Disposition of amounts in Account in the event of termination of loan agreement or account or dissolution or merger of association

With respect to any association for which an Account is established under subsection (b)(2) of this section, if a loan agreement between the Corporation and such association is terminated, if such association is dissolved or merges with another association that has entered into a loan agreement with the Corporation to make price support available to producers of the kind of tobacco involved, or if such Account terminates by operation of law, then amounts in such Account and the net gains referred to in subsection (h) of this section shall be applied to or disposed of in such manner as the Secretary may pre-

scribe, except that they shall, to the extent necessary, first be applied to or used for the purposes therefor prescribed in this section.

(h) Net gains

The provisions of section 14451(d)(5) of this title relating to net gains shall apply to any loan agreement between an association and the Corporation entered into upon or after the establishment of an Account for such association under subsection (b)(2) of this section.

(i) Regulations

The Secretary shall issue regulations necessary to carry out the provisions of this section.

(j) Failure to collect assessment; marketing penalty; civil action for review of penalty

(1)(A) Each person who fails to collect any assessment as required by subsection (d)(3) of this section and remit such assessment to the Corporation, at such time and in such manner as may be prescribed by the Secretary, shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to 75 percent of the average market price (calculated to the nearest whole cent) for the kind of tobacco involved for the immediately preceding year on the quantity of tobacco as to which the failure occurs.

(B) Each importer who fails to pay to the Corporation an assessment as required by subsection (d) of this section at such time and in such manner as may be prescribed by the Secretary, shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to 75 percent of the average market price (calculated to the nearest whole cent) for the respective kind of tobacco for the immediately preceding year on the quantity of tobacco as to which the failure occurs.

(C) The Secretary may reduce any such marketing penalty in such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person concerned.

(D) Any penalty provided for under this paragraph shall be assessed by the Secretary after notice and opportunity for a hearing.

(2)(A) Any person against whom a penalty is assessed under this subsection may obtain review of such penalty in an appropriate district court of the United States by filing a civil action in such court not later than 30 days after such penalty is imposed.

(B) The Secretary shall promptly file in such court a certified copy of the record on which the penalty is based.

(3) The district courts of the United States shall have jurisdiction to review and enforce any penalty imposed under this subsection.

(4) An amount equivalent to any penalty collected by the Secretary under this subsection shall be transmitted by the Secretary to the Corporation, for deposit in the Account of the appropriate association.

(5) The remedies provided in this subsection shall be in addition to, and not exclusive of, other remedies that may be available.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1314, 1314h, 1445 of this title.

§14453. Purchase of inventory stock

Notwithstanding any other provision of law, in order to reduce or eliminate the excessive inventories of Flue-cured and Burley tobacco held by associations from the 1976 through 1984 crops, and in order to provide for the orderly disposition of such excessive inventories of tobacco in a manner that will not disrupt the orderly marketing of new tobacco crops and will minimize any losses to the Federal Government:

(a) Sale of inventory stock

(1) The producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Flue-cured tobacco shall offer to sell the stocks of Flue-cured tobacco of the association from the 1976 through 1984 crops as provided in this section.

(2) Each producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Burley tobacco shall offer to sell its stocks of Burley tobacco from the 1982 and 1984 crops as provided in this section.

(3)(A)(i) Not later than 30 days after April 7, 1986, the Commodity Credit Corporation shall acquire title to the Burley tobacco from the 1983 crop that is pledged as security for loans on such tobacco by calling the loans on such tobacco.

(ii) The Corporation shall, then, offer such tobacco for sale at such times, in such quantities, and subject to such conditions as the Corporation considers appropriate.

(B) If the Commodity Credit Corporation has not sold all of the stocks of the 1983 crop of Burley tobacco within 2 years from the date the Corporation calls the loans on such tobacco, the Corporation may offer to sell to domestic manufacturers of cigarettes the remaining stocks of such tobacco as provided in this section.

(b) Sale prices

(1)(A) The stocks of Flue-cured tobacco from the 1976 through 1984 crops shall be offered for

sale at the base prices, including carrying charges, in effect as of the date of the offer, reduced by—

- (i) 90 percent for Flue-cured tobacco from the 1976 through 1981 crops; and
- (ii) 10 percent for Flue-cured tobacco from the 1982 through 1984 crops.

(B) The purchasers of the stocks of Flue-cured tobacco from the 1976 through 1984 crops shall pay the full carrying charges that have accrued to such tobacco from the date of the offer made under this section to the date that such tobacco is removed from the inventory of the association.

(2)(A) The stocks of Burley tobacco from the 1982 crop shall be offered for sale at the listed base price in effect as of July 1, 1985.

(B) The stocks of Burley tobacco from the 1984 crop shall be offered for sale at the costs of the association for such tobacco as of April 7, 1986.

(C) The purchasers of the stocks of Burley tobacco from the 1982 crop shall pay the full carrying charges that have accrued to such tobacco.

(D) The purchasers of the stocks of Burley tobacco from the 1984 crop shall pay the full carrying charges that have accrued to such tobacco from April 7, 1986, to the date such tobacco is removed from the inventories of the associations.

(3)(A) After the 2-year period specified in subsection (a)(3)(B) of this section has expired, if the Commodity Credit Corporation offers to sell the stocks of the Corporation of Burley tobacco from the 1983 crop to domestic manufacturers of cigarettes, such stocks shall be offered for sale at the costs of the association, including carrying charges, as of the date on which the Corporation calls the loans on such tobacco, reduced by 90 percent.

(B) Neither tobacco producers nor tobacco purchasers shall be responsible for carrying charges that accrue to the 1983 crop of Burley tobacco after the date on which the Commodity Credit Corporation calls the loans on such tobacco.

(c) Terms of agreements

(1)(A) Each domestic manufacturer of cigarettes may enter into agreements to purchase inventory stocks of Flue-cured and Burley tobacco, in accordance with this section.

(B) To be eligible for the reductions in price specified in this section, such manufacturer shall enter into such agreements as soon as practicable, but not later than 90 days after April 7, 1986, except that, with respect to the 1983 crop of Burley tobacco, if the Corporation offers to sell the stocks of such tobacco pursuant to subsection (b)(3)(A) of this section, such agreements shall be entered into as soon as practicable, but not later than 90 days after the end of the 2-year period referred to in subsection (a)(3)(B) of this section.

(C)(i) Such agreements shall provide that, over a period of time, each participating domestic manufacturer of cigarettes shall purchase a percentage of the stocks of Flue-cured and Burley tobacco held—

(I) by the producer-owned cooperative marketing associations at the close of the 1984 marketing year; or

(II) in the case of the 1983 crop of Burley tobacco, by the Commodity Credit Corporation

at the time the Corporation offers such tobacco for sale to domestic manufacturers of cigarettes under this section.

(ii) The period of time referred to in clause (i) may not exceed—

(I) in the case of Flue-cured tobacco, 8 years from April 7, 1986;

(II) in the case of Burley tobacco from the 1982 and 1984 crops, 5 years from April 7, 1986; and

(III) in the case of the 1983 crop of Burley tobacco, 5 years from the end of the 2-year period referred to in subsection (a)(3)(B) of this section.

(2)(A)(i) The percentage to be purchased by each participating manufacturer shall be at least equal to the respective percentage of the participating manufacturer of the total quantity of net cigarettes manufactured for use as determined by the Secretary of Agriculture under this paragraph on the basis of the monthly reports (“Manufacturer of Tobacco Products—Monthly Reports”) submitted (on ATF Form 3068) by manufacturers of tobacco products to the Bureau of Alcohol, Tobacco and Firearms of the Department of the Treasury.

(ii) The Secretary of Agriculture shall request from the Secretary of the Treasury copies of such monthly reports necessary to make the determinations required under this section.

(iii) Notwithstanding any other provision of law, the Secretary of the Treasury may release and disclose such information to the Secretary of Agriculture.

(B) “Net cigarettes manufactured for use” shall be computed by subtracting—

(i) the cumulative figures entered for large and small cigarettes in item 16f of ATF Form 3068 (“Reduction to tobacco”); from

(ii) the cumulative figures entered for large and small cigarettes in item 7 of such form (“Manufactured”).

(C)(i) The percentage to be purchased by each participating manufacturer shall be determined—

(I) on April 7, 1986; and

(II) annually thereafter over the course of the respective buy-out periods specified in this subsection.

(ii) Such percentage shall be determined by dividing—

(I) the average net cigarettes manufactured by a manufacturer for use for the 12-month period immediately preceding the appropriate determination date (April 7, 1986, and annually thereafter over the course of the respective buy-out periods specified in this subsection); by

(II) the aggregate average net cigarettes manufactured by all domestic cigarette manufacturers for use for such 12-month period.

(D)(i) The quantity of tobacco to be purchased by each participating manufacturer shall be determined annually.

(ii) Such quantity shall be based on—

(I) the percentage of net cigarettes of a manufacturer manufactured for use, as determined under subparagraph (C); multiplied by

(II) the appropriate annual quantity to be withdrawn from the inventories of the associations or the Commodity Credit Corporation.

(iii) The appropriate annual quantity to be withdrawn from inventories shall be—

(I) 12½ percent of the inventories of Flue-cured tobacco from the 1976 through 1984 crops on hand on April 7, 1986;

(II) 20 percent of the inventories of Burley tobacco from the 1982 and 1984 crops on hand on April 7, 1986; and

(III) 20 percent of the inventories of Burley tobacco from the 1983 crop held by the Commodity Credit Corporation on the date that is 2 years after the call of the loans on such tobacco by the Corporation.

(E) Any purchases by a manufacturer from the inventories of the associations or from the Commodity Credit Corporation for a crop covered by this section in any year of the buy-out period that exceed the quantity of the purchases of the manufacturer required under the agreement, as determined under this section, shall be applied against future purchases required of such manufacturer.

(3) In carrying out this section, manufacturers may confer with one another and, separately or collectively, with associations, the Secretary of Agriculture, and the Commodity Credit Corporation, as may be necessary or appropriate to carry out this section and the purposes of this subtitle.¹

(d) Approval of agreements

(1)(A) Each agreement entered into under this section shall be submitted to the Secretary of Agriculture for review and approval.

(B) In the case of an agreement to purchase tobacco from the inventory of a producer association, the agreement shall be submitted by the association.

(C) No agreement may become effective until approved by the Secretary.

(2) The Secretary of Agriculture shall not approve any agreement submitted under this section unless the Secretary has determined that—

(A) the agreement—

(i) will not unduly impair or disrupt the orderly marketing of current and future tobacco crops during the term of the agreement; and

(ii) is otherwise consistent with the purposes of this subtitle;¹ and

(B) the price and other terms of sale are uniform and nondiscriminatory among various purchasers.

(e) Disclosure

The limitations on disclosure set forth in subsections (c) and (d) of section 1314g of this title shall apply to information submitted by domestic manufacturers of cigarettes under this section with respect to net cigarettes manufactured for use, including information provided on ATF Form 3068. Any officer or employee of the Department of Agriculture who violates such limitations on disclosure shall be subject to the penalties set forth in section 1314g(c)(4) of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1445 of this title.

§1445a. Wheat price support levels; “cooperator” defined

Notwithstanding the provisions of section 1441 of this title, beginning with the 1964 crop—

(1) Price support for wheat accompanied by domestic certificates shall be at such level not less than 65 per centum or more than 90 per centum of the parity price therefor as the Secretary determines appropriate, taking into consideration the factors specified in section 1421(b) of this title.

(2) Price support for wheat accompanied by export certificates shall be at such level not more than 90 per centum of the parity price therefor as the Secretary determines appropriate, taking into consideration the factors specified in section 1421(b) of this title.

(3) Price support for wheat not accompanied by marketing certificates shall be at such level, not in excess of 90 per centum of the parity price therefor, as the Secretary determines appropriate, taking into consideration competitive world prices of wheat, the feeding value of wheat in relation to feed grains, and the level at which price support is made available for feed grains.

(4) Price support shall be made available only to cooperators: and, if a commercial wheat-producing area is established for such crop, price support shall be made available only in the commercial wheat-producing area.

(5) Effective with respect to crops planted for harvest in the calendar year 1966 and any subsequent year, the level of price support for any crop of wheat for which a national marketing quota is not proclaimed or for which marketing quotas have been disapproved by producers shall be as provided in section 1441 of this title.

(6) A “cooperator” with respect to any crop of wheat produced on a farm shall be a producer who (i) does not knowingly exceed (A)

the farm acreage allotment for wheat on the farm or (B) except as the Secretary may by regulation prescribe, the farm acreage allotment for wheat on any other farm on which the producer shares in the production of wheat, and (ii) complies with the land-use requirements of section 1339 of this title, to the extent prescribed by the Secretary. Effective with respect to crops planted for harvest in the calendar year 1966 and any subsequent year, if marketing quotas are not in effect for the crop of wheat, a “cooperator” with respect to any crop of wheat produced on a farm shall be a producer who does not knowingly exceed the farm acreage allotment for wheat. No producer shall be deemed to have exceeded a farm acreage allotment for wheat if the entire amount of the farm marketing excess is delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone payment of the penalty, but the producer shall not be eligible to receive price support on such marketing excess. No producer shall be deemed to have exceeded the farm acreage allotment for wheat on any other farm, if such farm is exempt from the farm marketing quota for such crop under section 1335 of this title. No producer shall be deemed to have exceeded a farm acreage allotment for wheat if the production on the acreage in excess of the farm acreage allotment is stored pursuant to the provisions of section 1379c(b) of this title, but the producer shall not be eligible to receive price support on the wheat so stored.

1970—Pub. L. 91524 temporarily revised section into subsecs. (a) and (b) which provided for loans on wheat at such levels not in excess of the parity price as the Secretary determines appropriate, taking into consideration competitive world prices of wheat, the feeding value of wheat in relation to feed grains, and the level at which price support is made available for feed grains, provided that, if a set-aside program is in effect, program benefits would be made available only to producers who comply with such set-aside program, and

placed a floor on the loan of \$1.25 per bushel. See Effective and Termination Dates of 1970 Amendment note below.

1968—Subsec. (2). Pub. L. 90559 provided for a one year extension through 1970.

See Effective and Termination Dates of 1965 Amendment note below.

1964—Subsec. (1). Pub. L. 88297 substituted “domestic certificates” for “marketing certificates”.

Subsec. (4). Pub. L. 88297 redesignated former subsec. (3) as (4). Former subsec. (4) redesignated (5).

Subsec. (5). Pub. L. 88297 redesignated former subsec. (4) as (5) and inserted introductory phrase “Effective with respect to crops planted for harvest in the calendar year 1966 and any subsequent year,”. Former subsec. (5) redesignated (6).

Subsec. (6). Pub. L. 88297 redesignated former subsec. (5) as (6), struck out introductory clause “if marketing quotas are in effect for the crop of wheat”, struck out from cl. (i)(A) “or any other commodity” after “wheat”, substituted in cl. (i)(B) “the farm acreage allotment for wheat on any other farm on which the producer shares in the production of wheat” for “the farm acreage allotment on any other farm for any commodity in which he has an interest as a producer”, inserted “Effective with respect to crops planted for harvest in the calendar year 1966 and any subsequent year,” before “if marketing quotas”, and inserted provision for deeming a producer as not having exceeded a farm acreage allotment for wheat if the production on the acreage in excess of the farm acreage allotment is stored pursuant to section 1379c(b) of this title, but making the producer ineligible to receive price support on the wheat so stored.

EFFECTIVE AND TERMINATION DATES

Section 308 of Pub. L. 99198 provided that this section is effective only for the 1986 through 1990 crops of wheat.

§1445b3a. Loans, payments, and acreage reduction programs for 1991 through 1995 crops of wheat

(a) Loans and purchases

(1) In general

Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm loans and purchases for each of the 1991 through 1995 crops of wheat produced on the farm at such level as the Secretary determines will maintain the competitive relationship of wheat to other grains in domestic and export markets after taking into consideration the cost of producing wheat, supply and demand conditions, and world prices for wheat.

(2) Minimum loan and purchase level

Except as provided in paragraphs (3) and (4), the loan and purchase level determined under paragraph (1) shall not be less than 85 percent of the simple average price received by producers of wheat, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of wheat, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

(3) Adjustments to support level

(A) Stocks to use ratio

If the Secretary estimates for any marketing year that the ratio of ending stocks of wheat to total use for the marketing year will be—

(i) equal to or greater than 30 percent, the Secretary may reduce the loan and purchase level for wheat for the corresponding crop by an amount not to exceed 10 percent in any year;

(ii) less than 30 percent but not less than 15 percent, the Secretary may reduce the loan and purchase level for wheat for the corresponding crop by an amount not to exceed 5 percent in any year; or

(iii) less than 15 percent, the Secretary may not reduce the loan and purchase level for wheat for the corresponding crop.

(B) Report to Congress**(i) In general**

If the Secretary adjusts the level of loans and purchases for wheat under subparagraph (A), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

(I) certifying such adjustment as necessary to prevent the accumulation of stocks and to retain market share; and

(II) containing a description of the need for such adjustment.

(ii) Effective date of adjustment

The adjustment shall become effective no earlier than 60 calendar days after the date of submission of the report to the Committees, except that in the case of the 1991 crop of wheat, the adjustment shall become effective on the date of the submission of the report.

(C) Competitive position

Notwithstanding subparagraph (A), if the Secretary determines, not later than 60 days prior to the beginning of a marketing year for a crop, that the effective loan rate established for such crop will not maintain a competitive market position for wheat, the Secretary may reduce the loan and purchase level for wheat for the marketing year by an amount, in addition to any reduction under subparagraph (A), not to exceed 10 percent in any year.

(D) No effect on future years

Any reduction in the loan and purchase level for wheat under this paragraph shall not be considered in determining the loan and purchase level for wheat for subsequent years.

(E) Minimum loan rate

Notwithstanding subparagraph (A), the loan rate for wheat shall not be less than \$2.44 per bushel, unless such rate would exceed 80 percent of the 5-year average market price determination.

(4) Marketing loan provisions**(A) In general**

The Secretary may permit a producer to repay a loan made under this subsection for a crop at a level (except as provided in subparagraph (C)) that is the lesser of—

(i) the loan level determined for the crop;

(ii) the higher of—

(I) 70 percent of such level;

(II) if the loan level for a crop was reduced under paragraph (3), 70 percent of the loan level that would have been in effect but for the reduction under paragraph (3); or

(iii) the prevailing world market price for wheat (adjusted to United States quality and location), as determined by the Secretary.

(B) Prevailing world market price

If the Secretary permits a producer to repay a loan in accordance with subpara-

graph (A), the Secretary shall prescribe by regulation—

(i) a formula to determine the prevailing world market price for wheat, adjusted to United States quality and location; and

(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for wheat.

(C) Alternative repayment rates

For each of the 1991 through 1995 crops of wheat, if the world market price for wheat (adjusted to United States quality and location) as determined by the Secretary, is less than the loan level determined for the crop, the Secretary may permit a producer to repay a loan made under this subsection for a crop at such level (not in excess of the loan level determined for the crop) as the Secretary determines will—

(i) minimize potential loan forfeitures;

(ii) minimize the accumulation of wheat stocks by the Federal Government;

(iii) minimize the cost incurred by the Federal Government in storing wheat; and

(iv) allow wheat produced in the United States to be marketed freely and competitively, both domestically and internationally.

(5) Simple average price

For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

(b) Loan deficiency payments**(1) In general**

The Secretary may, for each of the 1991 through 1995 crops of wheat, make payments (hereafter in this section referred to as “loan deficiency payments”) available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a) of this section, agree to forgo obtaining the loan or agreement in return for payments under this subsection.

(2) Computation

A payment under this subsection shall be computed by multiplying—

(A) the loan payment rate; by

(B) the quantity of wheat the producer is eligible to place under loan (or obtain a purchase agreement) but for which the producer forgoes obtaining the loan or agreement in return for payments under this subsection.

(3) Loan payment rate

For purposes of this subsection, the loan payment rate shall be the amount by which—

(A) the loan level determined for the crop under subsection (a) of this section; exceeds

(B) the level at which a loan may be repaid under subsection (a) of this section.

(c) Payments; crop insurance requirement**(1) Deficiency payments****(A) In general**

The Secretary shall make available to producers payments (hereafter in this section

referred to as “deficiency payments”) for each of the 1991 through 1995 crops of wheat in an amount computed by multiplying—

- (i) the payment rate; by
- (ii) the payment acres for the crop; by
- (iii) the farm program payment yield established for the crop for the farm.

(B) Payment rate

(i) Payment rate for 1991 through 1993 crops

The payment rate for each of the 1991 through 1993 crops of wheat shall be the amount by which the established price for the crop of wheat exceeds the higher of—

- (I) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary; or
- (II) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) of this section for the marketing year for the crop of wheat.

(ii) Payment rate of 1994 and 1995 crops

The payment rate for each of the 1994 and 1995 crops of wheat shall be the amount by which the established price for the crop of wheat exceeds the higher of—

- (I) the lesser of—
 - (aa) the national weighted average market price received by producers during the marketing year for the crop, as determined by the Secretary; or
 - (bb) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 10 cents per bushel; or
- (II) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) of this section for the marketing year for the crop of wheat.

(iii) Minimum established price

The established price for wheat shall not be less than \$4.00 per bushel for each of the 1991 through 1995 crops.

(C) Payment acres

Payment acres for a crop shall be the lesser of—

- (i) the number of acres planted to the crop for harvest within the permitted acreage; or
- (ii) 85 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D) of this section).

(D) Emergency compensation

(i) In general

Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for wheat under subsection (a)(3) of this section, the Secretary shall provide emer-

gency compensation by increasing the deficiency payments for wheat by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made.

(ii) Calculation

In determining the payment rate, per bushel, for emergency compensation payments for a crop of wheat under this subparagraph, the Secretary shall use the national weighted average market price, per bushel of wheat, received by producers during the marketing year for the crop, as determined by the Secretary.

(iii) Deadlines for estimates and availability

Notwithstanding any other provision of this Act, the Secretary shall—

- (I) by December 1 of the marketing year for the crop, estimate the national weighted average market price, per bushel of wheat, received by producers during the marketing year;
- (II) by December 15 of the marketing year, use the estimate to make available to producers who have elected the payment option authorized by this clause not less than 75 percent of the increase in payments estimated to be payable with respect to the crop under this subparagraph; and
- (III) adjust the amount of each final payment for wheat to reflect any difference between the amount of any estimated payment made under this clause and the amount of actual payment due under this subparagraph.

(iv) Time for electing payment option

Producers shall elect the payment option authorized by clause (iii) at the time of entering into a contract to participate in the program established by this section for the crop.

(E) 0/85 program

(i) In general

If an acreage limitation program under subsection (e)(2) of this section is in effect for a crop of wheat and the producers on a farm devote a portion of the maximum payment acres for wheat as calculated under subparagraph (C)(ii) of the farm equal to more than 8 percent for each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (vii)), of such wheat acreage of the farm for the crop to conservation uses (except as provided in subparagraph (F))—

- (I) such portion of the maximum payment acres in excess of 8 percent for each of the 1991 through 1993 crops, and 15 percent for each of the 1994 through 1997 crops (except as provided in clause (vii)), of such acreage devoted to conservation uses (except as provided in subparagraph (F)) shall be considered to be planted to wheat for the purpose of

determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D) of this section; and

(II) the producers shall be eligible for payments under this paragraph with respect to such acreage.

(ii) Deficiency payments

Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for wheat for the farm to conservation uses (or other uses as provided in subparagraph (F)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to wheat and eligible for payments under this subparagraph for the crop at a per-bushel rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which wheat producers may agree to participate in the program for the crop.

(iii) Adverse effect on agribusiness and other interests

The Secretary shall implement this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph, the Secretary is authorized to restrict the total quantity of wheat acreage that may be taken out of production under this subparagraph, taking into consideration the total quantity of acreage that has or will be removed from production under other price support, production adjustment, or conservation program activities. No restrictions on the quantity of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 1961 of this title as a result of a disaster that occurred during the crop year.

(iv) Crop acreage and payment yield

The wheat crop acreage base and wheat farm program payment yield of the farm shall not be reduced due to the fact that a portion of the permitted wheat acreage of the farm was devoted to conserving uses (except as provided in subparagraph (F)) under this subparagraph.

(v) Limitation

Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to wheat.

