(C) is not returned to his home or to the place where he was employed by reason of the failure of the United States or its contractor to furnish transportation,

until such time as he is returned to his home, to the place of his employment, or is able to be returned to the jurisdiction of the United States, shall, under such regulations as the Secretary

may prescribe, be regarded solely for the purposes of this subsection as totally disabled, and the same benefits as are provided for such disability under this subchapter shall be credited to his account and be payable to him for the period of such absence or until his death is in fact established or can be legally presumed to have occurred: *Provided*, That if such person has dependents residing in the United States or its Territories or possessions (including the United States Naval Operating Base, Guantanamo Bay, Cuba, and the Canal Zone), the Secretary during the period of such absence may disburse a part of such compensation, accruing for such total disability, to such dependents, which shall be equal to the monthly benefits otherwise payable for death under this subchapter, and the balance of such compensation for total disability shall accrue and be payable to such person upon his return from such absence. Any payment made pursuant to this subsection shall not in any case be included in computing the maximum aggregate or total compensation payable for disability or death, as provided in section 1702(a) of this title: *Provided further*, That no such payment to such person or his dependent, on account of such absence, shall be made during any period such person or dependent, respectively, has received, or may be entitled to receive, any other payment from the United States, either directly or indirectly, because of such absence, unless such person or dependent refunds or renounces such other benefit or payment for the period claimed.

Benefits found to be due under this subsection shall be paid from the compensation fund established pursuant to section 8147 of title 5: *Provided*, That the determination of dependents, dependency, and amounts of payments to dependents shall be made in the manner specified in subchapter I of chapter 81 of title 5: *Provided further*, That claim for such detention benefits shall be filed in accordance with and subject to the limitation provisions of subchapter I of chapter 81 of title 5, as modified by section 1706(c) of this title: *And provided further*, That except in cases of fraud or willful misrepresentation, the Secretary may waive recovery of money erroneously paid under this subdivision whenever he finds that such recovery would be impracticable or would cause hardship to the beneficiary affected: *And provided further*, That where such a person is found to be missing from his place of employment whether or not such person then actually was engaged in the course of his employment, under circumstances supporting an inference that his absence is due to the belligerent action of a hostile force or person or is known to have been taken by a hostile force or person as a prisoner, hostage, or otherwise, the amount of benefits to be credited to the account of such person under this subsection, and for the purposes of this subsection only, shall be 100 per centum of the average weekly wages of such person, except that in computing such benefits such average weekly wages (a) shall not exceed the average weekly wages paid to civilian employees of the United States in the same or most similar occupation in the area nearest to the place of employment where such person was last employed, and (b)

shall not exceed the average weekly wages of such absent person at the time such absence began; and 70 per centum of such average weekly wage so determined shall be disbursed to the dependent or dependents of such person, irrespective of the limitations of section 909 of title 33, but should there be more than one such dependent, the distribution of such 70 per centum shall be proportionate to the percentages allowed for dependents by section 909 of title 33, and if such manner of disbursement in any case would result in injustice or excessive allowance for a dependent, the Secretary may, in his discretion, modify such percentage or apportionment to meet the requirements of the case; and in such cases benefits for detention shall accrue from January 1, 1942, unless the beginning of absence occurred upon a later date in which event benefits shall accrue from such later date, and for the period of such absence shall be 100 per centum of the average weekly wages, determined as herein provided: *And provided further*, That compensation for disability under this subchapter (except under allowance for scheduled losses of members or functions of the body, within the purview of section 1702(a) of this title) shall not be paid in any case in respect to any period of time during which benefits for detention may accrue under this subchapter in the same case, and should a person entitled to benefits for detention also be entitled to workmen's compensation or similar benefits under any other law, agreement, or plan (except allowances for scheduled losses of members or functions of the body), where such other benefits are paid or to be paid directly or indirectly by the United States, the amount thereof accruing as to the period of absence shall be taken into account and the benefits credited to the account of the detained person reduced accordingly: *And provided further*, That where through mistake of fact, absence of proof of death, or error through lack of adequate information or otherwise, payments as for detention have in any case been erroneously made or credited, any resulting overpayment of detention benefits (the recovery of which is not waived as otherwise provided for in this section) shall be recouped by the Secretary in such manner as he shall determine from any unpaid accruals to the account of the detained person, and if such accruals are insufficient for such purpose, then from any allowance of compensation for injury or death in the same case (whether under this subchapter or under any other law, agreement, or plan, if the United States pays, or is obligated to pay, such benefits, directly or indirectly), but only to the extent of the amount of such compensation benefits payable for the particular period of such overpayment, and in cases of erroneous payments of compensation for injury or death, made through mistake of fact, whether under this subchapter or under any other law, agreement, or plan (if the United States is obligated to pay such compensation, directly or indirectly), the Secretary is authorized to recoup from any unpaid benefits for detention, the amount of any overpayment thus arising; and any amounts recovered under this section shall be covered into such compensation fund, and for the foregoing purposes the Secretary shall have a right of lien, intervention,

and recovery in any claim or proceeding for compensation.

(2) Upon application by such person, or someone on his behalf, the Secretary may, under such regulations as he may prescribe, furnish transportation or the cost thereof (including reimbursement) to any such person from the point where his release from custody by a hostile force or person is effected, to his home, the place of his employment, or other place within the jurisdiction of the United States; but no transportation, or the cost thereof, shall be furnished under this paragraph where such person is furnished such transportation, or the cost thereof, under any agreement with his employer or under any other provision of law.

(3) In the case of death of any such person, if his death occurred away from his home, the body of such person shall, in the discretion of the Secretary, and if so desired by his next of kin, near relative, or legal representative, be embalmed and transported in a hermetically sealed casket or other appropriate container to the home of such person or to such other place as may be designated by such next of kin, near relative, or legal representative. No expense shall be incurred under this paragraph by the Secretary in any case where death takes place after repatriation, unless such death proximately results from a war-risk hazard.

(4) Such benefits for detention, transportation expenses of repatriated persons, and expenses of embalming, providing sealed or other appropriate container, and transportation of the body, and attendants (if required), as approved by the Secretary, shall be paid out of the compensation fund established under section 8147 of title 5.

(c) Persons not citizens or residents of United States

Compensation for permanent total or permanent partial disability or for death payable under this section to persons who are not citizens of the United States and who are not residents of the United States or Canada, shall be in the same amount as provided for residents; except that dependents in any foreign country shall be limited to surviving wife or husband and child or children, or if there be no surviving wife or husband or child or children, to surviving father or mother whom such person has supported, either wholly or in part, for the period of one year immediately prior to the date of the injury; and except that the Secretary, at his option, may commute all future installments of compensation to be paid to such persons by paying to them one-half of the commuted amount of such future installments of compensation as determined by the Secretary.

(d) Persons excepted from coverage

The provisions of this section shall not apply in the case of any person (1) whose residence is at or in the vicinity of the place of his employment, and (2) who is not living there solely by virtue of the exigencies of his employment, unless his injury or death resulting from injury occurs or his detention begins while in the course of his employment, or (3) who is a prisoner of war or a protected person under the Geneva Conventions of 1949 and who is detained or utilized by the United States.

§ 1704. Reimbursement

(a) Payments reimbursable; filing claim for reimbursement; regulations for payment of direct benefits

Where any employer or his insurance carrier or compensation fund pays or is required to pay benefits—

(1) to any person or fund on account of injury or death of any person coming within the purview of this subchapter or chapter 11 of this title, if such injury or death arose from a war-risk hazard, which are payable under any workmen's compensation law of the United States or of any State, Territory, or possession of the United States, or other jurisdiction; or

(2) to any person by reason of any agreement outstanding on December 2, 1942 made in accordance with a contract between the United States and any contractor therewith to pay benefits with respect to the death of any employee of such contractor occurring under circumstances not entitling such person to benefits under any workmen's compensation law or to pay benefits with respect to the failure of the United States or its contractor to furnish transportation upon the completion of the employment of any employee of such contractor to his home or to the place where he was employed; or

(3) to any person by reason of an agreement approved or authorized by the United States under which a contractor with the United States has agreed to pay workmen's compensation benefits or benefits in the nature of workmen's compensation benefits to an injured employee or his dependents on account of detention by a hostile force or person or on account of injury or death arising from a war-risk hazard;

The Secretary may also, under such regulations as he shall prescribe, use any private facilities, or such Government facilities as may be available, for the treatment or care of any person entitled thereto.

(b) Charging of premiums as prohibiting reimbursement

§ 1755. Direct expenditures for agricultural commodities and other foods

(a) Administrative expenses; nutritional education; pilot projects; cash-in-lieu of commodities study; refusal of commodities and receipt of other commodities available to the State in lieu of the refused commodities

The funds provided by appropriation or transfer from other accounts for any fiscal year for carrying out the provisions of this chapter, and for carrying out the provisions of the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], other than section 3 thereof [42 U.S.C. 1772] less

(1) not to exceed 3½ per centum thereof which per centum is hereby made available to the Secretary for the Secretary's administrative expenses under this chapter and under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.];

(2) the amount apportioned by the Secretary pursuant to section 1753 of this title and the amount appropriated pursuant to sections 1759a and 1761 of this title and sections 4 and 7 of the Child Nutrition Act of 1966 [42 U.S.C. 1773 and 1776]; and

(3) not to exceed 1 per centum of the funds provided for carrying out the programs under this chapter and the programs under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], other than section 3 [42 U.S.C. 1772], which per centum is hereby made available to the Secretary to supplement the nutritional benefits of these programs through grants to States and other means for nutritional training and education for workers, cooperators, and participants in these programs, for pilot projects and the cash-in-lieu of commodities study required to be carried out under section 1769 of this title, and for necessary surveys and studies of requirements for food service programs in furtherance of the purposes expressed in section 1751 of this title, and section 2 of the Child Nutrition Act of 1966 [42 U.S.C. 1771],

shall be available to the Secretary during such year for direct expenditure by the Secretary for agricultural commodities and other foods to be distributed among the States and schools and service institutions participating in the food service programs under this chapter and under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.] in accordance with the needs as determined by the local school and service institution authorities. Except as provided in the next 2 sentences, any school participating in food service programs under this chapter may refuse to accept delivery of not more than 20 percent of the

total value of agricultural commodities and other foods tendered to it in any school year; and if a school so refuses, that school may receive, in lieu of the refused commodities, other commodities to the extent that other commodities are available to the State during that year. Any school food authority may refuse some or all of the fresh fruits and vegetables offered to the school food authority in any school year and shall receive, in lieu of the offered fruits and vegetables, other more desirable fresh fruits and vegetables that are at least equal in value to the fresh fruits and vegetables refused by the school food authority. The value of any fresh fruits and vegetables refused by a school under the preceding sentence for a school year shall not be used to determine the 20 percent of the total value of agricultural commodities and other foods tendered to the school food authority in the school year under the second sentence. The provisions of law contained in the proviso of section 713c of title 15, facilitating operations with respect to the purchase and disposition of surplus agricultural commodities under section 612c of title 7, shall, to the extent not inconsistent with the provision of this chapter, also be applicable to expenditures of funds by the Secretary under this chapter. In making purchases of such agricultural commodities and other foods, the Secretary shall not issue specifications which restrict participation of local producers unless such specifications will result in significant advantages to the food service programs authorized by this chapter and the Child Nutrition Act of 1966.

(b) Delivery of commodities

The Secretary shall deliver, to each State participating in the school lunch program under this chapter, commodities valued at the total level of assistance authorized under subsection (c)¹ of this section for each school year for the school lunch program in the State, not later than September 30 of the following school year.

(c) Level of commodity assistance; computation of index; calculation of total assistance to each State; emphasis on high protein foods; per meal value of donated foods

(1)(A) The national average value of donated foods, or cash payments in lieu thereof, shall be 11 cents, adjusted on July 1, 1982, and each July 1 thereafter to reflect changes in the Price Index for Food Used in Schools and Institutions. The Index shall be computed using 5 major food components in the Bureau of Labor Statistics' Producer Price Index (cereal and bakery products, meats, poultry and fish, dairy products, processed fruits and vegetables, and fats and oils). Each component shall be weighed using the same relative weight as determined by the Bureau of Labor Statistics.

(B) The value of food assistance for each meal shall be adjusted each July 1 by the annual percentage change in a 3-month average value of the Price Index for Foods Used in Schools and Institutions for March, April, and May each year. Such adjustment shall be computed to the nearest ¼ cent.

(C) For each school year, the total commodity assistance or cash in lieu thereof available to a

State for the school lunch program shall be calculated by multiplying the number of lunches served in the preceding school year by the rate established by subparagraph (B). After the end of each school year, the Secretary shall reconcile the number of lunches served by schools in each State with the number of lunches served by schools in each State during the preceding school year and increase or reduce subsequent commodity assistance or cash in lieu thereof provided to each State based on such reconciliation.

(D) Among those commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates (which may include domestic seafood commodities and their products).

(E) Notwithstanding any other provision of this section, not less than 75 percent of the assistance provided under this subsection shall be in the form of donated foods for the school lunch program.

(2) To the maximum extent feasible, each State agency shall offer to each school food authority under its jurisdiction that participates in the school lunch program and receives commodities, agricultural commodities and their products, the per meal value of which is not less than the national average value of donated foods established under paragraph (1). Each such offer shall include the full range of such commodities and products that are available from the Secretary to the extent that quantities requested are sufficient to allow efficient delivery to and within the State.

(d) Termination of commodity assistance based upon school breakfast program

Beginning with the school year ending June 30, 1981, the Secretary shall not offer commodity assistance based upon the number of breakfasts served to children under section 4 of the Child Nutrition Act of 1966 [42 U.S.C. 1773].

(e) Minimum percentage of commodity assistance

(1) Subject to paragraph (2), in each school year the Secretary shall ensure that not less than 12 percent of the assistance provided under section 1753 of this title, this section, and section 1759a of this title shall be in the form of—

(A) commodity assistance provided under this section, including cash in lieu of commodities and administrative costs for procurement of commodities under this section; or

(B) during the period beginning October 1, 2000, and ending September 30, 2009, commodities provided by the Secretary under any provision of law.

(2) If amounts available to carry out the requirements of the sections described in paragraph (1) are insufficient to meet the requirement contained in paragraph (1) for a school year, the Secretary shall, to the extent necessary, use the authority provided under section 1762a(a) of this title to meet the requirement for the school year.

AMENDMENTS

1996—Pub. L. 104-193 designated first and second sentences as subsecs. (a) and (b), respectively, substituted “in subsection (a) of this section” for “in the preceding sentence” in subsec. (c) and substituted “The State educational agency may” for “Nothing in the preceding sentence shall be construed to limit the ability of the State educational agency to”, struck out fourth and fifth sentences, designated sixth sentence as subsec. (d) and substituted “Use of funds paid to States” for “Such food costs”, and designated seventh to ninth sentences as subsecs. (e) to (g), respectively. Prior to amendment, fourth and fifth sentences read as follows: “Such disbursement to any school shall be made only for the purpose of assisting it to obtain agricultural commodities and other foods for consumption by children in the school lunch program. The terms ‘child’ and ‘children’ as used in this chapter shall be deemed to include individuals regardless of age who are determined by the State educational agency, in accordance with regulations prescribed by the Secretary, to have 1 or more mental or physical handicaps and who are attending any child care institution as defined in section 1766 of this title or any nonresidential public or nonprofit private school of high school grade or under for the purpose of participating in a school program established for individuals with mental or physical handicaps: *Provided*, That no institution that is not otherwise eligible to participate in the program under section 1766 of this title shall be deemed so eligible because of this sentence.”

Pub. L. 101-147, §201, inserted after first sentence “The agreements described in the preceding sentence shall be permanent agreements that may be amended

as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State educational agency to suspend or terminate any such agreement in accordance with regulations prescribed by the Secretary."

EFFECTIVE DATE OF 1978 AMENDMENT

Amendment by Pub. L. 95-627 effective Oct. 1, 1978, see section 14 of Pub. L. 95-627, set out as a note under section 1755 of this title.

§ 1758. Program requirements

(a) Nutritional standards; medical and special dietary needs of individual students; compliance assistance; fluid milk; acceptance of offered foods

(1)(A) Lunches served by schools participating in the school lunch program under this chapter shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research, except that the minimum nutritional requirements—

(i) shall not be construed to prohibit the substitution of foods to accommodate the medical or other special dietary needs of individual students; and

(ii) shall, at a minimum, be based on the weekly average of the nutrient content of school lunches.

(B) The Secretary shall provide technical assistance and training, including technical assistance and training in the preparation of lower-fat versions of foods commonly used in the school lunch program under this chapter, to schools participating in the school lunch program to assist the schools in complying with the nutritional requirements prescribed by the Secretary pursuant to subparagraph (A) and in providing appropriate meals to children with medically certified special dietary needs. The Secretary shall provide additional technical assistance to schools that are having difficulty maintaining compliance with the requirements.

(2) Lunches served by schools participating in the school lunch program under this chapter—

(A) shall offer students fluid milk; and

(B) shall offer students a variety of fluid milk consistent with prior year preferences unless the prior year preference for any such variety of fluid milk is less than 1 percent of the total milk consumed at the school.

(3) Students in senior high schools that participate in the school lunch program under this chapter (and, when approved by the local school district or nonprofit private schools, students in any other grade level) shall not be required to accept offered foods they do not intend to consume, and any such failure to accept offered foods shall not affect the full charge to the student for a lunch meeting the requirements of this subsection or the amount of payments made under this chapter to any such school for such lunch.

(b) Income eligibility guidelines for free and reduced price school lunches; duty of Secretary; time to prescribe; relationship to other poverty guidelines; revision; publication; application, verification and approval; use or disclosure of eligibility information; maximum reduced price; nondiscrimination or identification of recipients

(1)(A) Not later than June 1 of each fiscal year, the Secretary shall prescribe income guidelines for determining eligibility for free and reduced price lunches during the 12-month period beginning July 1 of such fiscal year and ending June 30 of the following fiscal year. The income guidelines for determining eligibility for free lunches shall be 130 percent of the applicable family size income levels contained in the non-farm income poverty guidelines prescribed by the Office of Management and Budget, as adjusted annually in accordance with subparagraph (B). The income guidelines for determining eligibility for reduced price lunches for any school year shall be 185 percent of the applicable family size income levels contained in the non-farm income poverty guidelines prescribed by the Office of Management and Budget, as adjusted annually in accordance with subparagraph (B). The Office of Management and Budget guidelines shall be revised at annual intervals, or at any shorter interval deemed feasible and desirable.

(B) The revision required by subparagraph (A) of this paragraph shall be made by multiplying—

(i) the official poverty line (as defined by the Office of Management and Budget); by

(ii) the percentage change in the Consumer Price Index during the annual or other interval immediately preceding the time at which the adjustment is made.

Revisions under this subparagraph shall be made not more than 30 days after the date on which the consumer price index data required to compute the adjustment becomes available.

(2)(A) Following the determination by the Secretary under paragraph (1) of this subsection of the income eligibility guidelines for each school year, each State educational agency shall announce the income eligibility guidelines, by family size, to be used by schools in the State in making determinations of eligibility for free

and reduced price lunches. Local school authorities shall, each year, publicly announce the income eligibility guidelines for free and reduced price lunches on or before the opening of school.

(B) Applications for free and reduced price lunches, in such form as the Secretary may prescribe or approve, and any descriptive material, shall be distributed to the parents or guardians of children in attendance at the school, and shall contain only the family size income levels for reduced price meal eligibility with the explanation that households with incomes less than or equal to these values would be eligible for free or reduced price lunches. Such forms and descriptive material may not contain the income eligibility guidelines for free lunches.

(C)(i) Except as provided in clause (ii), each eligibility determination shall be made on the basis of a complete application executed by an adult member of the household. The Secretary, State, or local food authority may verify any data contained in such application. A local school food authority shall undertake such verification of information contained in any such application as the Secretary may by regulation prescribe and, in accordance with such regulations, shall make appropriate changes in the eligibility determination with respect to such application on the basis of such verification.

(ii) Subject to clause (iii), any school food authority may certify any child as eligible for free or reduced price lunches or breakfasts, without further application, by directly communicating with the appropriate State or local agency to obtain documentation of such child's status as a member of—

(I) a household that is receiving food stamps under the Food Stamp Act of 1977 [7 U.S.C. 2011 et seq.]; or

(II) a family that is receiving assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.] that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995.

(iii) The use or disclosure of any information obtained from an application for free or reduced price meals, or from a State or local agency referred to in clause (ii), shall be limited to—

(I) a person directly connected with the administration or enforcement of this chapter or the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), or a regulation issued pursuant to either this chapter or such Act;

(II) a person directly connected with the administration or enforcement of—

(aa) a Federal education program;

(bb) a State health or education program administered by the State or local educational agency (other than a program carried out under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.)); or

(cc) a Federal, State, or local means-tested nutrition program with eligibility standards comparable to the program under this section; and

(III)(aa) the Comptroller General of the United States for audit and examination authorized by any other provision of law; and

(bb) notwithstanding any other provision of law, a Federal, State, or local law enforcement official for the purpose of investigating an alleged violation of any program covered by paragraph (1) or this paragraph.

(iv) Information provided under clause (iii)(II) shall be limited to the income eligibility status of the child for whom application for free or reduced price meal benefits was made or for whom eligibility information was provided under clause (ii), unless the consent of the parent or guardian of the child for whom application for benefits was made is obtained.

(v) A person described in clause (iii) who publishes, divulges, discloses, or makes known in any manner, or to any extent not authorized by Federal law (including a regulation), any information obtained under this subsection shall be fined not more than \$1,000 or imprisoned not more than 1 year, or both.

(D) FREE AND REDUCED PRICE POLICY STATEMENT.—After the initial submission, a school food authority shall not be required to submit a free and reduced price policy statement to a State educational agency under this chapter unless there is a substantive change in the free and reduced price policy of the school food authority. A routine change in the policy of a school food authority, such as an annual adjustment of the income eligibility guidelines for free and reduced price meals, shall not be sufficient cause for requiring the school food authority to submit a policy statement.

(3) Any child who is a member of a household whose income, at the time the application is submitted, is at an annual rate which does not exceed the applicable family size income level of the income eligibility guidelines for free lunches, as determined under paragraph (1), shall be served a free lunch. Any child who is a member of a household whose income, at the time the application is submitted, is at an annual rate greater than the applicable family size income level of the income eligibility guidelines for free lunches, as determined under paragraph (1), but less than or equal to the applicable family size income level of the income eligibility guidelines for reduced price lunches, as determined under paragraph (1), shall be served a reduced price lunch. The price charged for a reduced price lunch shall not exceed 40 cents.

(4) No physical segregation or other discrimination against any child eligible for a free lunch or a reduced price lunch under this subsection shall be made by the school nor shall there be¹ any overt identification of any child by special tokens or tickets, announced or published lists of names, or by other means.

(5) Any child who has a parent or guardian who (A) is responsible for the principal support of such child and (B) is unemployed shall be served a free or reduced price lunch, respectively, during any period (i) in which such child's parent or guardian continues to be unemployed and (ii) the income of the child's parents or guardians during such period of unemployment falls within the income eligibility criteria for free lunches or reduced price lunches, respec-

tively, based on the current rate of income of such parents or guardians. Local school authorities shall publicly announce that such children are eligible for a free or reduced price lunch, and shall make determinations with respect to the status of any parent or guardian of any child under clauses (A) and (B) of the preceding sentence on the basis of a statement executed in such form as the Secretary may prescribe by such parent or guardian. No physical segregation of, or other discrimination against, any child eligible for a free or reduced price lunch under this paragraph shall be made by the school nor shall there be any overt identification of any such child by special tokens or tickets, announced or published lists of names, or by any other means.

(6)(A) A child shall be considered automatically eligible for a free lunch and breakfast under this chapter and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), respectively, without further application or eligibility determination, if the child is—

(i) a member of a household receiving assistance under the food stamp program authorized under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.);

(ii) a member of a family (under the State program funded under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.)) that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995; or

(iii) enrolled as a participant in a Head Start program authorized under the Head Start Act (42 U.S.C. 9831 et seq.), on the basis of a determination that the child is a member of a family that meets the low-income criteria prescribed under section 645(a)(1)(A) of the Head Start Act (42 U.S.C. 9840(a)(1)(A)).

(B) Proof of receipt of food stamps or assistance under the State program funded under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.) that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995, or of enrollment or participation in a Head Start program on the basis described in subparagraph (A)(iii), shall be sufficient to satisfy any verification requirement imposed under paragraph (2)(C).

(c) Operation on nonprofit basis; donation of agricultural commodities

School lunch programs under this chapter shall be operated on a nonprofit basis. Commodities purchased under the authority of section 612c of title 7, may be donated by the Secretary to schools, in accordance with the needs as determined by local school authorities, for utilization in the school lunch program under this chapter as well as to other schools carrying out nonprofit school lunch programs and institutions authorized to receive such commodities. The requirements of this section relating to the service of meals without cost or at a reduced cost shall apply to the lunch program of any

school utilizing commodities donated under any provision of law.

(d) Social Security numbers and other documentation required as condition of eligibility

(1) The Secretary shall require as a condition of eligibility for receipt of free or reduced price lunches that the member of the household who executes the application furnish the social security account number of the parent or guardian who is the primary wage earner responsible for the care of the child for whom the application is made, or that of another appropriate adult member of the child's household, as determined by the Secretary. The Secretary shall require that social security account numbers of all adult members of the household be provided if verification of the data contained in the application is sought under subsection (b)(2)(C) of this section.

(2) No member of a household may be provided a free or reduced price lunch under this chapter unless—

(A) appropriate documentation relating to the income of such household (as prescribed by the Secretary) has been provided to the appropriate local school food authority so that such authority may calculate the total income of such household;

(B) documentation showing that the household is participating in the food stamp program under the Food Stamp Act of 1977 [7 U.S.C. 2011 et seq.] has been provided to the appropriate local school food authority; or

(C) documentation has been provided to the appropriate local school food authority showing that the family is receiving assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.] that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995.

(e) Limitation on meal contracting

A school or school food authority participating in a program under this chapter may not contract with a food service company to provide a la carte food service unless the company agrees to offer free, reduced price, and full-price reimbursable meals to all eligible children.

(f) Nutritional requirements

(1) NUTRITIONAL REQUIREMENTS.—Except as provided in paragraph (2), not later than the first day of the 1996-1997 school year, schools that are participating in the school lunch or school breakfast program shall serve lunches and breakfasts under the program that—

(A) are consistent with the goals of the most recent Dietary Guidelines for Americans published under section 5341 of title 7; and

(B) provide, on the average over each week, at least—

(i) with respect to school lunches, $\frac{1}{3}$ of the daily recommended dietary allowance established by the Food and Nutrition Board of the National Research Council of the National Academy of Sciences; and

(ii) with respect to school breakfasts, $\frac{1}{4}$ of the daily recommended dietary allowance

established by the Food and Nutrition Board of the National Research Council of the National Academy of Sciences.

(2) State educational agencies may grant waivers from the requirements of paragraph (1) subject to criteria established by the appropriate State educational agency. The waivers shall not permit schools to implement the requirements later than July 1, 1998, or a later date determined by the Secretary.

(3) To assist schools in meeting the requirements of this subsection, the Secretary—

(A) shall—

(i) develop, and provide to schools, standardized recipes, menu cycles, and food product specification and preparation techniques; and

(ii) provide to schools information regarding nutrient standard menu planning, assisted nutrient standard menu planning, and food-based menu systems; and

(B) may provide to schools information regarding other approaches, as determined by the Secretary.

(4) USE OF ANY REASONABLE APPROACH.—

(A) IN GENERAL.—A school food service authority may use any reasonable approach, within guidelines established by the Secretary in a timely manner, to meet the requirements of this subsection, including—

(i) using the school nutrition meal pattern in effect for the 1994–1995 school year; and

(ii) using any of the approaches described in paragraph (3).

(B) NUTRIENT ANALYSIS.—The Secretary may not require a school to conduct or use a nutrient analysis to meet the requirements of this subsection.

(5) WAIVER OF REQUIREMENT FOR WEIGHTED AVERAGES FOR NUTRIENT ANALYSIS.—During the period ending on September 30, 2003, the Secretary shall not require the use of weighted averages for nutrient analysis of menu items and foods offered or served as part of a meal offered or served under the school lunch program under this chapter or the school breakfast program under section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773).

(g) Justification of production records; paperwork reduction

Not later than 1 year after November 2, 1994, the Secretary shall provide a notification to Congress that justifies the need for production records required under section 210.10(b) of title 7, Code of Federal Regulations, and describes how the Secretary has reduced paperwork relating to the school lunch and school breakfast programs.

(h) Food safety inspections

(1) In general

Except as provided in paragraph (2), a school participating in the school lunch program under this chapter or the school breakfast program under section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773) shall, at least once during each school year, obtain a food safety inspection conducted by a State or local governmental agency responsible for food safety inspections.

(2) Exception

Paragraph (1) shall not apply to a school if a food safety inspection of the school is required by a State or local governmental agency responsible for food safety inspections.

(i) Single permanent agreement between State agency and school food authority; common claims form

(1) In general

If a single State agency administers any combination of the school lunch program under this chapter, the school breakfast program under section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773), the summer food service program for children under section 1761 of this title, or the child and adult care food program under section 1766 of this title, the agency shall—

(A) require each school food authority to submit to the State agency a single agreement with respect to the operation by the authority of the programs administered by the State agency; and

(B) use a common claims form with respect to meals and supplements served under the programs administered by the State agency.

(2) Additional requirement

The agreement described in paragraph (1)(A) shall be a permanent agreement that may be amended as necessary.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1766, 1766a, 1786 of this title.

§ 1761. Summer food service programs for children in service institutions

(a) Assistance to States; definitions; facilities to be used; eligible service institutions; order of priority in participation; assistance to rural area eligible service institutions to participate in the programs; reimbursement of camps, limitations, local, municipal and county institutions to be run by government; eligible private nonprofit organizations

(1) The Secretary is authorized to carry out a program to assist States, through grants-in-aid and other means, to initiate and maintain nonprofit food service programs for children in service institutions. For purposes of this section, (A) "program" means the summer food service program for children authorized by this section; (B) "service institutions" means public or private nonprofit school food authorities, local, municipal, or county governments, public or private nonprofit higher education institutions participating in the National Youth Sports Program,¹ and residential public or private nonprofit summer camps, that develop special summer or school vacation programs providing food service similar to that made available to children during the school year under the school lunch program under this chapter or the school breakfast program under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.]; (C) "areas in which poor economic conditions exist" means areas in which at least 50 percent of the children are eligible for free or reduced price school meals under this chapter and the Child Nutrition Act of 1966, as determined by information provided from departments of welfare, zoning commissions, census tracts, by the number of free and reduced price lunches or breakfasts served to children attending public and nonprofit private schools located in the area of program food service sites, or from other appropriate sources, including statements of eligibility based upon income for children enrolled in the program; (D) "children" means individuals who are eighteen years of age and under, and individuals who are older than eighteen who are (i) determined by a State educational agency or a local public educational agency of a State, in accordance with regulations prescribed by the Secretary, to have a disability, and (ii) participating in a public or nonprofit private school program established for individuals who have a disability; and (E) "State" means any of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, and the Northern Mariana Islands.

(2) To the maximum extent feasible, consistent with the purposes of this section, any food service under the program shall use meals prepared at the facilities of the service institution or at the food service facilities of public and nonprofit private schools. The Secretary shall assist States in the development of information and technical assistance to encourage increased service of meals prepared at the facilities of service institutions and at public and nonprofit private schools.

¹ So in original.

(3) Eligible service institutions entitled to participate in the program shall be limited to those that—

(A) demonstrate adequate administrative and financial responsibility to manage an effective food service;

(B) have not been seriously deficient in operating under the program;

(C)(i) conduct a regularly scheduled food service for children from areas in which poor economic conditions exist; or

(ii) qualify as camps; and

(D) provide an ongoing year-round service to the community to be served under the program (except that an otherwise eligible service institution shall not be disqualified for failure to meet this requirement for ongoing year-round service if the State determines that its disqualification would result in an area in which poor economic conditions exist not being served or in a significant number of needy children not having reasonable access to a summer food service program).

(4) The following order of priority shall be used by the State in determining participation where more than one eligible service institution proposes to serve the same area:

(A) Local schools.

(B) All other service institutions and private nonprofit organizations eligible under paragraph (7) that have demonstrated successful program performance in a prior year.

(C) New public institutions.

(D) New private nonprofit organizations eligible under paragraph (7).

The Secretary and the States, in carrying out their respective functions under this section, shall actively seek eligible service institutions located in rural areas, for the purpose of assisting such service institutions in applying to participate in the program.

(5) Camps that satisfy all other eligibility requirements of this section shall receive reimbursement only for meals served to children who meet the eligibility requirements for free or reduced price meals, as determined under this chapter and the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.].

(6) Service institutions that are local, municipal, or county governments shall be eligible for reimbursement for meals served in programs under this section only if such programs are operated directly by such governments.

(7)(A) Private nonprofit organizations, as defined in subparagraph (B) (other than organizations eligible under paragraph (1)), shall be eligible for the program under the same terms and conditions as other service institutions.

(B) As used in this paragraph, the term "private nonprofit organizations" means those organizations that—

(i) operate—

(I) not more than 25 sites, with not more than 300 children being served at any one site; or

(II) with a waiver granted by the State agency under standards developed by the Secretary, with not more than 500 children being served at any one site;

(ii) exercise full control and authority over the operation of the program at all sites under their sponsorship;

(iii) provide ongoing year-around activities for children or families;

(iv) demonstrate that such organizations have adequate management and the fiscal capacity to operate a program under this section; and

(v) meet applicable State and local health, safety, and sanitation standards.