(vi) Conservation use acreage under other programs

Any acreage considered to be planted to wheat in accordance with clauses (i) and

(iv) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

(vii) Exceptions to 0/85

In the case of each of the 1994 through 1997 crops of wheat, producers on a farm shall be eligible to receive deficiency payments as provided in clause (ii) if an acreage limitation program under subsection (e) of this section is in effect for the crop and—

(I)(aa) the producers have been determined by the Secretary (in accordance with section 1463(c) of this title) to be prevented from planting the crop or have incurred a reduced yield for the crop (due to a natural disaster); and

(bb) the producers elect to devote a portion of the maximum payment acres for wheat (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the wheat acreage, to conservation uses; or

(II) the producers elect to devote a portion of the maximum payment acres for wheat (as calculated under subparagraph (C)(ii)) equal to more than 8 percent of the wheat acreage, to alternative crops as provided in subparagraph (F).

(F) Alternative crops

(i) Industrial and other crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sweet sorghum, guar, castor beans, plantago ovato, triticale, rye, millet, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

(I) the production is not likely to increase the cost of the price support program; and

(II) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

(ii) Oilseeds

The Secretary shall permit, subject to such terms and conditions as the Sec-

retary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sunflowers, rapeseed, canola, safflower, flaxseed, mustard seed, sesame, crambe, and other minor oilseed designated by the Secretary (excluding soybeans). In implementing this clause, the Secretary shall provide that, in order to receive payments under subparagraph (E), the producers shall agree to forgo eligibility to receive a loan under section 1446f of this title for the crop of any such oilseed produced on the farm.

(iii) Double cropping

The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 1464(b)(1) of this title. The planting of soybeans as such subsequently planted crop shall be limited to farms determined by the Secretary to have an established history of double cropping soybeans during at least 3 of the preceding 5 years. In implementing this clause, the Secretary shall require producers to agree to forego eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.

(2) Crop insurance requirement

A producer shall obtain catastrophic risk protection insurance coverage in accordance with section 1433f of this title.

(d) Payment yields

The farm program payment yields for farms for each crop of wheat shall be determined under subchapter IV of this chapter.

(e) Acreage reduction programs

(1) In general

(A) Establishment

Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of wheat, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of wheat an acreage limitation program as described in paragraph (2).

(B) Agricultural resources conservation program

In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of

the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

(C) Announcements

If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall announce any such program not later than June 1 prior to the calendar year in which the crop is harvested, except that in the case of the 1991 crop, the Secretary shall announce the program as soon as practicable after November 28, 1990.

(D) Adjustments

Not later than July 31 of the year previous to the year in which the crop is harvested, the Secretary may make adjustments in the program announced under subparagraph (C) if the Secretary determines that there has been a significant change in the total supply of wheat since the program was first announced.

(E) Compliance

As a condition of eligibility for loans, purchases, and payments for any such crop of wheat, except as provided in subsections (f) and (g) of this section and section 1464 of this title, the producers on a farm must comply with the terms and conditions of the acreage limitation program and, if applicable, a land diversion program as provided in paragraph (5).

(F) Acreage limitation program for 1991 crop

In the case of the 1991 crop of wheat, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not less than 15 percent.

(G) Acreage limitation programs for 1992 through 1995 crops

In the case of each of the 1992 through 1995 crops of wheat, if the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of wheat to total disappearance of wheat for the preceding marketing year will be—

(i) more than 40 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not less than 10 percent nor more than 20 percent; or

(ii) equal to or less than 40 percent, the Secretary may provide for such an acreage limitation program under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not more than 0 to 15 percent.

For the purpose of this subparagraph, the term "total disappearance" means all wheat utilization, including total domestic, total export, and total residual disappearance.

(2) Acreage limitation program**(A) Percentage reductions**

Except as provided in paragraph (3), if a wheat acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (from 0 to 20 percent) to the wheat crop acreage base for the crop for each wheat-producing farm.

(B) Compliance

Except as provided in subsection (g) of this section and section 1464 of this title, producers who knowingly produce wheat in excess of the permitted wheat acreage for the farm shall be ineligible for wheat loans, purchases, and payments with respect to that farm.

(C) Crop acreage bases

Wheat crop acreage bases for each crop of wheat shall be determined under subchapter IV of this chapter.

(D) Acreage devoted to conservation uses

A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the wheat crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is hereafter in this subsection referred to as "reduced acreage". The remaining acreage is hereafter in this subsection referred to as "permitted acreage". Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 1464 of this title.

(E) Individual farm program acreage

Except as otherwise provided in subsection (c) of this section, the individual farm program acreage shall be the acreage planted on the farm to wheat for harvest within the permitted wheat acreage for the farm as established under this paragraph.

(F) Planting designated crops on reduced acreage**(i) "Designated crop" defined**

As used in this subparagraph, the term "designated crop" means a crop defined in section 1464(b)(1) of this title, excluding any program crop as defined in section 1462(3) of this title.

(ii) In general

Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

(iii) Limitations

If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) of this section shall be reduced, for each acre (or portion thereof) that is planted

to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

(3) Targeted option payments**(A) In general**

Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of wheat, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(E) of this section for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

(B) Payment options

If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of wheat under an acreage limitation program in accordance with this paragraph.

(C) Increased acreage limitation option**(i) Increase in established price**

If the Secretary elects to carry out this paragraph, a producer shall be eligible to receive an increase in the established price for wheat under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers' wheat acreage base above the acreage limitation percentage announced by the Secretary.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for wheat by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers' wheat acreage base.

(iii) Limitation

The acreage limitation percentage to be applied to the producers' wheat acreage

base shall not be increased by more than 10 percentage points for the 1991 crop and 15 percentage points for each of the 1992 through 1995 crops above the acreage limitation percentage announced by the Secretary for the crop or above 25 percent total for the crop.

(D) Decreased acreage limitation option

(i) Decrease in acreage limitation requirement

If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers' wheat acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for wheat under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

(ii) Method of calculation

For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for wheat by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers' wheat acreage base.

(iii) Limitation

A producer may not choose to decrease the acreage limitation percentage applicable to the producers' wheat acreage base under this paragraph by more than one-half of the announced acreage limitation percentage.

(E) Participation and production effects

Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary's determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(4) Administration

(A) Protection from weeds and erosion

The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

(B) Annual or perennial cover

(i) Required

(I) In general

Except as provided in subclause (II) and paragraph (2), a producer who par-

ticipates in an acreage reduction program established for a crop of wheat under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of wheat, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

(II) Arid areas

Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 590h(b) of title 16 may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

(III) Approval of cover crops and practices

The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.

(ii) Multiyear program

(I) Cost-share assistance

If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is required to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

(II) Agreement of producer

If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with re-

spect to the cover, the producer, under such terms and conditions as may be prescribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle G of title XII of the Food Security Act of 1985 [16 U.S.C. 3861 et seq.], shall agree to maintain the perennial cover for a minimum of 3 years.

(iii) Conserving crops

The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

(C) Haying and grazing

(i) In general

Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(E) of this section, and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 590h(b) of title 16 for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

(ii) Natural disasters

In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

(D) Water storage uses

(i) In general

The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 years subsequent to its conversion to water storage uses.

(ii) Limitations

Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is lo-

cated must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

(E) Summer fallow

In determining the quantity of land to be devoted to conservation uses under an acreage limitation program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

(5) Land diversion payments

(A) In general

The Secretary may make land diversion payments to producers of wheat, whether or not an acreage limitation program for wheat is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of wheat to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

(B) Amounts

The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

(C) Limitation on diverted acreage

The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

(6) Conservation practices

(A) Wildlife food plots or habitat

The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

(B) Soil and water conservation practices

The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on acreage required to be devoted to conservation uses or on additional diverted acreage.

(C) Public accessibility

The Secretary may provide for an additional payment on the acreage in an amount

determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

(7) Participation agreements

(A) In general

Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

(B) Modification or termination

The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of wheat.

(8) Special oats plantings

In any crop year that the Secretary determines that projected domestic production of oats will not fulfill the projected domestic demand for oats, notwithstanding the foregoing provisions of this subsection, the Secretary—

(A) may provide that any reduced acreage may be planted to oats for harvest;

(B) may make program benefits (including loans, purchases, and payments) available under the annual program for oats under section 1444f of this title available to producers with respect to acreage planted to oats under this paragraph; and

(C) shall not make program benefits other than the benefits specified in subparagraph (B) available to producers with respect to acreage planted to oats under this paragraph.

(f) Inventory reduction payments

(1) In general

The Secretary may, for each of the 1991 through 1995 crops of wheat, make payments available to producers who meet the requirements of this subsection.

(2) Form

The payments may be made in the form of marketing certificates.

(3) Payments

Payments under this subsection shall be determined in the same manner as provided in subsection (b) of this section.

(4) Eligibility

A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

(A) agrees to forgo obtaining a loan or purchase agreement under subsection (a) of this section;

(B) agrees to forgo receiving payments under subsection (c) of this section;

(C) does not plant wheat for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (e) of this section; and

(D) otherwise complies with this section.

(g) Pilot voluntary production limitation program

(1) In general

Effective for the 1992 or 1993 crops (and, if the Secretary so determines, the 1994 and 1995 crops), if a wheat acreage limitation program or a land diversion program is announced under subsection (e) of this section for such crops, the Secretary shall carry out a pilot program in at least 15 counties in at least 2 States where producers express an interest in participating in the pilot program under which the producers on a farm shall be considered to have met the requirements of such acreage limitation or land diversion program if the producers meet the requirements of the voluntary production limitation program established under this subsection.

(2) Limitation on marketing

In order to comply with the voluntary production limitation program, the producers on a farm must agree not to market, barter, donate, or use on the farm (including use as feed for livestock) in a marketing year a quantity of wheat in excess of the wheat production limitation quantity for the farm for the marketing year.

(3) Production limitation quantity

For purposes of this subsection, the production limitation quantity for a farm for a marketing year for a crop shall equal the product obtained by multiplying—

(A) the acreage permitted to be planted to wheat under the acreage reduction program or land diversion program in effect for the crop for the farm; by

(B) the higher of—

(i) the farm program payment yield for the farm; or

(ii) the average of the yield per harvested acre for wheat for the farm for each of the 5 crop years immediately preceding the crop year during which the producers first participate in the program established under this subsection, excluding the crop years with the highest and lowest yield per harvested acre and any crop year in which the commodity was not planted on the farm.

(4) Terms and conditions

Producers on a farm who elect to participate in the program established under this subsection for a crop of wheat shall—

(A) enter into an agreement with the Secretary providing that the producers shall comply with the program for the crop;

(B) not plant program commodities for harvest in a quantity in excess of the sum of the crop acreage bases for the farm; and

(C) be considered to have complied with the terms and conditions of the wheat acreage reduction program or land diversion program for the crop, even though the acreage planted to wheat on the farm exceeds the permitted acreage provided under the acreage reduction or land diversion program.

(5) Excess production

(A) In general

Any quantity of wheat produced in a crop year on a farm in excess of the production limitation quantity for the farm may be stored by the producers for a period of not to exceed 5 marketing years and may be used only in accordance with this paragraph.

(B) Marketing in subsequent year

(i) Participants in program

Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess wheat referred to in subparagraph (A) equal to the difference between the production limitation quantity for the farm for the crop year subsequent to the crop year in which the excess wheat is produced less the quantity of wheat produced on the farm during the crop year.

(ii) Participants in acreage reduction program

Producers on a farm who are participating in an acreage reduction or a land diversion program for a crop of wheat may market, barter, or use a quantity of the excess wheat referred to in subparagraph (A) in an amount that reflects the quantity of wheat that would be expected to be produced on acreage that the producers agree to devote to approved conservation uses (in excess of any acreage reduction or land diversion requirements) during a crop year, as determined by the Secretary.

(6) Duties of Secretary

In carrying out the pilot program established under this subsection, the Secretary—

(A) shall issue such regulations as are necessary to carry out the program;

(B) may require increased acreage reduction or land diversion requirements with respect to producers who have had excess wheat production in order to allow the producers to market, barter, or use the production in subsequent years;

(C) shall take appropriate measures designed to prevent the circumvention of the program established under this subsection, including the imposition of penalties;

(D) may require producers who participate in the program for a crop, but who fail to comply with the terms and conditions of the program, to refund all or a part of any deficiency payments received with respect to the crop;

(E) may require the forfeiture to the Commodity Credit Corporation of any wheat that is produced in excess of the production limitation quantity and that is not marketed, bartered, or used within 5 marketing years; and

(F) shall ensure equitable treatment for producers who participate in the pilot program if the Secretary allows increases (based on actual production levels) in the determination of farm program payment yields for wheat for the farm.

(7) Report

(A) In general

The Comptroller General of the United States shall prepare a report that evaluates the pilot program carried out under this subsection.

(B) Submission

The Comptroller General shall submit a copy of the report required by subparagraph (A) to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Secretary.

(h) Equitable relief

(1) Loans, purchases, and payments

If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

(2) Deadlines and program requirements

The Secretary may authorize the county and State committees established under section 590h(b) of title 16 to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

(i) Regulations

The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

(j) Commodity Credit Corporation

The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(k) Assignment of payments

The provisions of section 590h(g) of title 16 (relating to assignment of payments) shall apply to payments under this section.

(l) Sharing of payments

The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

(m) Tenants and sharecroppers

The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(n) Cross-compliance**(1) In general**

Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

(2) Compliance on other farms

The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the wheat program with respect to any other farm operated by the producers.

(o) Public comment on wheat program**(1) In general**

In order to ensure that producers and consumers of wheat are provided with reasonable opportunity to comment on the annual program determinations concerning the price support and acreage reduction program for each of the 1992 and subsequent crops of wheat, the Secretary shall request public comment regarding the wheat program in accordance with this subsection.

(2) Options

Not less than 60 days before the program is announced for a crop of wheat under this section, the Secretary shall propose for public comment various program options for the crop of wheat.

(3) Analyses

Each option proposed by the Secretary shall be accompanied by an analysis that includes the estimated planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that would likely result from each option.

(4) Estimates

In announcing the program for a crop of wheat under this section, the Secretary shall include an estimate of the planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that is expected to result from the program as announced.

(p) Special provisions for wheat planted in 1990

Effective with respect to producers of the 1991 crop of wheat that was planted in 1990, a producer may, when participating in the production adjustment program for the 1991 crop of wheat specified in this section elect to participate in the program with the following modifications:

(1) Deficiency payments

The producer's deficiency payment shall be the amount by which the established price for the crop of wheat exceeds the higher of—

(A) the lesser of—

(i) the national weighted average market price received by producers during the marketing year for the crop, as determined by the Secretary; or

(ii) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 10 cents per bushel; or

(B) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) of this section for the marketing year for the crop of wheat.

(2) Payment acres

The producer's payment acres shall be the lesser of—

(A) the number of acres planted to the crop for harvest within the permitted acreage; or

(B) 100 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D) of this section).

(q) Crops

Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of wheat.

EFFECTIVE AND TERMINATION DATES

Section 705 of Pub. L. 99198 provided that this section is effective only for the 1986 through 1990 crops of peanuts.

§1445c3. Price support program for 1991 through 1997 crops of peanuts

(a) Quota peanuts

(1) In general

The Secretary shall make price support available to producers through loans, purchases, and other operations on quota peanuts for each of the 1991 through 1997 crops.

(2) Support rates

The national average quota support rate for each of the 1991 through 1997 crops of quota peanuts shall be the national average quota support rate for the immediately preceding crop, adjusted to reflect any increase, during the calendar year immediately preceding the marketing year for the crop for which a level of support is being determined, in the national average cost of peanut production, excluding any change in the cost of land and the cost of any assessments required under subsection (g) of this section, except that in no event shall the national average quota support rate for any such crop exceed by more than 5 percent the national average quota support rate for the preceding crop.

(3) Inspection, handling, or storage

The levels of support so announced shall not be reduced by any deductions for inspection, handling, or storage.

(4) Location and other factors

The Secretary may make adjustments for location of peanuts and such other factors as are authorized by section 1423 of this title.

(5) Announcement

The Secretary shall announce the level of support for quota peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

(b) Additional peanuts

(1) In general

The Secretary shall make price support available to producers through loans, purchases, or other operations on additional peanuts for each of the 1991 through 1997 crops at such levels as the Secretary finds appropriate, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets, except that the Secretary shall set the support

rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of the peanuts.

(2) Announcement

The Secretary shall announce the level of support for additional peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

(c) Area marketing associations

(1) Warehouse storage loans

(A) In general

In carrying out subsections (a) and (b) of this section, the Secretary shall make warehouse storage loans available in each of the three producing areas (described in section 1446.95 of title 7 of the Code of Federal Regulations (January 1, 1989)) to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purpose of conducting the loan activities. The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and sections 1359 and 1359a of this title.

(B) Administrative and supervisory activities

The area marketing associations shall be used in administrative and supervisory activities relating to price support and marketing activities under this section and sections 1359 and 1359a of this title.

(C) Association costs

Loans made to the association under this paragraph shall include, in addition to the price support value of the peanuts, such costs as the area marketing association reasonably may incur in carrying out its responsibilities, operations, and activities under this section and sections 1359 and 1359a of this title.

(2) Pools for quota and additional peanuts

(A) In general

The Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by area and segregation for quota peanuts handled under loan and for additional peanuts placed under loan, except that separate pools shall be established for Valencia peanuts produced in New Mexico. Bright hull and dark hull Valencia peanuts shall be considered as separate types for the purpose of establishing the pools.

(B) Net gains

Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed only to producers who placed peanuts in the pool and shall be distributed in proportion to the value of the peanuts placed in the pool by each producer. Net gains for peanuts in each pool shall consist of the following:

(i) Quota peanuts

For quota peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool plus an amount from all additional pool gains equal to any loss on disposition of all peanuts in the pool for quota peanuts.

(ii) Additional peanuts

For additional peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts less any amount allocated to offset any loss on the pool for quota peanuts as provided in clause (i).

(d) Losses

Notwithstanding any other provision of this section:

(1) Quota peanuts placed under loan

Any distribution of net gains on additional peanuts (other than net gains on additional peanuts in separate type pools established under subsection (c)(2)(A) of this section for Valencia peanuts produced in New Mexico) shall be first reduced to the extent of any loss by the Commodity Credit Corporation on quota peanuts placed under loan.

(2) Quota loan pools**(A) Transfers from additional loan pools**

The proceeds due any producer from any pool shall be reduced by the amount of any loss that is incurred with respect to peanuts transferred from an additional loan pool to a quota loan pool by such producer under section 13581(b)(8) of this title.

(B) Other losses

Losses in area quota pools, other than losses incurred as a result of transfers from additional loan pools to quota loan pools under section 13581(b)(8) of this title, shall be offset by any gains or profits from pools in other production areas (other than separate type pools established under subsection (c)(2)(A) of this section for Valencia peanuts produced in New Mexico) in such manner as the Secretary shall by regulation prescribe.

(e) Disapproval of quotas

Notwithstanding any other provision of law, no price support may be made available by the Secretary for any crop of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 13581(d) of this title.

(f) Quality improvement**(1) Price support peanuts**

With respect to peanuts under price support loan, the Secretary shall—

(A) promote the crushing of peanuts at a greater risk of deterioration before peanuts of a lesser risk of deterioration;

(B) ensure that all Commodity Credit Corporation loan stocks of peanuts sold for domestic edible use must be shown to have been officially inspected by licensed Depart-

ment of Agriculture inspectors both as farmer stock and shelled or cleaned in-shell peanuts;

(C) continue to endeavor to operate the peanut price support program so as to improve the quality of domestic peanuts and ensure the coordination of activities under the Peanut Administrative Committee established under Marketing Agreement No. 146, regulating the quality of domestically produced peanuts (under the Agricultural Marketing Agreement Act of 1937 (7 U.S.C. 601 et seq.)); and

(D) ensure that any changes made in the price support program as a result of this subsection requiring additional production or handling at the farm level shall be reflected as an upward adjustment in the Department of Agriculture loan schedule.

(2) Exports and other peanuts

The Secretary shall require that all peanuts in the domestic market fully comply with all quality standards under Marketing Agreement No. 146. The Secretary shall ensure that peanuts produced for the export market meet quality standards established for the domestic market under Marketing Agreement No. 146.

(g) Marketing assessment**(1) In general**

The Secretary shall provide, by regulation, for a nonrefundable marketing assessment applicable to each of the 1991 through 1997 crops of peanuts. The assessment shall be made in accordance with this subsection and shall be on a per pound basis in an amount equal to 1 percent for each of the 1991 through 1993 crops, 1.1 percent for each of the 1994 and 1995 crops, 1.15 percent for the 1996 crop, and 1.2 percent for the 1997 crop, of the national average quota or additional peanut support rate per pound, as applicable, for the applicable crop. No peanuts shall be assessed more than 1 percent for each of the 1991 through 1993 crops, 1.1 percent for each of the 1994 and 1995 crops, 1.15 percent for the 1996 crop, and 1.2 percent for the 1997 crop, of the applicable support rate under this subsection.

(2) First purchasers**(A) In general**

Except as provided under paragraphs (3) and (4), the first purchaser of peanuts shall—

(i) collect from the producer a marketing assessment equal to the quantity of peanuts acquired multiplied by—

(I) in the case of each of the 1991 through 1993 crops, .5 percent of the applicable national average support rate;

(II) in the case of each of the 1994 and 1995 crops, .55 percent of the applicable national average support rate;

(III) in the case of the 1996 crop, .6 percent of the applicable national average support rate; and

(IV) in the case of the 1997 crop, .65 percent of the applicable national average support rate;

(ii) pay, in addition to the amount collected under clause (i), a marketing assess-

ment in an amount equal to the quantity of peanuts acquired multiplied by—

(I) in the case of each of the 1991 through 1993 crops, .5 percent of the applicable national average support rate; and

(II) in the case of each of the 1994 through 1997 crops, .55 percent of the applicable national average support rate; and

(iii) remit the amounts required under clauses (i) and (ii) to the Commodity Credit Corporation in a manner specified by the Secretary.

(B) "First purchaser" defined

For purposes of this subsection, the term "first purchaser" means a person acquiring peanuts from a producer except that in the case of peanuts forfeited by a producer to the Commodity Credit Corporation, such term means the person acquiring the peanuts from the Commodity Credit Corporation.

(3) Other private marketings

In the case of a private marketing by a producer directly to a consumer through a retail or wholesale outlet or in the case of a marketing by the producer outside of the continental United States, the producer shall be responsible for the full amount of the assessment and shall remit the assessment by such time as is specified by the Secretary.

(4) Loan peanuts

In the case of peanuts that are pledged as collateral for a price support loan made under this section, ½ of the assessment shall be deducted from the proceeds of the loan. The remainder of the assessment shall be paid by the first purchaser of the peanuts. For purposes of computing net gains on peanuts under this section, the reduction in loan proceeds shall be treated as having been paid to the producer.

(5) Penalties

If any person fails to collect or remit the reduction required by this subsection or fails to comply with such requirements for record-keeping or otherwise as are required by the Secretary to carry out this subsection, the person shall be liable to the Secretary for a civil penalty up to an amount determined by multiplying—

(A) the quantity of peanuts involved in the violation; by

(B) the national average quota peanut price support level for the applicable crop year.

(6) Enforcement

The Secretary may enforce this subsection in the courts of the United States.

(h) Crops

Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1997 crops of peanuts.

(a) In general

The Secretary shall formulate and administer a farmer owned reserve program under which producers of wheat and feed grains will be able to store wheat and feed grains when the commodities are in abundant supply, extend the time period for the orderly marketing of the commodities, and provide for adequate carry-over stocks to ensure a reliable supply of the commodities.

(b) Terms of program

(1) Price support loans

In carrying out this program, the Secretary shall provide extended price support loans for wheat and feed grains. An extended loan shall only be made to a producer after the expiration of a 9-month price support loan (hereinafter in this section referred to as the "original loan") made in accordance with this subchapter.

(2) Level of loans

Loans made under this section shall not be less than the then current level of support under the wheat and feed grain programs established under this subchapter.

(3) Other terms and conditions

The Secretary shall provide for—

(3) Rate of interest

The rate of interest charged participants in this program shall not be less than the rate of

interest charged by the Commodity Credit Corporation by the United States Treasury, except that the Secretary may waive or adjust the interest as the Secretary considers appropriate to effectuate the purposes of this section.

(d) Storage payments

(1) In general

The Secretary shall provide storage payments to producers for storage of wheat or feed grains under the program established in this section in such amounts and under such conditions as the Secretary determines appropriate to encourage producers to participate in the program.

(2) Timing

The Secretary shall make storage payments available to participants in this program at the end of each quarter.

(3) Duration

The Secretary shall cease making storage payments whenever the price of wheat or feed grains is equal to or exceeds 95 percent of the then current established price for the commodities, and for any 90-day period immediately following the last day on which the price of wheat or feed grains was equal to or in excess of 95 percent of the then current established price for the commodities.

(e) Emergencies

Notwithstanding any other provision of law, the Secretary may require producers to repay loans made under this section, plus accrued interest and such other charges as may be required by regulation prior to the maturity date thereof, if the Secretary determines that emergency conditions exist that require that the commodity be made available in the market to meet urgent domestic or international needs and the Secretary reports the determination and the reasons for the determination to the President, the Committee on Agriculture of the House of Representatives, and the Committee on Agriculture, Nutrition, and Forestry of the Senate at least 14 days before taking the action.

(f) Quantity of commodities in program

The Secretary may establish maximum quantities of wheat and feed grains that may receive loans and storage payments under this program as follows:

(1) The maximum quantities of wheat may not be established at less than 300 million bushels, nor more than 450 million bushels.

(2) The maximum quantities of feed grains may not be established at less than 600 million bushels, nor more than 900 million bushels.

(g) Announcement of program

(1) Time of announcement

The Secretary shall announce the terms and conditions of the producer storage program for a crop of wheat and feed grains by—

(A) in the case of wheat, December 15 of the year in which the crop of wheat was harvested; and

(B) in the case of feed grains, March 15 of the year following the year in which the crop of corn was harvested.

(2) Discretionary entry

The Secretary may make extended loans available to producers of wheat or feed grains if—

(A) the Secretary determines that the average market price for wheat or corn, respectively, for the 90-day period prior to the dates specified in paragraph (1) is less than 120 percent of the current loan rate for wheat or corn, respectively; or

(B) as of the appropriate date specified in paragraph (1), the Secretary estimates that the stocks-to-use ratio on the last day of the current marketing year will be—

(i) in the case of wheat, more than 37.5 percent; and

(ii) in the case of corn, more than 22.5 percent.

(3) Mandatory entry

The Secretary shall make extended loans available to producers of wheat or feed grains if the conditions specified in subparagraphs (A) and (B) of paragraph (2) are met for wheat or feed grains, respectively.

(4) Content of announcement

In the announcement, the Secretary shall specify the maximum quantity of wheat or feed grains to be stored under this program that the Secretary determines appropriate to promote the orderly marketing of the commodities.

(h) Discretionary exit

A producer may repay a loan extended under this section at any time.

(i) Reconcentration of grain

The Secretary may, with the concurrence of the owner of grain stored under this program, reconcentrate all such grain stored in commercial warehouses at such points as the Secretary considers to be in the public interest, taking into account such factors as transportation and normal marketing patterns. The Secretary shall permit rotation of stocks and facilitate maintenance of quality under regulations that assure that the holding producer or warehouseman shall, at all times, have available for delivery at the designated place of storage both the quantity and quality of grain covered by the producer's or warehouseman's commitment.

(j) Management of grain

Whenever grain is stored under this section, the Secretary may buy and sell at an equivalent price, allowing for the customary location and grade differentials, substantially equivalent quantities of grain in different locations or warehouses to the extent needed to properly handle, rotate, distribute, and locate the commodities that the Commodity Credit Corporation owns or controls. The purchases to offset sales shall be made within 2 market days following the sales. The Secretary shall make a daily list available showing the price, location, and quantity of the transactions.

(k) Use of Commodity Credit Corporation

The Secretary shall use the Commodity Credit Corporation, to the extent feasible, to fulfill the purposes of this section. To the maximum ex-

tent practicable consistent with the fulfillment of the purposes of this section and the effective and efficient administration of this section, the Secretary shall utilize the usual and customary channels, facilities, and arrangements of trade and commerce.

(l) Use of commodity certificates

Notwithstanding any other provision of law, if a producer has substituted purchased or other commodities for the commodities originally pledged as collateral for a loan made under this section, the Secretary may allow a producer to repay the loan using a generic commodity certificate that may be exchanged for commodities owned by the Commodity Credit Corporation, if the substitute commodities have been pledged as loan collateral and redeemed only within the same county.

(m) Additional authority

The authority provided by this section shall be in addition to other authorities available to the Secretary for carrying out producer loan and storage operations.

(n) Regulations

The Secretary of Agriculture shall issue such regulations as are necessary to carry out this section not later than 60 days after November 28, 1990.

(o) Review

In announcing the terms and conditions of the producer storage program under this section, the Secretary shall review standards concerning the quality of grain that shall be allowed to be stored under the program, and such standards should encourage only quality grain, as determined by the Secretary, to be pledged as collateral for such loans. The Secretary shall review inspection, maintenance, and stock rotation requirements and take the necessary steps to maintain the quality of such grain.

(p) Crops

Notwithstanding any other provision of law, this section shall become effective December 1, 1990.

Notwithstanding any other provision of this Act—

(a) The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage set aside or diverted from the production of a commodity for any crop year under this subchapter to be devoted to the production of any commodity (other than the commodities for which acreage is being set aside or diverted) for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuel, if the Secretary determines that such production is desirable in order to provide an adequate supply of commodities for such purpose, is not likely to increase the cost of the price support programs, and will not adversely affect farm income.

(b)(1) During any year in which there is no set-aside or diversion of acreage under this subchapter, the Secretary may formulate and administer a program for the production, subject to such terms and conditions as the Secretary may prescribe, of commodities for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuel, if the Secretary determines that such production is desirable in order to provide an adequate supply of commodities for such purpose, is not likely to increase the cost of the price support programs, and will not adversely affect farm income. Under the program, producers of wheat, feed grains, upland cotton, and rice shall be paid incentive payments to devote a portion of their acreage to the production of commodities for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuel.

(2) The payments under this subsection shall be at such rate or rates as the Secretary determines to be fair and reasonable, taking into consideration the participation necessary to ensure an adequate supply of the agricultural commodities for conversion into industrial hydrocarbons and blending with gasoline or other fossil fuels for use as motor or industrial fuels.

(3) The Secretary may issue such regulations as the Secretary deems necessary to carry out the provisions of this subsection.

(4) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subsection.

§1445j. Deficiency and land diversion payments

(a) Deficiency payments

(1) In general

If the Secretary establishes an acreage limitation program for any of the 1991 through 1997 crops of wheat, feed grains, upland cotton, or rice under this Act and determines that deficiency payments will likely be made for the commodity for the crop, the Secretary shall make advance deficiency payments available to producers for each of the crops.

(2) Terms and conditions

Advance deficiency payments under paragraph (1) shall be made to the producer under the following terms and conditions:

(A) Form

Such payments may be made available in the form of—

- (i) cash;
- (ii) commodities owned by the Commodity Credit Corporation and certificates redeemable in a commodity owned by the Commodity Credit Corporation, except that not more than 50 percent of the payments may be made in commodities or the certificates in the case of any producer; or
- (iii) any combination of clauses (i) and (ii).

(B) Commodities and certificates

If payments are made available to producers as provided for under subparagraph (A)(ii), such producers may elect to receive such payments either in the form of—

- (i) such commodities; or
- (ii) such certificates.

(C) Maturity

Such a certificate shall be redeemable for a period not to exceed 3 years from the date the certificate is issued.

(D) Storage

The Commodity Credit Corporation shall pay the cost of storing a commodity that may be received under such a certificate until such time as the certificate is redeemed.

(E) Timing

The payments shall be made available as soon as practicable after the producer enters into a contract with the Secretary to participate in such program.

(F) Amounts

The payments shall be made available in such amounts as the Secretary determines

appropriate to encourage adequate participation in the program, except that the amount may not exceed an amount determined by multiplying—

- (i) the estimated payment acreage for the crop; by
- (ii) the farm program payment yield for the crop; by
- (iii)(I) in the case of wheat and feed grains, not less than 40 percent, nor more than 50 percent, of the projected payment rate; and

(II) in the case of rice and upland cotton, not less than 30 percent, nor more than 50 percent, of the projected payment rate,

as determined by the Secretary.

(G) Repayment

If the deficiency payment payable to a producer for a crop, as finally determined by the Secretary under this Act, is less than the amount paid to the producer as an advance deficiency payment for the crop under this subsection, the producer shall repay an amount equal to the difference between the amount advanced and the amount finally determined by the Secretary to be payable to the producer as a deficiency payment for the crop concerned.

(H) Repayment requirement

If the Secretary determines under this Act that deficiency payments will not be made available to producers on a crop with respect to which advance deficiency payments already have been made under this subsection, the producers who received the advance payments shall repay the payments.

(I) Deadline

Any repayment required under subparagraph (G) or (H) shall be due at the end of the marketing year for the crop with respect to which the payments were made.

(J) Noncompliance

If a producer fails to comply with requirements established under the acreage limitation program involved after obtaining an advance deficiency payment under this subsection, the producer shall repay immediately the amount of the advance, plus interest thereon in such amount as the Secretary shall prescribe by regulation.

(3) Regulations

The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

(4) Commodity Credit Corporation

The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(5) Additional authority

The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary or the Commodity Credit Corporation under any other provision of law.

(b) Land diversion payments

If the Secretary makes land diversion payments under this Act to assist in adjusting the

total national acreage of any of the 1991 through 1995 crops of wheat, feed grains, upland cotton, or rice to desirable levels, the Secretary may make at least 50 percent of such payments available to a producer as soon as possible after the producer agrees to undertake the diversion of land in return for the payments.

(c) Timing of deficiency payments

In the case of deficiency payments made available to producers for any of the 1991 through 1997 crops of wheat and feed grains which payments are calculated as provided in section 1445b3a(c)(1)(B)(ii), 1445b3a(p), or 1444f(c)(1)(B)(ii) of this title, the Secretary shall make deficiency payments as follows:

(1) A portion of the deficiency payment shall be made in advance in accordance with subsection (a)(2) of this section.

(2) With respect to feed grains (excluding barley and oats), 75 percent of the final projected deficiency payment for the crop, reduced by the amount of the advance, shall be made available as soon as practicable after the end of the first 5 months of the applicable marketing year.

(3) With respect to wheat, barley, and oats, the final projected deficiency payment for the crop, reduced by the amount of the advance, shall be made available as soon as practicable after the end of the first 5 months of the applicable marketing year. Such projected payment shall be based on the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 10 cents per bushel with respect to wheat or 7 cents per bushel with respect to barley and oats.

(4) The remainder of the deficiency payments shall be made available at the end of the marketing year.

CALCULATION OF REFUNDS OF ADVANCE ESTABLISHED
PRICE PAYMENTS BY PRODUCERS OF 1988 OR 1989
CROPS OF FEED BARLEY

“(a) MANDATORY CALCULATION OF REFUND.—

“(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act [Nov. 28, 1990], the Secretary of Agriculture shall calculate, for informational purposes only (except as provided in the discretionary authority under subsection (b)), the amount of the refund of any advance deficiency payment a producer of barley who participated in the 1988 or 1989 Federal barley price support program would be required to make pursuant to section 107C of the Agricultural Act of 1949 (7 U.S.C. 1445b2) (as it existed immediately before the date of enactment of this Act) based on a formula which excludes malting barley from the market price calculations of barley used to determine the amount of refund of the advance deficiency payment required of the producer.

“(2) DISCLOSURE.—

“(A) TO THE PUBLIC.—The Secretary shall publish in the Federal Register—

“(i) the formula used to perform the calculations described in paragraph (1);

“(ii) the aggregate results that the use of the calculation would have pursuant to subsection (b), in terms of—

excess of the refund determined in accordance with this section;

“(ii) shall have the option to make the reimbursement in a lump sum or in installments;

“(iii) shall, not later than 90 days after the date of enactment of this Act, notify producers who are eligible to receive the reimbursement of their 1988 or 1989 advance deficiency payment refund under this section—

“(I) of the timing of the payment of the reimbursement (either in lump sum or in installments);

“(B) shall not withhold, in each of the 3 succeeding crop years, more than 1/3 of the farm program payments otherwise due to the producers, as a result of any delinquency in providing the refund; and

“(C) shall permit the producers to make the refund in three equal installments during each of the crop years 1990, 1991, and 1992, if the producers enter into an agreement to obtain multiperil crop insurance for each of the crop years, to the extent that the Secretary determines is similar to section 107 of the Disaster Assistance Act of 1989 (7 U.S.C. 1421 et seq.) [§107 of Pub. L. 10182, 7 U.S.C. 1421 note].

“(C) the producers reside in a county, or in a county that is contiguous to a county, where the Secretary of Agriculture has found that farming, ranching, or aquaculture operations have been substantially affected as evidenced by a reduction in normal production for the county of at least 30 percent during two of the three crop years 1988, 1989, and 1990 by a natural disaster or by a major disaster or emergency designated by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and

“(D) the total quantity of the 1988 or 1989 crop of the commodity that the producers were able to harvest is less than the result of multiplying 65 percent of the farm payment yield established by the Secretary for the crop by the sum of the acreage planted for the harvest and the acreage prevented from being planted (because of the disaster or emergency referred to in subparagraph (C)) for the crop.”

ADVANCE DEFICIENCY PAYMENTS

Pub. L. 99509, title I, §1021, Oct. 21, 1986, 100 Stat. 1877, required Secretary of Agriculture to make advance de-

(4) by such other methods as the Secretary determines appropriate to enable the producer to receive payments in an efficient, equitable, and expeditious manner so as to ensure that the producer receives the same total return as if the payments had been made in cash.

(c) Commodity certificates

The Secretary shall pay interest on the cash redemption of a commodity certificate issued by the Secretary to a producer who holds the certificate for at least 150 days. This subsection shall not apply with respect to commodity certificates issued in connection with the export enhancement program or the marketing promotion program established under the Agricultural Trade Act of 1978.

(a) The Secretary is authorized and directed to make available (without regard to the provisions of sections 1447 to 1449 of this title) price support to producers for oilseeds (including soybeans, sunflower seed, canola, rapeseed, safflower, flaxseed, mustard seed, and such other oilseeds as the Secretary may determine), sunflower seeds, honey, milk, sugar beets, and sugarcane in accordance with this subchapter.

(b) The price of honey shall be supported through loans, purchases, or other operations at a level not in excess of 90 per centum nor less than 60 per centum of the parity price thereof; and the price of tung nuts for each crop of tung nuts through the 1976 crop shall be supported through loans, purchases, or other operations at a level not in excess of 90 per centum nor less than 60 per centum of the parity price therefor: *Provided*, That in any crop year through the 1976 crop year in which the Secretary determines that the domestic production of tung oil will be less than the anticipated domestic demand for such oil, the price of tung nuts shall be supported at not less than 65 per centum of the parity price therefor.

(c) Except as provided in section 1446e of this title, the price of milk shall be supported at such level not in excess of 90 per centum nor less than 75 per centum of the parity price therefor as the Secretary determines necessary in order to assure an adequate supply of pure and wholesome milk to meet current needs, reflect changes in the cost of production, and assure a level of farm income adequate to maintain pro-

ductive capacity sufficient to meet anticipated future needs. Such price support shall be provided through the purchase of milk and the products of milk.

(d) Notwithstanding any other provision of law—

(1)(A) During the period beginning on January 1, 1986, and ending on December 31, 1990, the price of milk shall be supported as provided in this subsection.

(ii) The rate of price support for milk may not be reduced under clause (i) unless—

(II) the Secretary submits to Congress a certification, including a statement of facts in support of the certification of the Secretary, that reasonable contract offers were extended by the Secretary under such program but such offers were not accepted by a sufficient number of producers making reasonable bids for contracts to achieve such a reduction in production.

(E) If for any of the calendar years 1988, 1989, and 1990, the level of purchases of milk and the products of milk under this subsection (less sales under section 1427 of this title for unrestricted use), as estimated by the Secretary on January 1 of such calendar year, will not exceed 2,500,000,000 pounds (milk equivalent), the Secretary shall increase by 50 cents the rate of price support for milk in effect on such date.

(F) The price of milk shall be supported through the purchase of milk and the products of milk.

(2)(A) Beginning after March 31, 1986, the Secretary shall provide for a reduction to be made in the price received by producers for all milk produced in the United States and marketed by producers for commercial use.

(B) Except as provided in subparagraphs (E) and (F), the amount of the reduction under subparagraph (A) in the price received by producers shall be—

(i) the period beginning on April 1, 1986, and ending on December 31, 1986, 40 cents per hundredweight of milk marketed; and

(ii) during the first 9 months of 1987, 25 cents per hundredweight of milk marketed.

(C) The funds represented by the reduction in price, required under this paragraph to be applied to the marketings of milk by a producer, shall be collected and remitted to the Commodity Credit Corporation, at such time and in such manner as prescribed by the Secretary, by each person making payment to a producer for milk purchased from such producer, except that in the case of a producer who markets milk of the producer's own production directly to consumers, such funds shall be remitted directly to the Corporation by such producer.

(D) The funds remitted to the Corporation under this paragraph shall be considered as included in the payments to a producer of milk for purposes of the minimum price provisions of the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937.

(E)(i) In lieu of any reductions in payments made by the Secretary for the purchase of milk and the products of milk under this subsection during the period beginning March 1, 1986, and ending September 30, 1986, required under the order issued by the President on February 1, 1986, under section 252¹ of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99177) [2 U.S.C. 902], the Secretary shall increase the amount of the reduction required under subparagraph (A) during the period beginning April 1, 1986, and ending September 30, 1986, as the sole means of meeting any reductions required under the order in payments made by the Secretary for the purchase of milk and the products of milk under this subsection.

(ii) The aggregate amount of any increased reduction under clause (i) shall be equal, to the extent practicable, to the aggregate amount of the reduction that would otherwise be required under the order referred to in clause (i) in payments made by the Secretary for the purchase of milk and the products of milk under this subsection during the period beginning March 1, 1986, and ending September 30, 1986, except that the amount of any increased reduction under clause (i) may not exceed 12 cents per hundredweight of milk marketed.

(F)(i) The Secretary—

(I) notwithstanding the Balanced Budget and Emergency Deficit Control Act of 1985 and any order issued by the President under section 252¹ of such Act [2 U.S.C. 902] for a fiscal year; and

(II) in lieu of making any reduction in payments for the purchase of milk or the prod-

ucts of milk under this subsection during such fiscal year under any such order;

shall provide for the reduction (measured in cents per hundredweight of milk marketed) under subparagraph (A) during the period beginning on October 1 and ending on September 30 of such fiscal year as the sole means of achieving any reduction in budget outlays under the milk price-support program that otherwise would be required under either such order and only for the purpose of substituting for any reduction in payments made by the Secretary for the purchase of milk or the products of milk under either such order.

(ii) The aggregate amount of any reduction under subparagraph (A) resulting from the operation of clause (i) may not exceed the aggregate amount of the reduction in budget outlays under the milk price-support program, as estimated by the Secretary, that otherwise would have been achieved under either such order by reducing payments made by the Secretary for the purchase of milk or the products of milk under this subsection during such fiscal year.

(F)² During calendar year 1988, the Secretary shall provide for a reduction of 2½ cents per hundredweight to be made in the price received by producers for all milk produced in the United States and marketed by producers for commercial use.

(3)(A)(i) The Secretary shall establish and carry out under this paragraph a milk production termination program for the 18-month period beginning April 1, 1986.

(ii) Under the milk production termination program required under this subparagraph, the Secretary, at the request of any producer of milk in the United States who submits to the Secretary a bid, may offer to enter into a contract with the producer for the purpose of terminating the production of milk by the producer in return for a payment to be made by the Secretary.

(iii) For the 18-month period for which the milk production termination program under this subparagraph is in effect, the Secretary shall—

(I) as soon as practicable, determine the total number of dairy cattle the Secretary estimates will be marketed for slaughter as a result of such program; and

(II) by regulation specify marketing procedures to ensure that greater numbers of dairy cattle slaughtered as a result of the production termination program provided for in this section shall be slaughtered in each of the periods of April through August 1986, and March through August 1987 than for the other months of the program. Such procedures also shall ensure that such sales of dairy cattle for slaughter shall occur on a basis estimated by the Secretary that maintains historical seasonal marketing patterns. During such 18-month period, the Secretary shall limit the total number of dairy cattle marketed for slaughter under the program in excess of the historical dairy herd

culling rate to no more than 7 percent of the national dairy herd per calendar year.

(iv) Each contract made under this subparagraph shall provide that—

(I) the producer shall sell for slaughter or for export all the dairy cattle in which such producer owns an interest;

(II) during a period of 3, 4, or 5 years, as specified by the Secretary in each producer contract and beginning on the day the producer completes compliance with subclause (I), the producer neither shall acquire any interest in dairy cattle or in the production of milk nor acquire, or make available to any person, any milk production capacity of a facility that becomes available because of compliance by a producer with such subclause unless the Secretary shall by regulation otherwise permit; and

(III) if the producer fails to comply with such contract, the producer shall repay to the Secretary the entire payment received under the contract, including simple interest payable at a rate prescribed by the Secretary, which shall, to the extent practicable, reflect the cost to the Corporation of its borrowings from the Treasury of the United States, commencing on the date payment is first received under such contract.

(v) Any producer of milk who seeks to enter into a contract for payments under this paragraph shall provide the Secretary with (I) evidence of such producer's marketing history; (II) the size and composition of the producer's dairy herd during the period the marketing history is determined; and (III) the size and composition of the producer's dairy herd at the time the bid is submitted, as the Secretary deems necessary and appropriate.

(vi) Except as provided in subparagraph (D), no producer who commenced marketing of milk in the 15-month period ending March 31, 1986, shall be eligible to enter into a contract for payments under this subparagraph.

(vii) A contract entered into under this paragraph by a producer who by reason of death cannot perform or assign such contract may be performed or assigned by the estate of such producer.

(B) The Secretary may establish and carry out a milk diversion or milk production termination program for any of the calendar years 1988, 1989, and 1990 as necessary to avoid the creation of burdensome excess supplies of milk or milk products.

(C) In setting the terms and conditions of any milk diversion or milk production termination under this paragraph and of each contract made under this subparagraph, the Secretary shall take into account any adverse effect of such program or contracts on beef, pork, and poultry producers in the United States and shall take all feasible steps to minimize such effect.

(D) A producer who commenced marketing milk after December 31, 1984, shall be eligible to enter into a contract for payments under this subparagraph if such producer's entire milk production facility and entire dairy herd were transferred to the producer by reason of

a gift from, or the death of, a member or members of the family of the producer. The term "member of the family of the producer" means (i) an ancestor of the producer, (ii) the spouse of the producer, (iii) a lineal descendant of the producer, or the producer's spouse, or a parent of the producer, or (iv) the spouse of any such lineal descendant.

(E) Application for payment shall be made by producers through the county committees established under section 590h(b) of title 16.

(F) to (J) Repealed. Pub. L. 99198, title I, §101(b)(1), (2), Dec. 23, 1985, 99 Stat. 1363, 1365.

(K) Redesignated (E).

(L) Repealed. Pub. L. 99198, title I, §101(b)(2), Dec. 23, 1985, 99 Stat. 1365.

(M) A contract entered into under this paragraph by a producer who by reason of death cannot perform or assign such contract may be performed or assigned, in accordance with subparagraph (L), by the estate of such producer.

(N) If the provisions for reductions in the price received for milk marketed for commercial use as provided for in paragraph (2) are held to be invalid by any court, or the Secretary is restrained or enjoined by any court from implementing such provisions, the Secretary shall immediately suspend making any diversion payments under this paragraph for the period beginning with the date of such court action and shall resume making such payments only if such court action is overruled, stayed, or terminated.