(b) Service institutions

(1) PAYMENTS.—

(A) **IN GENERAL.**—Except as otherwise provided in this paragraph, payments to service institutions shall equal the full cost of food service operations (which cost shall include the costs of obtaining, preparing, and serving food, but shall not include administrative costs).

(B) **MAXIMUM AMOUNTS.**—Subject to subparagraph (C), payments to any institution under subparagraph (A) shall not exceed—

- (i) \$1.97 for each lunch and supper served;
- (ii) \$1.13 for each breakfast served; and
- (iii) 46 cents for each meal supplement served.

(C) **ADJUSTMENTS.**—Amounts specified in subparagraph (B) shall be adjusted on January 1, 1997, and each January 1 thereafter, to the nearest lower cent increment to reflect changes for the 12-month period ending the preceding November 30 in the series for food away from home of the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor. Each adjustment shall be based on the unrounded adjustment for the prior 12-month period.

(2) Any service institution may only serve lunch and either breakfast or a meal supplement during each day of operation, except that any service institution that is a camp or that serves meals primarily to migrant children may serve up to 3 meals, or 2 meals and 1 supplement, during each day of operation, if (A) the service institution has the administrative capability and the food preparation and food holding capabilities (where applicable) to serve more than one meal per day, and (B) the service period of different meals does not coincide or overlap.

(3) Every service institution, when applying for participation in the program, shall submit a complete budget for administrative costs related to the program, which shall be subject to approval by the State. Payment to service institutions for administrative costs shall equal the full amount of State approved administrative costs incurred, except that such payment to service institutions may not exceed the maximum allowable levels determined by the Secretary pursuant to the study prescribed in paragraph (4) of this subsection.

(4)(A) The Secretary shall conduct a study of the food service operations carried out under the program. Such study shall include, but shall not be limited to—

- (i) an evaluation of meal quality as related to costs; and
- (ii) a determination whether adjustments in the maximum reimbursement levels for food service operation costs prescribed in para-

graph (1) of this subsection should be made, including whether different reimbursement levels should be established for self-prepared meals and vendored meals and which site-related costs, if any, should be considered as part of administrative costs.

(B) The Secretary shall also study the administrative costs of service institutions participating in the program and shall thereafter prescribe maximum allowable levels for administrative payments that reflect the costs of such service institutions, taking into account the number of sites and children served, and such other factors as the Secretary determines appropriate to further the goals of efficient and effective administration of the program.

(C) The Secretary shall report the results of such studies to Congress not later than December 1, 1977.

(c) Payments for meals served during May through September; exceptions for continuous school calendars or non-school sites; National Youth Sports Program

(1) Payments shall be made to service institutions only for meals served during the months of May through September, except in the case of service institutions that operate food service programs for children on school vacation at any time under a continuous school calendar or that provide meal service at non-school sites to children who are not in school for a period during the months of October through April due to a natural disaster, building repair, court order, or similar cause.

(2) Children participating in National Youth Sports Programs operated by higher education institutions shall be eligible to participate in the program under this paragraph on showing residence in areas in which poor economic conditions exist or on the basis of income eligibility statements for children enrolled in the program.

(d) Advance program payments to States for monthly meal service; letters of credit, forwarding to States; determination of amount; valid claims, receipt

Not later than April 15, May 15, and July 1 of each year, the Secretary shall forward to each State a letter of credit (advance program payment) that shall be available to each State for the payment of meals to be served in the month for which the letter of credit is issued. The amount of the advance program payment shall be an amount which the State demonstrates, to the satisfaction of the Secretary, to be necessary for advance program payments to service institutions in accordance with subsection (e) of this section. The Secretary shall also forward such advance program payments, by the first day of the month prior to the month in which the program will be conducted, to States that operate the program in months other than May through September. The Secretary shall forward any remaining payments due pursuant to subsection (b) of this section not later than sixty days following receipt of valid claims therefor.

(e) Advance program payments to service institutions for monthly meal service; certification of personnel training sessions; minimum days per month operations requirement; payments: computation, limitation; valid claims, receipt; withholding; demand for repayment; subtraction of disputed payments

(1) Not later than June 1, July 15, and August 15 of each year, or, in the case of service institutions that operate under a continuous school calendar, the first day of each month of operation, the State shall forward advance program payments to each service institution. The State shall not release the second month's advance program payment to any service institution (excluding a school) that has not certified that it has held training sessions for its own personnel and the site personnel with regard to program duties and responsibilities. No advance program payment may be made for any month in which the service institution will operate under the program for less than ten days.

(2) The amount of the advance program payment for any month in the case of any service institution shall be an amount equal to (A) the total program payment for meals served by such service institution in the same calendar month of the preceding calendar year, (B) 50 percent of the amount established by the State to be needed by such service institution for meals if such service institution contracts with a food service management company, or (C) 65 percent of the amount established by the State to be needed by such service institution for meals if such service institution prepares its own meals, whichever amount is greatest: *Provided*, That the advance program payment may not exceed the total amount estimated by the State to be needed by such service institution for meals to be served in the month for which such advance program payment is made or \$40,000, whichever is less, except that a State may make a larger advance program payment to such service institution where the State determines that such larger payment is necessary for the operation of the program by such service institution and sufficient administrative and management capability to justify a larger payment is demonstrated. The State shall forward any remaining payment due a service institution not later than seventy-five days following receipt of valid claims. If the State has reason to believe that a service institution will not be able to submit a valid claim for reimbursement covering the period for which an advance program payment has been made, the subsequent month's advance program payment shall be withheld until such time as the State has received a valid claim. Program payments advanced to service institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance program payment.

(f) Nutritional standards

(1) Service institutions receiving funds under this section shall serve meals consisting of a combination of foods and meeting minimum nutritional standards prescribed by the Secretary on the basis of tested nutritional research.

(2) The Secretary shall provide technical assistance to service institutions and private nonprofit organizations participating in the program to assist the institutions and organizations in complying with the nutritional requirements prescribed by the Secretary pursuant to this subsection.

(3) Meals described in paragraph (1) shall be served without cost to children attending service institutions approved for operation under this section, except that, in the case of camps, charges may be made for meals served to children other than those who meet the eligibility requirements for free or reduced price meals in accordance with subsection (a)(5) of this section.

(4) To assure meal quality, States shall, with the assistance of the Secretary, prescribe model meal specifications and model food quality standards, and ensure that all service institutions contracting for the preparation of meals with food service management companies include in their contracts menu cycles, local food safety standards, and food quality standards approved by the State.

(5) Such contracts shall require (A) periodic inspections, by an independent agency or the local health department for the locality in which the meals are served, of meals prepared in accordance with the contract in order to determine bacteria levels present in such meals, and (B) conformance with standards set by local health authorities.

(6) Such inspections and any testing resulting therefrom shall be in accordance with the practices employed by such local health authority.

(7) OFFER VERSUS SERVE.—A school food authority participating as a service institution may permit a child to refuse one or more items of a meal that the child does not intend to consume, under rules that the school uses for school meals programs. A refusal of an offered food item shall not affect the amount of payments made under this section to a school for the meal.

(g) Regulations, guidelines, applications, and handbooks; publication; startup costs

The Secretary shall publish proposed regulations relating to the implementation of the program by November 1 of each fiscal year, final regulations by January 1 of each fiscal year, and guidelines, applications, and handbooks by February 1 of each fiscal year. In order to improve program planning, the Secretary may provide that service institutions be paid as startup costs not to exceed 20 percent of the administrative funds provided for in the administrative budget approved by the State under subsection (b)(3) of this section. Any payments made for startup costs shall be subtracted from amounts otherwise payable for administrative costs subsequently made to service institutions under subsection (b)(3) of this section.

(h) Direct disbursement to service institutions by Secretary

Each service institution shall, insofar as practicable, use in its food service under the program foods designated from time to time by the Secretary as being in abundance. The Secretary is authorized to donate to States, for distribution to service institutions, food available under

section 1431 of title 7, or purchased under section 612c of title 7 or section 1446a-1 of title 7. Donated foods may be distributed only to service institutions that can use commodities efficiently and effectively, as determined by the Secretary.

(i) Repealed. Pub. L. 97-35, title VIII, § 817(b), Aug. 13, 1981, 95 Stat. 532

(j) Administrative expenses of Secretary; authorization of appropriations

Expenditures of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under this section.

(k) Administrative costs of State; payment; adjustment; standards and effective dates, establishment; funds: withholding, inspection

(1) The Secretary shall pay to each State for its administrative costs incurred under this section in any fiscal year an amount equal to (A) 20 percent of the first \$50,000 in funds distributed to that State for the program in the preceding fiscal year; (B) 10 percent of the next \$100,000 distributed to that State for the program in the preceding fiscal year; (C) 5 percent of the next \$250,000 in funds distributed to that State for the program in the preceding fiscal year; and (D) 2½ percent of any remaining funds distributed to that State for the program in the preceding fiscal year: *Provided*, That such amounts may be adjusted by the Secretary to reflect changes in the size of that State's program since the preceding fiscal year.

(2) The Secretary shall establish standards and effective dates for the proper, efficient, and effective administration of the program by the State. If the Secretary finds that the State has failed without good cause to meet any of the Secretary's standards or has failed without good cause to carry out the approved State management and administration plan under subsection (n) of this section, the Secretary may withhold from the State such funds authorized under this subsection as the Secretary determines to be appropriate.

(3) To provide for adequate nutritional and food quality monitoring, and to further the implementation of the program, an additional amount, not to exceed the lesser of actual costs or 1 percent of program funds, shall be made available by the Secretary to States to pay for State or local health department inspections, and to reinspect facilities and deliveries to test meal quality.

(l) Food service management companies; subcontracts; assignments, conditions and limitations; meal capacity information in bids subject to review; registration; record, availability to States; small and minority-owned businesses for supplies and services; contracts: standard form, bid and contract procedures, bonding requirements and exemption, review by States, collusive bidding safeguards

(1) Service institutions may contract on a competitive basis with food service management companies for the furnishing of meals or management of the entire food service under the

program, except that a food service management company entering into a contract with a service institution under this section may not subcontract with a single company for the total meal, with or without milk, or for the assembly of the meal. The Secretary shall prescribe additional conditions and limitations governing assignment of all or any part of a contract entered into by a food service management company under this section. Any food service management company shall, in its bid, provide the service institution information as to its meal capacity.

(2) Each State may provide for the registration of food service management companies.

(3) In accordance with regulations issued by the Secretary, positive efforts shall be made by service institutions to use small businesses and minority-owned businesses as sources of supplies and services. Such efforts shall afford those sources the maximum feasible opportunity to compete for contracts using program funds.

(4) Each State, with the assistance of the Secretary, shall establish a standard form of contract for use by service institutions and food service management companies. The Secretary shall prescribe requirements governing bid and contract procedures for acquisition of the services of food service management companies, including, but not limited to, bonding requirements (which may provide exemptions applicable to contracts of \$100,000 or less), procedures for review of contracts by States, and safeguards to prevent collusive bidding activities between service institutions and food service management companies.

(m) Accounts and records

States and service institutions participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(n) Management and administration plan; notification and submittal to Secretary; specific provisions

§ 1766. Child and adult care food program**(a) Grants-in-aid; "institution" defined; guidelines for institutions providing care to children outside of school hours; eligibility**

The Secretary may carry out a program to assist States through grants-in-aid and other means to initiate and maintain nonprofit food service programs for children in institutions providing child care. For purposes of this section, the term "institution" means any public or private nonprofit organization providing non-residential child care, including, but not limited to, child care centers, settlement houses, recreational centers, Head Start centers, and institutions providing child care facilities for children with disabilities; and such term shall also mean any other private organization providing nonresidential day care services for which it receives compensation from amounts granted to the States under title XX of the Social Security Act [42 U.S.C. 1397 et seq.] (but only if such organization receives compensation under such title for at least 25 percent of its enrolled children or 25 percent of its licensed capacity, whichever is less). In addition, the term "institution" shall include programs developed to provide day care outside school hours for schoolchildren, public or nonprofit private organizations that sponsor family or group day care homes, and emergency shelters (as provided in subsection (t) of this section). Except as provided in subsection (r) of this section, reimbursement may be provided under this section only for meals or supplements served to children not over 12 years of age (except that such age limitation shall not be applicable for children of migrant workers if 15 years of age or less or for children with disabilities). The Secretary may establish separate guidelines for institutions that provide care to school children outside of school hours. For purposes of determining eligibility—

(1) an institution (except a school or family or group day care home sponsoring organization) or family or group day care home shall—

(A)(i) be licensed, or otherwise have approval, by the appropriate Federal, State, or local licensing authority; or

(ii) be in compliance with appropriate procedures for renewing participation in the program, as prescribed by the Secretary, and not be the subject of information possessed by the State indicating that the license of the institution or home will not be renewed;

(B) if Federal, State, or local licensing or approval is not available—

(i) meet any alternate approval standards established by the appropriate State or local governmental agency; or

(ii) meet any alternate approval standards established by the Secretary after consultation with the Secretary of Health and Human Services; or

(C) if the institution provides care to school children outside of school hours and Federal, State, or local licensing or approval

is not required for the institution, meet State or local health and safety standards; and

(2) no institution shall be eligible to participate in the program unless it satisfies the following criteria:

(A) accepts final administrative and financial responsibility for management of an effective food service;

(B) has not been seriously deficient in its operation of the child care food program, or any other program under this chapter or the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], for a period of time specified by the Secretary;

(C) will provide adequate supervisory and operational personnel for overall monitoring and management of the child care food program; and

(D) in the case of a family or group day care home sponsoring organization that employs more than one employee, the organization does not base payments to an employee of the organization on the number of family or group day care homes recruited.

(b) Limitations on cash assistance

For the fiscal year ending September 30, 1979, and for each subsequent fiscal year, the Secretary shall provide cash assistance to States for meals as provided in subsection (f) of this section, except that, in any fiscal year, the aggregate amount of assistance provided to a State by the Secretary under this section shall not exceed the sum of (1) the Federal funds provided by the State to participating institutions within the State for that fiscal year and (2) any funds used by the State under section 10 of the Child Nutrition Act of 1966 [42 U.S.C. 1779].

(c) Formula for computation of payments; national average payment rate

(1) For purposes of this section, except as provided in subsection (f)(3) of this section, the national average payment rate for free lunches and suppers, the national average payment rate for reduced price lunches and suppers, and the national average payment rate for paid lunches and suppers shall be the same as the national average payment rates for free lunches, reduced price lunches, and paid lunches, respectively, under sections 1753 and 1759a of this title as appropriate (as adjusted pursuant to section 1759a(a) of this title).

(2) For purposes of this section, except as provided in subsection (f)(3) of this section, the national average payment rate for free breakfasts, the national average payment rate for reduced price breakfasts, and the national average payment rate for paid breakfasts shall be the same as the national average payment rates for free breakfasts, reduced price breakfasts, and paid breakfasts, respectively, under section 4(b) of the Child Nutrition Act of 1966 [42 U.S.C. 1773(b)] (as adjusted pursuant to section 1759a(a) of this title).

(3) For purposes of this section, except as provided in subsection (f)(3) of this section, the national average payment rate for free supplements shall be 30 cents, the national average payment rate for reduced price supplements

shall be one-half the rate for free supplements, and the national average payment rate for paid supplements shall be 2.75 cents (as adjusted pursuant to section 1759a(a) of this title).

(4) Determinations with regard to eligibility for free and reduced price meals and supplements shall be made in accordance with the income eligibility guidelines for free lunches and reduced price lunches, respectively, under section 1758 of this title.

(5) A child shall be considered automatically eligible for benefits under this section without further application or eligibility determination, if the child is enrolled as a participant in a Head Start program authorized under the Head Start Act (42 U.S.C. 9831 et seq.), on the basis of a determination that the child is a member of a family that meets the low-income criteria prescribed under section 645(a)(1)(A) of the Head Start Act (42 U.S.C. 9840(a)(1)(A)).

(6) A child who has not yet entered kindergarten shall be considered automatically eligible for benefits under this section without further application or eligibility determination if the child is enrolled as a participant in the Even Start program under part B of chapter 1 of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2741 et seq.).¹

(d) Requirements for approval; notification; re-application

(1) Any eligible public institution shall be approved for participation in the child care food program upon its request. Any eligible private institution shall be approved for participation if it has been visited by a State agency prior to approval and it (A) has tax exempt status under title 26 or, under conditions established by the Secretary, is moving toward compliance with the requirements for tax exempt status, or (B) is currently operating a Federal program requiring nonprofit status. Family or group day care homes need not have individual tax exempt certification if they are sponsored by an institution that has tax exempt status, or, under conditions established by the Secretary, such institution is moving toward compliance with the requirements for tax exempt status or is currently operating a Federal program requiring nonprofit status. An institution moving toward compliance with the requirement for tax exempt status shall be allowed to participate in the child and adult care food program for a period of not more than 180 days, except that a State agency may grant a single extension of not to exceed an additional 90 days if the institution demonstrates, to the satisfaction of the State agency, that the inability of the institution to obtain tax exempt status within the 180-day period is due to circumstances beyond the control of the institution. An institution applying for participation under this section shall be notified of approval or disapproval in writing within thirty days after the date its completed application is filed.

(2)(A) The Secretary shall develop a policy that—

- (i) allows institutions providing child care that participate in the program under this section, at the option of the State agency, to re-

apply for assistance under this section at 3-year intervals; and

- (ii) requires periodic site visits to private institutions that the State agency determines have a high probability of program abuse.

(B) Each State agency that exercises the option authorized by subparagraph (A) shall confirm on an annual basis that each such institution is in compliance with the licensing or approval provisions of subsection (a)(1) of this section.

(e) Hearing

(1) Except as provided in paragraph (2), the State shall provide, in accordance with regulations issued by the Secretary, a fair hearing and a prompt determination to any institution aggrieved by the action of the State as it affects the participation of such institution in the program authorized by this section, or its claim for reimbursement under this section.

(2) A State is not required to provide a hearing to an institution concerning a State action taken on the basis of a Federal audit determination.

(3) If a State does not provide a hearing to an institution concerning a State action taken on the basis of a Federal audit determination, the Secretary, on request, shall afford a hearing to the institution concerning the action.

(f) State disbursement to institutions

(1) Funds paid to any State under this section shall be disbursed to eligible institutions by the State under agreements approved by the Secretary. Disbursements to any institution shall be made only for the purpose of assisting in providing meals to children attending institutions, or in family or group day care homes. Disbursement to any institution shall not be dependent upon the collection of moneys from participating children. All valid claims from such institutions shall be paid within forty-five days of receipt by the State. The State shall notify the institution within fifteen days of receipt of a claim if the claim as submitted is not valid because it is incomplete or incorrect.

(2)(A) Subject to subparagraph (B) of this paragraph, the disbursement for any fiscal year to any State for disbursement to institutions, other than family or group day care home sponsoring organizations, for meals provided under this section shall be equal to the sum of the products obtained by multiplying the total number of each type of meal (breakfast, lunch or supper, or supplement) served in such institution in that fiscal year by the applicable national average payment rate for each such type of meal, as determined under subsection (c) of this section.

(B) No reimbursement may be made to any institution under this paragraph, or to family or group day care home sponsoring organizations under paragraph (3) of this subsection, for more than two meals and one supplement per day per child, or in the case of an institution (but not in the case of a family or group day care home sponsoring organization), 2 meals and 1 supplement per day per child, for children that are maintained in a child care setting for eight or more hours per day.

(aa) IN GENERAL.—If a family or group day care home elects to claim the fac-

tors described in subclause (II), the family or group day care home sponsoring organization serving the home shall collect the necessary income information, as determined by the Secretary, from any parent or other caretaker to make the determinations specified in subclause (II) and shall make the determinations in accordance with rules prescribed by the Secretary.

(bb) CATEGORICAL ELIGIBILITY.—In making a determination under item (aa), a family or group day care home sponsoring organization may consider a child participating in or subsidized under, or a child with a parent participating in or subsidized under, a federally or State supported child care or other benefit program with an income eligibility limit that does not exceed the eligibility standard for free or reduced price meals under section 1758 of this title to be a child who is a member of a household whose income meets the income eligibility guidelines under section 1758 of this title.

(cc) FACTORS FOR CHILDREN ONLY.—A family or group day care home may elect to receive the reimbursement factors prescribed under clause (ii)(III) solely for the children participating in a program referred to in item (bb) if the home elects not to have income statements collected from parents or other caretakers.

(IV) SIMPLIFIED MEAL COUNTING AND REPORTING PROCEDURES.—The Secretary shall prescribe simplified meal counting and reporting procedures for use by a family or group day care home that elects to claim the factors under subclause (II) and by a family or group day care home sponsoring organization that sponsors the home. The procedures the Secretary prescribes may include 1 or more of the following:

(aa) Setting an annual percentage for each home of the number of meals served that are to be reimbursed in accordance with the reimbursement factors prescribed under clause (ii)(III) and an annual percentage of the number of meals served that are to be reimbursed in accordance with the reimbursement factors prescribed under subclause (I), based on the family income of children enrolled in the home in a specified month or other period.

(bb) Placing a home into 1 of 2 or more reimbursement categories annually based on the percentage of children in the home whose households have incomes that meet the income eligibility guidelines under section 1758 of this title, with each such reimbursement category carrying a set of reimbursement factors such as the factors prescribed under clause (ii)(III) or subclause (I) or factors established within the range of factors prescribed under clause (ii)(III) and subclause (I).

(cc) Such other simplified procedures as the Secretary may prescribe.

(V) MINIMUM VERIFICATION REQUIREMENTS.—The Secretary may establish any minimum verification requirements that are necessary to carry out this clause.

(B) Family or group day care home sponsoring organizations shall also receive reimbursement for their administrative expenses in amounts not exceeding the maximum allowable levels prescribed by the Secretary. Such levels shall be adjusted July 1 of each year to reflect changes in the Consumer Price Index for all items for the most recent 12-month period for which such data are available.

(C)(i) Reimbursement for administrative expenses shall also include start-up funds to finance the administrative expenses for such institutions to initiate successful operation under the program and expansion funds to finance the administrative expenses for such institutions to expand into low-income or rural areas. Institutions that have received start-up funds may also apply at a later date for expansion funds. Such start-up funds and expansion funds shall be in addition to other reimbursement to such institutions for administrative expenses. Start-up funds and expansion funds shall be payable to enable institutions satisfying the criteria of subsection (d) of this section, and any other standards prescribed by the Secretary, to develop an application for participation in the program as a family or group day care home sponsoring organization or to implement the program upon approval of the application. Such start-up funds and expansion funds shall be payable in accordance with the procedures prescribed by the Secretary. The amount of start-up funds and expansion funds payable to an institution shall be not less than the institution's anticipated reimbursement for administrative expenses under the program for one month and not more than the institution's anticipated reimbursement for administrative expenses under the program for two months.

(ii) Funds for administrative expenses may be used by family or group day care home sponsoring organizations to assist unlicensed family or group day care homes in becoming licensed.

(D) GRANTS TO STATES TO PROVIDE ASSISTANCE TO FAMILY OR GROUP DAY CARE HOMES.—

(i) IN GENERAL.—

(I) RESERVATION.—From amounts made available to carry out this section, the Secretary shall reserve \$5,000,000 of the amount made available for fiscal year 1997.

(II) PURPOSE.—The Secretary shall use the funds made available under subclause (I) to provide grants to States for the purpose of providing—

(aa) assistance, including grants, to family and day care home sponsoring organizations and other appropriate organizations, in securing and providing training, materials, automated data processing assistance, and other assistance for the staff of the sponsoring organizations; and

(bb) training and other assistance to family and group day care homes in the implementation of the amendment to

subparagraph (A) made by section 708(e)(1) of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

(ii) ALLOCATION.—The Secretary shall allocate from the funds reserved under clause (i)(I)—

(I) \$30,000 in base funding to each State; and

(II) any remaining amount among the States, based on the number of family day care homes participating in the program in a State during fiscal year 1995 as a percentage of the number of all family day care homes participating in the program during fiscal year 1995.

(iii) RETENTION OF FUNDS.—Of the amount of funds made available to a State for fiscal year 1997 under clause (i), the State may retain not to exceed 30 percent of the amount to carry out this subparagraph.

(iv) ADDITIONAL PAYMENTS.—Any payments received under this subparagraph shall be in addition to payments that a State receives under subparagraph (A).

(E) PROVISION OF DATA TO FAMILY OR GROUP DAY CARE HOME SPONSORING ORGANIZATIONS.—

(i) CENSUS DATA.—The Secretary shall provide to each State agency administering a child and adult care food program under this section data from the most recent decennial census survey or other appropriate census survey for which the data are available showing which areas in the State meet the requirements of subparagraph (A)(ii)(I)(aa). The State agency shall provide the data to family or group day care home sponsoring organizations located in the State.

(ii) SCHOOL DATA.—

(I) IN GENERAL.—A State agency administering the school lunch program under this chapter or the school breakfast program under the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) shall provide to approved family or group day care home sponsoring organizations a list of schools serving elementary school children in the State in which not less than ½ of the children enrolled are certified to receive free or reduced price meals. The State agency shall collect the data necessary to create the list annually and provide the list on a timely basis to any approved family or group day care home sponsoring organization that requests the list.

(II) USE OF DATA FROM PRECEDING SCHOOL YEAR.—In determining for a fiscal year or other annual period whether a home qualifies as a tier I family or group day care home under subparagraph (A)(ii)(I), the State agency administering the program under this section, and a family or group day care home sponsoring organization, shall use the most current available data at the time of the determination.

(iii) DURATION OF DETERMINATION.—For purposes of this section, a determination that a family or group day care home is located in an area that qualifies the home as

a tier I family or group day care home (as the term is defined in subparagraph (A)(ii)(I)), shall be in effect for 3 years (unless the determination is made on the basis of census data, in which case the determination shall remain in effect until more recent census data are available) unless the State agency determines that the area in which the home is located no longer qualifies the home as a tier I family or group day care home.

(4) By the first day of each month of operation, the State may provide advance payments for the month to each approved institution in an amount that reflects the full level of valid claims customarily received from such institution for one month's operation. In the case of a newly participating institution, the amount of the advance shall reflect the State's best estimate of the level of valid claims such institutions will submit. If the State has reason to believe that an institution will not be able to submit a valid claim covering the period for which such an advance has been made, the subsequent month's advance payment shall be withheld until the State receives a valid claim. Payments advanced to institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance payment.

(g) Meals served by participating institutions; compliance assistance

(1)(A) Meals served by institutions participating in the program under this section shall consist of a combination of foods that meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research.

(B) The Secretary shall provide technical assistance to those institutions participating in the program under this section to assist the institutions and family or group day care home sponsoring organizations in complying with the nutritional requirements prescribed by the Secretary pursuant to subparagraph (A).

(2) No physical segregation or other discrimination against any child shall be made because of his or her inability to pay, nor shall there be any overt identification of any such child by special tokens or tickets, different meals or meal service, announced or published lists of names, or other means.

(3) Each institution shall, insofar as practicable, use in its food service foods designated from time to time by the Secretary as being in abundance, either nationally or in the food service area, or foods donated by the Secretary.

(h) Donation of agricultural commodities by Secretary; measurement of value; annual readjustment of assistance; cash in lieu of commodities; Department of Defense child care feeding program

(1)(A) The Secretary shall donate agricultural commodities produced in the United States for use in institutions participating in the child care food program under this section.

(B) The value of the commodities donated under subparagraph (A) (or cash in lieu of com-

modities) to each State for each school year shall be, at a minimum, the amount obtained by multiplying the number of lunches and suppers served in participating institutions in that State during the preceding school year by the rate for commodities or cash in lieu of commodities established under section 1755(c) of this title for the school year concerned.

(C) After the end of each school year, the Secretary shall—

(i) reconcile the number of lunches and suppers served in participating institutions in each State during such school year with the number of lunches and suppers served by participating institutions in each State during the preceding school year; and

(ii) based on such reconciliation, increase or reduce subsequent commodity assistance or cash in lieu of commodities provided to each State.

(D) Any State receiving assistance under this section for institutions participating in the child care food program may, upon application to the Secretary, receive cash in lieu of some or all of the commodities to which it would otherwise be entitled under this subsection. In determining whether to request cash in lieu of commodities, the State shall base its decision on the preferences of individual participating institutions within the State, unless this proves impracticable due to the small number of institutions preferring donated commodities.

(2) The Secretary is authorized to provide agricultural commodities obtained by the Secretary under the provisions of the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) and donated under the provisions of section 416 of such Act [7 U.S.C. 1431], to the Department of Defense for use by its institutions providing child care services, when such commodities are in excess of the quantities needed to meet the needs of all other child nutrition programs, domestic and foreign food assistance and export enhancement programs. The Secretary shall require reimbursement from the Department of Defense for the costs, or some portion thereof, of delivering such commodities to overseas locations, unless the Secretary determines that it is in the best interest of the program that the Department of Agriculture shall assume such costs.

(i) Availability of money for audits

The Secretary shall make available for each fiscal year to States administering the child care food program, for the purpose of conducting audits of participating institutions, an amount up to 1.5 percent (except, in the case of each of fiscal years 2005 through 2007, 1 percent) of the funds used by each State in the program under this section, during the second preceding fiscal year.

(j) Standard form agreement regulations

The Secretary may issue regulations directing States to develop and provide for the use of a standard form of agreement between each family or group day care sponsoring organization and the family or group day care homes participating in the program under such organization, for the purpose of specifying the rights and responsibilities of each party.

(k) Training and technical assistance

A State participating in the program established under this section shall provide sufficient training, technical assistance, and monitoring to facilitate effective operation of the program. The Secretary shall assist the State in developing plans to fulfill the requirements of this subsection.

(l) Non-diminishment of State and local funds

Expenditures of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under this section.

(m) Accounts and records

States and institutions participating in the program under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with the requirements of this section. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary, the Comptroller General of the United States, and appropriate State representatives and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(n) Authorization of appropriations

There are hereby authorized to be appropriated for each fiscal year such funds as are necessary to carry out the purposes of this section.

(o) Participation of older persons and chronically impaired disabled persons

(1) For purposes of this section, adult day care centers shall be considered eligible institutions for reimbursement for meals or supplements served to persons 60 years of age or older or to chronically impaired disabled persons, including victims of Alzheimer's disease and related disorders with neurological and organic brain dysfunction. Reimbursement provided to such institutions for such purposes shall improve the quality of meals or level of services provided or increase participation in the program. Lunches served by each such institution for which reimbursement is claimed under this section shall provide, on the average, approximately $\frac{1}{3}$ of the daily recommended dietary allowance established by the Food and Nutrition Board of the National Research Council of the National Academy of Sciences. Such institutions shall make reasonable efforts to serve meals that meet the special dietary requirements of participants, including efforts to serve foods in forms palatable to participants.

(2) For purposes of this subsection—

(A) the term "adult day care center" means any public agency or private nonprofit organization, or any proprietary title XIX or title XX center, which—

(i) is licensed or approved by Federal, State, or local authorities to provide adult day care services to chronically impaired disabled adults or persons 60 years of age or older in a group setting outside their homes, or a group living arrangement, on a less than 24-hour basis; and

(3)(A) The Secretary, in consultation² with the Assistant Secretary for Aging, shall establish, within 6 months of October 1, 1988, separate guidelines for reimbursement of institutions described in this subsection. Such reimbursement shall take into account the nutritional requirements of eligible persons, as determined by the Secretary on the basis of tested nutritional research, except that such reimbursement shall not be less than would otherwise be required under this section.

(B) The guidelines shall contain provisions designed to assure that reimbursement under this subsection shall not duplicate reimbursement under part C of title III of the Older Americans Act of 1965 [42 U.S.C. 3030e et seq.], for the same meal served.

(4) For the purpose of establishing eligibility for free or reduced price meals or supplements under this subsection, income shall include only the income of an eligible person and, if any, the spouse and dependents with whom the eligible person resides.

(5) A person described in paragraph (1) shall be considered automatically eligible for free meals or supplements under this subsection, without further application or eligibility determination, if the person is—

(A) a member of a household receiving assistance under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.); or

(B) a recipient of assistance under title XVI or XIX of the Social Security Act [42 U.S.C. 1381 et seq., 1396 et seq.].

(6) The Governor of any State may designate to administer the program under this subsection a State agency other than the agency that administers the child care food program under this section.

(p) Demonstration projects for qualification under this section of private for-profit organizations providing nonresidential day care services

(1) From amounts appropriated or otherwise made available for purposes of carrying out this section, the Secretary shall carry out 2 statewide demonstration projects under which private for-profit organizations providing nonresidential day care services shall qualify as institutions for the purposes of this section. An organi-

zation may participate in a demonstration project described in the preceding sentence if—

(A) at least 25 percent of the children enrolled in the organization or 25 percent of the licensed capacity of the organization for children, whichever is less, meet the income eligibility criteria established under section 1758(b) of this title for free or reduced price meals; and

(B) as a result of the participation of the organization in the project—

(i) the nutritional content or quality of meals and snacks served to children under the care of such organization will be improved; or

(ii) fees charged by such organization for the care of the children described in subparagraph (A) will be lowered.

(2) Under each such project, the Secretary shall examine—

(A) the budgetary impact of the change in eligibility being tested;

(B) the extent to which, as a result of such change, additional low-income children can be reached; and

(C) which outreach methods are most effective.

(3) The Secretary shall choose to conduct demonstration projects under this subsection—

(A) 1 State that—

(i) has a history of participation of for-profit organizations in the child care food program;

(ii) allocates a significant proportion of the amounts it receives for child care under title XX of the Social Security Act [42 U.S.C. 1397 et seq.] in a manner that allows low-income parents to choose the type of child care their children will receive;

(iii) has other funding mechanisms that support parental choice for child care;

(iv) has a large, State-regulated for-profit child care industry that serves low-income children; and

(v) has large sponsors of family or group day care homes that have a history of recruiting and sponsoring for-profit child care centers in the child care food program; and

(B) 1 State in which—

(i) the majority of children for whom child care arrangements are made are being cared for in center-based child care facilities;

(ii) for-profit child care centers and preschools are located throughout the State and serve both rural and urban populations;

(iii) at least 1/3 of the licensed child care centers and preschools operate as for-profit facilities;

(iv) all licensed facilities are subject to identical nutritional requirements for food service that are similar to those required under the child care food program; and

(v) less than 1 percent of child care centers participating in the child care food program receive assistance under title XX of the Social Security Act [42 U.S.C. 1397 et seq.].