(4) Each producer who markets milk and each person required to make payment to the Corporation under this subsection shall keep such records and make such reports, in such manner, as the Secretary determines necessary to carry out this subsection. The Secretary may make such investigations as the Secretary deems necessary for the effective administration of this subsection or to determine whether any person subject to the provisions of this subsection has engaged or is engaged or is about to engage in any act or practice that constitutes or will constitute a violation of any provision of this subsection or regulation issued under this subsection. For the purpose of such investigation, the Secretary may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any records that are relevant to the inquiry. Such attendance of witnesses and the production of any such records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpoena to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of witnesses and the production of records. Such court may issue an order requiring such person to appear before the Secretary to produce records or to give testimony on the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof. All process in any such case

may be served in the judicial district of which such person is an inhabitant or wherever such person may be found.

(5)(A) The district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, any provision of this subsection or any regulation issued under this subsection. Any such civil action authorized to be brought under this subsection shall be referred to the Attorney General for appropriate action. The Secretary is not required, however, to refer to the Attorney General minor violations of this subsection whenever the Secretary believes that the administration and enforcement of this subsection would be adequately served by suitable written notice or warning to any person committing such violation.

(B)(i) Each person as to whom there is a failure to make a reduction in the price of milk received by such person as required by paragraph (2) or who fails to remit to the Corporation the funds required to be collected and remitted by paragraph (2)(B) shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to the support price for milk in effect at the time the failure occurs on the quantity of milk as to which the failure applies. The Secretary may reduce any such marketing penalty in such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person concerned. Each person who knowingly violates any other provision of this subsection, or any regulation issued under this subsection, shall be liable for a civil penalty of not more than \$1,000 for each such violation. Any penalty provided for under this subparagraph shall be assessed by the Secretary after notice and opportunity for a hearing.

(ii) Each person who buys, from a producer with respect to whom there is in effect at the time of such sale a contract entered into under paragraph (3), one or more dairy cattle sold for slaughter or export, who knows that such cattle are sold for slaughter or export, and who fails to cause the slaughter or export of such cattle within a reasonable time after receiving such cattle shall be liable for a civil penalty of not more than \$5,000 with respect to each of such cattle.

(iii) Each person who retains or acquires an interest in dairy cattle or the production of milk in violation of a contract entered into under this paragraph shall be liable, in addition to any amount due under paragraph (3)(A)(iv), to a marketing penalty on the quantity of milk produced during the period in which such ownership is prohibited under the contract. Such penalty shall be computed at the rate or rates of the support price for milk in effect during the period in which the milk production occurred.

(iv) Each person who makes a false statement in a bid submitted under paragraph (3) as to (I) the marketings of milk for commercial use by the producer, or (II) the size or composition of the dairy herd that produced such

marketings, or (III) the size or composition of the dairy herd at the time the bid is submitted shall be subject, in addition to any amount due under paragraph (3)(A)(iv) or clause (iii) of this subparagraph, to a civil penalty of \$5,000 for each head of cattle to which such statement applied.

(v) Each person who makes a false statement as to the number of dairy cattle that was sold for slaughter or export under a contract under paragraph (3)(A) shall be subject, in addition to any amount due under paragraph (3)(A)(iv) or clause (iii) of this subparagraph, to a civil penalty of not more than \$5,000 for each head of cattle to which such statement applied.

(C) Any person against whom a penalty is assessed under subparagraph (B) may obtain review of such penalty in an appropriate district court of the United States by filing a civil action in such court not later than thirty days after such penalty is imposed. The Secretary shall promptly file in such court a certified copy of the record upon which the penalty is based. The findings of the Secretary may be set aside only if found to be unsupported by substantial evidence.

(D) The district courts of the United States shall have jurisdiction to review and enforce any penalty imposed under subparagraph (B).

(E) The remedies provided in this paragraph shall be in addition to, and not exclusive of, other remedies that may be available.

(F) In carrying out this subsection, the Secretary may, as the Secretary deems appropriate—

(i) use the services of State and county committees established under section 590h(b) of title 16; and

(ii) enter into agreements to use, on a reimbursable or nonreimbursable basis, the services of administrators of Federal milk marketing orders and State milk marketing programs.

(6) The term “United States” as used in paragraphs (2) and (3) of this subsection means the forty-eight contiguous States in the continental United States.

(7) The Secretary shall carry out this subsection through the Commodity Credit Corporation.

§1446b. Policy with regard to dairy products

The production and use of abundant supplies of high quality milk and dairy products are essential to the health and general welfare of the Nation: a dependable domestic source of supply of these foods in the form of high grade dairy herds and modern, sanitary dairy equipment is important to the national defense; and an economically sound dairy industry affects beneficially the economy of the country as a whole. It is the policy of Congress to assure a stabilized annual production of adequate supplies of milk and dairy products; to promote the increased use of these essential foods; to improve the domestic source of supply of milk and butterfat by encouraging dairy farmers to develop efficient production units consisting of high-grade, disease-free cattle and modern sanitary equipment; and to stabilize the economy of dairy farmers at a level which will provide a fair return for their

labor and investment when compared with the cost of things that farmers buy.

(b) Rate

During the period beginning on January 1, 1991, and ending on December 31, 1996, the price of milk shall be supported at a rate not less than \$10.10 per hundredweight for milk containing 3.67 percent milkfat.

(c) Purchases

(1) In general

The price of milk shall be supported through the purchase of milk and the products of milk produced in the 48 contiguous States.

(2) CCC bid prices

The Commodity Credit Corporation support purchase prices under this section for each of the products of milk (butter, cheese, and nonfat dry milk) announced by the Corporation shall be the same for all of that product sold by persons offering to sell the product to the Corporation. The purchase prices shall be sufficient to enable plants of average efficiency to pay producers, on average, a price not less than the rate of price support for milk in effect during a 12-month period under this subsection.

(3) Butter and nonfat dry milk

(A) Allocation of purchase prices

Subject to subparagraph (B), the Secretary may allocate the rate of price support between the purchase prices for nonfat dry milk and butter in a manner that will result in the lowest level of expenditures by the Commodity Credit Corporation or achieve such other objectives as the Secretary considers appropriate. The Secretary shall notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of the allocation.

(B) Guidelines

In the case of purchases of butter and nonfat dry milk that are made by the Secretary under this section on or after August 10, 1993, in allocating the rate of price support between the purchase prices of butter and nonfat dry milk under this paragraph, the Secretary may not—

- (i) offer to purchase butter for more than \$0.65 per pound; or
- (ii) offer to purchase nonfat dry milk for less than \$1.034 per pound.

(C) Timing of purchase price adjustments

The Secretary may make any such adjustments in the purchase prices for nonfat dry milk and butter the Secretary considers to be necessary not more than twice in each calendar year.

(d) Support rate adjustments**(1) Reductions****(A) In general**

Effective January 1 of each of the calendar years 1991 through 1996, if the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this section (less sales under section 1427 of this title for unrestricted use), as estimated by the Secretary by November 20 of the preceding calendar year, will exceed 5 billion pounds (milk equivalent, total milk solids basis), the Secretary shall decrease by an amount per hundredweight of at least \$0.25 but not more than \$0.50 the rate of price support for milk in effect for the calendar year.

(B) Prior notification

The Secretary shall, by November 20 of the preceding calendar year, notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of any proposed decrease in price support under this paragraph.

(2) Increases**(A) In general**

Effective January 1 of each of the calendar years 1991 through 1996, if the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this section (less sales under section 1427 of this title for unrestricted use), as estimated by the Secretary by November 20 of the preceding calendar year, will not exceed 3.5 billion pounds (milk equivalent, total milk solids basis), the Secretary shall increase by an amount per hundredweight of at least \$0.25 the rate of price support for milk in effect for the calendar year.

(B) Prior notification

The Secretary shall, by November 20 of the preceding calendar year, notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of any proposed increase in price support under this paragraph.

(3) No adjustments

If for any of the calendar years 1992 through 1996, the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this section (less sales under section 1427 of this title for unrestricted use), as estimated by the Secretary by November 20 of the preceding calendar year, will be less than 5 billion pounds (milk equivalent, total milk solids basis), but more than 3.5 billion pounds (milk equivalent, total milk solids basis), the Secretary shall not decrease the rate of price support for milk in effect for the calendar year.

(4) Minimum price

Notwithstanding any other provision of this section, in no event shall the price of milk be supported at less than \$10.10 per hundredweight.

(5) Administration**(A) Milk equivalent, total milk solids basis**

As used in this section, the term “milk equivalent, total milk solids basis”, of milk and the products of milk purchased by the Commodity Credit Corporation, shall be equal to the weighted-average of the milk equivalent (as computed on a milkfat basis and on a milk solids nonfat basis) of such products, with weighting factors equal to not more than 40 percent for the milk equivalent, milkfat basis, and not more than 70 percent for the milk equivalent, solids nonfat basis. The weighting factors shall total 100 percent.

(B) Level of purchases

In estimating the level of purchases of milk and the products of milk under this section, the Secretary shall deduct the amount, if any, by which the level of imports into the 48 contiguous States and the District of Columbia of milk and the products of milk during the most recent calendar year exceeds the annual average level of imports into the 48 contiguous States and the District of Columbia of milk and the products of milk during the period January 1, 1986, through December 31, 1990 (milk equivalent, total milk solids basis).

(e) Report on milk inventory management program**(1) In general**

(C) other such programs submitted to the Secretary under paragraph (2) as the Secretary may determine appropriate after consultation with the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(4) Prohibited programs

In the study required under paragraph (3), the Secretary shall not consider any milk inventory management program that includes any milk production termination program that is similar to the program established under section 1446(d)(3) of this title, or support price reductions below the levels established under this section.

(5) Criteria for evaluation

The Secretary shall evaluate the proposals for a milk inventory management program based on—

- (A) the ability of the program to limit Government purchases of milk products to 6,000,000,000 pounds (milk equivalent, total milk solids basis) in a calendar year;
- (B) the speed and effectiveness of reducing excess milk production;
- (C) the effectiveness in sustaining reduced milk production for at least a 5-year period with and without the continuation of the program;
- (D) the regional impact on milk prices, producer revenue, and milk supplies;
- (E) the impact on national producer income and Government expenditures;
- (F) the impact on the rural economy and maintaining family farms;

On August 1 and by November 20 of each of the calendar years 1991 through 1995, the Secretary shall notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate regarding the value and volume of dairy product purchases on a milk equivalent, total milk solids basis, the Secretary estimates that the Corporation will make during the upcoming calendar year.

(g) Excess purchases**(1) In general**

In order to offset any cost to the Commodity Credit Corporation associated with the purchase (less sales under section 1427 of this title for unrestricted use) of milk and the products of milk in excess of 7,000,000,000 pounds (milk equivalent, total milk solids basis), during any of the calendar years 1992 through 1996, the Secretary shall, if necessary, provide for a reduction to be made in the price received by producers for all milk produced in the 48 contiguous States and marketed by producers for commercial use.

(2) Calculation

If on November 20 of each of the calendar years 1991 through 1996, the Secretary esti-

mates that the level of Commodity Credit Corporation purchases (less sales under section 1427 of this title for unrestricted use) in the following calendar year of milk and the products of milk will exceed 7,000,000,000 pounds (milk equivalent, total milk solids basis), the amount of reduction in the price received by producers in such following calendar year shall be an amount per hundredweight calculated by dividing—

(A) the cost of the purchases (less sales under section 1427 of this title for unrestricted use) in excess of 7,000,000,000 pounds, milk equivalent, total milk solids basis; by

(B) the total quantity of hundredweights of milk the Secretary estimates will be produced and marketed in the United States for commercial use in such following calendar year.

(3) Adjustments

The Secretary shall adjust any such assessment in future years, or refund any portion of such assessments, as needed, to carry out the purposes of this subsection.

(h) Reduction in price received**(1) In general**

Beginning January 1, 1991, the Secretary shall provide for a reduction in the price received by producers for all milk produced in the 48 contiguous States and marketed by producers for commercial use, in addition to any reduction in price required under subsection (g) of this section.

(2) Amount

The amount of the reduction under paragraph (1) in the price received by producers shall be—

(A) during calendar year 1991, 5 cents per hundredweight of milk marketed;

(B) during each of the calendar years 1992 through 1995, 11.25 cents per hundredweight of milk marketed, which rate shall be adjusted on or before May 1 of each of the calendar years 1992 through 1995 by an amount per hundredweight that is necessary to compensate for refunds made under paragraph (3) on the basis of marketings in the previous calendar year; and

(C) during each of calendar years 1996 and 1997, 10 cents per hundredweight of milk marketed, which rate shall be adjusted on or before May 1 of the respective calendar year in the manner provided in subparagraph (B).

(3) Refund

The Secretary shall provide a refund of the entire reduction under paragraph (2) in the price of milk received by a producer during a calendar year, if the producer provides evidence that the producer did not increase marketings in the calendar year that such reduction was in effect when compared to the immediately preceding calendar year. A refund under this subsection shall not be considered as any type of price support or payment for purposes of sections 3811 and 3821 of title 16.

(i) Enforcement**(1) Collection**

Reductions in price required under subsection (g) or (h) of this section shall be col-

lected and remitted to the Commodity Credit Corporation in the manner prescribed by the Secretary.

(2) Penalties

If any person fails to collect or remit the reduction required by subsection (g) or (h) of this section or fails to comply with such requirements for recordkeeping or otherwise as are required by the Secretary to carry out such subsection, the person shall be liable to the Secretary for a civil penalty up to an amount determined by multiplying—

(A) the quantity of milk involved in the violation; by

(B) the support rate for the applicable calendar year for milk.

(3) Enforcement

The Secretary may enforce subsection (g) or (h) of this section in the courts of the United States.

(j) Use of Commodity Credit Corporation

The Secretary shall use the funds, facilities, and authorities of the Commodity Credit Corporation to carry out this section.

§1446e1. Milk manufacturing marketing adjustment

(a) In general

Effective beginning on the date that is 12 months after November 28, 1990, no State shall provide for (and no person shall collect, directly or indirectly) a greater allowance for the processing of milk (hereafter referred to as a “make allowance”) than is permitted under a Federal program to establish a Grade A price for manufacturing butter, nonfat dry milk, or cheese.

(b) Liability for penalties

the person shall be liable for penalties as determined by the Secretary in accordance with this subsection.

(c) Loan level

The loan level for each of the 1991 through 1995 crops of—

(2) sunflower seed, canola, rapeseed, safflower, mustard seed, and flaxseed, individually, shall not be less than \$0.089 per pound for each of the 1991 through 1993 crops and \$0.087 per pound for each of the 1994 through 1997 crops; and

(3) other oilseeds shall be established at such level as the Secretary determines is fair and reasonable in relation to the loan level available for soybeans, except in no event shall the level for such oilseeds (other than cottonseed) be less than the level established for soybeans on a per-pound basis for the same crop year.

To ensure that producers have an equitable opportunity to produce an alternative crop in areas of limited crop options, the Secretary may limit, insofar as practicable, adjustments in the loan rate established under paragraph (2) applicable to a particular region, State, or county for the purpose of reflecting transportation differentials such that the regional, State, or county loan rate does not increase or decrease by more than 9 percent from the basic national loan rate.

(d) Marketing loan provisions

(1) In general

The Secretary shall permit a producer to repay a loan made under this section for a crop—

(A) at a level that is the lesser of—

(i) the loan level determined for the crop; or

(ii) the prevailing world market price for the applicable oilseed (adjusted to United States quality and location), as determined by the Secretary; or

(e) Loan deficiency payment

(1) In general

The Secretary shall, for each of the 1991 through 1995 crops of oilseeds, make payments available to producers who, although eligible to obtain a loan under subsection (b) of this section, agree to forgo obtaining the loan in return for payments under this subsection.

(2) Computation

A payment under this subsection shall be computed by multiplying—

(A) the loan payment rate; by

(B) the quantity of oilseeds the producer is eligible to place under loan but for which the producer forgoes obtaining the loan in return for payments under this subsection.

(3) Loan payment rate

For purposes of this subsection, the loan payment rate shall be the amount by which—

(A) the loan level determined for the crop under subsection (c) of this section; exceeds

(B) the level at which a loan may be repaid under subsection (d) of this section.

(4) Marketing certificates

(A) In general

The Secretary may make payments under this section available in the form of certificates redeemable for any agricultural commodity owned by the Commodity Credit Corporation.

(B) Minimal oilseed stocks

The Secretary shall make certificates available under subparagraph (A) in such a manner so as to minimize the accumulation of oilseeds stocks.

(f) Marketing year

For purposes of this section, the marketing year for—

(1) soybeans shall be the 12-month period beginning on September 1 and ending on August 31; and

(2) other oilseeds shall be prescribed by the Secretary by regulation.

(1) in the case of each of the 1991 through 1993 crops, on the last day of the 9th month following the month the application for the loan is made; and

(2) in the case of each of the 1994 through 1997 crops, on the last day of the 9th month following the month the application for the loan is made, except that the loan may not mature later than the last day of the fiscal year in which the application is made.

(i) Other terms and conditions

Notwithstanding any other provision of law—

(1) the Secretary shall not require participation in any production adjustment program for oilseeds or any other commodity as a con-

dition of eligibility for price support for oilseeds;

(2) the Secretary may not authorize payments to producers to cover the cost of storing oilseeds; and

(3) oilseeds may not be considered an eligible commodity for any reserve program.

(j) Regulations

The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

(k) Commodity Credit Corporation

The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

(l) Assignment of payments

The Secretary shall charge a producer a loan origination fee for a crop of oilseeds, in connection with making a loan, equal to the product obtained by multiplying—

(A) the loan level determined for the crop under subsection (c) of this section; by

(B) 2 percent; by

(C) the quantity of oilseeds for which the producer obtains the loan.

(2) Loan deficiency payments

The Secretary shall deduct, from the amount of any loan deficiency payment made under subsection (e) of this section, an amount equal to the amount of the loan origination fee that would otherwise be paid under paragraph (1) if the producer obtained a loan rather a loan deficiency payment.

(3) Applicability

This subsection shall apply only to each of the 1991 through 1993 crops of oilseeds.

(n) Crops

Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of oilseeds.

(c) Sugar beets

The Secretary shall support the price of each of the 1991 through 1997 crops of domestically grown sugar beets through nonrecourse loans at such level for each such crop as the Secretary determines reflects—

(2) an amount that covers sugar beet processor fixed marketing expenses.

(d) Adjustment in support price

(1) In general

The Secretary may increase the support price for each of the 1991 through 1997 crops of domestically grown sugarcane and sugar beets from the price determined for the preceding crop based on such factors as the Secretary determines appropriate, including changes (during the 2 crop years immediately preceding the crop year for which the determination is made) in the cost of sugar products, the cost of domestic sugar production, and other circumstances that may adversely affect domestic sugar production.

(2) Report

If the Secretary makes a determination not to increase the support price under paragraph

The Secretary shall make available to eligible processors price support loans with respect to sugar processed from sugar beets and sugarcane harvested in the last 3 months of a fiscal year. Such loans shall mature at the end of the fiscal year. The processor may repledge the sugar as collateral for a price support loan in the subsequent fiscal year, except that the second loan shall—

- (1) be made at the loan rate in effect at the time the second loan is made; and

Effective only for marketings of raw cane sugar during the 1992 through 1996 fiscal years, the first processor of sugarcane shall remit to the Commodity Credit Corporation a non-refundable marketing assessment in an amount equal to—

(A) in the case of marketings during each of fiscal years 1992 through 1994, 1.0 percent of the loan level established under subsection (b) of this section per pound of raw cane sugar (but not more than .18 cents per pound of raw cane sugar), processed by the processor from domestically produced sugarcane or sugarcane molasses, that has been marketed (including the transfer or delivery of the sugar to a refinery for further processing or marketing); and

(B) in the case of marketings during each of fiscal years 1995 through 1998, 1.1 percent of the loan level established under subsection (b) of this section per pound of raw cane sugar (but not more than .198 cents per pound of raw cane sugar), processed by the processor from domestically produced sugarcane or sugarcane molasses, that has been marketed (including the transfer or delivery

of the sugar to a refinery for further processing or marketing).

EFFECTIVE DATE OF 1990 AMENDMENT

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 14412, 14442, 1444f, 1445b3a of this title.

§1463. Crop acreage bases

(a) Establishment

(1) In general

The Secretary shall provide for the establishment and maintenance of crop acreage

bases for each program crop, including any program crop produced under an established practice of double cropping.

(2) Limitation

The sum of the crop acreage bases on the farm may not exceed the cropland on the farm, except to the extent there is an established practice of double cropping on the farm.

(3) “Double cropping” defined

As used in this subsection, the term “double cropping” means a farming practice, as defined by the Secretary, that has been carried out on a farm during at least 3 of the 5 crop years immediately preceding the crop year for which the crop acreage base for the farm is established.

(b) Calculation

(1) In general

Except as provided in paragraph (2), the crop acreage base for each program crop for a farm for a crop year shall be the number of acres that is equal to the average of the acreage planted and considered planted to the program crop for harvest on the farm in each of the 5 crop years preceding the crop year.

(2) Cotton and rice

(A) In general

In the case of upland cotton and rice, except as provided in subparagraph (B), the crop acreage base for such crop shall be equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 3 crop years preceding such crop year.

(B) Exception

(i) 1991 crops

In the case of each of the 1991 crops of upland cotton and rice, if the producers on a farm did not participate in the production adjustment program established for the 1989 and 1990 crops of upland cotton and rice, respectively, the crop acreage base for the 1991 crop shall be equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 5 crop years preceding the 1991 crop year, excluding all crop years in which planted and considered planted acreage was not established for the farm. Any crop acreage base established in accordance with this subparagraph shall not exceed a number of acres equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 2 crop years preceding the 1991 crop year.

(ii) 1992 crops

In the case of each of the 1992 crops of upland cotton and rice, if the producers on a farm did not participate in the production adjustment program established for the 1990 and 1991 crops of upland cotton and rice, respectively, the crop acreage base for the 1992 crop shall be equal to the average of the acreage planted and considered planted to such crop for harvest on

the farm in each of the 5 crop years preceding the 1992 crop year, excluding all crop years in which planted and considered planted acreage was not established for the farm. Any crop acreage base established in accordance with this subparagraph shall not exceed a number of acres equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 2 crop years preceding the 1992 crop year.

(c) Acreage considered planted

For purposes of this Act, acreage considered planted to a program crop shall consist of—

(1) any reduced acreage and diverted acreage on the farm;

(2) any acreage on the farm that producers were prevented from planting to the crop because of drought, flood, or other natural disaster, or other condition beyond the control of the producers;

(3) acreage in an amount equal to the difference between the permitted acreage for a program crop and the acreage planted to the crop, if the acreage considered to be planted is devoted to conservation uses or the production of commodities permitted by the Secretary under the programs established for any of the 1991 through 1997 crops of wheat, feed grains, upland cotton, and rice established under sections 1445b3a(c)(1)(E), 1444f(c)(1)(E), 14442(c)(1)(D), and 14412(c)(1)(D) of this title, respectively;

(4) acreage in an amount equal to the difference between the permitted acreage for a program crop and the acreage planted to the crop, if the acreage considered to be planted is devoted to the production of commodities in accordance with section 1464 of this title;

(5) any acreage on the farm that the Secretary determines is necessary to be included in establishing a fair and equitable crop acreage base;

(6) acreage in an amount not to exceed 20 percent of the crop acreage base for a crop of feed grains or wheat if—

(A) the acreage is planted to dry peas,¹ (limited to Austrian peas, wrinkled, seed, green, yellow, and umatilla) and lentils; and

(B) payments are not received by producers under sections 1444f(c)(1)(E) and 1445b3a(c)(1)(E) of this title, as the case may be;

(7) the crop acreage base for the crop, if producers on the farm forgo receiving any payments under the program established under subchapter II of this chapter for the crop and certify that no acreage on the farm was planted to—

(A) the crop; or

(B) any fruit or vegetable crop (including potatoes and dry edible beans) not designated as an industrial or experimental crop by the Secretary, in excess of normal plantings; and

(8) any acreage on the farm for which the crop acreage base for the crop on the farm was

adjusted because of a condition or occurrence beyond the control of the producer pursuant to subsection (h) of this section.

(d) Construction of planting history

For the purpose of determining the crop acreage base for the 1991 and subsequent crop years for any farm, the county committee, in accordance with regulations prescribed by the Secretary, may construct a planting history for such crop if—

(1) planting records for such crop for any of the 5 crop years preceding such crop year are incomplete or unavailable; or

(2) during at least one but not more than 4 of the 5 crop years preceding such crop year, the program crop was not produced on the farm.

(e) Crop rotation and other factors

The Secretary shall make adjustments to reflect crop rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable crop acreage base, including adjustments necessary to enable producers to meet the requirements of title XII of the Food Security Act of 1985 (16 U.S.C. 3801 et seq.).

(f) Prevented planting

If a county committee determines, in accordance with regulations prescribed by the Secretary, that the occurrence of a natural disaster or other similar condition beyond the control of the producer prevented the planting of a program crop on any farm within the county (or substantially destroyed any such program crop after it had been planted but before it had been harvested), the producer may plant any other crop, including any other program crop, on the acreage of such farm that, but for the occurrence of such disaster or other condition, would have been devoted to the production of a program crop. For purposes of determining the crop acreage base, any acreage on the farm on which a substitute crop, including any program crop, is planted under this subsection shall be taken into account as if such acreage had been planted to the program crop for which the other crop was substituted.

(g) Subsequent crop years

A producer who is eligible to receive a deficiency payment for any program crop or crop of extra long staple cotton in any crop year with respect to a farm may not use the acreage planted or considered planted to any program crop or crop of extra long staple cotton on the farm in the crop year to increase any crop acreage base established for the farm in a subsequent crop year.

(h) Adjustment of bases

(1) In general

The county committee, in accordance with regulations prescribed by the Secretary, may adjust any crop acreage base for any program crop for any farm if the crop acreage base for the crop on the farm would otherwise be adversely affected by a condition or occurrence beyond the control of the producer.

¹So in original. The comma probably should not appear.

(2) Restoration of crop acreage base**(A) In general**

For the 1992 through 1997 crop years, the county committee shall allow an eligible producer to increase individual crop acreage bases on the farm, subject to subsection (a)(2) of this section, above the levels of base that would otherwise be established under this section, in order to restore the total of crop acreage bases on the farm for the 1992 through 1997 crop years to the same level as the total of crop acreage bases on the farm for the 1990 crop year.

(B) "Eligible producer" defined

For the purposes of this paragraph, the term "eligible producer" means a producer of upland cotton or rice who, the appropriate county committee determines—

- (i) was required to reduce one or more individual crop acreage bases on the farm during the 1991 crop year in order to comply with subsection (a)(2) of this section and the change in the calculation of cotton and rice crop acreage bases to a 3-year formula as provided in this section; and
- (ii) has participated in the price support program during the 1991 crop year and each subsequent crop year through the current crop year.

(C) Regulations

The Secretary shall issue regulations to carry out this paragraph.

§1464. Planting flexibility**(a) In general**

The producers on a farm may, in accordance with this section, plant for harvest on the crop acreage base established for a program crop a commodity, other than the specific program crop, without suffering a reduction in the crop acreage base as a result of the production.

Except as provided in paragraph (2), for purposes of this section, the commodities that may be planted for harvest on a crop acreage base are—

- (A) any program crop;
- (B) any oilseed;

- (E) mung beans.

(2) Limitation

For purposes of this section, the Secretary may, at the discretion of the Secretary, prohibit the planting on a crop acreage base of any crop specified in paragraph (1).

(3) Notification

If on January 1 of any calendar year the Secretary estimates that the national average price of soybeans during the following marketing year for soybeans would be less than 105 percent of the nonrecourse loan level for soybeans established in section 1446f of this title if soybeans were allowed to be planted on up to 25 percent of the crop acreage base under this section, the quantity of the crop acreage base that may be planted to soybeans under this section may not exceed 15 percent of the crop acreage base.

(d) Plantings in excess of permitted acreage

Notwithstanding any other provision of this Act, producers of a program crop who are participating in the production adjustment program for that program crop under this Act shall be allowed to plant that program crop in a quantity that exceeds the permitted acreage for that crop without losing their eligibility for loans, purchases, or payments with respect to that crop under this Act if—

(1) the acreage planted to the program crop on the farm in excess of the permitted acreage does not exceed 25 percent of the crop acreage bases on the farm for other program crops; and

(2) the producer agrees to a reduction in permitted acreage for the other program crops produced on the farm by a quantity equal to the overplanting.

(e) Loan eligibility**(1) In general**

Producers of a specific program crop (referred to in this subsection as the “original program crop”) who plant for harvest on the crop acreage base established for such original program crop another program crop in accordance with this section and who are not participants in the program established for such other program crop shall be eligible to receive loans, purchases, or loan deficiency payments for such other program crop on the same terms and conditions as are provided to participants in a production adjustment program established for such other program crop.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 14412, 14442, 1444f, 1445b3a, 1463 of this title.

§1465. Farm program payment yields**(a) Establishment**

The Secretary shall provide for the establishment of a farm program payment yield for each farm for each program crop for each crop year in accordance with subsection (b) or (c) of this section.

(b) Farm program payment yields based on 1990 crop year**(1) In general**

If the Secretary determines that farm program payment yields shall be established in accordance with this subsection, except as provided in paragraphs (2) and (3), the farm program payment yield for each of the 1991 through 1997 crop years shall be the farm program payment yield for the 1990 crop year for the farm.

(2) Additional yield payments

In the case of each of the 1991 through 1997 crop years for a commodity, if the farm program payment yield for a farm is reduced more than 10 percent below the farm program payment yield for the 1985 crop year, the Secretary shall make available to producers established price payments for the commodity in such amount as the Secretary determines is necessary to provide the same total return to producers as if the farm program payment yield had not been reduced more than 10 percent below the farm program payment yield for the 1985 crop year. The payments shall be made available not later than the time final deficiency payments are made.

(3) No crop or yield available

If no crop of the commodity was produced on the farm or no farm program payment yield was established for the farm for any of the 1981 through 1985 crop years (or, as appropriate, the 1986 through 1990 crop years), the farm program payment yield shall be established on the basis of the average farm program payment yield for the crop years for similar farms in the area.

(4) National, State, or county yields

If the Secretary determines the action is necessary, the Secretary may establish national, State, or county program payment yields on the basis of—

(A) historical yields, as adjusted by the Secretary to correct for abnormal factors affecting the yields in the historical period; or

(B) the Secretary's estimate of actual yields for the crop year involved if historical yield data is not available.

(5) Balancing yields

If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

(c) Determination of yields**(1) Actual yields**

With respect to the 1991 and subsequent crop years, the Secretary may—

(A) establish the farm program payment yield as provided in subsection (a) of this section; or

(B) establish a farm program payment yield for any program crop for any farm on the basis of the average of the yield per harvested acre for the crop for the farm for each of the 5 crop years immediately preceding the crop year, excluding the crop year with the highest yield per harvested acre, the crop year with the lowest yield per harvested acre, and any crop year in which such crop was not planted on the farm.

(2) Prior yields

(d) Assignment of yields

In the case of any farm for which the actual yield per harvested acre for any program crop referred to in subsection (c) of this section for any crop year is not available, the county committee may assign the farm a yield for the crop for the crop year on the basis of actual yields for the crop for the crop year on similar farms in the area.

(1) Provision

The Secretary shall, under such terms and conditions as the Secretary may prescribe, allow producers to provide to county committees data with respect to the actual yield for each farm for each program crop.

REFERENCES IN TEXT

The civil-service laws, referred to in subsec. (a), are set out in Title 5, Government Organization and Employees. See, particularly section 3301 et seq. of Title 5.

In subsec. (a), “chapter 51 and subchapter III of chapter 53 of title 5” substituted for “the Classification Act of 1949” on authority of Pub. L. 89554, §7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5, Government Organization and Employees.

Provisions that authorized personnel paid by the hour, day, or month when actually employed, and county crop insurance committeemen to have their compensation fixed without regard to “the Classification Act of 1923, as amended” were omitted as obsolete. Sections 1202 and 1204 of the Classification Act of 1949, 63 Stat. 972, 973 repealed the 1923 Act and all laws or parts of laws inconsistent with the 1949 Act. While section 1106(a) of the 1949 Act provided that references in other laws to the 1923 Act should be held and considered to mean the 1949 Act it did not have the effect of continuing the exceptions contained in this subsection because of section 1106(b) which provided that the application of the 1949 Act to any position, officer, or employee shall not be affected by section 1106(a). The Classification Act of 1949 was repealed by Act Sept. 6, 1966, Pub. L. 89554, §8(a), 80 Stat. 632 (of which section 1 revised and enacted Title 5, U.S.C., into law). Section 5102 of Title 5, now contains the applicability provisions of the 1949 Act, and section 5103 of Title 5 authorizes the Office of Personnel Management to determine the applicability to specific positions and employees.

In subsec. (b), reference to “subchapter I of chapter 81 of title 5” substituted for “the Act entitled ‘An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes’, approved September 7, 1916, as amended” on authority of Pub. L. 89554, §7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5, Government Organization and Employees.

AMENDMENTS

1994—Subsec. (a). Pub. L. 103354, §§105(1), 115(b)(1), substituted “as the Secretary may determine appropriate. However;” for “as he may determine: *Provided*, That” and struck out “, and county crop insurance committeemen” before “may be appointed”.

Subsec. (c). Pub. L. 103354, §119(f)(2), substituted “1508(h)” for “1508(b)” in last sentence.

Subsec. (d). Pub. L. 103354, §105(2), made technical amendment to reference to section 1516 of this title and struck out before period at end “, except that employees or agencies responsible for administering this chapter in each county shall be selected and designated by the Corporation and shall be responsible directly to the Corporation without the intervention of any intermediate office or agency”.

Pub. L. 103354, §102(b)(4)(B), (C), 115(b)(2), substituted “Secretary” for “Secretary of Agriculture”, “Department” for “Department of Agriculture”, and “that the Secretary requests” for “as he may request”.

Subsec. (g). Pub. L. 103354, §105(3), added subsec. (g). 1991—Subsec. (c). Pub. L. 102237 inserted a comma after “private insurance companies” in cl. (2).

1990—Subsec. (c). Pub. L. 101624 inserted “private rating bureaus, and other organizations as appropriate for actuarial, loss adjustment, and other services to avoid duplication by the Federal Government of services that

are or may readily be available in the private sector,” after “private insurance companies” and inserted at end “Nothing in this subsection shall permit the Corporation to contract with other persons to carry out the responsibility of the Corporation to review and approve policies, rates, and other materials submitted under section 1508(b) of this title.”

1980—Subsec. (c). Pub. L. 96365, §104(1), inserted “shall, to the maximum extent possible”, incorporated existing provisions in cl. (1), including in cl. (1) provision for payment of program expenses, but omitting provision for inclusion of estimated expenses in insurance premiums, and added cls. (2) and (3) and provisions for exclusion of compensation from premium rates and indemnification of agents and brokers for errors or omissions of Commission or its contractors.

Subsec. (f). Pub. L. 96365, §104(2), added subsec. (f).

1972—Subsec. (a). Pub. L. 92310 struck out provisions which empowered Secretary to require bonds of officers and employees.

1949—Act Oct. 28, 1949, substituted “Classification Act of 1949” for “Classification Act of 1923”.

Act Aug. 25, 1949, inserted requirement that officers and employees be appointed subject to civil service laws and regulations, and exempted personnel paid by hour, day, or month when employed, and county crop insurance committeemen from civil-service laws and regulations or the Classification Act of 1923.

1947—Act Aug. 1, 1947, provided for selection and designation of county employees and agencies and their direct responsibility.

L. 103354 effective Oct. 13, 1994, and applicable to provision of crop insurance under Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) beginning with 1995 crop year, with such Act, as in effect on the day before Oct. 13, 1994, to continue to apply with respect to 1994 crop year, see section 120 of Pub. TRANSFER OF FUNCTIONS

Administration of program of Federal Crop Insurance Corporation transferred to Secretary of Agriculture by 1946 Reorg. Plan No. 3, §501, eff. July 16, 1946, 11 F.R. 7877, 60 Stat. 1100. See note set out under section 1503 of this title.

§1508. Crop insurance

(a) Authority to offer insurance

(1) In general

If sufficient actuarial data are available (as determined by the Corporation), the Corporation may insure, or provide reinsurance for insurers of, producers of agricultural commodities grown in the United States under 1 or more plans of insurance determined by the Corporation to be adapted to the agricultural commodity concerned. To qualify for coverage under a plan of insurance, the losses of the insured commodity must be due to drought, flood, or other natural disaster (as determined by the Secretary).

(2) Period

Except in the cases of tobacco and potatoes, insurance shall not extend beyond the period during which the insured commodity is in the field. As used in the preceding sentence, in the case of an aquacultural species, the term "field" means the environment in which the commodity is produced.

(3) Exclusions

Insurance provided under this subsection shall not cover losses due to—

(A) the neglect or malfeasance of the producer;

(B) the failure of the producer to reseed to the same crop in such areas and under such circumstances as it is customary to reseed; or

(C) the failure of the producer to follow good farming practices (as determined by the Secretary).

(4) Expansion to other areas or single producers**(A) Area expansion**

The Corporation may offer plans of insurance or reinsurance for production of agricultural commodities in the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau in the same manner as provided in this section for production of agricultural commodities in the United States.

(B) Producer expansion

In an area in the United States or specified in subparagraph (A) where crop insurance is not available for a particular agricultural commodity, the Corporation may offer to enter into a written agreement with an individual producer operating in the area for insurance coverage under this chapter if the producer has actuarially sound data relating to the production by the producer of the commodity and the data is acceptable to the Corporation.

(5) Dissemination of crop insurance information

The Corporation shall make available to producers through local offices of the Department—

(A) current and complete information on all aspects of Federal crop insurance; and

(B) a listing of insurance agents and companies offering to sell crop insurance in the area of the producers.

(6) Addition of new and specialty crops**(A) Data collection**

Not later than 180 days after October 13, 1994, the Secretary shall issue guidelines for publication in the Federal Register for data collection to assist the Corporation in formulating crop insurance policies for new and specialty crops.

(B) Addition of new crops

Not later than 1 year after October 13, 1994, and annually thereafter, the Corporation

shall report to Congress on the progress and expected timetable for expanding crop insurance coverage under this chapter to new and specialty crops.

(C) Addition of direct sale perishable crops

Not later than 1 year after October 13, 1994, the Corporation shall report to Congress on the feasibility of offering a crop insurance program designed to meet the needs of specialized producers of vegetables and other perishable crops who market through direct marketing channels.

(b) Catastrophic risk protection**(1) In general**

The Corporation shall offer a catastrophic risk protection plan to indemnify producers for crop loss due to loss of yield or prevented planting, if provided by the Corporation, when the producer is unable, because of drought, flood, or other natural disaster (as determined by the Secretary), to plant other crops for harvest on the acreage for the crop year.

(2) Amount of coverage**(A) In general**

Subject to subparagraph (B)—

(i) in the case of each of the 1995 through 1998 crop years, catastrophic risk protection shall offer a producer coverage for a 50 percent loss in yield, on an individual yield or area yield basis, indemnified at 60 percent of the expected market price, or a comparable coverage (as determined by the Corporation); and

(ii) in the case of each of the 1999 and subsequent crop years, catastrophic risk protection shall offer a producer coverage for a 50 percent loss in yield, on an individual yield or area yield basis, indemnified at 55 percent of the expected market price, or a comparable coverage (as determined by the Corporation).

(B) Reduction in actual payment

The amount paid to a producer on a claim under catastrophic risk protection may reflect a reduction that is proportional to the out-of-pocket expenses that are not incurred by the producer as a result of not planting, growing, or harvesting the crop for which the claim is made, as determined by the Corporation.

(3) Yield and loss basis

A producer shall have the option of basing the catastrophic coverage of the producer on an individual yield and loss basis or on an area yield and loss basis, if both options are offered by the Corporation.

(4) Sale of catastrophic risk coverage**(A) In general**

Catastrophic risk coverage may be offered by—

(i) approved insurance providers, if available in an area; and

(ii) at the option of the Secretary that is based on considerations of need, local offices of the Department.

(B) Need

For purposes of considering need under subparagraph (A)(ii), the Secretary may

take into account the most efficient and cost-effective use of resources, the availability of personnel, fairness to local producers, the needs and convenience of local producers, and the availability of private insurance carriers.

(5) Administrative fee

(A) Fee required

Producers shall pay an administrative fee for catastrophic risk protection. The administrative fee for each producer shall be \$50 per crop per county, but not to exceed \$200 per producer per county up to a maximum of \$600 per producer for all counties in which a producer has insured crops. The administrative fee shall be paid by the producer at the time the producer applies for catastrophic risk protection.

(B) Use of fees

(i) Fees up to \$100

(I) Fees collected by USDA offices

Not more than \$100 of the administrative fees paid by a producer for catastrophic risk coverage that are collected by an office of the Department shall be credited to the appropriations account providing funds for the payment of operating and administrative expenses incurred for the delivery of catastrophic risk protection under this section. The fees shall be collected in accordance with appropriation Acts and shall be available until expended without fiscal year limitation for the payment of the expenses.

(II) Fees collected by approved insurance providers

Not more than \$100 of the administrative fees paid by a producer for catastrophic risk coverage that are collected by an approved insurance provider shall be retained by the provider as payment for operating and administrative expenses incurred for the delivery of catastrophic risk protection.

(ii) Fees in excess of \$100

Notwithstanding the authority granted to the Secretary under the Federal Crop Insurance Corporation account provisions of the Agricultural, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 1995, all fees collected under this subsection in excess of \$100 per producer per county shall be deposited in the crop insurance fund established under section 1516(c) of this title, to be available for the programs and activities of the Corporation.

(C) Waiver of fee

The Corporation shall waive the administrative fee for limited resource farmers, as defined by the Corporation.

(6) Participation requirement

A producer may obtain catastrophic risk coverage for a crop of the producer on land in the county only if the producer obtains the coverage for the crop on all insurable land of the producer in the county.

(7) Eligibility for Department programs

(A) In general

To be eligible for any price support or production adjustment program, the conservation reserve program, or any benefit described in section 2008f of this title, the producer must obtain at least the catastrophic level of insurance for each crop of economic significance grown on each farm in the county in which the producer has an interest, if insurance is available in the county for the crop.

(B) "Crop of economic significance" defined

As used in this paragraph, the term "crop of economic significance" means a crop that has contributed, or is expected to contribute, 10 percent or more of the total expected value of all crops grown by the producer.

(8) Limitation due to risk

The Corporation may limit catastrophic risk coverage in any county or area, or on any farm, on the basis of the insurance risk concerned.

(9) Transitional coverage for 1995 crops

Effective only for a 1995 crop planted or for which insurance attached prior to January 1, 1995, the Corporation shall allow producers of the crops until not later than the end of the 180-day period beginning on the date of enactment of the Federal Crop Insurance Reform Act of 1994 [Oct. 13, 1994] to obtain catastrophic risk protection for the crop. On enactment of such Act, a producer who made timely purchases of a crop insurance policy before the date of enactment of such Act, under the provisions of this chapter then in effect, shall be eligible for the same benefits to which a producer would be entitled under comparable additional coverage under subsection (c) of this section.

(10) Simplification

(A) Catastrophic risk protection plans

In developing and carrying out the policies and procedures for a catastrophic risk protection plan under this chapter, the Corporation shall, to the maximum extent practicable, minimize the paperwork required and the complexity and costs of procedures governing applications for, processing, and servicing of the plan for all parties involved.

(B) Other plans

To the extent that the policies and procedures developed under subparagraph (A) may be applied to other plans of insurance offered under this chapter without jeopardizing the actuarial soundness or integrity of the crop insurance program, the Corporation shall apply the policies and procedures to the other plans of insurance within a reasonable period of time (as determined by the Corporation) after the effective date of this paragraph.

(c) General coverage levels

(1) Additional coverage generally

(A) In general

The Corporation shall offer to producers of agricultural commodities grown in the

United States plans of crop insurance that provide additional coverage.

(B) Purchase

To be eligible for additional coverage, a producer must apply to an approved insurance provider for purchase of additional coverage if the coverage is available from an approved insurance provider. If additional coverage is unavailable privately, the Corporation may offer additional coverage plans of insurance directly to producers.

(2) Transfer of relevant information

If a producer has already applied for catastrophic risk protection at the local office of the Department and elects to purchase additional coverage, the relevant information for the crop of the producer shall be transferred to the approved insurance provider servicing the additional coverage crop policy.

(3) Yield and loss basis

A producer shall have the option of purchasing additional coverage based on an individual yield and loss basis or on an area yield and loss basis, if both options are offered by the Corporation.

(4) Level of coverage

The level of coverage shall be dollar denominated and may be purchased at any level not to exceed 85 percent of the individual yield or 95 percent of the area yield (as determined by the Corporation). Not later than the beginning of the 1996 crop year, the Corporation shall provide producers with information on catastrophic risk and additional coverage in terms of dollar coverage (within the allowable limits of coverage provided in this paragraph).

(5) Price level

The Corporation shall establish a price level for each commodity on which insurance is offered that—

(A) shall not be less than the projected market price for the commodity (as determined by the Corporation); or

(B) at the discretion of the Corporation, may be based on the actual market price at the time of harvest (as determined by the Corporation).

(6) Price elections

(A) In general

Subject to subparagraph (B), insurance coverage shall be made available to a producer on the basis of any price election that equals or is less than the price election established by the Corporation. The coverage shall be quoted in terms of dollars per acre.

(B) Minimum price elections

The Corporation may establish minimum price elections below which levels of insurance shall not be offered.

(C) Wheat classes and malting barley

The Corporation shall, as the Corporation determines practicable, offer producers different price elections for classes of wheat and malting barley (including contract prices in the case of malting barley), in addi-

tion to the standard price election, that reflect different market prices, as determined by the Corporation. The Corporation shall, as the Corporation determines practicable, offer additional coverage for each class determined under this subparagraph and charge a premium for each class that is actuarially sound.

(7) Fire and hail coverage

For levels of additional coverage equal to 65 percent or more of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, a producer may elect to delete from the additional coverage any coverage against damage caused by fire and hail if the producer obtains an equivalent or greater dollar amount of coverage for damage caused by fire and hail from an approved insurance provider. On written notice of the election to the company issuing the policy providing additional coverage and submission of evidence of substitute coverage on the commodity insured, the premium of the producer shall be reduced by an amount determined by the Corporation to be actuarially appropriate, taking into account the actuarial value of the remaining coverage provided by the Corporation. In no event shall the producer be given credit for an amount of premium determined to be greater than the actuarial value of the protection against losses caused by fire and hail that is included in the additional coverage for the crop.

(8) State premium subsidies

The Corporation may enter into an agreement with any State or agency of a State under which the State or agency may pay to the approved insurance provider an additional premium subsidy to further reduce the portion of the premium paid by producers in the State.

(9) Limitations on additional coverage

The Board may limit the availability of additional coverage under this subsection in any county or area, or on any farm, on the basis of the insurance risk involved. The Board shall not offer additional coverage equal to less than 50 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage.

(10) Administrative fee

(A) Fee required

Except as otherwise provided in this paragraph, if a producer elects to purchase additional coverage for a crop at a level that is less than 65 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, the producer shall pay an administrative fee for the additional coverage. Subsection (b)(5) of this section shall apply in determining the amount and use of the administrative fee or in determining whether to waive the administrative fee.

(B) Exception

If a producer elects to purchase additional coverage for a crop equal to 65 percent or

more of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, the producer shall not be subject to the administrative fee required by this paragraph or subsection (b)(5) of this section. If the producer has already paid the administrative fee for a lower level of coverage for the crop, the administrative fee shall be refunded to the producer unless the refund would reduce to less than \$200 the total amount of the administrative fees paid by the producer for 2 or more crops in the same county for which a lower level of coverage is obtained.

(C) Additional fee

If a producer elects to purchase additional coverage for a crop equal to or exceeding 65 percent of the recorded or appraised average yield and 100 percent of the expected market price or an equivalent coverage, the producer shall pay an administrative fee of \$10 for the coverage. If a producer has already paid an administrative fee for lesser coverage for the crop, the fee for lesser coverage shall be refunded to the producer unless the producer has paid the maximum fee for lesser coverage and refund of the fee will not reduce the amount to be paid below the maximum amount.

(D) Deposit of fees

Notwithstanding the authority granted to the Secretary under the Federal Crop Insurance Corporation account provisions of the Agricultural, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 1995, administrative fees collected under subparagraph (B) in excess of \$100 per producer per county and under subparagraph (C) shall be deposited in the insurance fund established under section 1516(c) of this title to be available for the programs and activities of the Corporation.