(B) Nonwaivable requirements

The Secretary may not waive a requirement under subparagraph (A) if the waiver would prevent a program participant, a potential program participant, or a school from receiving all of the benefits and protections of this chapter, the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), or a Federal law (including a regulation) that protects an individual constitutional right or a statutory civil right.

(C) Report

On completion of the pilot projects and the evaluation, the Secretary shall submit to the Committee on Education and the Workforce of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report describing the results of the evaluation of the pilot projects required under subparagraph (A).

(1) In general

Except as provided in paragraph (3) and subsection (e) of this section, not later than 180 days after notification of the occurrence of a cause for debarment described in paragraph (2), the Secretary shall initiate nonprocurement debarment proceedings against the contractor who has committed the cause for debarment.

(2) Causes for debarment

Actions requiring initiation of nonprocurement debarment pursuant to paragraph (1) shall include a situation in which a contractor is found guilty in any criminal proceeding, or found liable in any civil or administrative proceeding, in connection with the supplying, providing, or selling of goods or services to any local agency in connection with a child nutrition program, of—

(4) Mandatory child nutrition program debarment periods

(A) In general

Subject to the other provisions of this paragraph and notwithstanding any other provision of law except subsection (e) of this section, if, after deciding to initiate nonprocurement debarment proceedings pursuant to paragraph (1), the Secretary decides to debar a contractor, the debarment shall be for a period of not less than 3 years.

(B) Previous debarment

If the contractor has been previously debarred pursuant to nonprocurement debarment proceedings initiated pursuant to paragraph (1), and the cause for debarment is described in paragraph (2) based on activities that occurred subsequent to the initial debarment, the debarment shall be for a period of not less than 5 years.

(C) Scope

At a minimum, a debarment under this subsection shall serve to bar the contractor for the specified period from contracting to provide goods or services in conjunction with the participation of a local agency in a child nutrition program.

(D) Reversal, reduction, or exception

Nothing in this section shall restrict the ability of the Secretary to—

(i) reverse a debarment decision;

(ii) reduce the period or scope of a debarment;

(iii) grant an exception permitting a debarred contractor to participate in a particular contract to provide goods or services; or

(iv) otherwise settle a debarment action at any time;

in conjunction with the participation of a local agency in a child nutrition program, if the Secretary determines there is good cause for the action, after taking into account factors set forth in paragraphs (1) through (6) of subsection (e) of this section.

(5) Information

On request, the Secretary shall present to the Committee on Education and Labor, and the Committee on Agriculture, of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate information regarding the decisions required by this subsection.

(6) Relationship to other authorities

(7) Regulations

The Secretary shall issue such regulations as are necessary to carry out this subsection.

(e) Mandatory debarment

Notwithstanding any other provision of this section, the Secretary shall initiate nonprocure-

ment debarment proceedings against the contractor (including any cooperative) who has committed the cause for debarment (as determined under subsection (d)(2) of this section), unless the action—

(1) is likely to have a significant adverse effect on competition or prices in the relevant market or nationally;

(2) will interfere with the ability of a local agency to procure a needed product for a child nutrition program;

(3) is unfair to a person, subsidiary corporation, affiliate, parent company, or local division of a corporation that is not involved in the improper activity that would otherwise result in the debarment;

(4) is likely to have significant adverse economic impacts on the local economy in a manner that is unfair to innocent parties;

(5) is not justified in light of the penalties already imposed on the contractor for violations relevant to the proposed debarment, including any suspension or debarment arising out of the same matter that is imposed by any Federal or State agency; or

(6) is not in the public interest, or otherwise is not in the interests of justice, as determined by the Secretary.

(f) Exhaustion of administrative remedies

Prior to seeking judicial review in a court of competent jurisdiction, a contractor against whom a nonprocurement debarment proceeding has been initiated shall—

(1) exhaust all administrative procedures prescribed by the Secretary; and

(2) receive notice of the final determination of the Secretary.

(g) Information relating to prevention and control of anticompetitive activities

On request, the Secretary shall present to the Committee on Education and Labor, and the Committee on Agriculture, of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate information regarding the activities of the Secretary relating to anticompetitive activities, fraud, nonprocurement debarment, and any waiver granted by the Secretary under this section.

§ 1772. Special program to encourage the consumption of fluid milk by children; authorization of appropriations; eligibility for special milk program; minimum rate of reimbursement; ineligibility of commodity only schools

(a)(1) There is hereby authorized to be appropriated for the fiscal year ending June 30, 1970, and for each succeeding fiscal year, such sums as may be necessary to enable the Secretary of Agriculture, under such rules and regulations as the Secretary may deem in the public interest, to encourage consumption of fluid milk by children in the United States in (A) nonprofit schools of high school grade and under, except as provided in paragraph (2), which do not participate in a meal service program authorized under this chapter or the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.], and (B) nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, which do not participate in a meal service program authorized under this chapter or the Richard B. Russell National School Lunch Act.

(3) For the purposes of this section "United States" means the fifty States, Guam, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, and the District of Columbia.

(4) The Secretary shall administer the special milk program provided for by this section to the maximum extent practicable in the same manner as the Secretary administered the special milk program provided for by this chapter during the fiscal year ending June 30, 1969.

(8) Such adjustment shall be computed to the nearest one-fourth cent.

(9) Notwithstanding any other provision of this section, in no event shall the minimum rate of reimbursement exceed the cost to the school or institution of milk served to children.

§ 1773. School breakfast program

(a) Establishment; authorization of appropriations

There is hereby authorized to be appropriated such sums as are necessary to enable the Secretary to carry out a program to assist the States and the Department of Defense through grants-in-aid and other means to initiate, maintain, or expand nonprofit breakfast programs in all schools which make application for assistance and agree to carry out a nonprofit breakfast program in accordance with this chapter. Appropriations and expenditures for this chapter shall be considered Health and Human Services functions for budget purposes rather than functions of Agriculture.

(b) Breakfast assistance payments to State educational agencies; calculation; national average payments for breakfasts, free breakfasts and reduced price breakfasts; maximum price for reduced cost breakfasts; minimum daily nutrition requirements criteria; additional payments for severe need schools; maximum severe need payments

(1)(A)(i) The Secretary shall make breakfast assistance payments to each State educational agency each fiscal year, at such times as the Secretary may determine, from the sums appropriated for such purpose, in an amount equal to the product obtained by multiplying—

(I) the number of breakfasts served during such fiscal year to children in schools in such States which participate in the school breakfast program under agreements with such State educational agency; by

(II) the national average breakfast payment for free breakfasts, for reduced price breakfasts, or for breakfasts served to children not eligible for free or reduced price meals, as appropriate, as prescribed in clause (B) of this paragraph.

(ii) The agreements described in clause (i)(I) shall be permanent agreements that may be amended as necessary. Nothing in the preceding sentence shall be construed to limit the ability of the State educational agency to suspend or terminate any such agreement in accordance with regulations prescribed by the Secretary.

(B) The national average payment for each free breakfast shall be 57 cents (as adjusted pursuant to section 1759a(a) of this title). The national average payment for each reduced price breakfast shall be one-half of the national average payment for each free breakfast, except that in no case shall the difference between the amount of the national average payment for a free breakfast and the national average payment for a reduced price breakfast exceed 30 cents. The national average payment for each breakfast served to a child not eligible for free or reduced price meals shall be 8.25 cents (as adjusted pursuant to section 1759a(a) of this title).

(C) No school which receives breakfast assistance payments under this section may charge a price of more than 30 cents for a reduced price breakfast.

(D) No breakfast assistance payment may be made under this subsection for any breakfast served by a school unless such breakfast consists of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary under subsection (e) of this section.

(E) FREE AND REDUCED PRICE POLICY STATEMENT.—After the initial submission, a school food authority shall not be required to submit a free and reduced price policy statement to a State educational agency under this chapter unless there is a substantive change in the free and reduced price policy of the school food authority. A routine change in the policy of a school food authority, such as an annual adjustment of the income eligibility guidelines for free and reduced price meals, shall not be sufficient cause for requiring the school food authority to submit a policy statement.

(2)(A) The Secretary shall make additional payments for breakfasts served to children qualifying for a free or reduced price meal at schools that are in severe need.

(B) The maximum payment for each such free breakfast shall be the higher of—

(i) the national average payment established by the Secretary for free breakfasts plus 10 cents, or

(ii) 45 cents (as adjusted pursuant to section 1759a(a)(3)(B) of this title).

(C) The maximum payment for each such reduced price breakfast shall be thirty cents less than the maximum payment for each free breakfast as determined under clause (B) of this paragraph.

(3) The Secretary shall increase by 6 cents the annually adjusted payment for each breakfast served under this chapter and section 1766 of this title. These funds shall be used to assist States, to the extent feasible, in improving the nutritional quality of the breakfasts.

(4) Notwithstanding any other provision of law, whenever stocks of agricultural commodities are acquired by the Secretary or the Commodity Credit Corporation and are not likely to be sold by the Secretary or the Commodity

Credit Corporation or otherwise used in programs of commodity sale or distribution, the Secretary shall make such commodities available to school food authorities and eligible institutions serving breakfasts under this chapter in a quantity equal in value to not less than 3 cents for each breakfast served under this chapter and section 1766 of this title.

(5) Expenditures of funds from State and local sources for the maintenance of the breakfast program shall not be diminished as a result of funds or commodities received under paragraph (3) or (4).

(c) Disbursement of apportioned funds by State; preference for schools in poor economic areas, for students traveling long distances daily, and for schools for improvement of nutrition and dietary practices of children of working mothers and from low-income families

Funds apportioned and paid to any State for the purpose of this section shall be disbursed by the State educational agency to schools selected by the State educational agency to assist such schools in operating a breakfast program and for the purpose of subsection (d) of this section. Disbursement to schools shall be made at such rates per meal or on such other basis as the Secretary shall prescribe. In selecting schools for participation, the State educational agency shall, to the extent practicable, give first consideration to those schools drawing attendance from areas in which poor economic conditions exist, to those schools in which a substantial proportion of the children enrolled must travel long distances daily, and to those schools in which there is a special need for improving the nutrition and dietary practices of children of working mothers and children from low-income families. Breakfast assistance disbursements to schools under this section may be made in advance or by way of reimbursement in accordance with procedures prescribed by the Secretary.

(d) Severe need assistance; eligibility standards; receipt of lesser of operating costs of breakfast program or meal reimbursement rate

(1) Each State educational agency shall provide additional assistance to schools in severe need, which shall include only—

(A) those schools in which the service of breakfasts is required pursuant to State law; and

(B) those schools (having a breakfast program or desiring to initiate a breakfast program) in which, during the most recent second preceding school year for which lunches were served, 40 percent or more of the lunches served to students at the school were served free or at a reduced price, and in which the rate per meal established by the Secretary is insufficient to cover the costs of the breakfast program.

The provision of eligibility specified in clause (A) of this paragraph shall terminate effective July 1, 1983, for schools in States where the State legislatures meet annually and shall terminate effective July 1, 1984, for schools in States where the State legislatures meet biennially.

(2) A school, upon the submission of appropriate documentation about the need circumstances in that school and the school's eligibility for additional assistance, shall be entitled to receive 100 percent of the operating costs of the breakfast program, including the costs of obtaining, preparing, and serving food, or the meal reimbursement rate specified in paragraph (2) of subsection (b) of this section, whichever is less.

(e) Nutritional requirements; service free or at reduced price; compliance assistance

(1)(A) Breakfasts served by schools participating in the school breakfast program under this section shall consist of a combination of foods and shall meet the minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research, except that the minimum nutritional requirements shall be measured by not less than the weekly average of the nutrient content of school breakfasts. Such breakfasts shall be served free or at a reduced price to children in school under the same terms and conditions as are set forth with respect to the service of lunches free or at a reduced price in section 1758 of this title.

(B) The Secretary shall provide through State educational agencies technical assistance and training, including technical assistance and training in the preparation of foods high in complex carbohydrates and lower-fat versions of foods commonly used in the school breakfast program established under this section, to schools participating in the school breakfast program to assist the schools in complying with the nutritional requirements prescribed by the Secretary pursuant to subparagraph (A) and in providing appropriate meals to children with medically certified special dietary needs.

(2) At the option of a local school food authority, a student in a school under the authority that participates in the school breakfast program under this chapter may be allowed to refuse not more than one item of a breakfast that the student does not intend to consume. A refusal of an offered food item shall not affect the full charge to the student for a breakfast meeting the requirements of this section or the amount of payments made under this chapter to a school for the breakfast.

§ 1776. State administrative expenses

(a) Amount available; formula for computation of payment; improved program integrity and meal quality; use for costs of administration of programs for which allocation made; retention of funds by Secretary

(1) Each fiscal year, the Secretary shall make available to the States for their administrative costs an amount equal to not less than 1½ percent of the Federal funds expended under sections 4, 11, and 17 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1753, 1759a, 1766] and 1772 and 1773 of this title during the second preceding fiscal year. The Secretary shall allocate the funds so provided in accordance with paragraphs (2), (3), and (4) of this subsection. There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

(2) The Secretary shall allocate to each State for administrative costs incurred in any fiscal year in connection with the programs authorized under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] or under this chapter, except for the programs authorized under section 13 or 17 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1761, 1766] or under section 1786 of this title, an amount equal to not less than 1 percent and not more than 1½ percent of the funds expended by each State under sections 4 and 11 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1753, 1759a] and sections 1772 and 1773 of this title during the second preceding fiscal year. In no case shall the grant available to any State under this subsection be less than the amount such State was allocated in the fiscal year ending September 30, 1981, or \$100,000, whichever is larger.

(3) The Secretary shall allocate to each State for its administrative costs incurred under the program authorized by section 17 of the Richard B. Russell National School Lunch Act [42 U.S.C. 1766] in any fiscal year an amount, based upon funds expended under that program in the second preceding fiscal year, equal to (A) 20 percent of the first \$50,000, (B) 10 percent of the next \$100,000, (C) 5 percent of the next \$250,000, and (D) 2½ percent of any remaining funds. If an

agency in the State other than the State educational agency administers such program, the State shall ensure that an amount equal to no less than the funds due the State under this paragraph is provided to such agency for costs incurred by such agency in administering the program, except as provided in paragraph (5). The Secretary may adjust any State's allocation to reflect changes in the size of its program.

(4) The remaining funds appropriated under this section shall be allocated among the States by the Secretary in amounts the Secretary determines necessary for the improvement in the States of the administration of the programs authorized under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] and this chapter, except for section 1786 of this title, including, but not limited to, improved program integrity and the quality of meals served to children.

(5)(A) Not more than 25 percent of the amounts made available to each State under this section for the fiscal year 1991 and 20 percent of the amounts made available to each State under this section for the fiscal year 1992 and for each succeeding fiscal year may remain available for obligation or expenditure in the fiscal year succeeding the fiscal year for which such amounts were appropriated.

(B) REALLOCATION OF FUNDS.—

(i) RETURN TO SECRETARY.—For each fiscal year, any amounts appropriated that are not obligated or expended during the fiscal year and are not carried over for the succeeding fiscal year under subparagraph (A) shall be returned to the Secretary.

(ii) REALLOCATION BY SECRETARY.—The Secretary shall allocate, for purposes of administrative costs, any remaining amounts among States that demonstrate a need for the amounts.

(6) USE OF ADMINISTRATIVE FUNDS.—Funds available to a State under this subsection and under section 13(k)(1) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1761(k)(1)) may be used by the State for the costs of administration of the programs authorized under this chapter (except for the programs authorized under sections 1786 and 1790 of this title) and the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) without regard to the basis on which the funds were earned and allocated.

(7) Where the Secretary is responsible for the administration of programs under this chapter or the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.], the amount of funds that would be allocated to the State agency under this section and under section 13(k)(1) of the Richard B. Russell National School Lunch Act [42 U.S.C. 1761(k)(1)] shall be retained by the Secretary for the Secretary's use in the administration of such programs.

(8) In the fiscal year 1991 and each succeeding fiscal year, in accordance with regulations issued by the Secretary, each State shall ensure that the State agency administering the distribution of commodities under programs authorized under this chapter and under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] is provided, from funds made

available to the State under this subsection, an appropriate amount of funds for administrative costs incurred in distributing such commodities. In developing such regulations, the Secretary may consider the value of commodities provided to the State under this chapter and under the Richard B. Russell National School Lunch Act.

(9)(A) If the Secretary determines that the administration of any program by a State under this chapter (other than section 1786 of this title) or under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.), or compliance with a regulation issued pursuant to either this chapter or such Act, is seriously deficient, and the State fails to correct the deficiency within a specified period of time, the Secretary may withhold from the State some or all of the funds allocated to the State under this section or under section 13(k)(1) or 17 of the Richard B. Russell National School Lunch Act (42 U.S.C. 1761(k)(1) or 1766).

(B) On a subsequent determination by the Secretary that the administration of any program referred to in subparagraph (A), or compliance with the regulations issued to carry out the program, is no longer seriously deficient and is operated in an acceptable manner, the Secretary may allocate some or all of the funds withheld under such subparagraph.

(b) Funds, usage: compensation, benefits, and travel expenses of personnel; support services; office equipment; staff development

Funds paid to a State under subsection (a) of this section may be used to pay salaries, including employee benefits and travel expenses, for administrative and supervisory personnel; for support services; for office equipment; and for staff development.

(c) Fund adjustment; State administered programs

If any State agency agrees to assume responsibility for the administration of food service programs in nonprofit private schools or child care institutions that were previously administered by the Secretary, an appropriate adjustment shall be made in the administrative funds paid under this section to the State not later than the succeeding fiscal year.

(d) Unused funds; availability for obligation and expenditure, and reallocation to other States

Notwithstanding any other provision of law, funds made available to each State under this section shall remain available for obligation and expenditure by that State during the fiscal year immediately following the fiscal year for which such funds were made available. For each fiscal year the Secretary shall establish a date by which each State shall submit to the Secretary a plan for the disbursement of funds provided under this section for each such year, and the Secretary shall reallocate any unused funds, as evidenced by such plans, to other States as the Secretary considers appropriate.

(e) State plan; use of funds

Each State shall submit to the Secretary for approval by October 1 of the initial fiscal year a plan for the use of State administrative expense funds, including a staff formula for State per-

sonnel, system level supervisory and operating personnel, and school level personnel. After submitting the initial plan, a State shall be required to submit to the Secretary for approval only a substantive change in the plan.

(f) State funding requirement

Payments of funds under this section shall be made only to States that agree to maintain a level of funding out of State revenues, for administrative costs in connection with programs under this chapter (except section 1786 of this title) and the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] (except section 13 of that Act [42 U.S.C. 1761]), not less than the amount expended or obligated in fiscal year 1977, and that agree to participate fully in any studies authorized by the Secretary.

(g) Authorization of appropriations

For the fiscal year beginning October 1, 1977, and each succeeding fiscal year ending before October 1, 2003, there are hereby authorized to be appropriated such sums as may be necessary for the purposes of this section.

(A) by striking out “except private schools whose average yearly tuition exceeds \$1,500 per child,” after “such school” was executed by striking out “except private schools whose average yearly tuition exceeds \$2,000 per child,” after “such school” to reflect the probable intent of Congress and the intervening amendment of subpar. (A) by Pub. L. 99-661, §4205(b)(2). See below.

Pub. L. 99-661, §4205(b)(1), substituted “\$2,000” for “\$1,500”.

Subsecs. (c) to (e). Pub. L. 94-105, §17(b), struck out subsec. (c) which defined “Nonprofit private school” as any private school exempt from income tax under section 501(c)(3) of title 26, redesignated subsecs. (d) and (e) as (c) and (d) respectively, and in subsec. (c) as so redesignated, inserted definition of “School” any public or licensed nonprofit private residential child care institution (including, but not limited to, orphanages and homes for the mentally retarded), and provision defining “nonprofit” as an exemption under section 501(c)(3) of title 26.

§ 1786. Special supplemental nutrition program for women, infants, and children

(a) Congressional findings and declaration of purpose

Congress finds that substantial numbers of pregnant, postpartum, and breastfeeding women, infants, and young children from families with inadequate income are at special risk with respect to their physical and mental health by reason of inadequate nutrition or health care, or both. It is, therefore, the purpose of the program authorized by this section to provide, up to the authorization levels set forth in subsection (g) of this section, supplemental foods and nutrition education through any eligible local agency that applies for participation in the program. The program shall serve as an adjunct to good health care, during critical times of

growth and development, to prevent the occurrence of health problems, including drug abuse, and improve the health status of these persons.

(b) Definitions

As used in this section—

(1) “Breastfeeding women” means women up to one year postpartum who are breastfeeding their infants.

(2) “Children” means persons who have had their first birthday but have not yet attained their fifth birthday.

(3) “Competent professional authority” means physicians, nutritionists, registered nurses, dietitians, or State or local medically trained health officials, or persons designated by physicians or State or local medically trained health officials, in accordance with standards prescribed by the Secretary, as being competent professionally to evaluate nutritional risk.

(4) “Costs for nutrition services and administration” means costs that shall include, but not be limited to, costs for certification of eligibility of persons for participation in the program (including centrifuges, measuring boards, spectrophotometers, and scales used for the certification), food delivery, monitoring, nutrition education, outreach, startup costs, and general administration applicable to implementation of the program under this section, such as the cost of staff, transportation, insurance, developing and printing food instruments, and administration of State and local agency offices.

(5) “Infants” means persons under one year of age.

(6) “Local agency” means a public health or welfare agency or a private nonprofit health or welfare agency, which, directly or through an agency or physician with which it has contracted, provides health services. The term shall include an Indian tribe, band, or group recognized by the Department of the Interior, the Indian Health Service of the Department of Health and Human Services, or an intertribal council or group that is an authorized representative of Indian tribes, bands, or groups recognized by the Department of the Interior.

(7) “Nutrition education” means individual or group sessions and the provision of materials designed to improve health status that achieve positive change in dietary habits, and emphasize relationships between nutrition and health, all in keeping with the individual’s personal, cultural, and socioeconomic preferences.

(8) “Nutritional risk” means (A) detrimental or abnormal nutritional conditions detectable by biochemical or anthropometric measurements, (B) other documented nutritionally related medical conditions, (C) dietary deficiencies that impair or endanger health, (D) conditions that directly affect the nutritional health of a person, such as alcoholism or drug abuse, or (E) conditions that predispose persons to inadequate nutritional patterns or nutritionally related medical conditions, including, but not limited to, homelessness and migrancy.

(9) “Plan of operation and administration” means a document that describes the manner in which the State agency intends to implement and operate the program.

(10) “Postpartum women” means women up to six months after termination of pregnancy.

(11) “Pregnant women” means women determined to have one or more fetuses in utero.

(12) “Secretary” means the Secretary of Agriculture.

(13) “State agency” means the health department or comparable agency of each State; an Indian tribe, band, or group recognized by the Department of the Interior; an intertribal council or group that is the authorized representative of Indian tribes, bands, or groups recognized by the Department of the Interior; or the Indian Health Service of the Department of Health and Human Services.

(14) “Supplemental foods” means those foods containing nutrients determined by nutritional research to be lacking in the diets of pregnant, breastfeeding, and postpartum women, infants, and children, as prescribed by the Secretary. State agencies may, with the approval of the Secretary, substitute different foods providing the nutritional equivalent of foods prescribed by the Secretary, to allow for different cultural eating patterns.

(15) “Homeless individual” means—

(A) an individual who lacks a fixed and regular nighttime residence; or

(B) an individual whose primary nighttime residence is—

(i) a supervised publicly or privately operated shelter (including a welfare hotel or congregate shelter) designed to provide temporary living accommodations;

(ii) an institution that provides a temporary residence for individuals intended to be institutionalized;

(iii) a temporary accommodation of not more than 365 days in the residence of another individual; or

(iv) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(16) “Drug abuse education” means—

(A) the provision of information concerning the dangers of drug abuse; and

(B) the referral of participants who are suspected drug abusers to drug abuse clinics, treatment programs, counselors, or other drug abuse professionals.

(17) “Competitive bidding” means a procurement process under which the Secretary or a State agency selects a single source (a single infant formula manufacturer) offering the lowest price, as determined by the submission of sealed bids, for a product for which bids are sought for use in the program authorized by this section.

(18) “Rebate” means the amount of money refunded under cost containment procedures to any State agency from the manufacturer or other supplier of the particular food product as the result of the purchase of the supplemental food with a voucher or other purchase instrument by a participant in each such agency’s program established under this section.

(19) "Discount" means, with respect to a State agency that provides program foods to participants without the use of retail grocery stores (such as a State that provides for the home delivery or direct distribution of supplemental food), the amount of the price reduction or other price concession provided to any State agency by the manufacturer or other supplier of the particular food product as the result of the purchase of program food by each such State agency, or its representative, from the supplier.

(20) "Net price" means the difference between the manufacturer's wholesale price for infant formula and the rebate level or the discount offered or provided by the manufacturer under a cost containment contract entered into with the pertinent State agency.

(c) Grants-in-aid; cash grants; ratable reduction of amount an agency may distribute; affirmative action; regulations relating to dual receipt of benefits under commodity supplemental food program

(1) The Secretary may carry out a special supplemental nutrition program to assist State agencies through grants-in-aid and other means to provide, through local agencies, at no cost, supplemental foods and nutrition education to low-income pregnant, postpartum, and breastfeeding women, infants, and children who satisfy the eligibility requirements specified in subsection (d) of this section. The program shall be supplementary to—

(A) the food stamp program;

(B) any program under which foods are distributed to needy families in lieu of food stamps; and

(C) receipt of food or meals from soup kitchens, or shelters, or other forms of emergency food assistance.

(2) Subject to amounts appropriated to carry out this section under subsection (g) of this section—

(A) the Secretary shall make cash grants to State agencies for the purpose of administering the program, and

(B) any State agency approved eligible local agency that applies to participate in or expand the program under this section shall immediately be provided with the necessary funds to carry out the program.

(3) Nothing in this subsection shall be construed to permit the Secretary to reduce ratably the amount of foods that an eligible local agency shall distribute under the program to participants. The Secretary shall take affirmative action to ensure that the program is instituted in areas most in need of supplemental foods. The existence of a commodity supplemental food program under section 4 of the Agriculture and Consumer Protection Act of 1973 shall not preclude the approval of an application from an eligible local agency to participate in the program under this section nor the operation of such program within the same geographic area as that of the commodity supplemental food program, but the Secretary shall issue such regulations as are necessary to prevent dual receipt of benefits under the commodity supplemental food program and the program under this section.

(4) A State shall be ineligible to participate in programs authorized under this section if the Secretary determines that State or local sales taxes are collected within the State on purchases of food made to carry out this section.

(d) Eligible participants

(1) Participation in the program under this section shall be limited to pregnant, postpartum, and breastfeeding women, infants, and children from low-income families who are determined by a competent professional authority to be at nutritional risk.

(2)(A) The Secretary shall establish income eligibility standards to be used in conjunction with the nutritional risk criteria in determining eligibility of individuals for participation in the program. Any individual at nutritional risk shall be eligible for the program under this section only if such individual—

(i) is a member of a family with an income that is less than the maximum income limit prescribed under section 1758(b) of this title for free and reduced price meals;

(ii)(I) receives food stamps under the Food Stamp Act of 1977 [7 U.S.C. 2011 et seq.]; or

(II) is a member of a family that receives assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.] that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995; or

(iii)(I) receives medical assistance under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.]; or

(II) is a member of a family in which a pregnant woman or an infant receives such assistance.

(B) For the purpose of determining income eligibility under this section, any State agency may choose to exclude from income any basic allowance for quarters received by military service personnel residing off military installations.

(C) In the case of a pregnant woman who is otherwise ineligible for participation in the program because the family of the woman is of insufficient size to meet the income eligibility standards of the program, the pregnant woman shall be considered to have satisfied the income eligibility standards if, by increasing the number of individuals in the family of the woman by 1 individual, the income eligibility standards would be met.

(3)(A) Persons shall be certified for participation in accordance with general procedures prescribed by the Secretary.

(B) A State may consider pregnant women who meet the income eligibility standards to be presumptively eligible to participate in the program and may certify the women for participation immediately, without delaying certification until an evaluation is made concerning nutritional risk. A nutritional risk evaluation of such a woman shall be completed not later than 60 days after the woman is certified for participation. If it is subsequently determined that the woman does not meet nutritional risk cri-

teria, the certification of the woman shall terminate on the date of the determination.

(C) PHYSICAL PRESENCE.—

(i) IN GENERAL.—Except as provided in clause (ii) and subject to the requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and section 794 of title 29, each individual seeking certification or recertification for participation in the program shall be physically present at each certification or recertification determination in order to determine eligibility under the program.

(ii) WAIVERS.—If the agency determines that the requirement of clause (i) would present an unreasonable barrier to participation, a local agency may waive the requirement of clause (i) with respect to—

(I) an infant or child who—

(aa) was present at the initial certification visit; and

(bb) is receiving ongoing health care from a provider other than the local agency; or

(II) an infant or child who—

(aa) was present at the initial certification visit;

(bb) was present at a certification or recertification determination within the 1-year period ending on the date of the certification or recertification determination described in clause (i); and

(cc) has one or more parents who work.

(D) INCOME DOCUMENTATION.—

(i) IN GENERAL.—Except as provided in clause (ii), in order to participate in the program pursuant to clause (i) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of family income.

(ii) WAIVERS.—A State agency may waive the documentation requirement of clause (i), in accordance with criteria established by the Secretary, with respect to—

(I) an individual for whom the necessary documentation is not available; or

(II) an individual, such as a homeless woman or child, for whom the agency determines the requirement of clause (i) would present an unreasonable barrier to participation.

(E) ADJUNCT DOCUMENTATION.—In order to participate in the program pursuant to clause (ii) or (iii) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of receipt of assistance described in that clause.

(e) Nutrition education and drug abuse education

(1) The State agency shall ensure that nutrition education and drug abuse education is provided to all pregnant, postpartum, and breastfeeding participants in the program and to parents or caretakers of infant and child participants in the program. The State agency may also provide nutrition education and drug abuse education to pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children enrolled at local agencies

operating the program under this section who do not participate in the program. A local agency participating in the program shall provide education or educational materials relating to the effects of drug and alcohol use by a pregnant, postpartum, or breastfeeding woman on the developing child of the woman.

(2) The Secretary shall prescribe standards to ensure that adequate nutrition education services and breastfeeding promotion and support are provided. The State agency shall provide training to persons providing nutrition education under this section.

(3) NUTRITION EDUCATION MATERIALS.—

(A) IN GENERAL.—The Secretary shall, after submitting proposed nutrition education materials to the Secretary of Health and Human Services for comment, issue such materials for use in the program under this section.

(B) SHARING OF MATERIALS.—The Secretary may provide, in bulk quantity, nutrition education materials (including materials promoting breastfeeding) developed with funds made available for the program authorized under this section to State agencies administering the commodity supplemental food program authorized under sections 4(a) and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note; Public Law 93-86) at no cost to that program.

(4) The State agency—

(A) shall provide each local agency with materials showing the maximum income limits, according to family size, applicable to pregnant women, infants, and children up to age 5 under the medical assistance program established under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] (in this section referred to as the “medicaid program”);

(B) shall provide to individuals applying for the program under this section, or reapplying at the end of their certification period, written information about the medicaid program and referral to such program or to agencies authorized to determine presumptive eligibility for such program, if such individuals are not participating in such program and appear to have family income below the applicable maximum income limits for such program; and

(C) may provide a local agency with materials describing other programs for which a participant in the program may be eligible.

(5) Each local agency shall maintain and make available for distribution a list of local resources for substance abuse counseling and treatment.

(f) Plan of operation and administration by State agency

(1)(A) Each State agency shall submit to the Secretary, by a date specified by the Secretary, an initial plan of operation and administration for a fiscal year. After submitting the initial plan, a State shall be required to submit to the Secretary for approval only a substantive change in the plan.

(B) To be eligible to receive funds under this section for a fiscal year, a State agency must receive the approval of the Secretary for the plan submitted for the fiscal year.

(C) The plan shall include—

(i) a description of the food delivery system of the State agency and the method of enabling participants to receive supplemental foods under the program, to be administered in accordance with standards developed by the Secretary;

(ii) a description of the financial management system of the State agency;

(iii) a plan to coordinate operations under the program with other services or programs that may benefit participants in, and applicants for, the program;

(iv) a plan to provide program benefits under this section to, and to meet the special nutrition education needs of, eligible migrants, homeless individuals, and Indians;

(v) a plan to expend funds to carry out the program during the relevant fiscal year;

(vi) a plan to provide program benefits under this section to unserved and underserved areas in the State (including a plan to improve access to the program for participants and prospective applicants who are employed, or who reside in rural areas), if sufficient funds are available to carry out this clause;

(vii) a plan for reaching and enrolling eligible women in the early months of pregnancy, including provisions to reach and enroll eligible migrants;

(viii) a plan to provide program benefits under this section to unserved infants and children under the care of foster parents, protective services, or child welfare authorities, including infants exposed to drugs perinatally;

(ix) a plan to provide nutrition education and promote breastfeeding; and

(x) such other information as the Secretary may reasonably require.

(D) The Secretary may not approve any plan that permits a person to participate simultaneously in both the program authorized under this section and the commodity supplemental food program authorized under sections 4 and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note).

(2) A State agency shall establish a procedure under which members of the general public are provided an opportunity to comment on the development of the State agency plan.