(d) Premiums

(1) Premiums required

The Corporation shall fix adequate premiums for all the plans of insurance of the Corporation at such rates as the Board determines are actuarially sufficient to attain an expected loss ratio of not greater than 1.1 through September 30, 1998, and not greater than 1.075 after October 1, 1998.

(2) Premium amounts

The premium amounts for catastrophic risk protection under subsection (b) of this section and additional coverage under subsection (c) of this section shall be fixed as follows:

(A) In the case of catastrophic risk protection, the amount of the premium shall be sufficient to cover anticipated losses and a reasonable reserve.

(B) In the case of additional coverage below 65 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, but greater than 50 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market

price, or an equivalent coverage, the amount of the premium shall—

- (i) be sufficient to cover anticipated losses and a reasonable reserve; and
- (ii) include an amount for operating and administrative expenses, as determined by the Corporation.

(C) In the case of additional coverage equal to or greater than 65 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, the amount of the premium shall—

- (i) be sufficient to cover anticipated losses and a reasonable reserve; and
- (ii) include an amount for operating and administrative expenses, as determined by the Corporation, on an industry-wide basis as a percentage of the amount of the premium used to define loss ratio.

(e) Payment of portion of premium by Corporation

(1) In general

For the purpose of encouraging the broadest possible participation of producers in the catastrophic risk protection provided under subsection (b) of this section and the additional coverage provided under subsection (c) of this section, the Corporation shall pay a part of the premium in the amounts provided in accordance with this subsection.

(2) Amount of payment

The amount of the premium to be paid by the Corporation shall be as follows:

(A) In the case of catastrophic risk protection, the amount shall be equivalent to the premium established for catastrophic risk protection under subsection (d)(2)(A) of this section.

(B) In the case of coverage below 65 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, but greater than 50 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, the amount shall be equivalent to the amount of premium established for catastrophic risk protection coverage and the amount of operating and administrative expenses established under subsection (d)(2)(B) of this section.

(C) In the case of coverage equal to or greater than 65 percent of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, on an individual or area basis, the amount shall be equivalent to an amount equal to the premium established for 50 percent loss in yield indemnified at 75 percent of the expected market price and the amount of operating and administrative expenses established under subsection (d)(2)(C) of this section.

(3) Premium reduction

If an approved insurance provider determines that the provider may provide insurance more efficiently than the expense reim-

bursement amount established by the Corporation, the approved insurance provider may reduce, subject to the approval of the Corporation, the premium charged the insured by an amount corresponding to the efficiency. The approved insurance provider shall apply to the Corporation for authority to reduce the premium before making such a reduction, and the reduction shall be subject to the rules, limitations, and procedures established by the Corporation.

(4) Individual and area crop insurance coverage

The Corporation shall allow approved insurance providers to offer a plan of insurance to producers that combines both individual yield coverage and area yield coverage at a premium rate determined by the provider under the following conditions:

(A) The individual yield coverage shall be equal to or greater than catastrophic risk protection as described in subsection (b) of this section.

(B) The combined policy shall include area yield coverage that is offered by the Corporation or similar area coverage, as determined by the Corporation.

(C) The Corporation shall provide reinsurance on the area yield portion of the combined policy at the request of the provider, except that the provider shall agree to pay to the producer any portion of the area yield and loss indemnity payment received from the Corporation or a commercial reinsurer that exceeds the individual indemnity payment made by the provider to the producer.

(D) The Corporation shall pay a part of the premium equivalent to—

(i) the amount authorized under paragraph (2) (except provisions regarding operating and administrative expenses); and

(ii) the amount of operating and administrative expenses authorized by the Corporation for the area yield coverage portion of the combined policy.

(E) The provider shall provide all underwriting services for the combined policy, including the determination of individual yield coverage premium rates, the terms and conditions of the policy, and the acceptance and classification of applicants into risk categories, subject to subparagraph (F).

(F) The Corporation shall approve the combined policy unless the Corporation determines that the policy is not actuarially sound or that the interests of producers are not adequately protected.

(f) Eligibility

(1) In general

To participate in catastrophic risk protection coverage under this section, a producer shall submit an application at the local office of the Department or to an approved insurance provider.

(2) Sales closing date

For coverage under this chapter, each producer shall purchase crop insurance on or before the sales closing date for the crop by pro-

viding the required information and executing the required documents. Subject to the goal of ensuring actuarial soundness for the crop insurance program, the sales closing date shall be established by the Corporation to maximize convenience to producers in obtaining benefits under price and production adjustment programs of the Department. Beginning with the 1995 crop year, the Corporation shall establish, for an insurance policy for each insurable crop that is planted in the spring, a sales closing date that is 30 days earlier than the corresponding sales closing date that was established for the 1994 crop year.

(3) Records and reporting

To obtain catastrophic risk protection under subsection (b) of this section or additional coverage under subsection (c) of this section, a producer shall—

(A) provide, to the extent required by the Corporation, records acceptable to the Corporation of historical acreage and production of the crops for which the insurance is sought or accept a yield determined by the Corporation; and

(B) report acreage planted and prevented from planting by the designated acreage reporting date for the crop and location as established by the Corporation.

(g) Yield determinations

(1) In general

Subject to paragraph (2), the Corporation shall establish crop insurance underwriting rules that ensure that yield coverage, as specified in this subsection, is provided to eligible producers obtaining catastrophic risk protection under subsection (b) of this section or additional coverage under subsection (c) of this section.

(2) Yield coverage plans

(A) Actual production history

Subject to subparagraph (B), the yield for a crop shall be based on the actual production history for the crop, if the crop was produced on the farm without penalty during each of the 4 crop years immediately preceding the crop year for which actual production history is being established, building up to a production data base for each of the 10 consecutive crop years preceding the crop year for which actual production history is being established.

(B) Assigned yield

If the producer does not provide satisfactory evidence of the yield of a commodity under subparagraph (A), the producer shall be assigned a yield that is not less than 65 percent of the transitional yield of the producer (adjusted to reflect actual production reflected in the records acceptable to the Corporation for continuous years), as specified in regulations issued by the Corporation based on production history requirements.

(C) Area yield

The Corporation may offer a crop insurance plan based on an area yield that allows an insured producer to qualify for an indem-

nity if a loss has occurred in an area (as specified by the Corporation) in which the farm of the producer is located. Under an area yield plan, an insured producer shall be allowed to select the level of area production at which an indemnity will be paid consistent with such terms and conditions as are established by the Corporation.

(D) Commodity-by-commodity basis

A producer may choose between individual yield or area yield coverage or combined coverage (as provided in subsection (e)(4) of this section), if available, on a commodity-by-commodity basis.

(3) Transitional yields for producers of feed or forage

(A) In general

If a producer does not provide satisfactory evidence of a yield under paragraph (2)(A), the producer shall be assigned a yield that is at least 80 percent of the transitional yield established by the Corporation (adjusted to reflect the actual production history of the producer) if the Secretary determines that—

- (i) the producer grows feed or forage primarily for on-farm use in a livestock, dairy, or poultry operation; and
- (ii) over 50 percent of the net farm income of the producer is derived from the operation.

(B) Yield calculation

The Corporation shall—

- (i) for the first year of participation of a producer, provide the assigned yield under this paragraph to the producer of feed or forage; and
- (ii) for the second year of participation of the producer, apply the actual production history or assigned yield requirement, as provided in this subsection.

(C) Termination of authority

The authority provided by this paragraph shall terminate on the date that is 3 years after the effective date of this paragraph.

(h) Submission of policies and materials to Board

(1) In general

In addition to any standard forms or policies that the Board may require be made available to producers under subsection (c) of this section, a person may prepare for submission or propose to the Board—

- (A) other crop insurance policies and provisions of policies; and
- (B) rates of premiums for multiple peril crop insurance pertaining to wheat, soybeans, field corn, and any other crops determined by the Secretary.

(2) Submission of policies

A policy or other material submitted to the Board under this subsection may be prepared without regard to the limitations contained in this chapter, including the requirements concerning the levels of coverage and rates and the requirement that a price level for each commodity insured must equal the expected

market price for the commodity as established by the Board. In the case of such a policy, the payment by the Corporation of a portion of the premium of the policy may not exceed the amount that would otherwise be authorized under subsection (e) of this section.

(3) Review and approval by the Board

A policy or other material submitted to the Board under this subsection shall be reviewed by the Board and, if the Board finds that the interests of producers are adequately protected and that any premiums charged to the producers are actuarially appropriate, shall be approved by the Board for reinsurance and for sale to producers as an additional choice at actuarially appropriate rates and under appropriate terms and conditions. The Corporation may enter into more than 1 reinsurance agreement with the approved insurance provider simultaneously to facilitate the offering of the new policies.

(4) Guidelines for submission and review

The Corporation shall issue regulations to establish guidelines for the submission, and Board review, of policies or other material submitted to the Board under this subsection. At a minimum, the guidelines shall ensure the following:

(A) A proposal submitted to the Board under this subsection shall be considered as confidential commercial or financial information for purposes of section 552(b)(4) of title 5 until approved by the Board. A proposal disapproved by the Board shall remain confidential commercial or financial information.

(B) The Board shall provide an applicant with the opportunity to present the proposal to the Board in person if the applicant so desires.

(C) The Board shall provide an applicant with notification of intent to disapprove a proposal not later than 30 days prior to making the disapproval. An applicant that receives the notification may modify the application of the applicant. Any modification shall be considered an original application for purposes of this paragraph.

(D) Specific guidelines shall prescribe the timing of submission of proposals under this subsection and timely consideration by the Board so that any approved proposal may be made available to all persons reinsured by the Corporation in a manner permitting the persons to participate, if the persons so desire, in offering such a proposal in the first crop year in which the proposal is approved by the Board for reinsurance, premium subsidy, or other support offered by this chapter.

(5) Required publication

Any policy, provision of a policy, or rate approved under this subsection shall be published as a notice in the Federal Register and made available to all persons contracting with or reinsured by the Corporation under the terms and conditions of the contract between the Corporation and the person originally submitting the policy or other material.

(6) Pilot cost of production risk protection plan**(A) In general**

The Corporation shall offer, to the extent practicable, a cost of production risk protection plan of insurance that indemnifies producers (including new producers) for insurable losses as provided in this paragraph.

(B) Pilot basis

The cost of production risk protection plan shall—

- (i) be established as a pilot project for each of the 1996 and 1997 crop years; and
- (ii) be carried out in a number of counties that is determined by the Corporation to be adequate to provide a comprehensive evaluation of the feasibility, effectiveness, and demand among producers for the plan.

(C) Insurable loss

An insurable loss shall be incurred by a producer if the gross income of the producer (as determined by the Corporation) is less than an amount determined by the Corporation, as a result of a reduction in yield or price resulting from an insured cause.

(D) "New producer" defined

As used in this paragraph, the term "new producer" means a person that has not been actively engaged in farming for a share of the production of the insured crop for more than 2 crop years, as determined by the Secretary.

(7) Additional prevented planting policy coverage**(A) In general**

Beginning with the 1995 crop year, the Corporation shall offer to producers additional prevented planting coverage that insures producers against losses in accordance with this paragraph.

(B) Approved insurance providers

Additional prevented planting coverage shall be offered by the Corporation through approved insurance providers.

(C) Timing of loss

A crop loss shall be covered by the additional prevented planting coverage if—

- (i) crop insurance policies were obtained for—
 - (I) the crop year the loss was experienced; and
 - (II) the crop year immediately preceding the year of the prevented planting loss; and
- (ii) the cause of the loss occurred—
 - (I) after the sales closing date for the crop in the crop year immediately preceding the loss; and
 - (II) before the sales closing date for the crop in the year in which the loss is experienced.

(8) Pilot program of assigned yields for new producers**(A) Program required**

For each of the 1995 and 1996 crop years, the Corporation shall carry out a pilot pro-

gram to assign to eligible new producers higher assigned yields than would otherwise be assigned to the producers under subsection (g) of this section. The Corporation shall include in the pilot program 30 counties that are determined by the Corporation to be adequate to provide a comprehensive evaluation of the feasibility, effectiveness, and demand among new producers for increased assigned yields.

(B) Increased assigned yields

In the case of an eligible new producer participating in the pilot program, the Corporation shall assign to the new producer a yield that is equal to not less than 110 percent of the transitional yield otherwise established by the Corporation.

(C) Eligible new producer

The Secretary shall establish a definition of new producer for purposes of determining eligibility to participate in the pilot program.

(i) Adoption of rates and coverages

The Corporation shall adopt, as soon as practicable, rates and coverages that will improve the actuarial soundness of the insurance operations of the Corporation for those crops that are determined to be insured at rates that are not actuarially sound, except that no rate may be increased by an amount of more than 20 percent over the comparable rate of the preceding crop year.

(j) Claims for losses**(1) In general**

Under rules prescribed by the Corporation, the Corporation may provide for adjustment and payment of claims for losses. The rules prescribed by the Corporation shall establish standards to ensure that all claims for losses are adjusted, to the extent practicable, in a uniform and timely manner.

(2) Denial of claims**(A) In general**

Subject to subparagraph (B), if a claim for indemnity is denied by the Corporation or an approved provider, an action on the claim may be brought against the Corporation or Secretary only in the United States district court for the district in which the insured farm is located.

(B) Statute of limitations

A suit on the claim may be brought not later than 1 year after the date on which final notice of denial of the claim is provided to the claimant.

(3) Indemnification

The Corporation shall provide approved insurance providers with indemnification, including costs and reasonable attorney fees incurred by the approved insurance provider, due to errors or omissions on the part of the Corporation.

(k) Reinsurance**(1) In general**

Notwithstanding any other provision of this chapter, the Corporation shall, to the maxi-

mum extent practicable, provide reinsurance to insurers approved by the Corporation that insure producers of any agricultural commodity under 1 or more plans acceptable to the Corporation.

(2) Terms and conditions

The reinsurance shall be provided on such terms and conditions as the Board may determine to be consistent with subsections (b) and (c) of this section and sound reinsurance principles.

(3) Share of risk

The reinsurance agreements of the Corporation with the reinsured companies shall require the reinsured companies to bear a sufficient share of any potential loss under the agreement so as to ensure that the reinsured company will sell and service policies of insurance in a sound and prudent manner, taking into consideration the financial condition of the reinsured companies and the availability of private reinsurance.

(4) Rate

The rate established by the Board to reimburse approved insurance providers and agents for the administrative and operating costs of the providers and agents shall not exceed—

(A) for the 1997 reinsurance year, 29 percent of the premium used to define loss ratio;

(B) for the 1998 reinsurance year, 28 percent of the premium used to define loss ratio; and

(C) for the 1999 reinsurance year, 27.5 percent of the premium used to define loss ratio.

(5) Cost and regulatory reduction

Consistent with section 118 of the Federal Crop Insurance Reform Act of 1994, and consistent with maintenance of program integrity, prevention of fraud and abuse, the need for program expansion, and improvement of quality of service to customers, the Board shall alter program procedures and administrative requirements in order to reduce the administrative and operating costs of approved insurance providers and agents in an amount that corresponds to any reduction in the reimbursement rate required under paragraph (4) during the 5-year period beginning on October 13, 1994.

(6) Agency discretion

The determination of whether the Corporation is achieving, or has achieved, corresponding administrative cost savings shall not be subject to administrative review, and is wholly committed to agency discretion within the meaning of section 701(a)(2) of title 5.

(7) Plan

The Corporation shall submit to Congress a plan outlining the measures that will be used to achieve the reduction required under paragraph (5). If the Corporation can identify additional cost reduction measures, the Corporation shall describe the measures in the plan.

(l) Optional coverages

The Corporation may offer specific risk protection programs, including protection against

prevented planting, wildlife depredation, tree damage and disease, and insect infestation, under such terms and conditions as the Board may determine, except that no program may be undertaken if insurance for the specific risk involved is generally available from private companies.

(m) Research

(1) In general

Except as provided in paragraph (2), the Corporation may conduct research, surveys, pilot programs, and investigations relating to crop insurance and agriculture-related risks and losses including insurance on losses involving reduced forage on rangeland caused by drought and by insect infestation, livestock poisoning and disease, destruction of bees due to the use of pesticides, and other unique special risks related to fruits, nuts, vegetables, aquacultural species, forest industry needs (including appreciation), and other agricultural products as determined by the Board.

(2) Exception

No action may be undertaken with respect to a risk under paragraph (1) if insurance protection against the risk is generally available from private companies.

(3) Evaluation

After the completion of any pilot program under this subsection, the Corporation shall evaluate the pilot program and submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, a report of the operations of the pilot program, including the evaluation by the Corporation of the pilot program and the recommendations of the Corporation with respect to implementing the program on a national basis.

§1519. Noninsured crop disaster assistance program

(a) Establishment of program

(1) Establishment

In the case of an eligible crop described in paragraph (2), the Corporation shall establish a noninsured crop disaster assistance program to provide coverage equivalent to the catastrophic risk protection otherwise available under section 1508(b) of this title.

(2) Eligible crops

(A) In general

As used in this section, the term “eligible crop” means each commercial crop or other agricultural commodity (except livestock)—

- (i) for which catastrophic risk protection under section 1508(b) of this title is not available; and
- (ii) that is produced for food or fiber.

(B) Crops specifically included

The term “eligible crop” shall include floricultural, ornamental nursery, and Christmas tree crops, turfgrass sod, and industrial crops.

(3) Cause of loss

To qualify for assistance under this section, the losses of the noninsured commodity shall be due to drought, flood, or other natural disaster, as determined by the Secretary.

(b) Application for noninsured crop disaster assistance

(1) Timely application

To be eligible for assistance under this section, a producer shall submit an application for noninsured crop disaster assistance at a local office of the Department. The application shall be in such form, contain such information, and be submitted at such time as the Corporation may require.

(2) Records

A producer shall annually provide records, as required by the Corporation, of previous crop acreage, acreage yields, and production, or the producer shall accept a yield under subsection (e)(3) of this section determined by the Corporation.

(3) Acreage reports

A producer shall provide reports on acreage planted or prevented from being planted, as required by the Corporation, by the designated acreage reporting date for the crop and location as established by the Corporation.

(c) Loss requirements

(1) Required area loss

A producer of an eligible crop shall not receive noninsured crop disaster assistance un-

less the average yield for that crop, or an equivalent measure in the event yield data are not available, in an area falls below 65 percent of the expected area yield, as established by the Corporation.

(2) Prevented planting

Subject to paragraph (1), the Corporation shall make a prevented planting noninsured crop disaster assistance payment if the producer is prevented from planting more than 35 percent of the acreage intended for the eligible crop because of drought, flood, or other natural disaster, as determined by the Secretary.

(3) Reduced yields

Subject to paragraph (1), the Corporation shall make a reduced yield noninsured crop disaster assistance payment to a producer if the total quantity of the eligible crop that the producer is able to harvest on any farm is, because of drought, flood, or other natural disaster as determined by the Secretary, less than 50 percent of the expected individual yield for the crop, as determined by the Corporation, factored for the interest of the producer for the crop.

(d) Payment

The Corporation shall make available to a producer eligible for noninsured assistance under this section a payment computed by multiplying—

(1) the quantity that is less than 50 percent of the established yield for the crop; by

(2)(A) in the case of each of the 1995 through 1998 crop years, 60 percent of the average market price for the crop (or any comparable coverage determined by the Corporation); or

(B) in the case of each of the 1999 and subsequent crop years, 55 percent of the average market price for the crop (or any comparable coverage determined by the Corporation); by

(3) a payment rate for the type of crop (as determined by the Corporation) that—

(A) in the case of a crop that is produced with a significant and variable harvesting expense, reflects the decreasing cost incurred in the production cycle for the crop that is—

- (i) harvested;
- (ii) planted but not harvested; and
- (iii) prevented from being planted because of drought, flood, or other natural disaster (as determined by the Secretary); and

(B) in the case of a crop that is not produced with a significant and variable harvesting expense, is determined by the Corporation.

(e) Yield determinations

(1) Establishment

The Corporation shall establish farm yields for purposes of providing noninsured crop disaster assistance under this section.

(2) Actual production history

The Corporation shall determine yield coverage using the actual production history of the producer over a period of not less than the 4 previous consecutive crop years and not

more than 10 consecutive crop years. Subject to paragraph (3), the yield for the year in which noninsured crop disaster assistance is sought shall be equal to the average of the actual production history of the producer during the period considered.

(3) Assignment of yield

If a producer does not submit adequate documentation of production history to determine a crop yield under paragraph (2), the Corporation shall assign to the producer a yield equal to not less than 65 percent of the transitional yield of the producer (adjusted to reflect actual production reflected in the records acceptable to the Corporation for continuous years), as specified in regulations issued by the Corporation based on production history requirements.

(4) Prohibition on assigned yields in certain counties

(A) In general

(i) Documentation

If sufficient data are available to demonstrate that the acreage of a crop in a county for the crop year has increased by more than 100 percent over any year in the preceding 7 crop years or, if data are not available, if the acreage of the crop in the county has increased significantly from the previous crop years, a producer must provide such detailed documentation of production costs, acres planted, and yield for the crop year for which benefits are being claimed as is required by the Corporation. If the Corporation determines that the documentation provided is not sufficient, the Corporation may require documenting proof that the crop, had the crop been harvested, could have been marketed at a reasonable price.

(ii) Prohibition

Except as provided in subparagraph (B), a producer who produces a crop on a farm located in a county described in clause (i) may not obtain an assigned yield.

(B) Exception

A crop or a producer shall not be subject to this subsection if—

(i) the planted acreage of the producer for the crop has been inspected by a third party acceptable to the Secretary; or

(ii)(I) the County Executive Director and the State Executive Director recommend an exemption from the requirement to the Deputy Administrator for State and County Operations of the Agricultural Stabilization and Conservation Service; and

(II) the Deputy Administrator approves the recommendation.

(5) Limitation on receipt of subsequent assigned yield

A producer who receives an assigned yield for the current year of a natural disaster because required production records were not submitted to the local office of the Department shall not be eligible for an assigned yield for the year of the next natural disaster unless

the required production records of the previous 1 or more years (as applicable) are provided to the local office.

(6) Yield variations due to different farming practices

The Corporation shall ensure that noninsured crop disaster assistance accurately reflects significant yield variations due to different farming practices, such as between irrigated and nonirrigated acreage.

(f) Contract payments

A producer who has received a guaranteed payment for production, as opposed to delivery, of a crop pursuant to a contract shall have the production of the producer adjusted upward by the amount of the production equal to the amount of the contract payment received.

(g) Payment of losses

Payments for noninsured crop disaster assistance losses under this section shall be made from the insurance fund established under section 1516 of this title. The losses shall not be included in calculating the premiums charged to producers for insurance under section 1508 of this title.

(h)¹ Exclusions

Noninsured crop disaster assistance under this section shall not cover losses due to—

(1) the neglect or malfeasance of the producer;

(2) the failure of the producer to reseed to the same crop in those areas and under such circumstances where it is customary to reseed; or

(3) the failure of the producer to follow good farming practices, as determined by the Corporation.

(h)¹ Payment and income limitations

(1) Definitions

As used in this subsection:

(A) Person

The term “person” has the meaning provided the term in regulations issued by the Secretary. The regulations shall conform, to the extent practicable, to the regulations defining the term “person” issued under section 1308 of this title.

(B) Qualifying gross revenues

The term “qualifying gross revenues” means—

(i) if a majority of the gross revenue of the person is received from farming, ranching, and forestry operations, the gross revenue from the farming, ranching, and forestry operations of the person; and

(ii) if less than a majority of the gross revenue of the person is received from farming, ranching, and forestry operations, the gross revenue of the person from all sources.

(2) Payment limitation

The total amount of payments that a person shall be entitled to receive annually under this chapter may not exceed \$100,000.

¹So in original. Two subsecs. (h) have been enacted.

(3) Limitation on multiple benefits for same loss

If a producer who is eligible to receive benefits under catastrophic risk protection under section 1508(b) of this title or noninsured crop disaster assistance under this section is also eligible to receive assistance for the same loss under any other program administered by the Secretary, the producer shall be required to elect whether to receive benefits under this chapter or under the other program, but not both. A producer who purchases additional coverage under section 1508(c) of this title may also receive assistance for the same loss under other programs administered by the Secretary, except that the amount received for the loss under the additional coverage together with the amount received under the other programs may not exceed the amount of the actual loss of the producer.

(4) Income limitation

A person who has qualifying gross revenues in excess of the amount specified in section 2266(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1421 note) (as in effect on November 28, 1990) during the taxable year (as determined by the Secretary) shall not be eligible to receive any noninsured assistance payment under this section.

(5) Regulations

The Secretary shall issue regulations prescribing such rules as the Secretary determines necessary to ensure a fair and equitable application of section 1308 of this title, the general payment limitation regulations of the Secretary, and the limitations established under this subsection.

Seeds normally in such current of commerce shall not be considered out of such current through resort being had to any means or device intended to remove transactions in respect thereto from the provisions of this chapter.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 6104 of this title; title 21 section 1033.

§1621. Congressional declaration of purpose; use of existing facilities; cooperation with States

The Congress declares that a sound, efficient, and privately operated system for distributing and marketing agricultural products is essential to a prosperous agriculture and is indispensable to the maintenance of full employment and to the welfare, prosperity, and health of the Nation. It is further declared to be the policy of Congress to promote through research, study, experimentation, and through cooperation among Federal and State agencies, farm organizations, and private industry a scientific approach to the problems of marketing, transportation, and distribution of agricultural products

similar to the scientific methods which have been utilized so successfully during the past eighty-four years in connection with the production of agricultural products so that such products capable of being produced in abundance may be marketed in an orderly manner and efficiently distributed. In order to attain these objectives, it is the intent of Congress to provide for (1) continuous research to improve the marketing, handling, storage, processing, transportation, and distribution of agricultural products; (2) cooperation among Federal and State agencies, producers, industry organizations, and others in the development and effectuation of research and marketing programs to improve the distribution processes; (3) an integrated administration of all laws enacted by Congress to aid the distribution of agricultural products through research, market aids and services, and regulatory activities, to the end that marketing methods and facilities may be improved, that distribution costs may be reduced and the price spread between the producer and consumer may be narrowed, that dietary and nutritional standards may be improved, that new and wider markets for American agricultural products may be developed, both in the United States and in other countries, with a view to making it possible for the full production of American farms to be disposed of usefully, economically, profitably, and in an orderly manner. In effectuating the purposes of this chapter, maximum use shall be made of existing research facilities owned or controlled by the Federal Government or by State agricultural experiment stations and of the facilities of the Federal and State extension services. To the maximum extent practicable marketing research work done under this chapter in cooperation with the States shall be done in cooperation with the State agricultural experiment stations; marketing educational and demonstrational work done under this chapter in cooperation with the States shall be done in cooperation with the State agricultural extension service; market information, inspection, regulatory work and other marketing service done under this chapter in cooperation with the State agencies shall be done in cooperation with the State departments of agriculture, and State bureaus and departments of markets.

§1624. Cooperation with Government and State agencies, private research organizations, etc.; rules and regulations

(a) In carrying out the provisions of this chapter, the Secretary of Agriculture may cooperate with other branches of the Government, State agencies, private research organizations, purchasing and consuming organizations, boards of trade, chambers of commerce, other associations of business or trade organizations, transportation and storage agencies and organizations, or other persons or corporations engaged in the production, transportation, storing, processing, marketing, and distribution of agricultural products whether operating in one or more jurisdictions. The Secretary of Agriculture shall have authority to enter into contracts and agreements under the terms of regulations promulgated by him with States and agencies of States, private firms, institutions, and individuals for the purpose of conducting research and service work, making and compiling reports and surveys, and carrying out other functions relating thereto when in his judgment the services or functions to be performed will be carried out more effectively, more rapidly, or at less cost than if performed by the Department of Agriculture. Contracts under this section may be made for work to be performed within a period not more than four years from the date of any

such contract, and advance, progress, or other payments may be made. The provisions of section 3324(a) and (b) of title 31 and section 5 of title 41 shall not be applicable to contracts or agreements made under the authority of this section. Any unexpended balances of appropriations obligated by contracts as authorized by this section may, notwithstanding the provisions of section 5 of the Act of June 20, 1874, as amended (31 U.S.C., sec. 713), remain upon the books of the Treasury for not more than five fiscal years before being carried to the surplus fund and covered into the Treasury. Any contract made pursuant to this section shall contain requirements making the result of such research and investigations available to the public by such means as the Secretary of Agriculture shall determine.

(b) The Secretary of Agriculture shall promulgate such orders, rules, and regulations as he deems necessary to carry out the provisions of this chapter.

Section 5 of the Act of June 20, 1874, as amended (31 U.S.C. sec. 713), referred to in subsec. (a), was repealed by act July 6, 1949, ch. 299, §3, 63 Stat. 407.

CODIFICATION

In subsec. (a), "section 3324(a) and (b) of title 31" substituted for reference to section 3648 (31 U.S.C., sec. 529) of the Revised Statutes on authority of Pub. L. 97258, §4(b), Sept. 13, 1982, 96 Stat. 1067, the first section of which enacted Title 31, Money and Finance.

AMENDMENTS

1954—Subsec. (b). Act Aug. 30, 1954, repealed second sentence requiring Secretary of Agriculture to include in his annual report to Congress a complete statement of research work being performed under contracts or cooperative agreements under this chapter.

DISTRIBUTION OF SURPLUS COMMODITIES

Pub. L. 97253, title I, §191, Sept. 8, 1982, 96 Stat. 787, provided that:

“(a) The Congress finds that—

“(1) for an increasing number of people in the United States, these are times of great suffering and deprivation;

“(2) rising unemployment, decreasing appropriations for social services, and increasingly adverse economic conditions have all contributed to produce hunger and want on a scale not experienced since the time of the Great Depression;

“(3) the demand for every conceivable form of assistance for the hungry and needy people of the United States grows more critical daily, while the availability of goods and services to meet the needs of such people is rapidly diminishing;

“(4) soup kitchens, food banks, and other organizations which provide food to the hungry report an astronomical increase in the number of persons seeking the assistance of such organizations;

“(5) according to a study completed by the General Accounting Office in 1977, one hundred and thirty-seven million tons of food, or more than 20 per centum of this country's total annual food production, is wasted or discarded in the United States each year;

“(6) at wholesale and retail food distributors, shipping terminals, and other establishments all across the country, enormous quantities of fresh fruits and vegetables and dated dairy and bakery products are discarded each day, while growing numbers of Americans go to bed hungry and undernourished each night;

“(7) in these times of budget constraints and appeals for reductions in Federal spending, the use of private resources to meet the basic food requirements of our citizens should be encouraged; and

“(8) many States and local governments have not enacted laws which limit the liability of food donors, such as so-called Good Samaritan Acts and donor liability laws, and thus have discouraged donation of food to the needy by private persons.

“(b) It is the sense of the Congress that—

“(1) departments and agencies of the Federal Government should take such steps as may be necessary to distribute to hungry people of the United States surplus food or food which would otherwise be discarded;

“(2) State and local governments which have not yet enacted so-called Good Samaritan or donor liability laws to encourage private cooperative efforts to provide food for hungry people within their respective jurisdictions should do so as quickly as possible; and

“(3) wholesale and retail food distributors, shipping terminals, and other establishments should work more closely with religious, community, and other charitable organizations to make wholesome food which is currently being wasted or discarded by such establishments available for immediate distribution to hungry people of the United States.”

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 35 section 210; title 42 section 418.

§1625. Transfer and consolidation of functions, powers, bureaus, etc.

In order to facilitate administration and to increase the effectiveness of the marketing research, service, and regulatory work of the Department of Agriculture to the fullest extent practicable, the Secretary of Agriculture is authorized, notwithstanding any other provisions of law, to transfer, group, coordinate, and consolidate the functions, powers, duties, and authorities of each and every agency, division, bureau, service, section, or other administrative unit in the Department of Agriculture primarily concerned with research, service, or regulatory activities in connection with the marketing, transportation, storage, processing, distribution of, or service or regulatory activities in connection with, the utilization of, agricultural products, into a single administrative agency. In making such changes as may be necessary to carry out effectively the purposes of this chapter, the records, property, personnel, and funds of such agencies, divisions, bureaus, services, sections, or other administrative units in the Department of Agriculture affected are authorized to be transferred to and used by such administrative agency to which the transfer may be made, but such unexpended balances of appropriations so transferred shall be used only for the purposes for which such appropriations were made.

(Aug. 14, 1946, ch. 966, title II, §206, 60 Stat. 1090.)

§1626. Definitions

When used in this chapter, the term “agricultural products” includes agricultural, horti-

cultural, viticultural, and dairy products, livestock and poultry, bees, forest products, fish and shellfish, and any products thereof, including processed and manufactured products, and any and all products raised or produced on farms and any processed or manufactured product thereof, and the term “State” when used in this chapter shall include the Virgin Islands and Guam.

(Aug. 14, 1946, ch. 966, title II, §207, 60 Stat. 1091; June 23, 1972, Pub. L. 92318, title V, §506(f), 86 Stat. 351.)

AMENDMENTS

1972—Pub. L. 92318 inserted definition of “State” as including Virgin Islands and Guam.

EFFECTIVE DATE OF 1972 AMENDMENT

Amendment by Pub. L. 92318 effective after June 30, 1970, see section 506(n) of Pub. L. 92318, set out as a note under section 326a of this title.

§1627. Appointment of personnel; compensation; employment of specialists

The Secretary of Agriculture shall have the power to appoint, remove, and fix, in accordance with existing law, the compensation of such officers and employees, and to make such expenditures as he deems necessary, including expenditures for rent outside the District of Columbia, travel, supplies, books, equipment, and such other expenditures as may be necessary to the administration of this chapter: *Provided*, That the Secretary of Agriculture may appoint any technically qualified person, firm, or organization by contract or otherwise on a temporary basis and for a term not to exceed six months in any fiscal year to perform research, inspection, classification, technical, or other special services, without regard to the civil-service laws.

(Aug. 14, 1946, ch. 966, title II, §208, 60 Stat. 1091.)

REFERENCES IN TEXT

The civil-service laws, referred to in text, are set forth in Title 5, Government Organization and Employees. See, particularly, section 3301 et seq. of Title 5.

CODIFICATION

Provisions that authorized the Secretary of Agriculture to “fix the compensation” of any technically qualified person, firm, or organization by contract or otherwise on a temporary basis and for a term not to exceed six months in any fiscal year to perform research, inspection, classification, technical or other special services, without regard to the “Classification Act of 1923, as amended” were omitted as obsolete. Sections 1202 and 1204 of the Classification Act of 1949, 63 Stat. 972, 973 repealed the 1923 Act and all laws or parts of laws inconsistent with the 1949 Act. While section 1106(a) of the 1949 Act provided that references in other laws to the 1923 Act should be held and considered to mean the 1949 Act, it did not have the effect of continuing the exceptions contained in this subsection because of section 1106(b) which provided that the application of the 1949 Act to any position, officer, or employee shall not be affected by section 1106(a). The Classification Act of 1949 was repealed by Pub. L. 89554, §8(a), Sept. 6, 1966, 80 Stat. 632 (of which section 1 revised and enacted Title 5, U.S.C., into law). Section 5102 of Title 5, now contains the applicability provisions of the 1949 Act, and section 5103 of Title 5 authorizes the Office of Personnel Management to determine the applicability to specific positions and employees.

Section, acts Aug. 14, 1946, ch. 966, title III, §301, 60 Stat. 1091; Dec. 29, 1967, Pub. §1629. Establishment of committees to assist in research and service programs

In the furtherance of the research and service work authorized by sections 427 and 427i of this title and this chapter, the Secretary of Agriculture may, in addition to the national advisory committee, establish appropriate committees, including representatives of producers, industry, government and science, to assist in effectuating specific research and service programs.

§1630. Omitted

CODIFICATION

Section, act June 4, 1956, ch. 355, title V, §508, 70 Stat. 241, which provided for availability of appropriations for committee expenses in effectuating research and service work, was from the Department of Agriculture and Farm Credit Administration Appropriation Act, 1957, and was not repeated in subsequent appropriation acts.

Similar provisions were contained in the following prior appropriation acts:

May 23, 1955, ch. 43, title V, §509, 69 Stat. 64.

§1631. Protection for purchasers of farm products

(a) Congressional findings

Congress finds that—

(1) certain State laws permit a secured lender to enforce liens against a purchaser of farm products even if the purchaser does not know that the sale of the products violates the lender's security interest in the products, lacks any practical method for discovering the existence of the security interest, and has no reasonable means to ensure that the seller uses the sales proceeds to repay the lender;

(2) these laws subject the purchaser of farm products to double payment for the products, once at the time of purchase, and again when the seller fails to repay the lender;

(3) the exposure of purchasers of farm products to double payment inhibits free competition in the market for farm products; and

(4) this exposure constitutes a burden on and an obstruction to interstate commerce in farm products.

(b) Declaration of purpose

The purpose of this section is to remove such burden on and obstruction to interstate commerce in farm products.

(c) Definitions

For the purposes of this section—

(1) The term "buyer in the ordinary course of business" means a person who, in the ordinary course of business, buys farm products from a person engaged in farming operations who is in the business of selling farm products.

(2) The term "central filing system" means a system for filing effective financing statements or notice of such financing statements on a statewide basis and which has been certified by the Secretary of the United States Department of Agriculture; the Secretary shall certify such system if the system complies with the requirements of this section; specifically under such system—

(A) effective financing statements or notice of such financing statements are filed with the office of the Secretary of State of a State;

(B) the Secretary of State records the date and hour of the filing of such statements;

(C) the Secretary of State compiles all such statements into a master list—

(II) in numerical order according to the social security number of the individual debtors or, in the case of debtors doing business other than as individuals, the Internal Revenue Service taxpayer identification number of such debtors; and

(III) geographically by county or parish; and

(IV) by crop year;

(iii) containing the information referred to in paragraph (4)(D);

(D) the Secretary of State maintains a list of all buyers of farm products, commission merchants, and selling agents who register with the Secretary of State, on a form indicating—

(i) the name and address of each buyer, commission merchant and selling agent;

(ii) the interest of each buyer, commission merchant, and selling agent in receiving the lists described in subparagraph (E); and

(iii) the farm products in which each buyer, commission merchant, and selling agent has an interest;

(E) the Secretary of State distributes regularly as prescribed by the State to each buyer, commission merchant, and selling agent on the list described in subparagraph (D) a copy in written or printed form of those portions of the master list described in paragraph¹ (C) that cover the farm products

in which such buyer, commission merchant, or selling agent has registered an interest;

(F) the Secretary of State furnishes to those who are not registered pursuant to (2)(D) of this section² oral confirmation within 24 hours of any effective financing statement on request followed by written confirmation to any buyer of farm products buying from a debtor, or commission merchant or selling agent selling for a seller covered by such statement.

(3) The term “commission merchant” means any person engaged in the business of receiving any farm product for sale, on commission, or for or on behalf of another person.

(ii) the name and address of the person indebted to the secured party;

(iii) the social security number of the debtor or, in the case of a debtor doing business other than as an individual, the Internal Revenue Service taxpayer identification number of such debtor;

(iv) a description of the farm products subject to the security interest created by the debtor, including the amount of such products where applicable; and a reasonable description of the property, including³ county or parish in which the property is located;

(E) must be amended in writing, within 3 months, similarly signed and filed, to reflect material changes;

(F) remains effective for a period of 5 years from the date of filing, subject to extensions for additional periods of 5 years each by re-filing or filing a continuation statement within 6 months before the expiration of the initial 5 year period;

(G) lapses on either the expiration of the effective period of the statement or the filing of a notice signed by the secured party that the statement has lapsed, whichever occurs first;

(H) is accompanied by the requisite filing fee set by the Secretary of State; and

(I) substantially complies with the requirements of this subparagraph even though it contains minor errors that are not seriously misleading.

(5) The term “farm product” means an agricultural commodity such as wheat, corn, soybeans, or a species of livestock such as cattle, hogs, sheep, horses, or poultry used or produced in farming operations, or a product of such crop or livestock in its unmanufactured state (such as ginned cotton, wool-clip, maple

syrup, milk, and eggs), that is in the possession of a person engaged in farming operations.

(6) The term “knows” or “knowledge” means actual knowledge.

(7) The term “security interest” means an interest in farm products that secures payment or performance of an obligation.

(9) The term “State” means each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, the Commonwealth of the Northern Mariana Islands, or the Trust Territory of the Pacific Islands.

(10) The term “person” means any individual, partnership, corporation, trust, or any other business entity.

(11) The term “Secretary of State” means the Secretary of State or the designee of the State.

(d) Purchases free of security interest

Except as provided in subsection (e) of this section and notwithstanding any other provision of Federal, State, or local law, a buyer who in the ordinary course of business buys a farm product from a seller engaged in farming operations shall take free of a security interest created by the seller, even though the security interest is perfected; and the buyer knows of the existence of such interest.

(e) Purchases subject to security interest

A buyer of farm products takes subject to a security interest created by the seller if—

(1)(A) within 1 year before the sale of the farm products, the buyer has received from the secured party or the seller written notice of the security interest organized according to farm products that—

(i) is an original or reproduced copy thereof;

(A) the buyer has failed to register with the Secretary of State of such State prior to the purchase of farm products; and

(B) the secured party has filed an effective financing statement or notice that covers the farm products being sold; or

(3) in the case of a farm product produced in a State that has established a central filing system, the buyer—

(A) receives from the Secretary of State of such State written notice as provided in subparagraph⁵ (c)(2)(E) or (c)(2)(F) that specifies both the seller and the farm product being sold by such seller as being subject to an effective financing statement or notice; and

(B) does not secure a waiver or release of the security interest specified in such effective financing statement or notice from the secured party by performing any payment obligation or otherwise; and⁶

(f) Law governing “receipt”

§1641. Availability of wheat for export; utilization of funds and facilities; prices; authorization of appropriations

The President is authorized, acting through the Commodity Credit Corporation, to make available or cause to be made available, notwithstanding the provisions of any other law, such quantities of wheat and wheat-flour and at such prices as are necessary to exercise the rights, obtain the benefits, and fulfill the obligations of the United States under the International Wheat Agreement of 1949 signed by Australia, Canada, France, the United States, Uruguay, and certain wheat importing countries, along with the agreements signed by the United States and certain other countries revising and renewing such agreement of 1949 for periods through July 31, 1965 (hereinafter collectively called the "International Wheat Agreement"). Nothing in this chapter shall be con-

strued to preclude the Secretary of Agriculture, in carrying out programs to encourage the exportation of agricultural commodities and products thereof pursuant to section 612c of this title, from utilizing funds available for such programs in such manner as, either separately or jointly with the Commodity Credit Corporation, to exercise the rights, obtain the benefits, and fulfill all or any part of the obligations of the United States under the International Wheat Agreement or to preclude the Commodity Credit Corporation in otherwise carrying out wheat and wheat-flour export programs as authorized by law. Nothing contained in this chapter shall limit the duty of the Commodity Credit Corporation to the maximum extent practicable consistent with the fulfillment of the Corporation's purposes and the effective and efficient conduct of its business to utilize the usual and customary channels, facilities, and arrangements of trade and commerce in making available or causing to be made available wheat and wheat-flour under this chapter. The pricing provisions of section 1510(e)¹ of title 22 and section 713a9 of title 15, shall not be applicable to domestic wheat and wheat-flour supplied to countries which are parties to the International Wheat Agreement and credited to their guaranteed purchases thereunder on and after August 1, 1949, and up to and including June 30, 1950. Where prices in excess of the International Wheat Agreement prices have been paid for such wheat and wheat-flour financed by the Economic Cooperation Administration on or after August 1, 1949, and up to and including June 30, 1950, the Secretary of Agriculture or Commodity Credit Corporation is authorized to reimburse the Economic Cooperation Administration for such excess amounts. Funds realized from such reimbursement shall revert to the respective appropriation or appropriations from which funds were expended for the procurement of such wheat and wheat-flour. There are authorized to be appropriated such sums as may be necessary to make payments to the Commodity Credit Corporation of its estimated or actual net costs of carrying out its functions hereunder. Such net costs in connection with the International Wheat Agreement, 1959, shall include those with respect to all transactions which qualify as commercial purchases (as defined in such agreement) from the United States by importing member countries. Such net costs in connection with the International Wheat Agreement, 1962, shall include those with respect to all transactions which qualify as commercial purchases (as defined in such agreement) from the United States by member and provisional member importing countries, including transactions entered into prior to the deposit of instruments of acceptance or accession by any of the countries involved, if the loading period is not earlier than the date the agreement enters into force. The Commodity Credit Corporation is authorized in carrying out its functions under this chapter to utilize, in advance of such appropriations or payments, any assets available to it.

§1691a. Global food aid needs

In view of the principal findings of the National Research Council of the National Academy of Sciences that doubling food aid above 1990 levels of about 10,000,000 metric tons per

year would be necessary to meet projected global food needs throughout the decade of the nineties, it is the sense of Congress that the President should—

- (1) increase the contributions of food aid by the United States, and encourage other donor countries to increase their contributions toward meeting new food aid requirements; and
- (2) encourage other advanced nations to make increased food aid contributions to combat world hunger and malnutrition, particularly through the expansion of international food and agricultural assistance programs.

EMERGENCY FOOD ASSISTANCE TO INDIA

Pub. L. 907, Apr. 1, 1967, 81 Stat. 7, provided: “That the Congress approves the participation of the United States in cooperation with other countries and with multilateral organizations, including the International Bank for Reconstruction and Development, the Organization for Economic Cooperation and Development, the Food and Agriculture Organization, and others, in urgent international efforts designed to—

“(a) develop a comprehensive self-help approach to the war on hunger based on a fair sharing of the burden among the nations of the world;

“(b) encourage and assist the Government of India in achieving food self-sufficiency; and

“(c) help meet India’s critical food and nutritional needs by making available agricultural commodities or other resources needed for food procurement or production.

“Because uncertainty in connection with Public Law 480 transactions tends to depress market prices, it is the sense of Congress that, in carrying out this Aid to India program, the Administration should, subject to the requirement of section 401 of Public Law 480 [section 1731 of this title] with respect to the availability of the commodity at the time of exportation, make announcements of intention, purchases and shipments of commodities on schedules and under circumstances which will protect and strengthen farm market prices to the maximum extent possible.

“The Congress endorses the President’s policy of equal participation on the part of the United States with all other nations, under terms and conditions set forth in Public Law 480, as amended [this chapter], in assisting the Government of India to meet these needs.

“Further, the Congress recommends, on the basis of estimates now available, that the United States provide an additional amount of food grain not to exceed three million tons at an estimated cost of \$190,000,000 as the United States share toward meeting the India food deficit, provided it is appropriately matched, and specifically extends its support to the allocation of approximately \$190,000,000 of funds available to the Commodity Credit Corporation in calendar year 1967 which will be required to accomplish this purpose.

“The Congress further recommends that the President provide an additional \$25,000,000 of emergency food relief for distribution by CARE and other American voluntary agencies.”

L. 89808, §3(d), Nov. 11, 1966, 80 Stat. 1538, provided that: “In carrying out the provisions of the Agricultural Trade Development and Assistance Act of 1954, as amended [this chapter], extra long staple cotton shall be made available for sale pursuant to the provisions of title I of the Act [this subchapter] in the same manner as upland cotton or any other surplus agricultural commodity is made available, and products manufactured entirely from upland or long staple cotton shall be made available for sale pursuant to the provisions of title I of the Act [this subchapter] as long as cotton is in surplus supply in the same manner as any other agricultural commodity or product is made available, and no discriminatory or other conditions shall be imposed which will prevent or tend to interfere with their sale or availability for sale under the Act [this chapter].”

Section 3 of act Aug. 3, 1956, ch. 933, 70 Stat. 988, provided that: “Sales of fresh fruit and the products thereof under title I of the Act [sections 1701 to 1704, 1705 to 1707, 1708 to 1711 of this title] shall be exempt from the requirements of the cargo preference laws (Public Resolution 17, Seventy-third Congress [46 App. U.S.C. 12411] and section 901(b) of the Merchant Marine Act, 1936 [46 App. U.S.C. 1241(b)]).”