(3) The Secretary shall establish procedures under which eligible migrants may, to the maximum extent feasible, continue to participate in the program under this section when they are present in States other than the State in which they were originally certified for participation in the program and shall ensure that local programs provide priority consideration to serving migrant participants who are residing in the State for a limited period of time. Each State agency shall be responsible for administering the program for migrant populations within its jurisdiction.

(4) State agencies shall submit monthly financial reports and participation data to the Secretary.

(5) State and local agencies operating under the program shall keep such accounts and records, including medical records, as may be necessary to enable the Secretary to determine whether there has been compliance with this

section and to determine and evaluate the benefits of the nutritional assistance provided under this section. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(6)(A) Local agencies participating in the program under this section shall notify persons of their eligibility or ineligibility for the program within twenty days of the date that the household, during office hours of a local agency, personally makes an oral or written request to participate in the program. The Secretary shall establish a shorter notification period for categories of persons who, due to special nutritional risk conditions, must receive benefits more expeditiously.

(B) State agencies may provide for the delivery of vouchers to any participant who is not scheduled for nutrition education counseling or a recertification interview through means, such as mailing, that do not require the participant to travel to the local agency to obtain vouchers. The State agency shall describe any plans for issuance of vouchers by mail in its plan submitted under paragraph (1). The Secretary may disapprove a State plan with respect to the issuance of vouchers by mail in any specified jurisdiction or part of a jurisdiction within a State only if the Secretary finds that such issuance would pose a significant threat to the integrity of the program under this section in such jurisdiction or part of a jurisdiction.

(7)(A) The State agency shall, in cooperation with participating local agencies, publicly announce and distribute information on the availability of program benefits (including the eligibility criteria for participation and the location of local agencies operating the program) to offices and organizations that deal with significant numbers of potentially eligible individuals (including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworker organizations, Indian tribal organizations, organizations and agencies serving homeless individuals and shelters for victims of domestic violence, and religious and community organizations in low income areas).

(B) The information shall be publicly announced by the State agency and by local agencies at least annually.

(C) The State agency and local agencies shall distribute the information in a manner designed to provide the information to potentially eligible individuals who are most in need of the benefits, including pregnant women in the early months of pregnancy.

(D) Each local agency operating the program within a hospital and each local agency operating the program that has a cooperative arrangement with a hospital shall—

(i) advise potentially eligible individuals that receive inpatient or outpatient prenatal, maternity, or postpartum services, or accompany a child under the age of 5 who receives well-child services, of the availability of program benefits; and

(ii) to the extent feasible, provide an opportunity for individuals who may be eligible to

be certified within the hospital for participation in such program.

(8)(A) The State agency shall grant a fair hearing, and a prompt determination thereafter, in accordance with regulations issued by the Secretary, to any applicant, participant, or local agency aggrieved by the action of a State or local agency as it affects participation.

(B) Any State agency that must suspend or terminate benefits to any participant during the participant's certification period due to a shortage of funds for the program shall first issue a notice to such participant.

(9) If an individual certified as eligible for participation in the program under this section in one area moves to another area in which the program is operating, that individual's certification of eligibility shall remain valid for the period for which the individual was originally certified.

(10) The Secretary shall establish standards for the proper, efficient, and effective administration of the program. If the Secretary determines that a State agency has failed without good cause to administer the program in a manner consistent with this section or to implement the approved plan of operation and administration under this subsection, the Secretary may withhold such amounts of the State agency's funds for nutrition services and administration as the Secretary deems appropriate. Upon correction of such failure during a fiscal year by a State agency, any funds so withheld for such fiscal year shall be provided the State agency.

(11) The Secretary shall prescribe by regulation the supplemental foods to be made available in the program under this section. To the degree possible, the Secretary shall assure that the fat, sugar, and salt content of the prescribed foods is appropriate.

(12) A competent professional authority shall be responsible for prescribing the appropriate supplemental foods, taking into account medical and nutritional conditions and cultural eating patterns, and, in the case of homeless individuals, the special needs and problems of such individuals.

(13) The State agency may (A) provide nutrition education, breastfeeding promotion, and drug abuse education materials and instruction in languages other than English and (B) use appropriate foreign language materials in the administration of the program, in areas in which a substantial number of low-income households speak a language other than English.

(14) If a State agency determines that a member of a family has received an overissuance of food benefits under the program authorized by this section as the result of such member intentionally making a false or misleading statement or intentionally misrepresenting, concealing, or withholding facts, the State agency shall recover, in cash, from such member an amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.

(15) To be eligible to participate in the program authorized by this section, a manufacturer of infant formula that supplies formula for the program shall—

(A) register with the Secretary of Health and Human Services under the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 301 et seq.]; and

(B) before bidding for a State contract to supply infant formula for the program, certify with the State health department that the formula complies with such Act and regulations issued pursuant to such Act.

(16) The State agency may adopt methods of delivering benefits to accommodate the special needs and problems of homeless individuals.

(17) Notwithstanding subsection (d)(2)(A)(i) of this section, not later than July 1 of each year, a State agency may implement income eligibility guidelines under this section concurrently with the implementation of income eligibility guidelines under the medicaid program established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.).

(18) Each local agency participating in the program under this section may provide information about other potential sources of food assistance in the local area to individuals who apply in person to participate in the program under this section, but who cannot be served because the program is operating at capacity in the local area.

(19) The State agency shall adopt policies that—

(A) require each local agency to attempt to contact each pregnant woman who misses an appointment to apply for participation in the program under this section, in order to reschedule the appointment, unless the phone number and the address of the woman are unavailable to such local agency; and

(B) in the case of local agencies that do not routinely schedule appointments for individuals seeking to apply or be recertified for participation in the program under this section, require each such local agency to schedule appointments for each employed individual seeking to apply or be recertified for participation in such program so as to minimize the time each such individual is absent from the workplace due to such application or request for recertification.

(20) Each State agency shall conduct monitoring reviews of each local agency at least biennially.

(21) USE OF CLAIMS FROM VENDORS AND PARTICIPANTS.—A State agency may use funds recovered from vendors and participants, as a result of a claim arising under the program, to carry out the program during—

(A) the fiscal year in which the claim arises;

(B) the fiscal year in which the funds are collected; and

(C) the fiscal year following the fiscal year in which the funds are collected.

(22) The Secretary and the Secretary of Health and Human Services shall carry out an initiative to assure that, in a case in which a State medicaid program uses coordinated care providers under a contract entered into under section 1903(m), or a waiver granted under section 1915(b), of the Social Security Act (42 U.S.C. 1396b(m) or 1396n(b)), coordination between the program authorized by this section and the medicaid program is continued, including—

(A) the referral of potentially eligible women, infants, and children between the 2 programs; and

(B) the timely provision of medical information related to the program authorized by this section to agencies carrying out the program.

(23) INDIVIDUALS PARTICIPATING AT MORE THAN ONE SITE.—Each State agency shall implement a system designed by the State agency to identify individuals who are participating at more than one site under the program.

(24) HIGH RISK VENDORS.—Each State agency shall—

(A) identify vendors that have a high probability of program abuse; and

(B) conduct compliance investigations of the vendors.

(g) Authorization of appropriations; allocation of funds; estimate of families having income below limit for participation

(1) There are authorized to be appropriated to carry out this section \$2,158,000,000 for the fiscal year 1990, and such sums as may be necessary for each of the fiscal years 1995 through 2003. As authorized by section 1752 of this title, appropriations to carry out the provisions of this section may be made not more than 1 year in advance of the beginning of the fiscal year in which the funds will become available for disbursement to the States, and shall remain available for the purposes for which appropriated until expended.

(2)(A) Notwithstanding any other provision of law, unless enacted in express limitation of this subparagraph, the Secretary—

(i) in the case of legislation providing funds through the end of a fiscal year, shall issue—

(I) an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 15-day period beginning on the date of the enactment of such legislation; and

(II) subsequent allocations of funds provided by the enactment of such legislation not later than the beginning of each of the second, third, and fourth quarters of the fiscal year; and

(ii) in the case of legislation providing funds for a period that ends prior to the end of a fiscal year, shall issue an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 10-day period beginning on the date of the enactment of such legislation.

(B) In any fiscal year—

(i) unused amounts from a prior fiscal year that are identified by the end of the first quarter of the fiscal year shall be recovered and reallocated not later than the beginning of the second quarter of the fiscal year; and

(ii) unused amounts from a prior fiscal year that are identified after the end of the first quarter of the fiscal year shall be recovered and reallocated on a timely basis.

(3) Notwithstanding any other provision of law, unless enacted in express limitation of this paragraph—

(A) the allocation of funds required by paragraph (2)(A)(i)(I) shall include not less than $\frac{1}{3}$ of the amounts appropriated by the legislation described in such paragraph;

(B) the allocations of funds required by paragraph (2)(A)(i)(II) to be made not later than the beginning of the second and third quarters of the fiscal year shall each include not less than $\frac{1}{4}$ of the amounts appropriated by the legislation described in such paragraph; and

(C) in the case of the enactment of legislation providing appropriations for a period of not more than 4 months, the allocation of funds required by paragraph (2)(A)(ii) shall include all amounts appropriated by such legislation except amounts reserved by the Secretary for purposes of carrying out paragraph (5).

(4) Of the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations. The migrant services shall be provided in a manner consistent with the priority system of a State for program participation.

(5) Of the sums appropriated for any fiscal year for the program under this section, one-half of 1 percent, not to exceed \$5,000,000, shall be available to the Secretary for the purpose of evaluating program performance, evaluating health benefits, preparing reports on program participant characteristics, providing technical assistance to improve State agency administrative systems, administration of pilot projects, including projects designed to meet the special needs of migrants, Indians, and rural populations, and carrying out technical assistance and research evaluation projects of the programs under this section.

(h) Funds for nutrition services and administration

(1)(A) Each fiscal year, the Secretary shall make available, from amounts appropriated for such fiscal year under subsection (g)(1) of this section and amounts remaining from amounts appropriated under such subsection for the preceding fiscal year, an amount sufficient to guarantee a national average per participant grant to be allocated among State agencies for costs incurred by State and local agencies for nutrition services and administration for such year.

(B)(i) The amount of the national average per participant grant for nutrition services and administration for any fiscal year shall be an amount equal to the amount of the national average per participant grant for nutrition services and administration issued for the fiscal year 1987, as adjusted.

(ii) Such adjustment, for any fiscal year, shall be made by revising the national average per participant grant for nutrition services and administration for the fiscal year 1987 to reflect the percentage change between—

(I) the value of the index for State and local government purchases, using the implicit price deflator, as published by the Bureau of Economic Analysis of the Department of Commerce, for the 12-month period ending June 30, 1986; and

(II) the best estimate that is available as of the start of the fiscal year of the value of such index for the 12-month period ending June 30 of the previous fiscal year.

(C) REMAINING AMOUNTS.—

(i) IN GENERAL.—Except as provided in clause (ii), in any fiscal year, amounts remaining from amounts appropriated for such fiscal year under subsection (g)(1) of this section and from amounts appropriated under such section for the preceding fiscal year, after carrying out subparagraph (A), shall be made available for food benefits under this section, except to the extent that such amounts are needed to carry out the purposes of subsections (g)(4) and (g)(5) of this section.

(ii) BREAST PUMPS.—A State agency may use amounts made available under clause (i) for the purchase of breast pumps.

(2)(A) For each of the fiscal years 1995 through 2003, the Secretary shall allocate to each State agency from the amount described in paragraph (1)(A) an amount for costs of nutrition services and administration on the basis of a formula prescribed by the Secretary. Such formula—

(i) shall be designed to take into account—

(I) the varying needs of each State;

(II) the number of individuals participating in each State; and

(III) other factors which serve to promote the proper, efficient, and effective administration of the program under this section;

(ii) shall provide for each State agency—

(I) an estimate of the number of participants for the fiscal year involved; and

(II) a per participant grant for nutrition services and administration for such year;

(iii) shall provide for a minimum grant amount for State agencies; and

(iv) may provide funds to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(B)(i) Except as provided in clause (ii) and subparagraph (C), in any fiscal year, the total amount allocated to a State agency for costs of nutrition services and administration under the formula prescribed by the Secretary under subparagraph (A) shall constitute the State agency's operational level for such costs for such year even if the number of participants in the program at such agency is lower than the estimate provided under subparagraph (A)(ii)(I).

(ii) If a State agency's per participant expenditure for nutrition services and administration is more than 10 percent (except that the Secretary may establish a higher percentage for State agencies that are small) higher than its per participant grant for nutrition services and administration without good cause, the Secretary may reduce such State agency's operational level for costs of nutrition services and administration.

(C) In any fiscal year, the Secretary may reallocate amounts provided to State agencies under subparagraph (A) for such fiscal year. When reallocating amounts under the preceding sentence, the Secretary may provide additional amounts to, or recover amounts from, any State agency.

(3)(A) Except as provided in subparagraphs (B) and (C), in each fiscal year, each State agency shall expend—

(i) for nutrition education activities and breastfeeding promotion and support activities, an aggregate amount that is not less than the sum of—

(I) $\frac{1}{6}$ of the amounts expended by the State for costs of nutrition services and administration; and

(II) except as otherwise provided in subparagraphs (F) and (G), an amount equal to a proportionate share of the national minimum breastfeeding promotion expenditure, as described in subparagraph (E), with each State's share determined on the basis of the number of pregnant women and breastfeeding women in the program in the State as a percentage of the number of pregnant women and breastfeeding women in the program in all States; and

(ii) for breastfeeding promotion and support activities an amount that is not less than the amount determined for such State under clause (i)(II).

(B) The Secretary may authorize a State agency to expend an amount less than the amount described in subparagraph (A)(ii) for purposes of breastfeeding promotion and support activities if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct nutrition education activities at a level commensurate with the level at which such activities would be conducted if the amount described in subparagraph (A)(ii) were expended for such activities.

(C) The Secretary may authorize a State agency to expend for purposes of nutrition education an amount that is less than the difference between the aggregate amount described in subparagraph (A) and the amount expended by the State for breastfeeding promotion and support programs if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct such activities.

(D) The Secretary shall limit to a minimal level any documentation required under this paragraph.

(E) For each fiscal year, the national minimum breastfeeding promotion expenditure means an amount that is—

(i) equal to \$21 multiplied by the number of pregnant women and breastfeeding women participating in the program nationwide, based on the average number of pregnant women and breastfeeding women so participating during the last 3 months for which the Secretary has final data; and

(ii) adjusted for inflation on October 1, 1996, and each October 1 thereafter, in accordance with paragraph (1)(B)(ii).

(4) The Secretary shall—

(A) in consultation with the Secretary of Health and Human Services, develop a definition of breastfeeding for the purposes of the program under this section;

(B) authorize the purchase of breastfeeding aids by State and local agencies as an allow-

able expense under nutrition services and administration;

(C) require each State agency to designate an agency staff member to coordinate breastfeeding promotion efforts identified in the State plan of operation and administration;

(D) require the State agency to provide training on the promotion and management of breastfeeding to staff members of local agencies who are responsible for counseling participants in the program under this section concerning breastfeeding; and

(E) not later than 1 year after November 2, 1994, develop uniform requirements for the collection of data regarding the incidence and duration of breastfeeding among participants in the program.

(5)(A) Subject to subparagraph (B), in any fiscal year that a State agency submits a plan to reduce average food costs per participant and to increase participation above the level estimated for the State agency, the State agency may, with the approval of the Secretary, convert amounts allocated for food benefits for such fiscal year for costs of nutrition services and administration to the extent that such conversion is necessary—

(i) to cover allowable expenditures in such fiscal year; and

(ii) to ensure that the State agency maintains the level established for the per participant grant for nutrition services and administration for such fiscal year.

(B) If a State agency increases its participation level through measures that are not in the nutritional interests of participants or not otherwise allowable (such as reducing the quantities of foods provided for reasons not related to nutritional need), the Secretary may refuse to allow the State agency to convert amounts allocated for food benefits to defray costs of nutrition services and administration.

(C) For the purposes of this paragraph, the term “acceptable measures” includes use of cost containment measures, curtailment of vendor abuse, and breastfeeding promotion activities.

(6) In each fiscal year, each State agency shall provide, from the amounts allocated to such agency for such year for costs of nutrition services and administration, an amount to each local agency for its costs of nutrition services and administration. The amount to be provided to each local agency under the preceding sentence shall be determined under allocation standards developed by the State agency in cooperation with the several local agencies, taking into account factors deemed appropriate to further proper, efficient, and effective administration of the program, such as—

(A) local agency staffing needs;

(B) density of population;

(C) number of individuals served; and

(D) availability of administrative support from other sources.

(7) The State agency may provide in advance to any local agency any amounts for nutrition services and administration deemed necessary for successful commencement or significant expansion of program operations during a reasonable period following approval of—

(A) a new local agency;

(B) a new cost containment measure; or

(C) a significant change in an existing cost containment measure.

(8)(A)(i) Except as provided in subparagraphs (B) and (C)(iii), any State that provides for the purchase of foods under the program at retail grocery stores shall, with respect to the procurement of infant formula, use—

(I) a competitive bidding system; or

(II) any other cost containment measure that yields savings equal to or greater than savings generated by a competitive bidding system when such savings are determined by comparing the amounts of savings that would be provided over the full term of contracts offered in response to a single invitation to submit both competitive bids and bids for other cost containment systems for the sale of infant formula.

(ii) In determining whether a cost containment measure other than competitive bidding yields equal or greater savings, the State, in accordance with regulations issued by the Secretary, may take into account other cost factors (in addition to rebate levels and procedures for adjusting rebate levels when wholesale price levels rise), such as—

(I) the number of infants who would not be expected to receive the contract brand of infant formula under a competitive bidding system;

(II) the number of cans of infant formula for which no rebate would be provided under another rebate system; and

(III) differences in administrative costs relating to the implementation of the various cost containment systems (such as costs of converting a computer system for the purpose of operating a cost containment system and costs of preparing participants for conversion to a new or alternate cost containment system).

(iii) **COMPETITIVE BIDDING SYSTEM.**—A State agency using a competitive bidding system for infant formula shall award contracts to bidders offering the lowest net price unless the State agency demonstrates to the satisfaction of the Secretary that the weighted average retail price for different brands of infant formula in the State does not vary by more than 5 percent.

(B)(i) The Secretary shall waive the requirement of subparagraph (A) in the case of any State that demonstrates to the Secretary that—

(I) compliance with subparagraph (A) would be inconsistent with efficient or effective operation of the program operated by such State under this section; or

(II) the amount by which the savings yielded by an alternative cost containment system would be less than the savings yielded by a competitive bidding system is sufficiently minimal that the difference is not significant.

(ii) The Secretary shall prescribe criteria under which a waiver may be granted pursuant to clause (i).

(iii) The Secretary shall provide information on a timely basis to the Committee on Education and Labor of the House of Representa-

tives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on waivers that have been granted under clause (i).

(C)(i) The Secretary shall provide technical assistance to small Indian State agencies carrying out this paragraph in order to assist such agencies to achieve the maximum cost containment savings feasible.

(ii) The Secretary shall also provide technical assistance, on request, to State agencies that desire to consider a cost containment system that covers more than 1 State agency.

(iii) The Secretary may waive the requirement of subparagraph (A) in the case of any Indian State agency that has not more than 1,000 participants.

(D) No State may enter into a cost containment contract (in this subparagraph referred to as the "original contract") that prescribes conditions that would void, reduce the savings under, or otherwise limit the original contract if the State solicited or secured bids for, or entered into, a subsequent cost containment contract to take effect after the expiration of the original contract.

(E) The Secretary shall offer to solicit bids on behalf of State agencies regarding cost-containment contracts to be entered into by infant formula manufacturers and State agencies. The Secretary shall make the offer to State agencies once every 12 months. Each such bid solicitation shall only take place if two or more State agencies request the Secretary to perform the solicitation. For such State agencies, the Secretary shall solicit bids and select the winning bidder for a cost containment contract to be entered into by State agencies and infant formula manufacturers or suppliers.

(F) In soliciting bids for contracts for infant formula for the program authorized by this section, the Secretary shall solicit bids from infant formula manufacturers under procedures in which bids for rebates or discounts are solicited for milk-based and soy-based infant formula, separately, except where the Secretary determines that such solicitation procedures are not in the best interest of the program.

(G) To reduce the costs of any supplemental foods, the Secretary may make available additional funds to State agencies out of the funds otherwise available under paragraph (1)(A) for nutrition services and administration in an amount not exceeding one half of 1 percent of the amounts to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(H)(i) Any person, company, corporation, or other legal entity that submits a bid to supply infant formula to carry out the program authorized by this section and announces or otherwise discloses the amount of the bid, or the rebate or discount practices of such entities, in advance of the time the bids are opened by the Secretary or the State agency, or any person, company, corporation, or other legal entity that makes a statement (prior to the opening of bids) relating to levels of rebates or discounts, for the purpose of influencing a bid submitted by any other person, shall be ineligible to submit bids to supply infant formula to the program for the bidding in

progress for up to 2 years from the date the bids are opened and shall be subject to a civil penalty of up to \$100,000,000, as determined by the Secretary to provide restitution to the program for harm done to the program. The Secretary shall issue regulations providing such person, company, corporation, or other legal entity appropriate notice, and an opportunity to be heard and to respond to charges.

(ii) The Secretary shall determine the length of the disqualification, and the amount of the civil penalty referred to in clause (i) based on such factors as the Secretary by regulation determines appropriate.

(iii) Any person, company, corporation, or other legal entity disqualified under clause (i) shall remain obligated to perform any requirements under any contract to supply infant formula existing at the time of the disqualification and until each such contract expires by its terms.

(I) Not later than the expiration of the 180-day period beginning on October 24, 1992, the Secretary shall prescribe regulations to carry out this paragraph.

(J) A State shall not incur any interest liability to the Federal Government on rebate funds for infant formula and other foods if all interest earned by the State on the funds is used for program purposes.

(9) For purposes of this subsection, the term "cost containment measure" means a competitive bidding, rebate, direct distribution, or home delivery system implemented by a State agency as described in its approved plan of operation and administration.

(10)(A) For each of fiscal years 1995 through 2003, the Secretary shall use for the purposes specified in subparagraph (B), \$10,000,000 or the amount of nutrition services and administration funds and supplemental foods funds for the prior fiscal year that has not been obligated, whichever is less.

(B) Funds under subparagraph (A) shall be used for—

(i) development of infrastructure for the program under this section, including management information systems;

(ii) special State projects of regional or national significance to improve the services of the program under this section; and

(iii) special breastfeeding support and promotion projects, including projects to assess the effectiveness of particular breastfeeding promotion strategies and to develop State or local agency capacity or facilities to provide quality breastfeeding services.

(11) CONSIDERATION OF PRICE LEVELS OF RETAIL STORES FOR PARTICIPATION IN PROGRAM.—

(A) IN GENERAL.—For the purpose of promoting efficiency and to contain costs under the program, a State agency shall, in selecting a retail store for participation in the program, take into consideration the prices that the store charges for foods under the program as compared to the prices that other stores charge for the foods.

(B) SUBSEQUENT PRICE INCREASES.—The State agency shall establish procedures to ensure that a retail store selected for participation in the program does not subsequently raise

prices to levels that would otherwise make the store ineligible for participation in the program.

(12) MANAGEMENT INFORMATION SYSTEM PLAN.—

(A) IN GENERAL.—In consultation with State agencies, vendors, and other interested persons, the Secretary shall establish a long-range plan for the development and implementation of management information systems (including electronic benefit transfers) to be used in carrying out the program.

(B) REPORT.—Not later than 2 years after October 31, 1998, the Secretary shall submit to the Committee on Education and the Workforce of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report on actions taken to carry out subparagraph (A).

(C) INTERIM PERIOD.—Prior to the date of submission of the report of the Secretary required under subparagraph (B), a State agency may not require retail stores to pay the cost of systems or equipment that may be required to test electronic benefit transfer systems.

(i) Division of funds formula; reallocation of unspent funds; use of State allocation to buy supplemental foods; use of amounts available for succeeding fiscal year

(1) By the beginning of each fiscal year, the Secretary shall divide, among the State agencies, the amounts made available for food benefits under subsection (h)(1)(C) of this section on the basis of a formula determined by the Secretary.

(2) Each State agency's allocation, as so determined, shall constitute the State agency's authorized operational level for that year, except that the Secretary shall reallocate funds periodically if the Secretary determines that a State agency is unable to spend its allocation.

(3)(A) Notwithstanding paragraph (2) and subject to subparagraph (B)—

(i)(I) not more than 1 percent (except as provided in subparagraph (C)) of the amount of funds allocated to a State agency under this section for supplemental foods for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods during the preceding fiscal year; and

(II) not more than 1 percent of the amount of funds allocated to a State agency under this section for nutrition services and administration for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods and nutrition services and administration during the preceding fiscal year; and

(ii)(I) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than 1 percent of the amount allocated to the State agency under this section for the fiscal year may be expended by the State agency for allowable expenses incurred under this section for nutrition services and administration during the subsequent fiscal year; and

(II) for each fiscal year, of the amounts allocated to a State agency for nutrition services

and administration, an amount equal to not more than $\frac{1}{2}$ of 1 percent of the amount allocated to the State agency under this section for the fiscal year may be expended by the State agency, with the prior approval of the Secretary, for the development of a management information system, including an electronic benefit transfer system, during the subsequent fiscal year.

(B) Any funds made available to a State agency in accordance with subparagraph (A)(ii) for a fiscal year shall not affect the amount of funds allocated to the State agency for such year.

(C) The Secretary may authorize a State agency to expend not more than 3 percent of the amount of funds allocated to a State under this section for supplemental foods for a fiscal year for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that there has been a significant reduction in infant formula cost containment savings provided to the State agency that would affect the ability of the State agency to at least maintain the level of participation by eligible participants served by the State agency.

(4) For purposes of the formula, if Indians are served by the health department of a State, the formula shall be based on the State population inclusive of the Indians within the State boundaries.

(5) If Indians residing in the State are served by a State agency other than the health department of the State, the population of the tribes within the jurisdiction of the State being so served shall not be included in the formula for such State, and shall instead be included in the formula for the State agency serving the Indians.

(6) Notwithstanding any other provision of this section, the Secretary may use a portion of a State agency's allocation to purchase supplemental foods for donation to the State agency under this section.

(7) In addition to any amounts expended under paragraph (3)(A)(i), any State agency using cost containment measures as defined in subsection (h)(9) of this section may temporarily use amounts made available to such agency for the first quarter of a fiscal year to defray expenses for costs incurred during the final quarter of the preceding fiscal year. In any fiscal year, any State agency that uses amounts made available for a succeeding fiscal year under the authority of the preceding sentence shall restore or reimburse such amounts when such agency receives payment as a result of its cost containment measures for such expenses.

(j) Initiative to provide program services at community and migrant health centers

(1) The Secretary and the Secretary of Health and Human Services (referred to in this subsection as the "Secretaries") shall jointly establish and carry out an initiative for the purpose of providing both supplemental foods and nutrition education under the special supplemental nutrition program and health care services to low-income pregnant, postpartum, and breastfeeding women, infants, and children at substantially more community health centers and migrant health centers.

(2) The initiative shall also include—

(A) activities to improve the coordination of the provision of supplemental foods and nutrition education under the special supplemental nutrition program and health care services at facilities funded by the Indian Health Service; and

(B) the development and implementation of strategies to ensure that, to the maximum extent feasible, new community health centers, migrant health centers, and other federally supported health care facilities established in medically underserved areas provide supplemental foods and nutrition education under the special supplemental nutrition program.

(3) The initiative may include—

(A) outreach and technical assistance for State and local agencies and the facilities described in paragraph (2)(A) and the health centers and facilities described in paragraph (2)(B);

(B) demonstration projects in selected State or local areas; and

(C) such other activities as the Secretaries find are appropriate.

(4)(A) Not later than April 1, 1995, the Secretaries shall provide to Congress a notification concerning the actions the Secretaries intend to take to carry out the initiative.

(B) Not later than July 1, 1996, the Secretaries shall provide to Congress a notification concerning the actions the Secretaries are taking under the initiative or actions the Secretaries intend to take under the initiative as a result of their experience in implementing the initiative.

(C) On completion of the initiative, the Secretaries shall provide to Congress a notification concerning an evaluation of the initiative by the Secretaries and a plan of the Secretaries to further the goals of the initiative.

(5) As used in this subsection:

(A) The term “community health center” has the meaning given the term in section 254c(a)¹ of this title.

(B) The term “migrant health center” has the meaning given the term in section 254b(a)(1)¹ of this title.

(k) National Advisory Council on Maternal, Infant, and Fetal Nutrition; establishment; membership; term; officers; meetings; quorum; technical assistance by Secretary

(1) There is hereby established a National Advisory Council on Maternal, Infant, and Fetal Nutrition (referred to in this subsection as the “Council”) composed of 24 members appointed by the Secretary. One member shall be a State director of a program under this section; one member shall be a State official responsible for a commodity supplemental food program under section 1304 of the Food and Agriculture Act of 1977; one member shall be a State fiscal officer of a program under this section (or the equivalent thereof); one member shall be a State health officer (or the equivalent thereof); one member shall be a local agency director of a program under this section in an urban area; one member shall be a local agency director of a pro-

gram under this section in a rural area; one member shall be a project director of a commodity supplemental food program; one member shall be a State public health nutrition director (or the equivalent thereof); one member shall be a representative of an organization serving migrants; one member shall be an official from a State agency predominantly serving Indians; three members shall be parent participants of a program under this section or of a commodity supplemental food program; one member shall be a pediatrician; one member shall be an obstetrician; one member shall be a representative of a nonprofit public interest organization that has experience with and knowledge of the special supplemental nutrition program; one member shall be a person involved at the retail sales level of food in the special supplemental nutrition program; two members shall be officials of the Department of Health and Human Services appointed by the Secretary of Health and Human Services; two members shall be officials of the Department of Agriculture appointed by the Secretary; 1 member shall be an expert in the promotion of breast feeding; one member shall be an expert in drug abuse education and prevention; and one member shall be an expert in alcohol abuse education and prevention.

(2) Members of the Council appointed from outside the Department of Agriculture and the Department of Health and Human Services shall be appointed for terms not exceeding three years. State and local officials shall serve only during their official tenure, and the tenure of parent participants shall not exceed two years. Persons appointed to complete an unexpired term shall serve only for the remainder of such term.

(3) The Council shall elect a Chairman and a Vice Chairman. The Council shall meet at the call of the Chairman, but shall meet at least once a year. Eleven members shall constitute a quorum.

(4) The Secretary shall provide the Council with such technical and other assistance, including secretarial and clerical assistance, as may be required to carry out its functions.

(5) Members of the Council shall serve without compensation but shall be reimbursed for necessary travel and subsistence expenses incurred by them in the performance of the duties of the Council. Parent participant members of the Council, in addition to reimbursement for necessary travel and subsistence, shall, at the discretion of the Secretary, be compensated in advance for other personal expenses related to participation on the Council, such as child care expenses and lost wages during scheduled Council meetings.

(l) Donation of foods by Secretary

Foods available under section 1431 of title 7, including, but not limited to, dry milk, or purchased under section 612c of title 7, may be donated by the Secretary, at the request of a State agency, for distribution to programs conducted under this section. The Secretary may purchase and distribute, at the request of a State agency, supplemental foods for donation to programs conducted under this section, with appropriated funds, including funds appropriated under this section.

¹ See References in Text note below.

(m) Women, infants, and children farmers' market nutrition program; establishment, grants, etc.

(1) Subject to the availability of funds appropriated for the purposes of this subsection, and as specified in this subsection, the Secretary shall award grants to States that submit State plans that are approved for the establishment or maintenance of programs designed to provide recipients of assistance under subsection (c) of this section, or those who are on the waiting list to receive the assistance, with coupons that may be exchanged for fresh, nutritious, unprepared foods at farmers' markets, as defined in the State plans submitted under this subsection.

(2) A grant provided to any State under this subsection shall be provided to the chief executive officer of the State, who shall—

(A) designate the appropriate State agency or agencies to administer the program in conjunction with the appropriate nonprofit organizations; and

(B) ensure coordination of the program among the appropriate agencies and organizations.

(3) The Secretary shall not make a grant to any State under this subsection unless the State agrees to provide State, local, or private funds for the program in an amount that is equal to not less than 30 percent of the total cost of the program, which may be satisfied from program income or State contributions that are made for similar programs. The Secretary may negotiate with an Indian State agency a lower percentage of matching funds than is required under the preceding sentence, but not lower than 10 percent of the total cost of the program, if the Indian State agency demonstrates to the Secretary financial hardship for the affected Indian tribe, band, group, or council.

(4) Subject to paragraph (6), the Secretary shall establish a formula for determining the amount of the grant to be awarded under this subsection to each State for which a State plan is approved under paragraph (6), according to the number of recipients proposed to participate as specified in the State plan. In determining the amount to be awarded to new States, the Secretary shall rank order the State plans according to the criteria of operation set forth in this subsection, and award grants accordingly. The Secretary shall take into consideration the minimum amount needed to fund each approved State plan, and need not award grants to each State that submits a State plan.

(5) Each State that receives a grant under this subsection shall ensure that the program for which the grant is received complies with the following requirements:

(A) Individuals who are eligible to receive Federal benefits under the program shall only be individuals who are receiving assistance under subsection (c) of this section, or who are on the waiting list to receive the assistance.

(B) Construction or operation of a farmers' market may not be carried out using funds—

(i) provided under the grant; or

(ii) required to be provided by the State under paragraph (3).

(C) The value of the Federal share of the benefits received by any recipient under the program may not be—

(i) less than \$10 per year; or

(D) The coupon issuance process under the program shall be designed to ensure that coupons are targeted to areas with—

(i) the highest concentration of eligible individuals;

(ii) the greatest access to farmers' markets; and

(iii) certain characteristics, in addition to those described in clauses (i) and (ii), that are determined to be relevant by the Secretary and that maximize the availability of benefits to eligible individuals.