SUBCHAPTER IIIB—EMERGENCY FOOD ASSISTANCE

§1728. Findings regarding emergency food assistance

The Congress finds that—

(1) acute food crises continue to cause loss of life, severe malnutrition, and general human suffering in many areas of the Third World, especially in sub-Saharan Africa;

(2) the United States continues to respond to these needs, as a reflection of its humanitarian concern for the people of the Third World, with emergency food and other necessary assistance to alleviate the suffering of those affected by severe food shortages;

(3) the timely provision of food and other necessary assistance to those in need is of paramount importance if the worst effects of such food crises are to be mitigated; and

(4) the ability of the United States to provide food and other necessary assistance on a timely basis, and to ensure that such assistance is distributed to those in need, should be enhanced in order to better enable the United States to help those affected by severe food shortages.

There are authorized to be appropriated to the President \$50,000,000 each for fiscal year 1985 and

SUBCHAPTER IV—GENERAL AUTHORITIES
AND REQUIREMENTS

§1731. Commodity determinations

After consulting with other agencies of the Federal Government affected and within policies established by the President for implementing this chapter, and after taking into consideration productive capacity, domestic requirements, farm and consumer price levels, commercial exports, and adequate carryover, the Secretary shall determine, prior to the beginning of each fiscal year, the agricultural commodities and quantities thereof available for disposition under this chapter.

(b) Modification

The Secretary may, during the fiscal year, modify a determination made under subsection (a) of this section if the Secretary provides to the Congress prior notice of that modification (including a statement of the reasons for the modification).

(c) Commodities not available

No commodity shall be available for disposition under this chapter if such disposition would reduce the domestic supply of such commodity below that needed to meet domestic requirements, adequate carryover, and anticipated exports for dollars as determined by the Secretary, unless the Secretary determines that some part

of the supply should be used to carry out urgent humanitarian purposes under this chapter.

(d) Policies for implementing chapter

The Secretary shall, to the extent practicable, seek to maintain a stable level of available agricultural commodities under this chapter of the kind and type needed to provide food assistance to developing countries and should attempt to make such commodities available to the degree necessary to fulfill multi-year agreements entered into under this chapter.

(e) Ineligible commodities

(1) Alcoholic beverages

Alcoholic beverages shall not be made available for disposition under this chapter.

(2) Tobacco

Tobacco or the products thereof shall not be made available under section 1727b of this title or subchapter III of this chapter.

1977—Subsec. (a). Pub. L. 95113 inserted provisions under which commodities may be made available for disposition if the Secretary of Agriculture determines that some part of the supply of commodities should be used to carry out urgent humanitarian purposes, even though such disposition would reduce the domestic supply of those commodities below that needed to meet domestic requirements, provide adequate carryover, and allow for anticipated exports.

Pub. L. 9588 designated existing provisions as subsec. (a).

Subsec. (b). Pub. L. 9588 added subsec. (b).

1966—Pub. L. 89808 substituted provisions relating to determination and criteria for such determination by the Secretary of Agriculture of agricultural commodities available for disposition for former statement of purpose of provisions relating to long-term supply contracts, now covered by subchapter II of this chapter.

¹So in original. Probably should be “expended.”

(3) Encouragement of safe passage

When entering into agreements under this chapter that involve areas within recipient countries that are experiencing protracted warfare or civil strife, the Secretary or the Administrator, as appropriate, shall, to the extent practicable, encourage all parties to the conflict to permit safe passage of the commodities and other relief supplies and to establish safe zones for medical and humani-

tarian treatment and evacuation of injured persons.

DELEGATION OF FUNCTIONS

Functions of President under this section delegated to Secretary of Agriculture, in consultation with Food Assistance Policy Council and Department of the Treasury, by section 4(d) of Ex. Ord. No. 12752, Feb. 25, 1991, 56 F.R. 8256, set out as a note under section 1691 of this title.

RENEGOTIATION OF PAYMENT TERMS OF LOANS FOR SALE OF AGRICULTURAL COMMODITIES

Pub. L. 10227, title II, Apr. 10, 1991, 105 Stat. 147, provided that: “Title I of the Public Law 480 [7 U.S.C. 1701 et seq.] program allowed for the repayment of loans for the sale of agricultural commodities in foreign or local currencies until December 31, 1971. Since that time, until the law was changed in the 1985 farm bill [probably means Pub. L. 99198, see Tables for classification], all sales have been on dollar credit terms. In view of the present financial situation, it is impossible for many countries to repay their loans in dollars. Therefore, the President may use the authority in section 411 and section 604 of the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1736e, 1738c] to renegotiate the payment on Public Law 480 debt in eligible countries in Latin America, the Caribbean and sub-Saharan Africa.”

including such amounts as may be required to make payments to the Commodity Credit Cor-

poration to the extent the Commodity Credit Corporation is not reimbursed under the programs under this chapter for the actual costs incurred or to be incurred by such Corporation in carrying out such programs.

(b) Limitations

Of the amounts made available in each fiscal year to carry out subchapters II and IIIA of this chapter, not less than—

- (1) 40 percent shall be made available to carry out the credit sales program established under subchapter II of this chapter; and
- (2) 40 percent shall be made available to carry out the grant program established under subchapter IIIA of this chapter.

(c) Transfer of funds

Notwithstanding any other provision of law and except as provided in subsection (b) of this section, if the President determines it to be necessary for purposes of this chapter, the President may direct that not in excess of 15 percent of the funds available in any fiscal year for carrying out any subchapter of this chapter be used to carry out any other subchapter of this chapter.

(d) Budget

In presenting the Budget of the United States, the President shall classify expenditures under this chapter as expenditures for international affairs and finance rather than for agriculture and agricultural resources.

(e) Value of commodities

Notwithstanding any other provision of law, in determining the reimbursement due the Commodity Credit Corporation for all expenses incurred under this chapter, commodities from the inventory of the Commodity Credit Corporation that were acquired under title I of the Agricultural Act of 1949 [7 U.S.C. 1441 et seq.] shall be valued at a price not greater than the export market price for such commodities, as determined by the Secretary, as of the time such commodity is made available under this chapter.

(July 10, 1954, ch. 469, title IV, §412, as added Dec. 20, 1975, Pub. L. 94161, title II, §212, 89 Stat. 855; amended Nov. 28, 1990, Pub. L. 101624, title XV, §1512, 104 Stat. 3655.)

Amendment by Pub. L. 101624 effective Jan. 1, 1991, see section 1513 of Pub. L. 101624, set out as a note under section 1691 of this title.

DELEGATION OF FUNCTIONS

Functions of President under subsec. (c) of this section delegated to Director of the Office of Management and Budget by section 4(e) of Ex. Ord. No. 12752, Feb. 25, 1991, 56 F.R. 8256, set out as a note under section 1691 of this title.

§1736f1. Food security wheat reserve**(a) Establishment by President**

To provide for a wheat reserve solely for emergency humanitarian food needs in developing countries, the President shall establish a reserve stock of wheat of up to four million metric tons for use for the purposes specified in subsection (c) of this section.

(b) Initial establishment by designation of wheat owned by Commodity Credit Corporation; replenishment by purchase or by designation of wheat acquired by Corporation

(1) The reserve stock of wheat under this section shall be established initially by designation for that purpose by the Secretary of Agriculture of wheat owned by the Commodity Credit Corporation.

(2)(A) Subject to the provisions of subsection (i) of this section, stocks of wheat to replenish the reserve may be acquired (i) through purchases from producers or in the market if the Secretary of Agriculture determines that such purchases will not unduly disrupt the market, and (ii) by designation by the Secretary of stocks of wheat otherwise acquired by the Commodity Credit Corporation. Any use of funds to acquire wheat through purchases from producers or in the market to replenish the reserve must be authorized in appropriation Acts.

(B) Not later than 18 months after the release of stocks from the reserve, the Secretary of Agriculture shall replenish the reserve—

(i) through purchases under subparagraph (A)(i), to the extent of available appropriations; or

(ii) by designating an equivalent quantity of wheat from uncommitted stocks of the Commodity Credit Corporation, to the extent sufficient appropriations are not available under subparagraph (A)(i), except to the extent that the Secretary reports to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate that there are not sufficient uncommitted stocks of the Commodity Credit Corporation available.

(c) Release of wheat stocks by President for emergency food assistance to developing countries

Notwithstanding any other provision of law, stocks of wheat designated or acquired for the reserve under this section may be released by the President to provide, on a donation or sale basis, emergency food assistance to developing countries at any time that the domestic supply of wheat is so limited that quantities of wheat cannot be made available for disposition under the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.], except for urgent humanitarian purposes, under the criteria of section 401 of that Act [7 U.S.C. 1731]. Notwithstanding the provisions of the preceding

sentence, up to three hundred thousand metric tons of wheat may be released from the reserve under this section in any fiscal year, without regard to the domestic supply situation, for use under title II of the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1721 et seq.] in providing urgent humanitarian relief in any developing country suffering a major disaster, as determined by the President, whenever the wheat needed for relief cannot be programed for such purpose in a timely manner under the normal means of obtaining commodities for food assistance due to circumstances of unanticipated and exceptional need. Wheat released from the reserve may be processed in the United States and shipped to a developing country in the form of flour when conditions in the recipient country require such processing in the United States.

(d) Release of wheat to meet famine or other relief requirements

Wheat released from the reserve for the purposes of subsection (c) of this section shall be made available under the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.] to meet famine or other urgent or extraordinary relief requirements, except that section 401 of that Act [7 U.S.C. 1731], with respect to determinations of availability, shall not be applicable thereto.

(e) Management of wheat in reserve to avoid spoilage

The Secretary of Agriculture shall provide for the management of stocks of wheat in the reserve as to location and class of wheat needed to meet emergency situations and for the periodic rotation of stocks of wheat in the reserve to avoid spoilage and deterioration of such stocks, using programs authorized by the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.] and any other provision of law, but any quantity of wheat removed from the reserve for the purposes of this subsection shall be promptly replaced with an equivalent quantity of wheat.

(f) Wheat in reserve as part of total domestic supply for purposes of other laws

Stocks of wheat in the reserve shall not be considered a part of the total domestic supply (including carryover) for the purposes of subsection (c) of this section or for the purposes of administering the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.] and shall not be subject to any quantitative limitations on exports that may be imposed under section 2406 of the Appendix to title 50.

(g) Use of Commodity Credit Corporation funds, facilities, and authorities; reimbursement of Corporation

(1) The funds, facilities, and authorities of the Commodity Credit Corporation shall be used by the Secretary of Agriculture in carrying out this section, except that any restriction applicable to the acquisition, storage, or disposition of Commodity Credit Corporation owned or controlled commodities shall not apply with respect to the acquisition, storage, or disposal of wheat for or in the reserve.

(2) Effective beginning October 1, 1981, the Commodity Credit Corporation shall be reimbursed from funds made available for carrying out the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.] for wheat released from the reserve that is made available under such Act, such reimbursement to be made on the basis of actual costs incurred by the Commodity Credit Corporation with respect to such wheat or the export market price of wheat (as determined by the Secretary) as of the time the wheat is released from the reserve for such purpose, whichever is lower. Such reimbursement may be made from funds appropriated for that purpose in subsequent years.

(h) Finality of determinations by President or Secretary

Any determination by the President or the Secretary of Agriculture under this section shall be final.

(i) Expiration of authority to replenish stocks of wheat; disposal of remaining stocks

The authority to replace stocks of wheat to maintain the reserve under this section shall expire September 30, 1995, after which stocks released from the reserve may not be replenished. Stocks of wheat remaining in the reserve after September 30, 1995, shall be disposed of by release for use in providing for emergency food needs in developing countries as provided in this section.

(b) It is further declared to be the sense of Congress that any special standby export subsidy program established by the Secretary of Agriculture pursuant to subsection (a)(8) of this section should be (1) consistent with United States international obligations, and (2) designed to neutralize the effects of those foreign agricultural commodity subsidy programs that—

(A) the President has determined, pursuant to section 2411 of title 19, are acts, policies, or practices described in section 2411(a) of title 19 that should be eliminated by appropriate action of the United States; and

§1736n. Increased usage of protein byproducts derived from alcohol fuel production

(a) Purposes

Congress finds that the use of the protein byproduct resulting from the production of fuel alcohol from agricultural commodities may make it possible for the United States to make available significantly increased amounts of protein to meet the food needs of developing countries without any increase in handling, storage, and transportation facilities. It is the sense of Congress that serious consideration should be given to the potential of this protein byproduct and that, if found to be feasible, this protein byproduct should be included in the Department of Agriculture's commodity export and donation programs.

(b) Investigative authorities

Accordingly, the Secretary of Agriculture shall continue to investigate the potential for using the protein byproduct resulting from the production of fuel alcohol from agricultural commodities in meeting the food needs of developing countries through food for peace programs carried out under the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.] and through the export credit sales program carried out under section 1707a¹ of this title and section 714c(f) of title 15.

(c) Additional investigative authorities

The Secretary shall also continue to investigate the potential for using the protein byproduct resulting from the production of fuel alcohol from agricultural commodities in the distribution of food products under the commodity donation program carried out under clause (3)¹ of section 1431 of this title and under section 1859 of this title.

(d) Reporting requirements

(1) Not later than twelve months after December 22, 1981, the Secretary shall include the results of the investigations referred to in subsections (b) and (c) of this section in an appropriate report to Congress.

(2) The Secretary shall thereafter provide to Congress each year a description of the efforts being made by the Department to make available, as part of the programs referred to in subsections (b) and (c) of this section, the protein byproduct resulting from the production of fuel alcohol from agricultural commodities. The information for all such programs shall be included in the report submitted pursuant to section 407(g) of the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1736a(g)], or in any other appropriate annual report to Congress.

§1736o. Food for progress

(a) Short title

This section may be cited as the “Food for Progress Act of 1985”.

(b) Agreements with developing countries and emerging democracies to furnish commodities

(1) In order to use the food resources of the United States more effectively in support of developing countries, and countries that are emerging democracies, that have made commitments to introduce or expand free enterprise elements in their agricultural economies through changes in commodity pricing, marketing, input availability, distribution, and private sector involvement, the President is authorized to enter into agreements with the governments of such countries (including the independent states of the former Soviet Union), or with private voluntary organizations, nonprofit agricultural organizations, cooperatives, or other private entities, to furnish commodities made available pursuant to subsections (e) and (f) of this section. Such agreements may provide for commodities to be furnished on a multiyear basis.

(2) The annual tonnage limitation contained in subsection (g) of this section shall not apply with respect to commodities furnished to the independent states of the former Soviet Union during fiscal year 1993.

(c) “Commodities” defined

As used in this section, the term “commodities” means agricultural commodities and the products thereof.

(d) Considerations for agreements

In determining whether to enter into an agreement under this section, the President shall consider whether a potential recipient country is committed to carry out, or is carrying out, policies that promote economic freedom, private, domestic production of food commodities for domestic consumption, and the creation and expansion of efficient domestic markets for the purchase and sale of such commodities. Such policies may provide for, among other things—

(1) access, on the part of farmers in the country, to private, competitive markets for their product;

(2) market pricing of commodities to foster adequate private sector incentives to individual farmers to produce food on a regular basis for the country’s domestic needs;

(3) establishment of market-determined foreign exchange rates;

(4) timely availability of production inputs (such as seed, fertilizer, or pesticides) to farmers;

(5) access to technologies appropriate to the level of agricultural development in the country; and

(6) construction of facilities and distribution systems necessary to handle perishable products.

(e) Availability of commodities; financing sale and exportation of commodities; payment of costs and charges

(1) The Commodity Credit Corporation shall make available to the President such commodities determined to be available under section 401 of the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1731] as the President may request for purposes of furnishing commodities under this section.

(2) Notwithstanding any other provision of law, the Commodity Credit Corporation may use funds appropriated to carry out title I of the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1701 et seq.] in carrying out this section with respect to commodities made available under that Act [7 U.S.C. 1691].

(3) The Commodity Credit Corporation may finance the sale and exportation of commodities, made available under the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.], which are furnished under this section. Payment for commodities made available under that Act which are purchased on credit terms under this section shall be on the same basis as the terms provided in section 106¹ of that Act.

(4) In the case of commodities made available under the Agricultural Trade Development and Assistance Act of 1954 for purposes of this section, section 203¹ of that Act [7 U.S.C. 1723] shall apply to commodities furnished on a grant basis under this section and sections 402, 403(a), 403(c), and 403(i) of that Act [7 U.S.C. 1732, 1733(a), (c), (i)] shall apply to all commodities furnished under this section.

(f) Provision to developing countries on grant basis; minimum metric ton amount available; purchase of commodities by Commodity Credit Corporation; funds for implementation; cost of commodities and expenses

(1) The Commodity Credit Corporation may provide for—

(A) grants, or

(B) in the case of the independent states of the former Soviet Union, sales on credit terms,

of commodities made available under section 1431(b) of this title for use in carrying out this section.

(2) Not less than 75,000 metric tons shall be made available pursuant to section 1431(b)(10)(C)

¹See References in Text note below.

of this title to carry out this section unless the President determines there are an insufficient number of eligible recipients.

(3) In carrying out section 1431(b) of this title, the Commodity Credit Corporation may purchase commodities for use under this section if—

(A) the Commodity Credit Corporation does not hold stocks of such commodities; or

(B) Commodity Credit Corporation stocks are insufficient to satisfy commitments made in agreements entered into under this section and such commodities are needed to fulfill such commitments.

(4) No funds of the Commodity Credit Corporation in excess of \$30,000,000 (exclusive of the cost of commodities) may be used to carry out this section with respect to commodities made available under section 1431(b) of this title unless authorized in advance in appropriation Acts.

(5) The cost of commodities made available under section 1431(b) of this title which are furnished under this section, and the expenses incurred in connection with furnishing such commodities, shall be in addition to the level of assistance programmed under the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1691 et seq.] and may not be considered expenditures for international affairs and finance.

(g) Maximum amount of metric tons of commodities to be furnished

Not more than 500,000 metric tons of commodities may be furnished under this section in each of the fiscal years 1986 through 1995.

(h) Prohibition on resale of transshipment of commodities

An agreement entered into under this section shall prohibit the resale or transshipment of the commodities provided under the agreement to other countries.

(i) Agreements not to displace other sales of United States commodities

In entering into agreements under this section, the President shall take reasonable steps to avoid displacement of any sales of United States commodities that would otherwise be made to such countries.

(j) Agreements for distribution or sale on multi-year basis

In carrying out this section, the President shall, on request and subject to the availability of commodities, approve agreements that provide for commodities to be made available for distribution or sale by the recipient on a multi-year basis if the agreements otherwise meet the requirements of this section.

(k) Effective and termination dates

This section shall be effective during the period beginning October 1, 1985, and ending December 31, 1995.

(l) Additional assistance in administration of food assistance programs

(1) To enhance the development of private sector agriculture in countries receiving assistance under this section the President may, in each of the fiscal years 1991 through 1995, use in addition

to any amounts or commodities otherwise made available under this section for such activities, not to exceed \$10,000,000 of Commodity Credit Corporation funds (or commodities of an equal value owned by the Corporation), to provide assistance in the administration, sale, and monitoring of food assistance programs to strengthen private sector agriculture in recipient countries.

(2) To carry out this subsection, the President may provide agricultural commodities under agreements entered into under this section in a manner that uses the commodity transaction as a means of developing in the recipient countries a competitive private sector that can provide for the importation, transportation, storage, marketing and distribution of such commodities.

(3) The President may use the assistance provided under this subsection and local currencies derived from the sale of commodities under paragraph (2) to design, monitor, and administer activities undertaken with such assistance, for the purpose of strengthening or creating the capacity of recipient country private enterprises to undertake commercial transactions, with the overall goal of increasing potential markets for United States agricultural commodities.

(m) Agreements for sale of commodities to independent states of former Soviet Union

In carrying out this section with respect to the independent states of the former Soviet Union, the President shall approve, as determined appropriate by the President, agreements with private voluntary organizations and cooperatives that provide for—

(1) the sale of commodities, including the marketing of these commodities through the private sector; and

(2) the use in the independent states of the proceeds generated in the humanitarian and development programs of such private voluntary organizations and cooperatives.

(n) "Independent states of the former Soviet Union" defined

As used in this section, the term "independent states of the former Soviet Union" means the independent states of the former Soviet Union as defined in section 5602(8) of this title.

§1736p. Trade policy declaration

(a) Congressional findings

Congress finds that—

(1) the volume and value of United States agricultural exports have significantly declined in recent years as a result of unfair foreign competition and the high value of the dollar;

(2) this decline has been exacerbated by the lack of uniform and coherent objectives in United States agricultural trade policy and the absence of direction and coordination in trade policy formulation;

(3) agricultural interests have been underrepresented in councils of government responsible for determining economic policy that has contributed to a strengthening of the United States dollar;

(4) foreign policy objectives of the United States have been introduced into the trade policy process in a manner injurious to the goal of maximizing United States economic interests through trade; and

(5) the achievement of that goal is in the best interests of the United States.

(b) Congressional declaration of policy

It is hereby declared to be the agricultural trade policy of the United States to—

(1) provide through all means possible agricultural commodities and their products for export at competitive prices, with full assurance of quality and reliability of supply;

(2) support the principle of free trade and the promotion of fairer trade in agricultural commodities and their products;

(3) cooperate fully in all efforts to negotiate with foreign countries reductions in current barriers to fair trade;

(4) counter aggressively unfair foreign trade practices using all available means, including export restitution, export bonus programs, and, if necessary, restrictions on United States imports of foreign agricultural commodities and their products, as a means to encourage fairer trade;

(5) remove foreign policy constraints to maximize United States economic interests through agricultural trade; and

(6) provide for consideration of United States agricultural trade interests in the design of national fiscal and monetary policy that may foster continued strength in the value of the dollar.

(Pub. L. 99198, title XI, §1121, Dec. 23, 1985, 99 Stat. 1480.)

Section was enacted as part of the Food Security Act of 1985, and not as part of the Agricultural Trade Development and Assistance Act of 1954 which comprises this chapter.

§1736q. Trade liberalization

(a) Congressional findings

Congress finds that—

(1) the present high level of agricultural protectionism contrasts sharply with the general trade liberalization that has been achieved since the inception of the General Agreement on Tariffs and Trade (hereinafter referred to as "GATT"); and

(2) GATT procedures should explicitly recognize the protective effect of domestic subsidies that alter trade indirectly by reducing the demand for imports and increasing the supply of exports.

(b) Sense of Congress

It is the sense of Congress that the President should negotiate with other parties to GATT to revise GATT rules and codes with the goal of reducing agricultural export subsidies, tariffs, and nontariff barriers to trade.

§1736r. Agricultural trade consultations

(a) Effectuation of purposes by Secretary of Agriculture in coordination with United States Trade Representative

To improve the orderly marketing of United States agricultural commodities, to achieve higher income for United States producers of agricultural commodities, and to reduce the likelihood of an agricultural commodity price war and the need for export subsidy programs, the Secretary of Agriculture shall, in coordination with the United States Trade Representative, confer with representatives of other major agricultural producing countries and, at the earliest possible date, initiate and pursue agricultural trade consultations among major agricultural producing countries.

(b) Sense of Congress for objectives of consultations

It is the sense of Congress that the objectives of the consultations called for in subsection (a) of this section should be to—

(1) increase the exchange of information on worldwide agricultural production, demand, and commodity supply levels;

(2) determine a more equitable sharing of responsibility for maintaining agricultural commodity reserves and managing supplies of agricultural commodities; and

(3) attain increased cooperation in restraining export subsidy programs.

(c) Reporting requirements

The Secretary of Agriculture shall report to Congress by July 1, 1986, and annually thereafter through fiscal year 1990, on the progress of efforts to initiate and pursue the consultations called for in subsection (a) of this section, including any agreements reached with respect to the objectives set forth in subsection (b) of this section.

L. 100418, title IV, §4305, Aug. 23, 1988, 102 Stat. 1398, which stated the sense of Congress that, to the extent that the Commodity Credit Corporation made a specified allocation of credit guarantees available under the export credit guarantee program referred to in section 1736t for short-term credit extended to finance the export sales of United States agricultural commodities and products, such allocation was to be made on a country-only basis and not on a commodity basis or a commodity and country basis, was repealed by Pub. (b) Exemption from requirements of OMB circular

The cooperator market development program shall be exempt from the requirements of Circular A 110 issued by the Office of Management and Budget.