(ii) redeemed only to purchase fresh nutritious unprepared food for human consumption.

(F)(i) Except as provided in clauses (ii) and (iii), the State may use for administration of the program in any fiscal year not more than 17 percent of the total amount of program funds.

(ii) During any fiscal year for which a State receives assistance under this subsection, the Secretary shall permit the State to use not more than 2 percent of total program funds for market development or technical assistance to farmers' markets if the Secretary determines that the State intends to promote the development of farmers' markets in socially or economically disadvantaged areas, or remote rural areas, where individuals eligible for participation in the program have limited access to locally grown fruits and vegetables.

(iii) The provisions of clauses (i) and (ii) with respect to the use of program funds shall not apply to any funds that a State may contribute in excess of the funds used by the State to meet the requirements of paragraph (3).

(G) The State shall ensure that no State or local taxes are collected within the State on purchases of food with coupons distributed under the program.

(6)(A) The Secretary shall give the same preference for funding under this subsection to eligible States that participated in the program under this subsection in a prior fiscal year as to States that participated in the program in the most recent fiscal year. The Secretary shall inform each State of the award of funds as prescribed by subparagraph (G) by February 15 of each year.

(B)(i) Subject to the availability of appropriations, if a State provides the amount of matching funds required under paragraph (3), the State shall receive assistance under this subsection in an amount that is not less than the amount of such assistance that the State received in the most recent fiscal year in which it received such assistance.

(ii) If amounts appropriated for any fiscal year pursuant to the authorization contained in paragraph (10) for grants under this subsection are not sufficient to pay to each State for which a State plan is approved under paragraph (6) the amount that the Secretary determines each such State is entitled to under this subsection, each State's grant shall be ratably reduced, except that (if sufficient funds are available) each State shall receive at least \$75,000 or the amount that the State received for the prior fiscal year if that amount is less than \$75,000.

(F)(i) An amount equal to 75 percent of the funds available after satisfying the requirements of subparagraph (B) shall be made available to States participating in the program whose State plan is approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans, the unallocated amount shall be applied toward satisfying any unmet need of States that have not participated in the program in the prior fiscal year, and whose State plans have been approved.

(ii) An amount equal to 25 percent of the funds available after satisfying the requirements of subparagraph (B) shall be made available to States that have not participated in the program in the prior fiscal year, and whose State plans have been approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans for new States, the unallocated amount shall be applied toward satisfying any unmet need of States whose State plans have been approved.

(iii) In any fiscal year, any funds that remain unallocated after satisfying the requirements of clauses (i) and (ii) shall be reallocated in the following fiscal year according to procedures established pursuant to paragraph (10)(B)(ii).

(B) Any programs for which a grant is received under this subsection shall be supplementary to the food stamp program carried out under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) and to any other Federal or State program under which foods are distributed to needy families in lieu of food stamps.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 2 of 1962, prepared in accordance with the provisions of the Reorganization Act of 1949, as amended, and providing for certain reorganizations in the field of science and technology.

Part I of the reorganization plan establishes the Office of Science and Technology as a new unit within the Executive Office of the President; places at the head thereof a Director appointed by the President by and with the advice and consent of the Senate and makes provision for a Deputy Director similarly appointed; and transfers to the Director certain functions of the National Science Foundation under sections 3(a)(1) and 3(a)(6) of the National Science Foundation Act of 1950.

The new arrangements incorporated in part I of the reorganization plan will constitute an important development in executive branch organization for science and technology. Under those arrangements the President will have permanent staff resources capable of advising and assisting him on matters of national policy affected by or pertaining to science and technology. Considering the rapid growth and far-reaching scope of Federal activities in science and technology, it is imperative that the President have adequate staff support in developing policies and evaluating programs in order to assure that science and technology are used most effectively in the interests of national security and general welfare.

To this end it is contemplated that the Director will assist the President in discharging the responsibility of the President for the proper coordination of Federal science and technology functions. More particularly, it is expected that he will advise and assist the President as the President may request with respect to—

(1) Major policies, plans, and programs of science and technology of the various agencies of the Federal Government, giving appropriate emphasis to the relationship of science and technology to national security and foreign policy, and measures for furthering science and technology in the Nation.

(2) Assessment of selected scientific and technical developments and programs in relation to their impact on national policies.

(3) Review, integration, and coordination of major Federal activities in science and technology, giving due consideration to the effects of such activities on non-Federal resources and institutions.

(4) Assuring that good close relations exist with the Nation's scientific and engineering communities so as to further in every appropriate way their participation in strengthening science and technology in the United States and the free world.

(5) Such other matters consonant with law as may be assigned by the President to the Office.

The ever-growing significance and complexity of Federal programs in science and technology have in recent years necessitated the taking of several steps for improving the organizational arrangements of the executive branch in relation to science and technology:

(1) The National Science Foundation was established in 1950. The Foundation was created to meet a widely recognized need for an organization to develop and encourage a national policy for the promotion of basic research and education in the sciences, to support basic research, to evaluate research programs undertaken by Federal agencies, and to perform related functions.

(2) The Office of the Special Assistant to the President for Science and Technology was established in 1957. The Special Assistant serves as Chairman of both the President's Science Advisory Committee and the Federal Council for Science and Technology, mentioned below.

(3) At the same time, the Science Advisory Committee, composed of eminent non-Government scientists and engineers, and located within the Office of Defense Mobilization, was reconstituted in the White House Office as the President's Science Advisory Committee.

(4) The Federal Council for Science and Technology, composed of policy officials of the principal agencies engaged in scientific and technical activities, was established in 1959.

The National Science Foundation has proved to be an effective instrument for administering sizable programs in support of basic research and education in the sciences and has set an example for other agencies through the administration of its own programs. However, the Foundation, being at the same organizational level as other agencies, cannot satisfactorily coordinate Federal science policies or evaluate programs of other agencies. Science policies, transcending agency lines, need to be coordinated and shaped at the level of the Executive Office of the President drawing upon many resources both within and outside of Government. Similarly, staff efforts at that higher level are required for the evaluation of Government programs in science and technology.

Thus, the further steps contained in part I of the reorganization plan are now needed in order to meet most effectively new and expanding requirements brought about by the rapid and far-reaching growth of the Government's research and development programs. These requirements call for the further strengthening of science organization at the Presidential level and for the adjustment of the Foundation's role to reflect changed conditions. The Foundation will continue to originate policy proposals and recommendations concerning the support of basic research and education in the sciences, and the new Office will look to the Foundation to provide studies and information on which sound national policies in science and technology can be based.

Part I of the reorganization plan will permit some strengthening of the staff and consultant resources now available to the President in respect of scientific and technical factors affecting executive branch policies and will also facilitate communication with the Congress.

Part II of the reorganization plan provides for certain reorganizations within the National Science Foundation which will strengthen the capability of the Director of the Foundation to exert leadership and otherwise further the effectiveness of administration of the Foundation. Specifically:

(1) There is established a new office of Director of the National Science Foundation and that Director, ex officio, is made a member of the National Science Board on a basis coordinate with that of other Board members.

(2) There is substituted for the now-existing Executive Committee of the National Science Board a new Executive Committee composed of the Director of the National Science Foundation, ex officio, as a voting

member and Chairman of the Committee, and of four other members elected by the National Science Board from among its appointive members.

(3) Committees advisory to each of the divisions of the Foundation will make their recommendations to the Director only rather than to both the Director and the National Science Board.

After investigation I have found and hereby declare that each reorganization included in Reorganization Plan No. 2 of 1962 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I have found and hereby declare that it is necessary to include in the reorganization plan, by reason of reorganizations made thereby, provisions for the appointment and compensation of the Director and Deputy Director of the Office of Science and Technology and of the Director of the National Science Foundation. The rate of compensation fixed for each of these officers is that which I have found to prevail in respect of comparable officers in the executive branch of the Government.

The functions abolished by the provisions of section 23(b) of the reorganization plan are provided for in sections 4(a), 5(a), 6(a), 6(b), and 8(d) of the National Science Foundation Act of 1950.

The taking effect of the reorganizations included in the reorganization plan will provide sound organizational arrangements and will make possible more effective and efficient administration of Government programs in science and technology. It is, however, impracticable to itemize at this time the reductions in expenditures which it is probable will be brought about by such taking effect.

I recommend that the Congress allow the reorganization plan to become effective.

JOHN F. KENNEDY.

THE WHITE HOUSE, March 29, 1962.

SEC. 4. As now or hereafter authorized or permitted by law, the Foundation shall be increasingly responsible for providing support by the Federal Government for general-purpose basic research through contracts and grants. The conduct and support by other Federal agencies of basic research in areas which are closely related to their missions is recognized as important and desirable, especially in response to current national needs, and shall continue.

SEC. 5. The Foundation, in consultation with educational institutions, the heads of Federal agencies, and the Commissioner of Education of the Department of Health, Education, and Welfare [now Secretary of Education], shall study the effects upon educational institutions of Federal policies and administration of contracts and grants for scientific research and development, and shall recommend policies and procedures which will promote the attainment of general national research objectives and realization of the research needs of Federal agencies while safeguarding the strength and independence of the Nation's institutions of learning.

SEC. 6. The head of each Federal agency engaged in scientific research shall make certain that effective executive, organizational, and fiscal practices exist to ensure (a) that the Foundation is consulted on policies concerning the support of basic research, (b) that approved scientific research programs conducted by the agency are reviewed continuously in order to preserve priorities in research efforts and to adjust programs to meet changing conditions without imposing unnecessary added burdens on budgetary and other resources, (c) that applied research and development shall be undertaken with sufficient consideration of the underlying basic research and such other factors as relative urgency, project costs, and availability of manpower and facilities, and (d) that, subject to considerations of security and applicable law, adequate dissemination shall be made within the Federal Government of reports on the nature and progress of research projects as an aid to the efficiency and economy of the overall Federal scientific research program.

§ 1862a. Findings and purpose

(a) The Congress finds that—

(1) the fundamental research and related education program supported by the Federal Government and conducted by the Nation's universities and colleges are essential to our national security, and to our health, economic welfare, and general well-being;

(2) many national research and related education programs conducted by universities and colleges are now hindered by obsolete research buildings and equipment, and many institutions lack sufficient resources to repair, renovate, or replace their laboratories;

(3) the Nation's capacity to conduct high quality research and education programs and to maintain its competitive position at the forefront of modern science, engineering, and technology is threatened by this research capital deficit, which poses serious and adverse consequences to our future national security, health, welfare, and ability to compete in the international marketplace;

(4) a national effort to spur reinvestment in research facilities is needed, and national, State, and local policies and cooperative programs are required that will yield maximum return on the investment of scarce national resources and sustain a commitment to excellence in research and education; and

(5) the Foundation, as part of its responsibility for maintaining the vitality of the Nation's academic research, and in partnership with the States, industry, and universities and colleges, must assist in enhancing the historic linkages between Federal investment in aca-

demographic research and training and investment in the research capital base by reinvesting in the capital facilities which modern research and education programs require.

(b) It is the purpose of sections 1862a to 1862d of this title to assist in modernizing and revitalizing the Nation's research facilities at institutions of higher education, independent non-profit research institutions and research museums, and consortia thereof, through capital investment.

§ 1862b. Establishment of Program

(a) Establishment; purpose

(1) To carry out sections 1862a to 1862d of this title, the Director shall establish and carry out a new Academic Research Facilities Modernization Program (hereafter in sections 1862a to 1862d of this title referred to as the "Program"), under which awards are made to institutions of higher education, independent nonprofit research institutions, and research museums, and consortia thereof, for the repair, renovation, or, in exceptional cases, replacement of obsolete science and engineering facilities primarily devoted to research.

(2) Such awards shall, consistent with the functions of the Foundation set forth in section 1862 of this title and through established Foundation selection procedures, serve to—

(A) promote the modernization of graduate academic science and engineering research laboratories and related facilities so as to facilitate and support research in the scientific and engineering disciplines;

(B) assist those academic institutions that historically have received relatively little Federal research and development funds to improve their academic science and engineering

infrastructures and broaden and strengthen the Nation's science and engineering base; and

(C) promote the modernization of undergraduate academic science and engineering research laboratories and related facilities so as to facilitate and support research in the scientific and engineering disciplines.

(b) Improvement projects; maximum amounts

(1) The Program shall be carried out through projects which involve the repair, renovation, or, in exceptional cases, replacement of specific science and engineering facilities devoted primarily to research at eligible institutions, or consortia thereof, and for which funds are awarded in response to specific proposals submitted by such eligible institutions or consortia in accordance with procedures prescribed by the Director pursuant to section 1862c of this title.

(2) Awards made under the Program shall not exceed \$7,000,000 to any institution or consortium over any period of 5 years for the repair, renovation, or, in exceptional cases, replacement of academic research facilities.

(3) The Director shall, in making awards under the Program, consider the extent to which that institution or consortium has received funds for the repair, renovation, construction, or replacement of academic facilities from any other Federal funding source within the 5-year period immediately preceding the application. The Director shall give priority to institutions or consortia that have not received such funds in the preceding 5 years.

(4) The Director shall, in awarding funds under sections 1862a to 1862d of this title, consider the distribution of funds among institutions of different sizes and geographical locations.

(c) Criteria for award of funds

Criteria for the award of funds to any institution for a project under the Program shall include—

(1) the quality of the research and training to be carried out in the facility or facilities involved;

(2) the need for the proposed repair, renovation, or, in exceptional cases, replacement based on an analysis of the age and condition of existing research facilities and equipment;

(3) the congruence of the institution's research and training activities with the future research needs of the Nation and the research mission of the Foundation;

(4) the contribution that the project will make toward meeting national, regional, and institutional research and related training needs;

(5) in the case of an institution that historically has received relatively little Federal research and development funding, the contribution the proposed project will make to improving the institution's academic scientific and engineering infrastructure and broadening the Nation's science and engineering base; and

(6) the impact of the award on the overall geographic distribution of awards made under the Program, with the objective of avoiding undue concentration of awards.

§ 1862h. Congressional statement of findings and declaration of purposes respecting scientific and technical education and training

(a) Findings

The Congress finds that—

(1) the position of the United States in the world economy faces great challenges from highly trained foreign competition;

(2) the workforce of the United States must be better prepared for the technologically advanced, competitive, global economy;

(3) the improvement of our work force's productivity and our international economic position depend upon the strengthening of our educational efforts in science, mathematics, and technology, especially at the associate-degree level;

(4) shortages of scientifically and technically trained workers in a wide variety of fields will best be addressed by collaboration among the Nation's associate-degree-granting colleges and private industry to produce skilled, advanced technicians; and

(5) the National Science Foundation's traditional role in developing model curricula, disseminating instructional materials, enhancing faculty development, and stimulating partnerships between educational institutions and industry, makes an enlarged role for the Foundation in scientific and technical education and training particularly appropriate.

(b) Purposes

It is the purpose of sections 1862h to 1862j of this title to—

(1) improve science and technical education at associate-degree-granting colleges;

(2) improve secondary school and post-secondary curricula in mathematics and science;

(3) improve the educational opportunities of postsecondary students by creating comprehensive articulation agreements and planning between 2-year and 4-year institutions; and

(4) promote outreach to secondary schools to improve mathematics and science instruction.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1862i, 1862j of this title.

§ 1862i. Scientific and technical education

(a) National advanced scientific and technical education program

The Director of the National Science Foundation (hereafter in sections 1862h to 1862j of this title referred to as the "Director") shall award grants to associate-degree-granting colleges, and consortia thereof, to assist them in providing education in advanced-technology fields. The grant program shall place emphasis on the needs of students who have been in the workforce (including work in the home), and shall be designed to strengthen and expand the scientific and technical education and training capabilities of associate-degree-granting colleges through such methods as—

(1) the development of model instructional programs in advanced-technology fields;

(2) the professional development of faculty and instructors, both full- and part-time, in advanced-technology fields;

(3) the establishment of innovative partnership arrangements that—

(A) involve associate-degree-granting colleges and other appropriate public and private sector entities, and

(B) provide for private sector donations, faculty opportunities to have short-term assignments with industry, sharing of program costs, equipment loans, and the cooperative use of laboratories, plants, and other facilities, and provision for state-of-the-art work experience opportunities for students enrolled in such programs;

(4) the acquisition of state-of-the-art instrumentation essential to programs designed to prepare and upgrade students in scientific and advanced-technology fields; and

(5) the development and dissemination of instructional materials in support of improving the advanced scientific and technical education and training capabilities of associate-degree-granting colleges, including programs for students who are not pursuing a science degree.

(b) National centers of scientific and technical education

The Director shall award grants for the establishment of centers of excellence, not to exceed 10 in number, among associate-degree-granting colleges. Centers shall meet one or both of the following criteria:

(1) Exceptional instructional programs in advanced-technology fields.

¹ So in original. Probably should be capitalized.

(2) Excellence in undergraduate education in mathematics and science.

The centers shall serve as national and regional clearinghouses and models for the benefit of both colleges and secondary schools, and shall provide seminars and programs to disseminate model curricula and model teaching methods and instructional materials to other associate-degree-granting colleges in the geographic region served by the center.

(c) Articulation partnerships

(1) Partnership grants

(A) The Director shall make grants to eligible partnerships to encourage students to pursue bachelor degrees in mathematics, science, engineering, or technology, and to assist students pursuing bachelor degrees in mathematics, science, engineering, or technology to make the transition from associate-degree-granting colleges to bachelor-degree-granting institutions, through such means as—

- (i) examining curricula to ensure that academic credit earned at the associate-degree-granting college is transferable to bachelor-degree-granting institutions;
- (ii) informing teachers from the associate-degree-granting college on the specific requirements of courses at the bachelor-degree-granting institution; and
- (iii) providing summer educational programs for students from the associate-degree-granting college to encourage such students' subsequent matriculation at bachelor-degree-granting institutions.

(B) Each eligible partnership receiving a grant under this paragraph shall, at a minimum—

- (i) counsel students, including students who have been in the workforce (including work in the home), about the requirements and course offerings of the bachelor-degree-granting institution; and
- (ii) conduct workshops and orientation sessions to ensure that students are familiar with programs, including laboratories and financial aid programs, at the bachelor-degree-granting institution.

Funds used by eligible partnerships to carry out clauses (i) and (ii) shall be from non-Federal sources. In-cash and in-kind resources used by eligible partnerships to carry out clauses (i) and (ii) shall not be considered to be contributions for purposes of applying subsection (f)(3) of this section.

(C) Any institution participating in a partnership that receives a grant under this paragraph shall be ineligible to receive assistance under part B of title I of the Higher Education Act of 1965 [20 U.S.C. 1011 et seq.] for the duration of the grant received under this paragraph.

(2) Outreach grants

The Director shall make grants to associate-degree-granting colleges with outstanding mathematics and science programs to strengthen relationships with secondary schools in the community served by the college by improving mathematics and science

education and encouraging the interest and aptitude of secondary school students for careers in science and advanced-technology fields through such means as developing agreements with local educational agencies to enable students to satisfy entrance and course requirements at the associate-degree-granting college.

(d) Coordination with other Federal departments

In carrying out this section, the Director shall consult, cooperate, and coordinate, to enhance program effectiveness and to avoid duplication, with the programs and policies of other relevant Federal agencies. In carrying out subsection (c) of this section, the Director shall coordinate activities with programs receiving assistance under part B of title I of the Higher Education Act of 1965 [20 U.S.C. 1011 et seq.].

(e) Limitation on funding

To qualify for a grant under this section, an associate-degree-granting college, or consortium thereof, shall provide assurances adequate to the Director that it will not decrease its level of spending of funds from non-Federal sources on advanced scientific and technical education and training programs.

(f) Functions of Director

In carrying out sections 1862h to 1862j of this title, the Director shall—

- (1) award grants on a competitive, merit basis;
- (2) ensure an equitable geographic distribution of grant awards;
- (3) ensure that an applicant for a grant awarded under subsection (a), (b), or (c)(1) of this section will make an in-cash or in-kind contribution in an amount equal to at least 25 percent of the cost of the program, and for a grant awarded under subsection (c)(2) of this section will make an in-cash or in-kind contribution in an amount at least equal to the amount of the grant award;
- (4) establish and maintain a readily accessible inventory of the programs assisted under sections 1862h to 1862j of this title; and
- (5) designate an officer of the National Science Foundation to serve as a liaison with associate-degree-granting institutions for the purpose of enhancing the role of such institutions in the activities of the Foundation.

(g) Definitions

As used in this section—

(1) the term “advanced-technology” includes advanced technical activities such as the modernization, miniaturization, integration, and computerization of electronic, hydraulic, pneumatic, laser, nuclear, chemical, telecommunication, fiber optic, robotic, and other technological applications to enhance productivity improvements in manufacturing, communication, transportation, commercial, and similar economic and national security activities;

§ 1862k. Findings; core strategies

(a) Findings

Congress finds the following:

(1) The United States depends upon its scientific and technological capabilities to preserve the military and economic security of the United States.

(2) America’s leadership in the global marketplace is dependent upon a strong commitment to education, basic research, and development.

(3) A nation that is not technologically literate cannot compete in the emerging global economy.

(4) A coordinated commitment to mathematics and science instruction at all levels of education is a necessary component of successful efforts to produce technologically literate citizens.

(5) Professional development is a necessary component of efforts to produce system-wide improvements in mathematics, engineering, and science education in secondary, elementary, and postsecondary settings.

(6)(A) The mission of the National Science Foundation is to provide Federal support for basic scientific and engineering research, and to be a primary contributor to mathematics, science, and engineering education at academic institutions in the United States.

(B) In accordance with such mission, the long-term goals of the National Science Foundation include providing leadership to—

(i) enable the United States to maintain a position of world leadership in all aspects of science, mathematics, engineering, and technology;

(ii) promote the discovery, integration, dissemination, and application of new knowledge in service to society; and

(iii) achieve excellence in United States science, mathematics, engineering, and technology education at all levels.

(b) Core strategies

In carrying out activities designed to achieve the goals described in subsection (a) of this sec-

tion, the Foundation shall use the following core strategies:

(1) Develop intellectual capital, both people and ideas, with particular emphasis on groups and regions that traditionally have not participated fully in science, mathematics, and engineering.

(2) Strengthen the scientific infrastructure by investing in facilities planning and modernization, instrument acquisition, instrument design and development, and shared-use research platforms.

(3) Integrate research and education through activities that emphasize and strengthen the natural connections between learning and inquiry.

(4) Promote partnerships with industry, elementary and secondary schools, community colleges, colleges and universities, other agencies, State and local governments, and other institutions involved in science, mathematics, and engineering to enhance the delivery of math and science education and improve the technological literacy of the citizens of the United States.

COMMISSION ON THE ADVANCEMENT OF WOMEN AND MINORITIES IN SCIENCE, ENGINEERING, AND TECHNOLOGY DEVELOPMENT

Pub. L. 105-255, Oct. 14, 1998, 112 Stat. 1889, provided that:

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development Act’.

“SEC. 2. FINDINGS.

“The Congress finds the following:

“(1) According to the National Science Foundation’s 1996 report, Women, Minorities, and Persons with Disabilities in Science and Engineering—

“(A) women have historically been underrepresented in scientific and engineering occupations, and although progress has been made over the last several decades, there is still room for improvement;

“(B) female and minority students take fewer high-level mathematics and science courses in high school;

“(C) female students earn fewer bachelors, masters, and doctoral degrees in science and engineering;

“(D) among recent bachelors of science and bachelors of engineering graduates, women are less likely to be in the labor force, to be employed full-time, and to be employed in their field than are men;

“(E) among doctoral scientists and engineers, women are far more likely to be employed at 2-year institutions, are far less likely to be employed in research universities, and are much more likely to teach part-time;

“(F) among university full-time faculty, women are less likely to chair departments or hold high-ranked positions;

“(G) a substantial salary gap exists between men and women with doctorates in science and engineering;

“(H) Blacks, Hispanics, and Native Americans continue to be seriously underrepresented in graduate science and engineering programs; and

“(I) Blacks, Hispanics, and Native Americans as a group are 23 percent of the population of the United States, but only 6 percent are scientists or engineers.

“(2) According to the National Research Council’s 1995 report, Women Scientists and Engineers Employed in Industry: Why So Few?—

“(A) limited access is the first hurdle faced by women seeking industrial jobs in science and engineering, and while progress has been made in recent years, common recruitment and hiring practices that make extensive use of traditional networks often overlook the available pool of women;

“(B) once on the job, many women find paternalism, sexual harassment, allegations of reverse discrimination, different standards for judging the

work of men and women, lower salary relative to their male peers, inequitable job assignments, and other aspects of a male-oriented culture that are hostile to women; and

“(C) women to a greater extent than men find limited opportunities for advancement, particularly for moving into management positions, and the number of women who have achieved the top levels in corporations is much lower than would be expected, based on the pipeline model.

“(3) The establishment of a commission to examine issues raised by the findings of these two reports would help—

“(A) to focus attention on the importance of eliminating artificial barriers to the recruitment, retention, and advancement of women and minorities in the fields of science, engineering, and technology, and in all employment sectors of the United States;

“(B) to promote work force diversity;

“(C) to sensitize employers to the need to recruit and retain women and minority scientists, engineers, and computer specialists; and

“(D) to encourage the replication of successful recruitment and retention programs by universities, corporations, and Federal agencies having difficulties in employing women or minorities in the fields of science, engineering, and technology.

“SEC. 3. ESTABLISHMENT.

“There is established a commission to be known as the ‘Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development’ (in this Act referred to as the ‘Commission’).

“SEC. 4. DUTY OF THE COMMISSION.

“The Commission shall review available research, and, if determined necessary by the Commission, conduct additional research to—

“(1) identify the number of women, minorities, and individuals with disabilities in the United States in specific types of occupations in science, engineering, and technology development;

“(2) examine the preparedness of women, minorities, and individuals with disabilities to—

“(A) pursue careers in science, engineering, and technology development; and

“(B) advance to positions of greater responsibility within academia, industry, and government;

“(3) describe the practices and policies of employers and labor unions relating to the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development;

“(4) identify the opportunities for, and artificial barriers to, the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development in academia, industry, and government;

“(5) compile a synthesis of available research on lawful practices, policies, and programs that have successfully led to the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

“(6) issue recommendations with respect to lawful policies that government (including Congress and appropriate Federal agencies), academia, and private industry can follow regarding the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

“(7) identify the disincentives for women, minorities, and individuals with disabilities to continue graduate education in the fields of engineering, physics, and computer science;

“(8) identify university undergraduate programs that are successful in retaining women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development;

“(9) identify the disincentives that lead to a disproportionate number of women, minorities, and individuals with disabilities leaving the fields of science, engineering, and technology development before completing their undergraduate education;

“(10) assess the extent to which the recommendations of the Task Force on Women, Minorities, and the Handicapped in Science and Technology established under section 8 of the National Science Foundation Authorization Act for Fiscal Year 1987 (Public Law 99-383; 42 U.S.C. 1885a note) have been implemented;

“(11) compile a list of all federally funded reports on the subjects of encouraging women, minorities, and individuals with disabilities to enter the fields of science and engineering and retaining women, minorities, and individuals with disabilities in the science and engineering workforce that have been issued since the date that the Task Force described in paragraph (10) submitted its report to Congress;

“(12) assess the extent to which the recommendations contained in the reports described in paragraph (11) have been implemented; and

“(13) evaluate the benefits of family-friendly policies in order to assist recruiting, retaining, and advancing women in the fields of science, engineering, and technology such as the benefits or disadvantages of the Family and Medical Leave Act of 1993 (29 U.S.C. 2601 et seq. [see Short Title note set out under section 2601 of Title 29, Labor, and Tables]).

Estimated traffic that would use the waterway will be based on those freight rates, taking into account projections of the economic growth of the area.

Congress hereby recognizes that assuring adequate supplies of water for the great metropolitan centers of the United States has become a

problem of such magnitude that the welfare and prosperity of this country require the Federal Government to assist in the solution of water supply problems. Therefore, the Secretary of the Army, acting through the Chief of Engineers, is authorized to cooperate with Federal, State, and local agencies in preparing plans in accordance with the Water Resources Planning Act [42 U.S.C. 1962 et seq.] to meet the long-range water needs of the northeastern United States. This plan may provide for the construction, operation, and maintenance by the United States of (1) a system of major reservoirs to be located within those river basins of the northeastern United States which drain into the Chesapeake Bay, those that drain into the Atlantic Ocean north of the Chesapeake Bay, those that drain into Lake Ontario, and those that drain into the Saint Lawrence River, (2) major conveyance facilities by which water may be exchanged between these river basins to the extent found desirable in the national interest, and (3) major purification facilities. Such plans shall provide for appropriate financial participation by the States, political subdivisions thereof, and other local interests.

(b) Construction, operation, and maintenance of reservoirs and conveyance and purification facilities

The Secretary of the Army, acting through the Chief of Engineers, shall construct, operate, and maintain those reservoirs, conveyance facilities, and purification facilities, which are recommended in the plan prepared in accordance with subsection (a) of this section, and which are specifically authorized by law enacted after October 27, 1965.

Each reservoir included in the plan authorized by this section shall be considered as a component of a comprehensive plan for the optimum development of the river basin in which it is situated, as well as a component of the plan established in accordance with this section.

Such agreements may provide for reimbursement of installation costs incurred by such entities or an equivalent reduction in the contributions they would otherwise be required to make, or in appropriate cases, for a combination thereof. The amount of Federal reimbursement, including reductions in contributions, for a single project shall not exceed \$5,000,000 or 1 percent of the total project cost, whichever is greater; except that the amount of actual Federal reimbursement, including reductions in contributions, for such project may not exceed \$5,000,000 in any fiscal year.

(b) Agreement provisions; termination of agreement for failure to commence work

Agreements entered into pursuant to this section shall (1) fully describe the work to be accomplished by the non-Federal public body, and be accompanied by an engineering plan if necessary therefor; (2) specify the manner in which such work shall be carried out; (3) provide for necessary review of design and plans, and inspection of the work by the Chief of Engineers or his designee; (4) state the basis on which the amount of reimbursement shall be determined; (5) state that such reimbursement shall be dependent upon the appropriation of funds applicable thereto or funds available therefor, and shall not take precedence over other pending projects of higher priority for improvements; and (6) specify that reimbursement or credit for non-Federal installation expenditures shall apply only to work undertaken on Federal projects after project authorization and execution of the agreement, and does not apply retroactively to past non-Federal work. § 1962d-14a. Alaska hydroelectric power development

(a) Congressional findings and declaration

(1) The Congress finds that the expeditious development of hydroelectric power generating facilities in Alaska that are environmentally sound to assist the Nation in meeting existing and future energy demands is in the national interest.

(2) The Congress therefore declares that the expertise of the Chief of Engineers can and should be utilized for the benefit of local public bodies in the development of projects which yield 90 per centum or more of the benefits of the project are attributable to hydroelectric power generation when the project is fully operational.

(b) Establishment of fund; composition

To meet the goals of this section, there is hereby established in the Treasury of the United States an Alaska Hydroelectric Power Development Fund (hereafter referred to as the "fund") to be and remain available for use by the Secretary of the Army (hereinafter referred to as the "Secretary") to make expenditures authorized by this section. The fund shall consist of (1) all receipts and collections by the Secretary of repayments in accordance with subsection (e) of this section and payments by non-Federal public authorities to the Secretary to finance the cost

of construction of projects in accordance with subsection (f) of this section, and which the Secretary is hereby directed to deposit in the fund as they are received, and (2) any appropriations made by the Congress to the fund.

(c) Authorization of appropriation

There is authorized to be appropriated to the Secretary for deposit in the fund established by subsection (b) of this section the sum of \$25,000,000.

(d) Investments; deposits

(1) If the Secretary determines that moneys in the fund are in excess of current needs, he may request the investment of such amounts as he deems advisable by the Secretary of the Treasury in direct, general obligations of, or obligations guaranteed as to both principal and interest by, the United States.

(2) With the approval of the Secretary of the Treasury, the Secretary may deposit moneys of the fund in any Federal Reserve bank or other depository for funds of the United States, or in such other banks and financial institutions and under such terms and conditions as the Secretary and the Secretary of the Treasury may mutually agree.

(e) Expenditures for phase I design memorandum stage of advanced engineering and design; withholding of favorable report to Congress prior to repayment; expenditures from non-Federal funds

The Secretary is authorized to make expenditures from the fund for the phase I design memorandum stage of advanced engineering and design for any project in Alaska that meets the requirements of subsection (a)(2) of this section, if appropriate non-Federal public authorities, approved by the Secretary, agree with the Secretary, in writing, to repay the Secretary for all the separable and joint costs of preparing such design memorandum, if such report is favorable. Following the completion of the phase I design memorandum stage of advanced engineering and design under this subsection, the Secretary shall not transmit any favorable report to Congress prior to being repaid in full by the appropriate non-Federal public authorities for the costs incurred during such phase I. The Secretary is also authorized to make expenditures from non-Federal funds deposited in the fund as an advance against construction costs.

(f) Authorization to construct projects; expenditures

In connection with water resources development projects which meet the criteria established by subsection (a)(2) of this section and which are to be constructed by the Secretary, acting through the Chief of Engineers, in accordance with an authorization by Congress and a contract between the non-Federal public authorities and the Secretary, pursuant to subsection (g)(1) of this section occurring on or subsequent to October 22, 1976, the Secretary, acting through the Chief of Engineers, is authorized to construct such projects including activities for engineering and design land acquisition, site development, and off-site improvements necessary for the authorized construction by mak-

ing expenditures from (1) the Fund established in subsection (b) of this section of funds deposited by non-Federal public authorities as payments for construction and (2) payments of non-Federal public authorities held by the Secretary as payment of construction costs for a project authorized by this section.

(g) Agreement with non-Federal public authorities and submittal to Congressional committees, payment of total non-Federal obligations; conditions of United States assumption of excess over costs fixed in agreement, payment subject to appropriations acts

(1) Prior to initiating any construction work under the authorities of this section, the Secretary and the appropriate non-Federal public authorities shall agree in writing, and submit such agreement to the Committees on Environment and Public Works and on Appropriations of the Senate and the Committees on Public Works and Transportation and on Appropriations of the House of Representatives for review and reporting to the Congress for its consideration and approval that the appropriate non-Federal public authorities will pay the full anticipated costs of constructing the project at the time such costs are incurred, together with normal contingencies and related administrative expenses of the Secretary, and such payments shall be deposited in the fund or held by the Secretary for payment of obligations incurred by the Secretary on an authorized project under this section. The agreement shall provide for an initial determination of feasibility and compliance by the project with law. The total non-Federal obligation shall be paid on or prior to the date the Chief of Engineers has estimated by agreement, that the project concerned will be available for actual generation of all or a substantial portion of the authorized hydroelectric power of the project.

(2) In consideration of the obligations to be assumed by non-Federal public authorities under the provisions of this section and in recognition of the substantial investments which will be made by these authorities in reliance on the program established by this section, the United States shall assume the responsibility for paying for all costs over those fixed in the agreement with the non-Federal public authorities, if such costs are occasioned by acts of God, failure on the part of the Secretary, acting through the Chief of Engineers, to adhere to the agreed schedule of work or a failure of design: *Provided*, That payments by the Secretary of such costs shall be subject to appropriations acts.

(h) Conveyance of title, rights, and interests of United States; Federal requirements, reservations, and provisions

The Secretary is authorized and directed, pursuant to the agreement, to convey all title, rights, and interests of the United States to any project, its lands and water areas, and appurtenant facilities to the non-Federal public authorities which have agreed to assume ownership of the project and responsibility for its performance, operation, and maintenance, as well as necessary replacements in accordance with this section upon full payment by such non-Federal public authorities as required under sub-

section (g)(1) of this section. Such conveyance shall, pursuant to the agreement required by subsection (g) of this section, to the maximum extent possible, occur immediately upon the project's availability for generation of all or a substantial portion of the authorized hydroelectric power of the project, and shall include such Federal requirements, reservations, and provisions for access rights to the project and its records as the Secretary finds advisable to complete any portion of project construction remaining at the time of conveyance and to assure that the project will be operated and maintained in a responsible and safe manner to accomplish, as nearly as may be possible, all of the authorized purposes of the project including, but not restricted to, hydroelectric power generation.

(i) Short title

§ 1962d-18. Study of depletion of natural resources of regions of Colorado, Kansas, New Mexico, Oklahoma, Texas, and Nebraska utilizing Ogallala aquifer; plans; reports to Congress; authorization of appropriation

In order to assure an adequate supply of food to the Nation and to promote the economic vitality of the High Plains Region, the Secretary of Commerce (hereinafter referred to in this section as the "Secretary"), acting through the Economic Development Administration, in cooperation with the Secretary of the Army, act-

ing through the Chief of Engineers, and appropriate Federal, State, and local agencies, and the private sector, is authorized and directed to study the depletion of the natural resources of those regions of the States of Colorado, Kansas, New Mexico, Oklahoma, Texas, and Nebraska presently utilizing the declining water resources of the Ogallala aquifer,¹ and to develop plans to increase water supplies in the area and report thereon to Congress, together with any recommendations for further congressional action. In formulating these plans, the Secretary is directed to consider all past and ongoing studies, plans, and work on depleted water resources in the region, and to examine the feasibility of various alternatives to provide adequate water supplies in the area including, but not limited to, the transfer of water from adjacent areas, such portion to be conducted by the Chief of Engineers to assure the continued economic growth and vitality of the region. The Secretary shall report on the costs of reasonably available options, the benefits of various options, and the costs of inaction. If water transfer is found to be a part of a reasonable solution, the Secretary, as part of his study, shall include a recommended plan for allocating and distributing water in an equitable fashion, taking into account existing water rights and the needs for future growth of all affected areas. An interim report, with recommendations, shall be transmitted to the Congress no later than October 1, 1978, and a final report, with recommendations, shall be transmitted to Congress not later than July 1, 1980. § 1962d-20. Prohibition on Great Lakes diversions

(a) Congressional findings and declarations

The Congress finds and declares that—

(1) the Great Lakes are a most important natural resource to the eight Great Lakes States and two Canadian provinces, providing water supply for domestic and industrial use, clean energy through hydropower production, an efficient transportation mode for moving products into and out of the Great Lakes region, and recreational uses for millions of United States and Canadian citizens;

(2) the Great Lakes need to be carefully managed and protected to meet current and future needs within the Great Lakes basin and Canadian provinces;

(3) any new diversions of Great Lakes water for use outside of the Great Lakes basin will have significant economic and environmental impacts, adversely affecting the use of this resource by the Great Lakes States and Canadian provinces; and

(4) four of the Great Lakes are international waters and are defined as boundary waters in the Boundary Waters Treaty of 1909 between the United States and Canada, and as such any new diversion of Great Lakes water in the United States would affect the relations of the Government of the United States with the Government of Canada.

(b) Congressional declaration of purpose and policy

It is therefore declared to be the purpose and policy of the Congress in this section—

(1) to take immediate action to protect the limited quantity of water available from the Great Lakes system for use by the Great Lakes States and in accordance with the Boundary Waters Treaty of 1909;

(2) to prohibit any diversion of Great Lakes water by any State, Federal agency, or private entity for use outside the Great Lakes basin unless such diversion is approved by the Governor of each of the Great Lakes States; and

(3) to prohibit any Federal agency from undertaking any studies that would involve the transfer of Great Lakes water for any purpose for use outside the Great Lakes basin.

(c) “Great Lakes State” defined

As used in this section, the term “Great Lakes State” means each of the States of Illinois, Indiana, Michigan, Minnesota, Ohio, Pennsylvania, New York, and Wisconsin.

(d) Approval by Governors for diversion of water

No water shall be diverted from any portion of the Great Lakes within the United States, or from any tributary within the United States of any of the Great Lakes, for use outside the Great Lakes basin unless such diversion is approved by the Governor of each of the Great Lake¹ States.

¹ So in original. Probably should be “Lakes”.

(e) Approval of Governors for diversion studies

No Federal agency may undertake any study, or expend any Federal funds to contract for any study, of the feasibility of diverting water from any portion of the Great Lakes within the United States, or from any tributary within the United States of any of the Great Lakes, for use outside the Great Lakes basin, unless such study or expenditure is approved by the Governor of each of the Great Lakes States. The prohibition of the preceding sentence shall not apply to any study or data collection effort performed by the Corps of Engineers or other Federal agency under the direction of the International Joint Commission in accordance with the Boundary Waters Treaty of 1909.

(f) Previously authorized diversions

This section shall not apply to any diversion of water from any of the Great Lakes which is authorized on November 17, 1986.

GREAT LAKES CONSUMPTIVE USE STUDY

Pub. L. 100-4, title V, §521, Feb. 4, 1987, 101 Stat. 88, provided that in recognition of the serious impacts on the Great Lakes environment that could occur as a result of increased consumption of Great Lakes water, including loss of wetlands and reduction of fish spawning and habitat areas, as well as serious economic losses to vital Great Lakes industries, the Secretary of the Army in cooperation with the Administrator, other interested departments, agencies, and instrumentalities of the United States, and the eight Great Lakes States, was authorized to conduct a study of the effects of Great Lakes water consumption on economic growth and environmental quality in the Great Lakes region and of control measures that could be implemented to reduce the quantity of water consumed, and further provided an appropriation of \$750,000 for fiscal years beginning after Sept. 30, 1986, to carry out such study.

Similar provisions were contained in Pub. L. 99-662, title XI, §1147, Nov. 17, 1986, 100 Stat. 4253.

“(a) Beginning October 1, 1987, the Secretary, in cooperation with the State of Illinois, shall carry out measurements and make necessary computations required by the decree of the United States Supreme Court (388 U.S. 426) relating to the diversion of water from Lake Michigan and shall coordinate the results with downstate interests. The measurements and computations shall consist of all flow measurements, gauge records, hydraulic and hydrologic computations, including periodic field investigations and measuring device calibrations, necessary to compute the amount of water diverted from Lake Michigan by the State of Illinois and its municipalities, political subdivisions, agencies, and instrumentalities, not including water diverted or used by Federal installations.

“(b) There are authorized to be appropriated \$1,250,000 for each of fiscal years 1999 through 2003 to carry out this section, including those funds necessary to maintain the measurements and computations, as well as necessary capital construction costs associated with the installation of new flow measurement devices or structures declared necessary and appropriate by the Secretary.”

(A) in determining whether any individual is qualified under State law or laws to vote in any election, apply any standard, practice, or procedure different from the standards, practices, or procedures applied under such law or laws to other individuals within the same county, parish, or similar political subdivision who have been found by State officials to be qualified to vote;

(B) deny the right of any individual to vote in any election because of an error or omission on any record or paper relating to any application, registration, or other act requisite to voting, if such error or omission is not material in determining whether such individual is qualified under State law to vote in such election; or

(C) employ any literacy test as a qualification for voting in any election unless (i) such test is administered to each individual and is conducted wholly in writing, and (ii) a certified copy of the test and of the answers given by the individual is furnished to him within twenty-five days of the submission of his request made within the period of time during which records and papers are required to be retained and preserved pursuant to title III of the Civil Rights Act of 1960 [42 U.S.C. 1974 et seq.]: *Provided, however,* That the Attorney General may enter into agreements with appropriate State or local authorities that preparation, conduct, and maintenance of such tests in accordance with the provisions of applicable State or local law, including such special provisions as are necessary in the preparation, conduct, and maintenance of such tests for persons who are blind or otherwise physically handicapped, meet the purposes of this subparagraph and constitute compliance therewith.

(3) For purposes of this subsection—

(A) the term “vote” shall have the same meaning as in subsection (e) of this section;

(B) the phrase “literacy test” includes any test of the ability to read, write, understand, or interpret any matter.

(b) Intimidation, threats, or coercion

No person, whether acting under color of law or otherwise, shall intimidate, threaten, coerce, or attempt to intimidate, threaten, or coerce any other person for the purpose of interfering with the right of such other person to vote or to vote as he may choose, or of causing such other person to vote for, or not to vote for, any candidate for the office of President, Vice President, presidential elector, Member of the Senate, or Member of the House of Representatives, Delegates or Commissioners from the Territories or possessions, at any general, special, or primary election held solely or in part for the purpose of selecting or electing any such candidate.

(c) Preventive relief; injunction; rebuttable literacy presumption; liability of United States for costs; State as party defendant

Whenever any person has engaged or there are reasonable grounds to believe that any person is about to engage in any act or practice which would deprive any other person of any right or

privilege secured by subsection (a) or (b) of this section, the Attorney General may institute for the United States, or in the name of the United States, a civil action or other proper proceeding for preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order. If in any such proceeding literacy is a relevant fact there shall be a rebuttable presumption that any person who has not been adjudged an incompetent and who has completed the sixth grade in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico where instruction is carried on predominantly in the English language, possesses sufficient literacy, comprehension, and intelligence to vote in any election. In any proceeding hereunder the United States shall be liable for costs the same as a private person. Whenever, in a proceeding instituted under this subsection any official of a State or subdivision thereof is alleged to have committed any act or practice constituting a deprivation of any right or privilege secured by subsection (a) of this section, the act or practice shall also be deemed that of the State and the State may be joined as a party defendant and, if, prior to the institution of such proceeding, such official has resigned or has been relieved of his office and no successor has assumed such office, the proceeding may be instituted against the State.

(d) Jurisdiction; exhaustion of other remedies

The district courts of the United States shall have jurisdiction of proceedings instituted pursuant to this section and shall exercise the same without regard to whether the party aggrieved shall have exhausted any administrative or other remedies that may be provided by law.

(e) Order qualifying person to vote; application; hearing; voting referees; transmittal of report and order; certificate of qualification; definitions

In any proceeding instituted pursuant to subsection (c) of this section in the event the court finds that any person has been deprived on account of race or color of any right or privilege secured by subsection (a) of this section, the court shall upon request of the Attorney General and after each party has been given notice and the opportunity to be heard make a finding whether such deprivation was or is pursuant to a pattern or practice. If the court finds such pattern or practice, any person of such race or color resident within the affected area shall, for one year and thereafter until the court subsequently finds that such pattern or practice has ceased, be entitled, upon his application therefor, to an order declaring him qualified to vote, upon proof that at any election or elections (1) he is qualified under State law to vote, and (2) he has since such finding by the court been (a) deprived of or denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. Such order shall be effective as to any election held within the longest period for which such applicant could have been registered or otherwise qualified under State law at which the applicant's qualifications would under State law entitle him to vote.

Notwithstanding any inconsistent provision of State law or the action of any State officer or court, an applicant so declared qualified to vote shall be permitted to vote in any such election. The Attorney General shall cause to be transmitted certified copies of such order to the appropriate election officers. The refusal by any such officer with notice of such order to permit any person so declared qualified to vote to vote at an appropriate election shall constitute contempt of court.

An application for an order pursuant to this subsection shall be heard within ten days, and the execution of any order disposing of such application shall not be stayed if the effect of such stay would be to delay the effectiveness of the order beyond the date of any election at which the applicant would otherwise be enabled to vote.

The court may appoint one or more persons who are qualified voters in the judicial district, to be known as voting referees, who shall subscribe to the oath of office required by section 3331 of title 5, to serve for such period as the court shall determine, to receive such applications and to take evidence and report to the court findings as to whether or not at any election or elections (1) any such applicant is qualified under State law to vote, and (2) he has since the finding by the court heretofore specified been (a) deprived of or denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. In a proceeding before a voting referee, the applicant shall be heard *ex parte* at such times and places as the court shall direct. His statement under oath shall be *prima facie* evidence as to his age, residence, and his prior efforts to register or otherwise qualify to vote. Where proof of literacy or an understanding of other subjects is required by valid provisions of State law, the answer of the applicant, if written, shall be included in such report to the court; if oral, it shall be taken down stenographically and a transcription included in such report to the court.

Upon receipt of such report, the court shall cause the Attorney General to transmit a copy thereof to the State attorney general and to each party to such proceeding together with an order to show cause within ten days, or such shorter time as the court may fix, why an order of the court should not be entered in accordance with such report. Upon the expiration of such period, such order shall be entered unless prior to that time there has been filed with the court and served upon all parties a statement of exceptions to such report. Exceptions as to matters of fact shall be considered only if supported by a duly verified copy of a public record or by affidavit of persons having personal knowledge of such facts or by statements or matters contained in such report; those relating to matters of law shall be supported by an appropriate memorandum of law. The issues of fact and law raised by such exceptions shall be determined by the court or, if the due and speedy administration of justice requires, they may be referred to the voting referee to determine in accordance with procedures prescribed by the court. A hear-

ing as to an issue of fact shall be held only in the event that the proof in support of the exception disclose the existence of a genuine issue of material fact. The applicant's literacy and understanding of other subjects shall be determined solely on the basis of answers included in the report of the voting referee.

The court, or at its direction the voting referee, shall issue to each applicant so declared qualified a certificate identifying the holder thereof as a person so qualified.

Any voting referee appointed by the court pursuant to this subsection shall to the extent not inconsistent herewith have all the powers conferred upon a master by rule 53(c) of the Federal Rules of Civil Procedure. The compensation to be allowed to any persons appointed by the court pursuant to this subsection shall be fixed by the court and shall be payable by the United States.

Applications pursuant to this subsection shall be determined expeditiously. In the case of any application filed twenty or more days prior to an election which is undetermined by the time of such election, the court shall issue an order authorizing the applicant to vote provisionally: *Provided, however,* That such applicant shall be qualified to vote under State law. In the case of an application filed within twenty days prior to an election, the court, in its discretion, may make such an order. In either case the order shall make appropriate provision for the impounding of the applicant's ballot pending determination of the application. The court may take any other action, and may authorize such referee or such other person as it may designate to take any other action, appropriate or necessary to carry out the provisions of this subsection and to enforce its decrees. This subsection shall in no way be construed as a limitation upon the existing powers of the court.

When used in the subsection, the word "vote" includes all action necessary to make a vote effective including, but not limited to, registration or other action required by State law prerequisite to voting, casting a ballot, and having such ballot counted and included in the appropriate totals of votes cast with respect to candidates for public office and propositions for which votes are received in an election; the words "affected area" shall mean any subdivision of the State in which the laws of the State relating to voting are or have been to any extent administered by a person found in the proceeding to have violated subsection (a) of this section; and the words "qualified under State law" shall mean qualified according to the laws, customs, or usages of the State, and shall not, in any event, imply qualifications more stringent than those used by the persons found in the proceeding to have violated subsection (a) in qualifying persons other than those of the race or color against which the pattern or practice of discrimination was found to exist.

(f) Contempt; assignment of counsel; witnesses

Any person cited for an alleged contempt under this Act shall be allowed to make his full defense by counsel learned in the law; and the court before which he is cited or tried, or some judge thereof, shall immediately, upon his re-

quest, assign to him such counsel, not exceeding two, as he may desire, who shall have free access to him at all reasonable hours. He shall be allowed, in his defense to make any proof that he can produce by lawful witnesses, and shall have the like process of the court to compel his witnesses to appear at his trial or hearing, as is usually granted to compel witnesses to appear on behalf of the prosecution. If such person shall be found by the court to be financially unable to provide for such counsel, it shall be the duty of the court to provide such counsel.

(g) Three-judge district court: hearing, determination, expedition of action, review by Supreme Court; single-judge district court: hearing, determination, expedition of action

In any proceeding instituted by the United States in any district court of the United States under this section in which the Attorney General requests a finding of a pattern or practice of discrimination pursuant to subsection (e) of this section the Attorney General, at the time he files the complaint, or any defendant in the proceeding, within twenty days after service upon him of the complaint, may file with the clerk of such court a request that a court of three judges be convened to hear and determine the entire case. A copy of the request for a three-judge court shall be immediately furnished by such clerk to the chief judge of the circuit (or in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of the copy of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the court in which the proceeding was instituted, to hear and determine such case, and it shall be the duty of the judges so designated to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited. An appeal from the final judgment of such court will lie to the Supreme Court.

In any proceeding brought under subsection (c) of this section to enforce subsection (b) of this section, or in the event neither the Attorney General nor any defendant files a request for a three-judge court in any proceeding authorized by this subsection, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or, in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited.

§ 1973. Denial or abridgement of right to vote on account of race or color through voting qualifications or prerequisites; establishment of violation

(a) No voting qualification or prerequisite to voting or standard, practice, or procedure shall be imposed or applied by any State or political subdivision in a manner which results in a denial or abridgement of the right of any citizen of the United States to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, as provided in subsection (b) of this section.

(b) A violation of subsection (a) of this section is established if, based on the totality of circumstances, it is shown that the political processes leading to nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) of this section in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. The extent to which members of a protected class have been elected to office in the State or political subdivision is one circumstance which may be considered: *Provided*, That nothing in this section establishes a right to have members of a protected class elected in numbers equal to their proportion in the population.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1973j of this title.

§ 1973a. Proceeding to enforce the right to vote**(a) Authorization by court for appointment of Federal examiners**

Whenever the Attorney General or an aggrieved person institutes a proceeding under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court shall authorize the appointment of Federal examiners by the Director of the Office of Personnel Management in accordance with section 1973d of this title to serve for such period of time and for such political subdivisions as the court shall determine is appropriate to enforce the voting guarantees of the fourteenth or fifteenth amendment (1) as part of any interlocutory order if the court determines that the appointment of such examiners is necessary to enforce such voting guarantees or (2) as part of any final judgment if the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred in such State or subdivision: *Provided*, That the court need not authorize the appointment of examiners if any incidents of denial or abridgement of the right to vote on ac-

count of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title (1) have been few in number and have been promptly and effectively corrected by State or local action, (2) the continuing effect of such incidents has been eliminated, and (3) there is no reasonable probability of their recurrence in the future.

(b) Suspension of use of tests and devices which deny or abridge the right to vote

If in a proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that a test or device has been used for the purpose or with the effect of denying or abridging the right of any citizen of the United States to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title, it shall suspend the use of tests and devices in such State or political subdivisions as the court shall determine is appropriate and for such period as it deems necessary.

(c) Retention of jurisdiction to prevent commencement of new devices to deny or abridge the right to vote

If in any proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred within the territory of such State or political subdivision, the court, in addition to such relief as it may grant, shall retain jurisdiction for such period as it may deem appropriate and during such period no voting qualification or prerequisite to voting or standard, practice, or procedure with respect to voting different from that in force or effect at the time the proceeding was commenced shall be enforced unless and until the court finds that such qualification, prerequisite, standard, practice, or procedure does not have the purpose and will not have the effect of denying or abridging the right to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title: *Provided*, That such qualification, prerequisite, standard, practice, or procedure may be enforced if the qualification, prerequisite, standard, practice, or procedure has been submitted by the chief legal officer or other appropriate official of such State or subdivision to the Attorney General and the Attorney General has not interposed an objection within sixty days after such submission, except that neither the court's finding nor the Attorney General's failure to object shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1973d, 1973f, 1973i, 1973j, 1973k of this title.

§ 1973b. Suspension of the use of tests or devices in determining eligibility to vote**(a) Action by State or political subdivision for declaratory judgment of no denial or abridgement; three-judge district court; appeal to Supreme Court; retention of jurisdiction by three-judge court**

(1) To assure that the right of citizens of the United States to vote is not denied or abridged on account of race or color, no citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the first two sentences of subsection (b) of this section or in any political subdivision of such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. No citizen shall be denied the right to vote in any Federal, State, or

local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the third sentence of subsection (b) of this section or in any political subdivision of such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. A declaratory judgment under this section shall issue only if such court determines that during the ten years preceding the filing of the action, and during the pendency of such action—

(A) no such test or device has been used within such State or political subdivision for the purpose or with the effect of denying or abridging the right to vote on account of race or color or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) in contravention of the guarantees of subsection (f)(2) of this section;

(B) no final judgment of any court of the United States, other than the denial of declaratory judgment under this section, has determined that denials or abridgements of the right to vote on account of race or color have occurred anywhere in the territory of such State or political subdivision or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) that denials or abridgements of the right to vote in contravention of the guarantees of subsection (f)(2) of this section have occurred anywhere in the territory of such State or subdivision and no consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds; and no declaratory judgment under this section shall be entered during the pendency of an action commenced before the filing of an action under this section and alleging such denials or abridgements of the right to vote;

(C) no Federal examiners under subchapters I-A to I-C of this chapter have been assigned to such State or political subdivision;

(D) such State or political subdivision and all governmental units within its territory have complied with section 1973c of this title, including compliance with the requirement that no change covered by section 1973c of this title has been enforced without preclearance under section 1973c of this title, and have repealed all changes covered by section 1973c of this title to which the Attorney General has successfully objected or as to which the United States District Court for the District of Columbia has denied a declaratory judgment;

(E) the Attorney General has not interposed any objection (that has not been overturned by a final judgment of a court) and no declaratory judgment has been denied under section 1973c of this title, with respect to any submis-

sion by or on behalf of the plaintiff or any governmental unit within its territory under section 1973c of this title, and no such submissions or declaratory judgment actions are pending; and

(F) such State or political subdivision and all governmental units within its territory—

(i) have eliminated voting procedures and methods of election which inhibit or dilute equal access to the electoral process;

(ii) have engaged in constructive efforts to eliminate intimidation and harassment of persons exercising rights protected under subchapters I-A to I-C of this chapter; and

(iii) have engaged in other constructive efforts, such as expanded opportunity for convenient registration and voting for every person of voting age and the appointment of minority persons as election officials throughout the jurisdiction and at all stages of the election and registration process.

(2) To assist the court in determining whether to issue a declaratory judgment under this subsection, the plaintiff shall present evidence of minority participation, including evidence of the levels of minority group registration and voting, changes in such levels over time, and disparities between minority-group and non-minority-group participation.

(3) No declaratory judgment shall issue under this subsection with respect to such State or political subdivision if such plaintiff and governmental units within its territory have, during the period beginning ten years before the date the judgment is issued, engaged in violations of any provision of the Constitution or laws of the United States or any State or political subdivision with respect to discrimination in voting on account of race or color or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) in contravention of the guarantees of subsection (f)(2) of this section unless the plaintiff establishes that any such violations were trivial, were promptly corrected, and were not repeated.

(4) The State or political subdivision bringing such action shall publicize the intended commencement and any proposed settlement of such action in the media serving such State or political subdivision and in appropriate United States post offices. Any aggrieved party may as of right intervene at any stage in such action.

(5) An action pursuant to this subsection shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. The court shall retain jurisdiction of any action pursuant to this subsection for ten years after judgment and shall reopen the action upon motion of the Attorney General or any aggrieved person alleging that conduct has occurred which, had that conduct occurred during the ten-year periods referred to in this subsection, would have precluded the issuance of a declaratory judgment under this subsection. The court, upon such reopening, shall vacate the declaratory judgment issued under this section if, after the issuance of such declaratory judgment, a final judgment against the State or subdivision with respect to which such declaratory

judgment was issued, or against any governmental unit within that State or subdivision, determines that denials or abridgements of the right to vote on account of race or color have occurred anywhere in the territory of such State or political subdivision or (in the case of a State or subdivision which sought a declaratory judgment under the second sentence of this subsection) that denials or abridgements of the right to vote in contravention of the guarantees of subsection (f)(2) of this section have occurred anywhere in the territory of such State or subdivision, or if, after the issuance of such declaratory judgment, a consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds.

(6) If, after two years from the date of the filing of a declaratory judgment under this subsection, no date has been set for a hearing in such action, and that delay has not been the result of an avoidable delay on the part of counsel for any party, the chief judge of the United States District Court for the District of Columbia may request the Judicial Council for the Circuit of the District of Columbia to provide the necessary judicial resources to expedite any action filed under this section. If such resources are unavailable within the circuit, the chief judge shall file a certificate of necessity in accordance with section 292(d) of title 28.

(7) The Congress shall reconsider the provisions of this section at the end of the fifteen-year period following the effective date of the amendments made by the Voting Rights Act Amendments of 1982.

(8) The provisions of this section shall expire at the end of the twenty-five-year period following the effective date of the amendments made by the Voting Rights Act Amendments of 1982.

(9) Nothing in this section shall prohibit the Attorney General from consenting to an entry of judgment if based upon a showing of objective and compelling evidence by the plaintiff, and upon investigation, he is satisfied that the State or political subdivision has complied with the requirements of subsection (a)(1) of this section. Any aggrieved party may as of right intervene at any stage in such action.

(b) Required factual determinations necessary to allow suspension of compliance with tests and devices; publication in Federal Register

The provisions of subsection (a) of this section shall apply in any State or in any political subdivision of a State which (1) the Attorney General determines maintained on November 1, 1964, any test or device, and with respect to which (2) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1964, or that less than 50 per centum of such persons voted in the presidential election of November 1964. On and after August 6, 1970, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous sentence, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State which (i) the Attorney General determines maintained on November 1,

1968, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1968, or that less than 50 per centum of such persons voted in the presidential election of November 1968. On and after August 6, 1975, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous two sentences, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State which (i) the Attorney General determines maintained on November 1, 1972, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the citizens of voting age were registered on November 1, 1972, or that less than 50 per centum of such persons voted in the Presidential election of November 1972.

A determination or certification of the Attorney General or of the Director of the Census under this section or under section 1973d or 1973k of this title shall not be reviewable in any court and shall be effective upon publication in the Federal Register.

(c) "Test or device" defined

The phrase "test or device" shall mean any requirement that a person as a prerequisite for voting or registration for voting (1) demonstrate the ability to read, write, understand, or interpret any matter, (2) demonstrate any educational achievement or his knowledge of any particular subject, (3) possess good moral character, or (4) prove his qualifications by the voucher of registered voters or members of any other class.

(d) Required frequency, continuation and probable recurrence of incidents of denial or abridgement to constitute forbidden use of tests or devices

For purposes of this section no State or political subdivision shall be determined to have engaged in the use of tests or devices for the purpose or with the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section if (1) incidents of such use have been few in number and have been promptly and effectively corrected by State or local action, (2) the continuing effect of such incidents has been eliminated, and (3) there is no reasonable probability of their recurrence in the future.

(e) Completion of requisite grade level of education in American-flag schools in which the predominant classroom language was other than English

(1) Congress hereby declares that to secure the rights under the fourteenth amendment of persons educated in American-flag schools in which the predominant classroom language was other than English, it is necessary to prohibit the States from conditioning the right to vote of such persons on ability to read, write, understand, or interpret any matter in the English language.

(2) No person who demonstrates that he has successfully completed the sixth primary grade

in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English, shall be denied the right to vote in any Federal, State, or local election because of his inability to read, write, understand, or interpret any matter in the English language, except that in States in which State law provides that a different level of education is presumptive of literacy, he shall demonstrate that he has successfully completed an equivalent level of education in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English.

(f) Congressional findings of voting discrimination against language minorities; prohibition of English-only elections; other remedial measures

(1) The Congress finds that voting discrimination against citizens of language minorities is pervasive and national in scope. Such minority citizens are from environments in which the dominant language is other than English. In addition they have been denied equal educational opportunities by State and local governments, resulting in severe disabilities and continuing illiteracy in the English language. The Congress further finds that, where State and local officials conduct elections only in English, language minority citizens are excluded from participating in the electoral process. In many areas of the country, this exclusion is aggravated by acts of physical, economic, and political intimidation. The Congress declares that, in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting English-only elections, and by prescribing other remedial devices.

(2) No voting qualification or prerequisite to voting, or standard, practice, or procedure shall be imposed or applied by any State or political subdivision to deny or abridge the right of any citizen of the United States to vote because he is a member of a language minority group.

(3) In addition to the meaning given the term under subsection (c) of this section, the term "test or device" shall also mean any practice or requirement by which any State or political subdivision provided any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, only in the English language, where the Director of the Census determines that more than five per centum of the citizens of voting age residing in such State or political subdivision are members of a single language minority. With respect to subsection (b) of this section, the term "test or device", as defined in this subsection, shall be employed only in making the determinations under the third sentence of that subsection.

(4) Whenever any State or political subdivision subject to the prohibitions of the second sentence of subsection (a) of this section provides

any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable language minority group as well as in the English language: *Provided*, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan Natives and American Indians, if the predominate language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance, or other information relating to registration and voting.

AMENDMENTS

1982—Subsec. (a). Pub. L. 97-205, §2(a), (b), substituted "nineteen years" for "seventeen years" in three places, effective June 29, 1982, and, effective on and after Aug. 5, 1985, completely revised subsec. (a). Prior to such revision, subsec. (a) consisted of 4 undesignated paragraphs reading as follows:

"To assure that the right of citizens of the United States to vote is not denied or abridged on account of race or color, no citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the first two sentences of subsection (b) of this section or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia in an action for a declaratory judgment brought by such State or subdivision against the United States has determined that no such test or device has been used during the seventeen years preceding the filing of the action for the purpose or with the effect of denying or abridging the right to vote on account of race or color: *Provided*, That no such declaratory judgment shall issue with respect to any plaintiff for a period of seventeen years after the entry of a final judgment of any court of the United States, other than the denial of a declaratory judgment under this section, whether entered prior to or after August 6, 1965, determining that denials or abridgments of the right to vote on account of race or color through the use of such tests or devices have occurred any where in the territory of such plaintiff. No citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the third sentence of

subsection (b) of this section or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia in an action for a declaratory judgment brought by such State or subdivision against the United States has determined that no such test or device has been used during the ten years preceding the filing of the action for the purpose or with the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section: *Provided*, That no such declaratory judgment shall issue with respect to any plaintiff for a period of ten years after the entry of a final judgment of any court of the United States, other than the denial of a declaratory judgment under this section, whether entered prior to or after the enactment of this paragraph, determining that denials or abridgments of the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section through the use of tests or devices have occurred anywhere in the territory of such plaintiff.

"An action pursuant to this subsection shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. The court shall retain jurisdiction of any action pursuant to this subsection for five years after judgment and shall reopen the action upon motion of the Attorney General alleging that a test or device has been used for the purpose or with the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section.

"If the Attorney General determines that he has no reason to believe that any such test or device has been used during the seventeen years preceding the filing of an action under the first sentence of this subsection for the purpose or with the effect of denying or abridging the right to vote on account of race or color, he shall consent to the entry of such judgment.

"If the Attorney General determines that he has no reason to believe that any such test or device has been used during the ten years preceding the filing of an action under the second sentence of this subsection for the purpose or with the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section, he shall consent to the entry of such judgment."

Subsec. (f)(4). Pub. L. 97-205, §2(c), inserted "or in the case of Alaskan Natives and American Indians, if the predominate language is historically unwritten".

1975—Subsec. (a). Pub. L. 94-73, §§101, 201, 206, in first par., substituted "seventeen years" for "ten years" in two places, and "determinations have been made under the first two sentences of subsection (b)" for "determinations have been made under subsection (b)", inserted provisions that no citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any state with respect to which the determinations have been made under the third sentence of subsection (b) of this section or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia in an action for a declaratory judgment brought by such State or subdivision against the United States has determined that no such test or device has been used during the ten years preceding the filing of the action for the purpose or with the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section with the proviso that no such declaratory judgment shall issue with respect to any plaintiff for a period of ten years after the entry of final judgment of any court of the United States, other than the denial of a declaratory judgment under this section, whether entered

prior to or after the enactment of this paragraph, determining that denials or abridgments of the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section through the use of tests or devices have occurred anywhere in the territory of such plaintiff, in second par., substituted "on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section" for "on account of race or color", in third par., substituted "seventeen years preceding the filing of an action under the first sentence of this subsection" for "ten years preceding the filing of the action", and added fourth par.

Subsec. (d). Pub. L. 94-73, §206, substituted "on account of race or color or in contravention of the guarantees set forth in section 1973b(f)(2) of this title" for "on account of race or color".

§ 1973c. Alteration of voting qualifications and procedures; action by State or political subdivision for declaratory judgment of no denial or abridgement of voting rights; three-judge district court; appeal to Supreme Court

Whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the first sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1964, or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the second sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard,

Neither an affirmative indication by the Attorney General that no objection will be made, nor the Attorney General's failure to object, nor a declaratory judgment entered under this section shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure. In the event the Attorney General affirmatively indicates that no objection will be made within the sixty-day period following receipt of a submission, the Attorney General may reserve the right to reexamine the submission if additional information comes to his attention during the remainder of the sixty-day period which would otherwise require objection in accordance with this section. Any action under this section shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1973d, 1973e, 1973i, 1973l of this title.

§ 1973h. Poll taxes

(a) Congressional finding and declaration of policy against enforced payment of poll taxes as a device to impair voting rights

The Congress finds that the requirement of the payment of a poll tax as a precondition to voting (i) precludes persons of limited means from voting or imposes unreasonable financial hardship upon such persons as a precondition to their exercise of the franchise, (ii) does not bear a reasonable relationship to any legitimate State interest in the conduct of elections, and (iii) in some areas has the purpose or effect of denying persons the right to vote because of race or color. Upon the basis of these findings, Congress declares that the constitutional right of citizens to vote is denied or abridged in some areas by the requirement of the payment of a poll tax as a precondition to voting.

(b) Authority of Attorney General to institute actions for relief against enforcement of poll tax requirement

In the exercise of the powers of Congress under section 5 of the fourteenth amendment, section 2 of the fifteenth amendment and section 2 of the twenty-fourth amendment, the Attorney General is authorized and directed to institute forthwith in the name of the United States such actions, including actions against States or political subdivisions, for declaratory judgment or injunctive relief against the enforcement of any requirement of the payment of a poll tax as a precondition to voting, or substitute therefor enacted after November 1, 1964, as will be necessary to implement the declaration of subsection (a) of this section and the purposes of this section.

(c) Jurisdiction of three-judge district courts; appeal to Supreme Court

The district courts of the United States shall have jurisdiction of such actions which shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1973aa-2, 1973aa-3 of this title.

§ 1973aa-1. Residence requirements for voting

(a) Congressional findings

The Congress hereby finds that the imposition and application of the durational residency requirement as a precondition to voting for the offices of President and Vice President, and the lack of sufficient opportunities for absentee registration and absentee balloting in presidential elections—

(1) denies or abridges the inherent constitutional right of citizens to vote for their President and Vice President;

(2) denies or abridges the inherent constitutional right of citizens to enjoy their free movement across State lines;

(3) denies or abridges the privileges and immunities guaranteed to the citizens of each State under article IV, section 2, clause 1, of the Constitution;

(4) in some instances has the impermissible purpose or effect of denying citizens the right to vote for such officers because of the way they may vote;

(5) has the effect of denying to citizens the equality of civil rights, and due process and equal protection of the laws that are guaranteed to them under the fourteenth amendment; and

(6) does not bear a reasonable relationship to any compelling State interest in the conduct of presidential elections.

(b) Congressional declaration: durational residency requirement, abolishment; absentee registration and balloting standards, establishment

Upon the basis of these findings, Congress declares that in order to secure and protect the above-stated rights of citizens under the Constitution, to enable citizens to better obtain the enjoyment of such rights, and to enforce the guarantees of the fourteenth amendment, it is necessary (1) to completely abolish the durational residency requirement as a precondition to voting for President and Vice President, and

(2) to establish nationwide, uniform standards relative to absentee registration and absentee balloting in presidential elections.

(c) Prohibition of denial of right to vote because of durational residency requirement or absentee balloting

No citizen of the United States who is otherwise qualified to vote in any election for President and Vice President shall be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to comply with any durational residency requirement of such State or political subdivision; nor shall any citizen of the United States be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to be physically present in such State or political subdivision at the time of such election, if such citizen shall have complied with the requirements prescribed by the law of such State or political subdivision providing for the casting of absentee ballots in such election.

(d) Registration: time for application; absentee balloting: time of application and return of ballots

For the purposes of this section, each State shall provide by law for the registration or other means of qualification of all duly qualified residents of such State who apply, not later than thirty days immediately prior to any presidential election, for registration or qualification to vote for the choice of electors for President and Vice President or for President and Vice President in such election; and each State shall provide by law for the casting of absentee ballots for the choice of electors for President and Vice President, or for President and Vice President, by all duly qualified residents of such State who may be absent from their election district or unit in such State on the day such election is held and who have applied therefor not later than seven days immediately prior to such election and have returned such ballots to the appropriate election official of such State not later than the time of closing of the polls in such State on the day of such election.

(e) Change of residence; voting in person or by absentee ballot in State of prior residence

If any citizen of the United States who is otherwise qualified to vote in any State or political subdivision in any election for President and Vice President has begun residence in such State or political subdivision after the thirtieth day next preceding such election and, for that reason, does not satisfy the registration requirements of such State or political subdivision he shall be allowed to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election, (1) in person in the State or political subdivision in which he resided immediately prior to his removal if he had satisfied, as of the date of his change of residence, the requirements to vote in that State or political subdivision, or (2) by absentee ballot in the State or political subdivision in which he resided immediately prior to

his removal if he satisfies, but for his non-resident status and the reason for his absence, the requirements for absentee voting in that State or political subdivision.

(f) Absentee registration requirement

No citizen of the United States who is otherwise qualified to vote by absentee ballot in any State or political subdivision in any election for President and Vice President shall be denied the right to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election because of any requirement of registration that does not include a provision for absentee registration.

(g) State or local adoption of less restrictive voting practices

Nothing in this section shall prevent any State or political subdivision from adopting less restrictive voting practices than those that are prescribed herein.

(h) "State" defined

The term "State" as used in this section includes each of the several States and the District of Columbia.

(i) False registration, and other fraudulent acts and conspiracies: application of penalty for false information in registering or voting

The provisions of section 1973i(c) of this title shall apply to false registration, and other fraudulent acts and conspiracies, committed under this section.

(Pub. L. 89-110, title II, §202, as added Pub. L. 91-285, §6, June 22, 1970, 84 Stat. 316.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1973i, 1973aa-2, 1973aa-3 of this title.

§ 1973aa-1a. Bilingual election requirements

(a) Congressional findings and declaration of policy

The Congress finds that, through the use of various practices and procedures, citizens of language minorities have been effectively excluded from participation in the electoral process. Among other factors, the denial of the right to vote of such minority group citizens is ordinarily directly related to the unequal educational opportunities afforded them resulting in high illiteracy and low voting participation. The Congress declares that, in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting these practices, and by prescribing other remedial devices.

(b) Bilingual voting materials requirement

(1) Generally

Before August 6, 2007, no covered State or political subdivision shall provide voting materials only in the English language.

(2) Covered States and political subdivisions

(A) Generally

A State or political subdivision is a covered State or political subdivision for the

purposes of this subsection if the Director of the Census determines, based on census data, that—

(i)(I) more than 5 percent of the citizens of voting age of such State or political subdivision are members of a single language minority and are limited-English proficient;

(II) more than 10,000 of the citizens of voting age of such political subdivision are members of a single language minority and are limited-English proficient; or

(III) in the case of a political subdivision that contains all or any part of an Indian reservation, more than 5 percent of the American Indian or Alaska Native citizens of voting age within the Indian reservation are members of a single language minority and are limited-English proficient; and

(ii) the illiteracy rate of the citizens in the language minority as a group is higher than the national illiteracy rate.

(B) Exception

The prohibitions of this subsection do not apply in any political subdivision that has less than 5 percent voting age limited-English proficient citizens of each language minority which comprises over 5 percent of the statewide limited-English proficient population of voting age citizens, unless the political subdivision is a covered political subdivision independently from its State.

(3) Definitions

As used in this section—

(A) the term "voting materials" means registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots;

(B) the term "limited-English proficient" means unable to speak or understand English adequately enough to participate in the electoral process;

(C) the term "Indian reservation" means any area that is an American Indian or Alaska Native area, as defined by the Census Bureau for the purposes of the 1990 decennial census;

(D) the term "citizens" means citizens of the United States; and

(E) the term "illiteracy" means the failure to complete the 5th primary grade.

(4) Special rule

The determinations of the Director of the Census under this subsection shall be effective upon publication in the Federal Register and shall not be subject to review in any court.

(c) Requirement of voting notices, forms, instructions, assistance, or other materials and ballots in minority language

Whenever any State or political subdivision subject to the prohibition of subsection (b) of this section provides any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable minority group as well as in the English language: *Pro-*

vided, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan natives and American Indians, if the predominant language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance, or other information relating to registration and voting.

(d) Action for declaratory judgment permitting English-only materials

Any State or political subdivision subject to the prohibition of subsection (b) of this section, which seeks to provide English-only registration or voting materials or information, including ballots, may file an action against the United States in the United States District Court for a declaratory judgment permitting such provision. The court shall grant the requested relief if it determines that the illiteracy rate of the applicable language minority group within the State or political subdivision is equal to or less than the national illiteracy rate.

(e) Definitions

For purposes of this section, the term “language minorities” or “language minority group” means persons who are American Indian, Asian American, Alaskan Natives, or of Spanish heritage.

AMENDMENTS

1992—Subsec. (b). Pub. L. 102-344 amended subsec. (b) generally. Prior to amendment, subsec. (b) read as follows: “Prior to August 6, 1992, no State or political subdivision shall provide registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, only in the English language if the Director of the Census determines (i) that more than 5 percent of the citizens of voting age of such State or political subdivision are members of a single language minority and (ii) that the illiteracy rate of such persons as a group is higher than the national illiteracy rate: *Provided*, That the prohibitions of this subsection shall not apply in any political subdivision which has less than five percent voting age citizens of each language minority which comprises over five percent of the statewide population of voting age citizens. For purposes of this subsection, illiteracy means the failure to complete the fifth primary grade. The determinations of the Director of the Census under this subsection shall be effective upon publication in the Federal Register and shall not be subject to review in any court.”

(2) accept and process, with respect to any general, special, primary, or runoff election for Federal office, any otherwise valid voter registration application from an absent uniformed services voter or overseas voter, if the application is received by the appropriate State election official not less than 30 days before the election; and

§ 1973ff-2. Federal write-in absentee ballot for overseas voters in general elections for Federal office

(a) In general

The Presidential designee shall prescribe a Federal write-in absentee ballot (including a secrecy envelope and mailing envelope for such ballot) for use in general elections for Federal office by overseas voters who make timely application for, and do not receive, States, absentee ballots.

(b) Submission and processing

Except as otherwise provided in this subchapter, a Federal write-in absentee ballot shall be submitted and processed in the manner provided by law for absentee ballots in the State involved. A Federal write-in absentee ballot of an overseas voter shall not be counted—

(1) if the ballot is submitted from any location in the United States;

(c) Special rules

The following rules shall apply with respect to Federal write-in absentee ballots:

(d) Second ballot submission; instruction to overseas voter

An overseas voter who submits a Federal write-in absentee ballot and later receives a State absentee ballot, may submit the State absentee ballot. The Presidential designee shall assure that the instructions for each Federal write-in absentee ballot clearly state that an overseas voter who submits a Federal write-in absentee ballot and later receives and submits a State absentee ballot should make every reasonable effort to inform the appropriate State election official that the voter has submitted more than one ballot.

(e) Use of approved State absentee ballot in place of Federal write-in absentee ballot

The Federal write-in absentee ballot shall not be valid for use in a general election if the State involved provides a State absentee ballot that—

(1) at the request of the State, is approved by the Presidential designee for use in place of the Federal write-in absentee ballot; and

(2) is made available to overseas voters at least 60 days before the deadline for receipt of the State ballot under State law.

(f) Certain States exempted

A State is not required to permit use of the Federal write-in absentee ballot, if, on and after August 28, 1986, the State has in effect a law providing that—

(1) a State absentee ballot is required to be available to any voter described in section 1973ff-6(5)(A) of this title at least 90 days before the general election involved; and

§ 1973gg-6. Requirements with respect to administration of voter registration

(a) In general

In the administration of voter registration for elections for Federal office, each State shall—

(1) ensure that any eligible applicant is registered to vote in an election—

(A) in the case of registration with a motor vehicle application under section 1973gg-3 of this title, if the valid voter registration form of the applicant is submitted to the appropriate State motor vehicle authority not later than the lesser of 30 days, or the period provided by State law, before the date of the election;

(2) require the appropriate State election official to send notice to each applicant of the disposition of the application;

(3) provide that the name of a registrant may not be removed from the official list of eligible voters except—

(A) at the request of the registrant;

(B) as provided by State law, by reason of criminal conviction or mental incapacity; or

(C) as provided under paragraph (4);

(4) conduct a general program that makes a reasonable effort to remove the names of ineligible voters from the official lists of eligible voters by reason of—

(A) the death of the registrant; or

(B) a change in the residence of the registrant, in accordance with subsections (b), (c), and (d) of this section;

(5) inform applicants under sections 1973gg-3, 1973gg-4, and 1973gg-5 of this title of—

(A) voter eligibility requirements; and

(B) penalties provided by law for submission of a false voter registration application; and

(6) ensure that the identity of the voter registration agency through which any particular voter is registered is not disclosed to the public.

(b) Confirmation of voter registration

Any State program or activity to protect the integrity of the electoral process by ensuring the maintenance of an accurate and current voter registration roll for elections for Federal office—

(1) shall be uniform, nondiscriminatory, and in compliance with the Voting Rights Act of 1965 (42 U.S.C. 1973 et seq.); and

(2) shall not result in the removal of the name of any person from the official list of voters registered to vote in an election for Federal office by reason of the person's failure to vote.

(c) Voter removal programs

(1) A State may meet the requirement of subsection (a)(4) of this section by establishing a program under which—

(A) change-of-address information supplied by the Postal Service through its licensees is used to identify registrants whose addresses may have changed; and

(B) if it appears from information provided by the Postal Service that—

(i) a registrant has moved to a different residence address in the same registrar's jurisdiction in which the registrant is currently registered, the registrar changes the registration records to show the new address and sends the registrant a notice of the change by forwardable mail and a postage prepaid pre-addressed return form by which the registrant may verify or correct the address information; or

(ii) the registrant has moved to a different residence address not in the same registrar's jurisdiction, the registrar uses the notice procedure described in subsection (d)(2) of this section to confirm the change of address.

(2)(A) A State shall complete, not later than 90 days prior to the date of a primary or general election for Federal office, any program the purpose of which is to systematically remove the names of ineligible voters from the official lists of eligible voters.

(B) Subparagraph (A) shall not be construed to preclude—

(i) the removal of names from official lists of voters on a basis described in paragraph (3)(A) or (B) or (4)(A) of subsection (a) of this section; or

(ii) correction of registration records pursuant to this subchapter.

(d) Removal of names from voting rolls

(1) A State shall not remove the name of a registrant from the official list of eligible voters in elections for Federal office on the ground that the registrant has changed residence unless the registrant—

(A) confirms in writing that the registrant has changed residence to a place outside the registrar's jurisdiction in which the registrant is registered; or

(B)(i) has failed to respond to a notice described in paragraph (2); and

(ii) has not voted or appeared to vote (and, if necessary, correct the registrar's record of the registrant's address) in an election during the period beginning on the date of the notice and ending on the day after the date of the second general election for Federal office that occurs after the date of the notice.

(2) A notice is described in this paragraph if it is a postage prepaid and pre-addressed return card, sent by forwardable mail, on which the registrant may state his or her current address, together with a notice to the following effect:

(A) If the registrant did not change his or her residence, or changed residence but remained in the registrar's jurisdiction, the registrant should return the card not later than the time provided for mail registration under subsection (a)(1)(B) of this section. If the card is not returned, affirmation or confirmation of the registrant's address may be required before the registrant is permitted to vote in a Federal election during the period beginning on the date of the notice and ending on the day after the date of the second general election for Federal office that occurs after the date of the notice, and if the registrant does not vote in an election during that period the registrant's name will be removed from the list of eligible voters.

(B) If the registrant has changed residence to a place outside the registrar's jurisdiction in which the registrant is registered, information concerning how the registrant can continue to be eligible to vote.

(3) A voting registrar shall correct an official list of eligible voters in elections for Federal office in accordance with change of residence information obtained in conformance with this subsection.

(e) Procedure for voting following failure to return card

(1) A registrant who has moved from an address in the area covered by a polling place to an address in the same area shall, notwithstanding failure to notify the registrar of the change of address prior to the date of an election, be permitted to vote at that polling place upon oral or written affirmation by the registrant of the change of address before an election official at that polling place.

(2)(A) A registrant who has moved from an address in the area covered by one polling place to

an address in an area covered by a second polling place within the same registrar's jurisdiction and the same congressional district and who has failed to notify the registrar of the change of address prior to the date of an election, at the option of the registrant—

(i) shall be permitted to correct the voting records and vote at the registrant's former polling place, upon oral or written affirmation by the registrant of the new address before an election official at that polling place; or

(ii)(I) shall be permitted to correct the voting records and vote at a central location within the same registrar's jurisdiction designated by the registrar where a list of eligible voters is maintained, upon written affirmation by the registrant of the new address on a standard form provided by the registrar at the central location; or

(II) shall be permitted to correct the voting records for purposes of voting in future elections at the appropriate polling place for the current address and, if permitted by State law, shall be permitted to vote in the present election, upon confirmation by the registrant of the new address by such means as are required by law.

(B) If State law permits the registrant to vote in the current election upon oral or written affirmation by the registrant of the new address at a polling place described in subparagraph (A)(i) or (A)(ii)(II), voting at the other locations described in subparagraph (A) need not be provided as options.

(3) If the registration records indicate that a registrant has moved from an address in the area covered by a polling place, the registrant shall, upon oral or written affirmation by the registrant before an election official at that polling place that the registrant continues to reside at the address previously made known to the registrar, be permitted to vote at that polling place.

(f) Change of voting address within a jurisdiction

In the case of a change of address, for voting purposes, of a registrant to another address within the same registrar's jurisdiction, the registrar shall correct the voting registration list accordingly, and the registrant's name may not be removed from the official list of eligible voters by reason of such a change of address except as provided in subsection (d) of this section.

(g) Conviction in Federal court

(1) On the conviction of a person of a felony in a district court of the United States, the United States attorney shall give written notice of the conviction to the chief State election official designated under section 1973gg-8 of this title of the State of the person's residence.

(2) A notice given pursuant to paragraph (1) shall include—

- (B) the offender's age and residence address;
- (C) the date of entry of the judgment;
- (D) a description of the offenses of which the offender was convicted; and
- (E) the sentence imposed by the court.

(3) On request of the chief State election official of a State or other State official with re-

sponsibility for determining the effect that a conviction may have on an offender's qualification to vote, the United States attorney shall provide such additional information as the United States attorney may have concerning the offender and the offense of which the offender was convicted.

(4) If a conviction of which notice was given pursuant to paragraph (1) is overturned, the United States attorney shall give the official to whom the notice was given written notice of the vacation of the judgment.

(5) The chief State election official shall notify the voter registration officials of the local jurisdiction in which an offender resides of the information received under this subsection.

(h) Omitted

(i) Public disclosure of voter registration activities

(1) Each State shall maintain for at least 2 years and shall make available for public inspection and, where available, photocopying at a reasonable cost, all records concerning the implementation of programs and activities conducted for the purpose of ensuring the accuracy and currency of official lists of eligible voters, except to the extent that such records relate to a declination to register to vote or to the identity of a voter registration agency through which any particular voter is registered.

(2) The records maintained pursuant to paragraph (1) shall include lists of the names and addresses of all persons to whom notices described in subsection (d)(2) of this section are sent, and information concerning whether or not each such person has responded to the notice as of the date that inspection of the records is made.

(j) "Registrar's jurisdiction" defined

For the purposes of this section, the term "registrar's jurisdiction" means—

(a) Right of recovery

(1) Civil rights

In an action brought by a complaining party under section 706 or 717 of the Civil Rights Act of 1964 [42 U.S.C. 2000e-5, 2000e-16] against a respondent who engaged in unlawful intentional discrimination (not an employment practice that is unlawful because of its disparate impact) prohibited under section 703, 704, or 717 of the Act [42 U.S.C. 2000e-2, 2000e-3, 2000e-16], and provided that the complaining party cannot recover under section 1981 of this title, the complaining party may recover compensatory

and punitive damages as allowed in subsection (b) of this section, in addition to any relief authorized by section 706(g) of the Civil Rights Act of 1964, from the respondent.

(2) Disability

In an action brought by a complaining party under the powers, remedies, and procedures set forth in section 706 or 717 of the Civil Rights Act of 1964 [42 U.S.C. 2000e-5, 2000e-16] (as provided in section 107(a) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12117(a)), and section 794a(a)(1) of title 29, respectively) against a respondent who engaged in unlawful intentional discrimination (not an employment practice that is unlawful because of its disparate impact) under section 791 of title 29 and the regulations implementing section 791 of title 29, or who violated the requirements of section 791 of title 29 or the regulations implementing section 791 of title 29 concerning the provision of a reasonable accommodation, or section 102 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12112), or committed a violation of section 102(b)(5) of the Act, against an individual, the complaining party may recover compensatory and punitive damages as allowed in subsection (b) of this section, in addition to any relief authorized by section 706(g) of the Civil Rights Act of 1964, from the respondent.

(3) Reasonable accommodation and good faith effort

In cases where a discriminatory practice involves the provision of a reasonable accommodation pursuant to section 102(b)(5) of the Americans with Disabilities Act of 1990 [42 U.S.C. 12112(b)(5)] or regulations implementing section 791 of title 29, damages may not be awarded under this section where the covered entity demonstrates good faith efforts, in consultation with the person with the disability who has informed the covered entity that accommodation is needed, to identify and make a reasonable accommodation that would provide such individual with an equally effective opportunity and would not cause an undue hardship on the operation of the business.

(b) Compensatory and punitive damages

(1) Determination of punitive damages

A complaining party may recover punitive damages under this section against a respondent (other than a government, government agency or political subdivision) if the complaining party demonstrates that the respondent engaged in a discriminatory practice or discriminatory practices with malice or with reckless indifference to the federally protected rights of an aggrieved individual.

(2) Exclusions from compensatory damages

Compensatory damages awarded under this section shall not include backpay, interest on backpay, or any other type of relief authorized under section 706(g) of the Civil Rights Act of 1964 [42 U.S.C. 2000e-5(g)].

(3) Limitations

The sum of the amount of compensatory damages awarded under this section for future

pecuniary losses, emotional pain, suffering, inconvenience, mental anguish, loss of enjoyment of life, and other nonpecuniary losses, and the amount of punitive damages awarded under this section, shall not exceed, for each complaining party—

(A) in the case of a respondent who has more than 14 and fewer than 101 employees in each of 20 or more calendar weeks in the current or preceding calendar year, \$50,000;

(B) in the case of a respondent who has more than 100 and fewer than 201 employees in each of 20 or more calendar weeks in the current or preceding calendar year, \$100,000; and

(D) in the case of a respondent who has more than 500 employees in each of 20 or more calendar weeks in the current or preceding calendar year, \$300,000.

(4) Construction

Nothing in this section shall be construed to limit the scope of, or the relief available under, section 1981 of this title.

(c) Jury trial

If a complaining party seeks compensatory or punitive damages under this section—

(1) any party may demand a trial by jury; and

(2) the court shall not inform the jury of the limitations described in subsection (b)(3) of this section.

(d) Definitions

As used in this section:

(1) Complaining party

The term “complaining party” means—

EX. ORD. NO. 11063. EQUAL OPPORTUNITY IN HOUSING

Ex. Ord. No. 11063, Nov. 20, 1962, 27 F.R. 11527, as amended by Ex. Ord. No. 12259, Dec. 31, 1980, 46 F.R. 1253; Ex. Ord. No. 12892, §6-604, Jan. 17, 1994, 59 F.R. 2939, provided:

WHEREAS the granting of Federal assistance for the provision, rehabilitation, or operation of housing and related facilities from which Americans are excluded because of their race, color, creed, or national origin is unfair, unjust, and inconsistent with the public policy of the United States as manifested in its Constitution and laws; and

WHEREAS the Congress in the Housing Act of 1949 [see Short Title note set out under section 1441 of this title] has declared that the general welfare and security of the Nation and the health and living standards of its people require the realization as soon as feasible of the goal of a decent home and a suitable living environment for every American family; and

WHEREAS discriminatory policies and practices based upon race, color, creed, or national origin now operate to deny many Americans the benefits of housing financed through Federal assistance and as a consequence prevent such assistance from providing them with an alternative to substandard, unsafe, unsanitary, and overcrowded housing; and

WHEREAS such discriminatory policies and practices result in segregated patterns of housing and necessarily produce other forms of discrimination and segregation which deprive many Americans of equal opportunity in the exercise of their unalienable rights to life, liberty, and the pursuit of happiness; and

WHEREAS the executive branch of the Government, in faithfully executing the laws of the United States which authorize Federal financial assistance, directly or indirectly, for the provision, rehabilitation, and operation of housing and related facilities, is charged with an obligation and duty to assure that those laws are fairly administered and that benefits thereunder are made available to all Americans without regard to their race, color, creed, or national origin:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution and laws of the United States, it is ordered as follows:

PART I—PREVENTION OF DISCRIMINATION

SECTION 101. I hereby direct all departments and agencies in the executive branch of the Federal Government, insofar as their functions relate to the provision, rehabilitation, or operation of housing and related facilities, to take all action necessary and appropriate to prevent discrimination because of race, color, religion (creed), sex, disability, familial status or national origin—

(a) in the sale, leasing, rental, or other disposition of residential property and related facilities (including land to be developed for residential use), or in the use or occupancy thereof, if such property and related facilities are—

(i) owned or operated by the Federal Government, or

(ii) provided in whole or in part with the aid of loans, advances, grants, or contributions hereafter agreed to be made by the Federal Government, or

(iii) provided in whole or in part by loans hereafter insured, guaranteed, or otherwise secured by the credit of the Federal Government, or

(iv) provided by the development or the redevelopment of real property purchased, leased, or otherwise obtained from a State or local public agency receiving Federal financial assistance for slum clearance or urban renewal with respect to such real property under a loan of grant contract hereafter entered into; and

(b) in the lending practices with respect to residential property and related facilities (including land to be developed for residential use) of lending institutions, insofar as such practices relate to loans hereafter insured or guaranteed by the Federal Government.

SEC. 102. I hereby direct the Department of Housing and Urban Development and all other executive departments and agencies to use their good offices and to take other appropriate action permitted by law, including the institution of appropriate litigation, if required, to promote the abandonment of discriminatory practices with respect to residential property and related facilities heretofore provided with Federal financial assistance of the types referred to in Section 101(a)(ii), (iii), and (iv).

PART II—IMPLEMENTATION BY DEPARTMENTS AND AGENCIES

SEC. 201. Each executive department and agency subject to this order is directed to submit to the President's Committee on Equal Opportunity in Housing established pursuant to Part IV of this order (hereinafter sometimes referred to as the Committee), within thirty days from the date of this order, a report outlining all current programs administered by it which are affected by this order.

SEC. 202. Each such department and agency shall be primarily responsible for obtaining compliance with the purposes of this order as the order applies to programs administered by it; and is directed to cooperate with the Committee, to furnish it, in accordance with law, such information and assistance as it may request in the performance of its functions, and to report to it at such intervals as the Committee may require.

SEC. 203. Each such department and agency shall, within thirty days from the date of this order, issue such rules and regulations, adopt such procedures and policies, and make such exemptions and exceptions as may be consistent with law and necessary or appropriate to effectuate the purposes of this order. Each such department and agency shall consult with the Committee in order to achieve such consistency and uniformity as may be feasible.

PART III—ENFORCEMENT

SEC. 301. The Committee, any subcommittee thereof, and any officer or employee designated by any execu-

tive department or agency subject to this order may hold such hearings, public or private, as the Committee, department, or agency may deem advisable for compliance, enforcement, or educational purposes.

SEC. 302. If any executive department or agency subject to this order concludes that any person or firm (including but not limited to any individual, partnership, association, trust, or corporation) or any State or local public agency has violated any rule, regulation, or procedure issued or adopted pursuant to this order, or any nondiscrimination provision included in any agreement or contract pursuant to any such rule, regulation, or procedure, it shall endeavor to end and remedy such violation by informal means, including conference, conciliation, and persuasion unless similar efforts made by another Federal department or agency have been unsuccessful. In conformity with rules, regulations, procedures, or policies issued or adopted by it pursuant to Section 203 hereof, a department or agency may take such action as may be appropriate under its governing laws, including, but not limited to, the following:

It may—

(a) cancel or terminate in whole or in part any agreement or contract with such person, firm, or State or local public agency providing for a loan, grant, contribution, or other Federal aid, or for the payment of a commission or fee;

(b) refrain from extending any further aid under any program administered by it and affected by this order until it is satisfied that the affected person, firm, or State or local public agency will comply with the rules, regulations, and procedures issued or adopted pursuant to this order, and any nondiscrimination provisions included in any agreement or contract;

(c) refuse to approve a lending institution or any other lender as a beneficiary under any program administered by it which is affected by this order or revoke such approval if previously given.

SEC. 303. In appropriate cases executive departments and agencies shall refer to the Attorney General violations of any rules, regulations, or procedures issued or adopted pursuant to this order, or violations of any nondiscrimination provisions included in any agreement or contract, for such civil or criminal action as he may deem appropriate. The Attorney General is authorized to furnish legal advice concerning this order to the Committee and to any department or agency requesting such advice.

SEC. 304. Any executive department or agency affected by this order may also invoke the sanctions provided in Section 302 where any person or firm, including a lender, has violated the rules, regulations, or procedures issued or adopted pursuant to this order, or the nondiscrimination provisions included in any agreement or contract, with respect to any program affected by this order administered by any other executive department or agency.

L. 95-341 provided that the President direct the various Federal departments, agencies, and other instrumentalities responsible for administering relevant laws to evaluate their policies and procedures in consultation with native traditional religious leaders to determine changes necessary to preserve Native American religious cultural rights and practices and report to the Congress 12 months after Aug. 11, 1978.

EX. ORD. NO. 13007. INDIAN SACRED SITES

Ex. Ord. No. 13007, May 24, 1996, 61 F.R. 26771, provided:

By the authority vested in me as President by the Constitution and the laws of the United States, in furtherance of Federal treaties, and in order to protect and preserve Indian religious practices, it is hereby ordered:

SECTION 1. *Accommodation of Sacred Sites.* (a) In managing Federal lands, each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall, to the extent practicable, permitted by law, and not clearly inconsistent with essential agency functions, (1) accommodate access to and ceremonial use of Indian sacred sites by Indian religious practitioners and (2) avoid adversely affecting the physical integrity of such sacred sites. Where appropriate, agencies shall maintain the confidentiality of sacred sites.

(b) For purposes of this order:

(i) "Federal lands" means any land or interests in land owned by the United States, including leasehold interests held by the United States, except Indian trust lands;

(ii) "Indian tribe" means an Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian tribe pursuant to Public Law No. 103-454, 108 Stat. 4791 [see 25 U.S.C. 479a, 479a-1], and "Indian" refers to a member of such an Indian tribe; and

(iii) "Sacred site" means any specific, discrete, narrowly delineated location on Federal land that is identified by an Indian tribe, or Indian individual determined to be an appropriately authoritative representative of an Indian religion, as sacred by virtue of its established religious significance to, or ceremonial use by, an Indian religion; provided that the tribe or appropriately authoritative representative of an Indian religion has informed the agency of the existence of such a site.

SEC. 2. *Procedures.* (a) Each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall, as appropriate, promptly implement procedures for the purposes of carrying out the provisions of section 1 of this order, including, where practicable and appropriate, procedures

to ensure reasonable notice is provided of proposed actions or land management policies that may restrict future access to or ceremonial use of, or adversely affect the physical integrity of, sacred sites. In all actions pursuant to this section, agencies shall comply with the Executive memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" [25 U.S.C. 450 note].

(b) Within 1 year of the effective date of this order, the head of each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall report to the President, through the Assistant to the President for Domestic Policy, on the implementation of this order. Such reports shall address, among other things, (i) any changes necessary to accommodate access to and ceremonial use of Indian sacred sites; (ii) any changes necessary to avoid adversely affecting the physical integrity of Indian sacred sites; and (iii) procedures implemented or proposed to facilitate consultation with appropriate Indian tribes and religious leaders and the expeditious resolution of disputes relating to agency action on Federal lands that may adversely affect access to, ceremonial use of, or the physical integrity of sacred sites.

SEC. 3. Nothing in this order shall be construed to require a taking of vested property interests. Nor shall this order be construed to impair enforceable rights to use of Federal lands that have been granted to third parties through final agency action. For purposes of this order, "agency action" has the same meaning as in the Administrative Procedure Act (5 U.S.C. 551(13)).

SEC. 4. This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it, create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by any party against the United States, its agencies, officers, or any person.

§ 1996a. Traditional Indian religious use of peyote

(a) Congressional findings and declarations

The Congress finds and declares that—

(1) for many Indian people, the traditional ceremonial use of the peyote cactus as a religious sacrament has for centuries been integral to a way of life, and significant in perpetuating Indian tribes and cultures;

(2) since 1965, this ceremonial use of peyote by Indians has been protected by Federal regulation;

(3) while at least 28 States have enacted laws which are similar to, or are in conformance with, the Federal regulation which protects the ceremonial use of peyote by Indian religious practitioners, 22 States have not done so, and this lack of uniformity has created hardship for Indian people who participate in such religious ceremonies;

(4) the Supreme Court of the United States, in the case of *Employment Division v. Smith*, 494 U.S. 872 (1990), held that the First Amendment does not protect Indian practitioners who use peyote in Indian religious ceremonies, and also raised uncertainty whether this religious practice would be protected under the compelling State interest standard; and

(5) the lack of adequate and clear legal protection for the religious use of peyote by Indians may serve to stigmatize and marginalize

Indian tribes and cultures, and increase the risk that they will be exposed to discriminatory treatment.

(b) Use, possession, or transportation of peyote

(1) Notwithstanding any other provision of law, the use, possession, or transportation of peyote by an Indian for bona fide traditional ceremonial purposes in connection with the practice of a traditional Indian religion is lawful, and shall not be prohibited by the United States or any State. No Indian shall be penalized or discriminated against on the basis of such use, possession or transportation, including, but not limited to, denial of otherwise applicable benefits under public assistance programs.

(2) This section does not prohibit such reasonable regulation and registration by the Drug Enforcement Administration of those persons who cultivate, harvest, or distribute peyote as may be consistent with the purposes of this section and section 1996 of this title.

(3) This section does not prohibit application of the provisions of section 481.111(a) of Vernon's Texas Health and Safety Code Annotated, in effect on October 6, 1994, insofar as those provisions pertain to the cultivation, harvest, and distribution of peyote.

(4) Nothing in this section shall prohibit any Federal department or agency, in carrying out its statutory responsibilities and functions, from promulgating regulations establishing reasonable limitations on the use or ingestion of peyote prior to or during the performance of duties by sworn law enforcement officers or personnel directly involved in public transportation or any other safety-sensitive positions where the performance of such duties may be adversely affected by such use or ingestion. Such regulations shall be adopted only after consultation with representatives of traditional Indian religions for which the sacramental use of peyote is integral to their practice. Any regulation promulgated pursuant to this section shall be subject to the balancing test set forth in section 3 of the Religious Freedom Restoration Act (Public Law 103-141; 42 U.S.C. 2000bb-1).

(5) This section shall not be construed as requiring prison authorities to permit, nor shall it be construed to prohibit prison authorities from permitting, access to peyote by Indians while incarcerated within Federal or State prison facilities.

(6) Subject to the provisions of the Religious Freedom Restoration Act (Public Law 103-141; 42 U.S.C. 2000bb-1) [42 U.S.C. 2000bb et seq.], this section shall not be construed to prohibit States from enacting or enforcing reasonable traffic safety laws or regulations.

(7) Subject to the provisions of the Religious Freedom Restoration Act (Public Law 103-141; 42 U.S.C. 2000bb-1), this section does not prohibit the Secretary of Defense from promulgating regulations establishing reasonable limitations on the use, possession, transportation, or distribution of peyote to promote military readiness, safety, or compliance with international law or laws of other countries. Such regulations shall be adopted only after consultation with representatives of traditional Indian religions for which the sacramental use of peyote is integral to their practice.

(A) which is practiced by Indians, and

(B) the origin and interpretation of which is from within a traditional Indian culture or community; and

§ 1997a. Initiation of civil actions

(a) Discretionary authority of Attorney General; preconditions

Whenever the Attorney General has reasonable cause to believe that any State or political subdivision of a State, official, employee, or agent thereof, or other person acting on behalf of a State or political subdivision of a State is subjecting persons residing in or confined to an institution, as defined in section 1997 of this title, to egregious or flagrant conditions which deprive such persons of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States causing such persons to suffer grievous harm, and that such deprivation is pursuant to a pattern or practice of resistance to the full enjoyment of such rights, privileges, or immunities, the Attorney General, for or in the name of the United States, may institute a civil action in any appropriate United States district court against such party for such equitable relief as may be appropriate to insure the minimum corrective measures necessary to insure the full enjoyment of such rights, privileges, or immunities, except that such equitable relief shall be available under this subchapter to persons residing in or confined to an institution as defined in section 1997(1)(B)(ii) of this title only insofar as such persons are subjected to conditions which deprive them of rights, privileges, or immunities secured or protected by the Constitution of the United States.

(C) the Attorney General is satisfied that the appropriate officials have had a reasonable time to take appropriate action to correct such conditions and pattern or practice, taking into consideration the time required to remodel or make necessary changes in physical facilities or relocate residents, reasonable legal or procedural requirements, the urgency of the need to correct such conditions, and other circumstances involved in correcting such conditions; and

(3) that the Attorney General believes that such an action by the United States is of general public importance and will materially further the vindication of rights, privileges, or immunities secured or protected by the Constitution or laws of the United States.

(1) Whenever an action has been commenced in any court of the United States seeking relief from egregious or flagrant conditions which deprive persons residing in institutions of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States causing them to suffer grievous harm and the Attorney General has reasonable cause to believe that such deprivation is pursuant to a pattern or practice of resistance to the full enjoyment of such rights, privileges, or immunities, the Attorney General, for or in the name of the United States, may intervene in such action upon motion by the Attorney General.

(2) The Attorney General shall not file a motion to intervene under paragraph (1) before 90 days after the commencement of the action, except that if the court determines it would be in the interests of justice, the court may shorten or waive the time period.

(b) Certification requirements by Attorney General

(1) The Attorney General shall certify to the court in the motion to intervene filed under subsection (a) of this section—

(A) that the Attorney General has notified in writing, at least fifteen days previously, the Governor or chief executive officer, attorney general or chief legal officer of the appropriate State or political subdivision, and the director of the institution of—

(ii) the supporting facts giving rise to the alleged conditions, including the dates and time period during which the alleged conditions and pattern or practice of resistance occurred; and

(iii) to the extent feasible and consistent with the interests of other plaintiffs, the minimum measures which the Attorney General believes may remedy the alleged conditions and the alleged pattern or practice of resistance; and

(B) that the Attorney General believes that such intervention by the United States is of general public importance and will materially further the vindication of rights, privileges, or immunities secured or protected by the Constitution or laws of the United States.

(2) The Attorney General shall personally sign any certification made pursuant to this section.

(c) Attorney General to personally sign motion to intervene

The Attorney General shall personally sign any motion to intervene made pursuant to this section.

§ 1997e. Suits by prisoners

(a) Applicability of administrative remedies

No action shall be brought with respect to prison conditions under section 1983 of this title, or any other Federal law, by a prisoner confined in any jail, prison, or other correctional facility until such administrative remedies as are available are exhausted.

(b) Failure of State to adopt or adhere to administrative grievance procedure

The failure of a State to adopt or adhere to an administrative grievance procedure shall not constitute the basis for an action under section 1997a or 1997c of this title.

(c) Dismissal

(1) The court shall on its own motion or on the motion of a party dismiss any action brought with respect to prison conditions under section 1983 of this title, or any other Federal law, by a prisoner confined in any jail, prison, or other correctional facility if the court is satisfied that the action is frivolous, malicious, fails to state a claim upon which relief can be granted, or seeks monetary relief from a defendant who is immune from such relief.

(2) In the event that a claim is, on its face, frivolous, malicious, fails to state a claim upon which relief can be granted, or seeks monetary relief from a defendant who is immune from

such relief, the court may dismiss the underlying claim without first requiring the exhaustion of administrative remedies.

(d) Attorney's fees

(1) In any action brought by a prisoner who is confined to any jail, prison, or other correctional facility, in which attorney's fees are authorized under section 1988¹ of this title, such fees shall not be awarded, except to the extent that—

(A) the fee was directly and reasonably incurred in proving an actual violation of the plaintiff's rights protected by a statute pursuant to which a fee may be awarded under section 1988¹ of this title; and

(B)(i) the amount of the fee is proportionately related to the court ordered relief for the violation; or

(ii) the fee was directly and reasonably incurred in enforcing the relief ordered for the violation.

(2) Whenever a monetary judgment is awarded in an action described in paragraph (1), a portion of the judgment (not to exceed 25 percent) shall be applied to satisfy the amount of attorney's fees awarded against the defendant. If the award of attorney's fees is not greater than 150 percent of the judgment, the excess shall be paid by the defendant.

(3) No award of attorney's fees in an action described in paragraph (1) shall be based on an hourly rate greater than 150 percent of the hourly rate established under section 3006A of title 18 for payment of court-appointed counsel.

(4) Nothing in this subsection shall prohibit a prisoner from entering into an agreement to pay an attorney's fee in an amount greater than the amount authorized under this subsection, if the fee is paid by the individual rather than by the defendant pursuant to section 1988¹ of this title.

(e) Limitation on recovery

No Federal civil action may be brought by a prisoner confined in a jail, prison, or other correctional facility, for mental or emotional injury suffered while in custody without a prior showing of physical injury.

(2) Subject to the agreement of the official of the Federal, State, or local unit of government with custody over the prisoner, hearings may be conducted at the facility in which the prisoner is confined. To the extent practicable, the court shall allow counsel to participate by telephone, video conference, or other communications technology in any hearing held at the facility.

(g) Waiver of reply

(1) Any defendant may waive the right to reply to any action brought by a prisoner confined in any jail, prison, or other correctional facility under section 1983 of this title or any other Federal law. Notwithstanding any other law or rule of procedure, such waiver shall not constitute an admission of the allegations contained in the complaint. No relief shall be granted to the plaintiff unless a reply has been filed.

(2) The court may require any defendant to reply to a complaint brought under this section if it finds that the plaintiff has a reasonable opportunity to prevail on the merits.

(h) "Prisoner" defined

It is the further intention of Congress that where Federal funds are available for use in improving such institutions, priority should be given to the correction or elimination of such unconstitutional or illegal conditions which may exist. It is not the intent of this provision to require the redirection of funds from one program to another or from one State to another.

Under and by virtue of the authority vested in me as President of the United States by the Constitution and statutes of the United States, it is ordered as follows:

PART I—NONDISCRIMINATION IN GOVERNMENT
EMPLOYMENT

[Superseded. Ex. Ord. No. 11478, eff. Aug. 8, 1969, 34 F.R. 12985.]

PART II—NONDISCRIMINATION IN EMPLOYMENT BY
GOVERNMENT CONTRACTORS AND SUBCONTRACTORS

SUBPART A—DUTIES OF THE SECRETARY OF LABOR

SEC. 201. The Secretary of Labor shall be responsible for the administration and enforcement of Parts II and III of this Order. The Secretary shall adopt such rules and regulations and issue such orders as are deemed necessary and appropriate to achieve the purposes of Parts II and III of this Order.

SUBPART B—CONTRACTORS' AGREEMENTS

SEC. 202. Except in contracts exempted in accordance with Section 204 of this Order, all Government contracting agencies shall include in every Government contract hereafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

"(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

"(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.

"(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(4) The contractor will comply with all provisions of Executive Order No. 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(5) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or

with any of such rules, regulations, or orders, this contract may be cancelled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of Sept. 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

"(7) The contractor will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965 [section 204 of this Order] so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance; *Provided, however*, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States."

SEC. 203. (a) Each contractor having a contract containing the provisions prescribed in Section 202 shall file, and shall cause each of his subcontractors to file, Compliance Reports with the contracting agency or the Secretary of Labor as may be directed. Compliance Reports shall be filed within such times and shall contain such information as to the practices, policies, programs, and employment policies, programs, and employment statistics of the contractor and each subcontractor, and shall be in such form, as the Secretary of Labor may prescribe.

(b) Bidders or prospective contractors or subcontractors may be required to state whether they have participated in any previous contract subject to the provisions of this Order, or any preceding similar Executive order, and in that event to submit, on behalf of themselves and their proposed subcontractors, Compliance Reports prior to or as an initial part of their bid or negotiation of a contract.

(c) Whenever the contractor or subcontractor has a collective bargaining agreement or other contract or understanding with a labor union or an agency referring workers or providing or supervising apprenticeship or training for such workers, the Compliance Report shall include such information as to such labor union's or agency's practices and policies affecting compliance as the Secretary of Labor may prescribe: *Provided*, That to the extent such information is within the exclusive possession of a labor union or any agency referring workers or providing or supervising apprenticeship or training and such labor union or agency shall refuse to furnish such information to the contractor, the contractor shall so certify to the Secretary of Labor as part of its Compliance Report and shall set forth what efforts he has made to obtain such information.

(d) The Secretary of Labor may direct that any bidder or prospective contractor or subcontractor shall submit, as part of his Compliance Report, a statement in writing, signed by an authorized officer or agent on behalf of any labor union or any agency referring workers or providing or supervising apprenticeship or other training, with which the bidder or prospective contractor deals, with supporting information, to the effect that the signer's practices and policies do not discriminate on the grounds of race, color, religion, sex or national origin, and that the signer either will affirmatively cooperate in the implementation of the policy and provisions of this order or that it consents and agrees that recruitment, employment, and the terms and conditions of employment under the proposed contract shall be in accordance with the purposes and provisions of the order. In the event that the union, or the agency shall refuse to execute such a statement, the

Compliance Report shall so certify and set forth what efforts have been made to secure such a statement and such additional factual material as the Secretary of Labor may require.

SEC. 204. The Secretary of Labor may, when he deems that special circumstances in the national interest so require, exempt a contracting agency from the requirement of including any or all of the provisions of Section 202 of this Order in any specific contract, sub-contract, or purchase order. The Secretary of Labor may, by rule or regulation, also exempt certain classes of contracts, subcontracts, or purchase orders (1) whenever work is to be or has been performed outside the United States and no recruitment of workers within the limits of the United States is involved; (2) for standard commercial supplies or raw materials; (3) involving less than specified amounts of money or specified numbers of workers; or (4) to the extent that they involve subcontracts below a specified tier. The Secretary of Labor may also provide, by rule, regulation, or order, for the exemption of facilities of a contractor which are in all respects separate and distinct from activities of the contractor related to the performance of the contract: *Provided*, That such an exemption will not interfere with or impede the effectuation of the purposes of this order: *And provided further*, That in the absence of such an exemption all facilities shall be covered by the provisions of this Order.

SUBPART C—POWERS AND DUTIES OF THE SECRETARY OF LABOR AND THE CONTRACTING AGENCIES

SEC. 205. The Secretary of Labor shall be responsible for securing compliance by all Government contractors and subcontractors with this Order and any implementing rules or regulations. All contracting agencies shall comply with the terms of this Order and any implementing rules, regulations, or orders of the Secretary of Labor. Contracting agencies shall cooperate with the Secretary of Labor and shall furnish such information and assistance as the Secretary may require.

SEC. 206. Such investigation shall be conducted in accordance with the procedures established by the Secretary of Labor.

(b) The Secretary of Labor may receive and investigate complaints by employees or prospective employees of a Government contractor or subcontractor which allege discrimination contrary to the contractual provisions specified in Section 202 of this Order.

SEC. 207. The Secretary of Labor shall use his best efforts, directly and through interested Federal, State, and local agencies, contractors, and all other available instrumentalities to cause any labor union engaged in work under Government contracts or any agency referring workers or providing or supervising apprenticeship or training for or in the course of such work to cooperate in the implementation of the purposes of this Order. The Secretary of Labor shall, in appropriate cases, notify the Equal Employment Opportunity Commission, the Department of Justice, or other appropriate Federal agencies whenever it has reason to believe that the practices of any such labor organization or agency violate Title VI or Title VII of the Civil Rights Act of 1964 [sections 2000d to 2000d-4 of this title and this subchapter] or other provision of Federal law.

SEC. 208. (a) The Secretary of Labor, or any agency, officer, or employee in the executive branch of the Government designated by rule, regulation, or order of the Secretary, may hold such hearings, public or private, as the Secretary may deem advisable for compliance, enforcement, or educational purposes.

(b) The Secretary of Labor may hold, or cause to be held, hearings in accordance with Subsection (a) of this Section prior to imposing, ordering, or recommending the imposition of penalties and sanctions under this Order. No order for debarment of any contractor from further Government contracts under Section 209(a)(6)

shall be made without affording the contractor an opportunity for a hearing.

(2) Recommend to the Department of Justice that, in cases in which there is substantial or material violation or the threat of substantial or material violation of the contractual provisions set forth in Section 202 of this Order, appropriate proceedings be brought to enforce those provisions, including the enjoining, within the limitations of applicable law, of organizations, individuals, or groups who prevent directly or indirectly, or seek to prevent directly or indirectly, compliance with the provisions of this Order.

(3) Recommend to the Equal Employment Opportunity Commission or the Department of Justice that appropriate proceedings be instituted under Title VII of the Civil Rights Act of 1964 [this subchapter].

(4) Recommend to the Department of Justice that criminal proceedings be brought for the furnishing of false information to any contracting agency or to the Secretary of Labor as the case may be.

(5) After consulting with the contracting agency, direct the contracting agency to cancel, terminate, suspend, or cause to be cancelled, terminated, or suspended, any contract, or any portion or portions thereof, for failure of the contractor or subcontractor to comply with equal employment opportunity provisions of the contract. Contracts may be cancelled, terminated, or suspended absolutely or continuance of contracts may be conditioned upon a program for future compliance approved by the Secretary of Labor.

(6) Provide that any contracting agency shall refrain from entering into further contracts, or extensions or other modifications of existing contracts, with any noncomplying contractor, until such contractor has satisfied the Secretary of Labor that such contractor has established and will carry out personnel and employment policies in compliance with the provisions of this Order.

(b) Pursuant to rules and regulations prescribed by the Secretary of Labor, the Secretary shall make reasonable efforts, within a reasonable time limitation, to secure compliance with the contract provisions of this Order by methods of conference, conciliation, mediation, and persuasion before proceedings shall be instituted under subsection (a)(2) of this Section, or before a contract shall be cancelled or terminated in whole or in part under subsection (a)(5) of this Section.

SEC. 210. Whenever the Secretary of Labor makes a determination under Section 209, the Secretary shall promptly notify the appropriate agency. The agency shall take the action directed by the Secretary and shall report the results of the action it has taken to the Secretary of Labor within such time as the Secretary shall specify. If the contracting agency fails to take the action directed within thirty days, the Secretary may take the action directly.

SEC. 211. If the Secretary of Labor shall so direct, contracting agencies shall not enter into contracts with any bidder or prospective contractor unless the bidder or prospective contractor has satisfactorily complied with the provisions of this Order or submits a program for compliance acceptable to the Secretary of Labor.

SEC. 212. When a contract has been cancelled or terminated under Section 209(a)(5) or a contractor has been debarred from further Government contracts under Section 209(a)(6) of this Order, because of non-compliance with the contract provisions specified in Section 202 of this Order, the Secretary of Labor shall promptly notify the Comptroller General of the United States.

The Secretary of Labor may provide for issuance of a United States Government Certificate of Merit to employers or labor unions, or other agencies which are or may hereafter be engaged in work under Government contracts, if the Secretary is satisfied that the personnel and employment practices of the employer, or that the personnel, training, apprenticeship, membership, grievance and representation, upgrading, and other practices, and policies of the labor union or other agency conform to the purposes and provisions of this Order.

SEC. 214. Any Certificate of Merit may at any time be suspended or revoked by the Secretary of Labor if the holder thereof, in the judgment of the Secretary, has failed to comply with the provisions of this Order.

SEC. 304. Any executive department or agency which imposes by rule, regulation, or order requirements of nondiscrimination in employment, other than requirements imposed pursuant to this Order, may delegate to the Secretary of Labor by agreement such responsibilities with respect to compliance standards, reports, and procedures as would tend to bring the administration of such requirements into conformity with the administration of requirements imposed under this Order: *Provided*, That actions to effect compliance by recipients of Federal financial assistance with requirements imposed pursuant to Title VI of the Civil Rights Act of 1964 [sections 2000d to 2000d-4 of this title] shall be taken in conformity with the procedures and limitations prescribed in Section 602 thereof [section 2000d-1 of this title] and the regulations of the administering department or agency issued thereunder.

(b) develop uniform standards and procedures for investigations and compliance reviews to be conducted by Federal departments and agencies under any Federal statute, Executive order, regulation or policy requiring equal employment opportunity;

(c) develop procedures with the affected agencies, including the use of memoranda of understanding, to minimize duplicative investigations or compliance reviews of particular employers or classes of employers or others covered by Federal statutes, Executive orders, regulations or policies requiring equal employment opportunity;

(d) ensure that Federal departments and agencies develop their own standards and procedures for undertaking enforcement actions when compliance with equal employment opportunity requirements of any Federal statute, Executive order, regulation or policy cannot be secured by voluntary means;

(e) develop uniform record-keeping and reporting requirements concerning employment practices to be utilized by all Federal departments and agencies having equal employment enforcement responsibilities;

1-303. The Equal Employment Opportunity Commission shall issue such rules, regulations, policies, procedures or orders as it deems necessary to carry out its responsibilities under this order. It shall advise and offer to consult with the affected Federal departments and agencies during the development of any proposed rules, regulations, policies, procedures or orders and shall formally submit such proposed issuances to affected departments and agencies at least 15 working days prior to public announcement. The Equal Employment Opportunity Commission shall use its best efforts to reach agreement with the agencies on matters in dispute. Departments and agencies shall comply with all final rules, regulations, policies, procedures or orders of the Equal Employment Opportunity Commission.

Departments and agencies shall formally submit such proposed issuances to the Equal Employment Opportunity

Commission and other interested Federal departments and agencies at least 15 working days prior to public announcement. The Equal Employment Opportunity Commission shall review such proposed rules, regulations, policies, procedures or orders to ensure consistency among the operations of the various Federal departments and agencies. Issuances related to internal management and administration are exempt from this clearance process. Case handling procedures unique to a single program also are exempt, although the Equal Employment Opportunity Commission may review such procedures in order to assure maximum consistency within the Federal equal employment opportunity program.

1-305. Before promulgating significant rules, regulations, policies, procedures or orders involving equal employment opportunity, the Commission and affected departments and agencies shall afford the public an opportunity to comment.

Use of the dispute resolution mechanism contained in Subsections (b) and (c) of this Section should be resorted to only in extraordinary circumstances.

(b) Whenever a dispute which cannot be resolved through good faith efforts arises between the Equal Employment Opportunity Commission and another Federal department or agency concerning the issuance of an equal employment opportunity rule, regulation, policy, procedure, order or any matter covered by this Order, the Chairman of the Equal Employment Opportunity Commission or the head of the affected department or agency may refer the matter to the Executive Office of the President. Such reference must be in writing and may not be made later than 15 working days following receipt of the initiating agency's notice of intent publicly to announce an equal employment opportunity rule, regulation, policy, procedure or order. If no reference is made within the 15 day period, the decision of the agency which initiated the proposed issuance will become effective.

(c) Following reference of a disputed matter to the Executive Office of the President, the Assistant to the President for Domestic Affairs and Policy (or such other official as the President may designate) shall designate an official within the Executive Office of the President to meet with the affected agencies to resolve the dispute within a reasonable time.

(b) Paragraph (7) of the contract clauses specified in Section 202 of Executive Order No. 11246, as amended, is amended to read:

"(7) The contractor will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided, however*, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States."

"SEC. 205. The Secretary of Labor shall be responsible for securing compliance by all Government contractors and subcontractors with this Order and any implementing rules or regulations. All contracting agencies shall comply with the terms of this Order and any implementing rules, regulations, or orders of the Secretary of Labor. "(5) After consulting with the contracting agency, direct the contracting agency to cancel, terminate, suspend, or cause to be cancelled, terminated, or suspended, any contract, or any portion or portions thereof, for failure of the contractor or subcontractor to comply with equal employment opportunity provisions of the contract. Contracts may be cancelled, terminated, or suspended absolutely or continuance of contracts may be conditioned upon a program for future compliance approved by the Secretary of Labor."

1-209. In order to reflect the transfer from the agencies to the Secretary of Labor of the enforcement functions, substitute "Secretary of Labor" for "each contracting agency" in Section 209(b) of Executive Order No. 11246, as amended, so that Section 209(b) is amended to read:

"(b) Pursuant to rules and regulations prescribed by the Secretary of Labor, the Secretary shall make reasonable efforts, within a reasonable time limitation, to secure compliance with the contract provisions of this Order by methods of conference, conciliation, mediation, and persuasion before proceedings shall be instituted under subsection (a)(2) of this Section, or before a contract shall be cancelled or terminated in whole or in part under subsection (a)(5) of this Section."

The agency shall take the action directed by the Secretary and shall report the results of the action it has taken to the Secretary of Labor within such time as the Secretary shall specify. If the contracting agency fails to take the action directed within thirty days, the Secretary may take the action directly.”

“SEC. 211. If the Secretary of Labor shall so direct, contracting agencies shall not enter into contracts with any bidder or prospective contractor unless the bidder or prospective contractor has satisfactorily complied with the provisions of this Order or submits a program for compliance acceptable to the Secretary of Labor.”

1-211. Section 212 of Executive Order No. 11246, as amended, is amended to read:

“SEC. 212. When a contract has been cancelled or terminated under Section 209(a)(5) or a contractor has been debarred from further Government contracts under Section 209(a)(6) of this Order, because of non-compliance with the contract provisions specified in Section 202 of this Order, the Secretary of Labor shall promptly notify the Comptroller General of the United States.”

1-212. In order to reflect the transfer of enforcement responsibility to the Secretary of Labor, references to the administering department or agency are deleted in clauses (1), (2), and (3) of Section 301 of Executive Order No. 11246, as amended, and those clauses are amended to read:

“(1) to assist and cooperate actively with the Secretary of Labor in obtaining the compliance of contractors and subcontractors with those contract provisions and with the rules, regulations and relevant orders of the Secretary, (2) to obtain and to furnish to the Secretary of Labor such information as the Secretary may require for the supervision of such compliance, (3) to carry out sanctions and penalties for violation of such obligations imposed upon contractors and subcontractors by the Secretary of Labor pursuant to Part II, Subpart D, of this Order.”

1-213. In order to reflect the transfer from the agencies to the Secretary of Labor of the enforcement functions “Secretary of Labor” shall be substituted for “administering department or agency” in Section 303 of Executive Order No. 11246, as amended, and Section 303 is amended to read:

“(c) In no case shall action be taken with respect to an applicant pursuant to clause (1) or (2) of subsection (b) without notice and opportunity for hearing.”

1-214. Section 401 of Executive Order No. 11246, as amended, is amended to read:

(k) Burden of proof in disparate impact cases

(1)(A) An unlawful employment practice based on disparate impact is established under this subchapter only if—

(i) a complaining party demonstrates that a respondent uses a particular employment practice that causes a disparate impact on the basis of race, color, religion, sex, or national origin and the respondent fails to demonstrate that the challenged practice is job related for the position in question and consistent with business necessity; or

(ii) the complaining party makes the demonstration described in subparagraph (C) with respect to an alternative employment practice and the respondent refuses to adopt such alternative employment practice.

(B)(i) With respect to demonstrating that a particular employment practice causes a disparate impact as described in subparagraph (A)(i), the complaining party shall demonstrate that each particular challenged employment practice causes a disparate impact, except that if the complaining party can demonstrate to the court that the elements of a respondent's decision-making process are not capable of separation for analysis, the decisionmaking process may be analyzed as one employment practice.

(ii) If the respondent demonstrates that a specific employment practice does not cause the disparate impact, the respondent shall not be required to demonstrate that such practice is required by business necessity.

(C) The demonstration referred to by subparagraph (A)(ii) shall be in accordance with the law as it existed on June 4, 1989, with respect to the concept of "alternative employment practice".

(2) A demonstration that an employment practice is required by business necessity may not be used as a defense against a claim of intentional discrimination under this subchapter.

(3) Notwithstanding any other provision of this subchapter, a rule barring the employment of an individual who currently and knowingly uses or possesses a controlled substance, as de-

defined in schedules I and II of section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)), other than the use or possession of a drug taken under the supervision of a licensed health care professional, or any other use or possession authorized by the Controlled Substances Act [21 U.S.C. 801 et seq.] or any other provision of Federal law, shall be considered an unlawful employment practice under this subchapter only if such rule is adopted or applied with an intent to discriminate because of race, color, religion, sex, or national origin.

(l) Prohibition of discriminatory use of test scores

It shall be an unlawful employment practice for a respondent, in connection with the selection or referral of applicants or candidates for employment or promotion, to adjust the scores of, use different cutoff scores for, or otherwise alter the results of, employment related tests on the basis of race, color, religion, sex, or national origin.

(m) Impermissible consideration of race, color, religion, sex, or national origin in employment practices

Except as otherwise provided in this subchapter, an unlawful employment practice is established when the complaining party demonstrates that race, color, religion, sex, or national origin was a motivating factor for any employment practice, even though other factors also motivated the practice.

(n) Resolution of challenges to employment practices implementing litigated or consent judgments or orders

(1)(A) Notwithstanding any other provision of law, and except as provided in paragraph (2), an employment practice that implements and is within the scope of a litigated or consent judgment or order that resolves a claim of employment discrimination under the Constitution or Federal civil rights laws may not be challenged under the circumstances described in subparagraph (B).

(B) A practice described in subparagraph (A) may not be challenged in a claim under the Constitution or Federal civil rights laws—

(i) by a person who, prior to the entry of the judgment or order described in subparagraph (A), had—

(I) actual notice of the proposed judgment or order sufficient to apprise such person that such judgment or order might adversely affect the interests and legal rights of such person and that an opportunity was available to present objections to such judgment or order by a future date certain; and

(II) a reasonable opportunity to present objections to such judgment or order; or

(ii) by a person whose interests were adequately represented by another person who had previously challenged the judgment or order on the same legal grounds and with a similar factual situation, unless there has been an intervening change in law or fact.

(2) Nothing in this subsection shall be construed to—

(A) alter the standards for intervention under rule 24 of the Federal Rules of Civil Pro-

cedure or apply to the rights of parties who have successfully intervened pursuant to such rule in the proceeding in which the parties intervened;

(B) apply to the rights of parties to the action in which a litigated or consent judgment or order was entered, or of members of a class represented or sought to be represented in such action, or of members of a group on whose behalf relief was sought in such action by the Federal Government;

(C) prevent challenges to a litigated or consent judgment or order on the ground that such judgment or order was obtained through collusion or fraud, or is transparently invalid or was entered by a court lacking subject matter jurisdiction; or

(D) authorize or permit the denial to any person of the due process of law required by the Constitution.

(3) Any action not precluded under this subsection that challenges an employment consent judgment or order described in paragraph (1) shall be brought in the court, and if possible before the judge, that entered such judgment or order. Nothing in this subsection shall preclude a transfer of such action pursuant to section 1404 of title 28.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I am submitting to you today Reorganization Plan No. 1 of 1978. This Plan makes the Equal Employment

Opportunity Commission the principal Federal agency in fair employment enforcement. Together with actions I shall take by Executive Order, it consolidates Federal equal employment opportunity activities and lays, for the first time, the foundation of a unified, coherent Federal structure to combat job discrimination in all its forms.

In 1940 President Roosevelt issued the first Executive Order forbidding discrimination in employment by the Federal government. Since that time the Congress, the courts and the Executive Branch—spurred by the courage and sacrifice of many people and organizations—have taken historic steps to extend equal employment opportunity protection throughout the private as well as public sector. But each new prohibition against discrimination unfortunately has brought with it a further dispersal of Federal equal employment opportunity responsibility. This fragmentation of authority among a number of Federal agencies has meant confusion and ineffective enforcement for employees, regulatory duplication and needless expense for employers.

Fair employment is too vital for haphazard enforcement. My Administration will aggressively enforce our civil rights laws. Although discrimination in any area has severe consequences, limiting economic opportunity affects access to education, housing and health care. I, therefore, ask you to join with me to reorganize administration of the civil rights laws and to begin that effort by reorganizing the enforcement of those laws which ensure an equal opportunity to a job.

Eighteen government units now exercise important responsibilities under statutes, Executive Orders and regulations relating to equal employment opportunity:

The Equal Employment Opportunity Commission (EEOC) enforces Title VII of the Civil Rights Act of 1964, [section 2000e et seq. of this title] which bans employment discrimination based on race, national origin, sex or religion. The EEOC acts on individual complaints and also initiates private sector cases involving a “pattern or practice” of discrimination.

The Department of Labor and 11 other agencies enforce Executive Order 11246 [set out as a note under section 2000e of this title]. This prohibits discrimination in employment on the basis of race, national origin, sex, or religion and requires affirmative action by government contractors. While the Department now coordinates enforcement of this “contract compliance” program, it is actually administered by eleven other departments and agencies. The Department also administers those statutes requiring contractors to take affirmative action to employ handicapped people, disabled veterans and Vietnam veterans.

In addition, the Labor Department enforces the Equal Pay Act of 1963 [section 206(d) of Title 29, Labor], which prohibits employers from paying unequal wages based on sex, and the Age Discrimination in Employment Act of 1967 [section 621 et seq. of Title 29], which forbids age discrimination against persons between the ages of 40 and 65.

The Department of Justice litigates Title VII cases involving public sector employers—State and local governments. The Department also represents the Federal government in lawsuits against Federal contractors and grant recipients who are in violation of Federal nondiscrimination prohibitions.

The Civil Service Commission (CSC) enforces Title VII and all other nondiscrimination and affirmative action requirements for Federal employment. The CSC rules on complaints filed by individuals and monitors affirmative action plans submitted annually by other Federal agencies.

The Equal Employment Opportunity Coordinating Council includes representatives from EEOC, Labor, Justice, CSC and the Civil Rights Commission. It is charged with coordinating the Federal equal employment opportunity enforcement effort and with eliminating overlap and inconsistent standards.

In addition to these major government units, other agencies enforce various equal employment opportunity requirements which apply to specific grant pro-

grams. The Department of the Treasury, for example, administers the anti-discrimination prohibitions applicable to recipients of revenue sharing funds.

These programs have had only limited success. Some of the past deficiencies include:

- inconsistent standards of compliance;
- duplicative, inconsistent paperwork requirements and investigative efforts;
- conflicts within agencies between their program responsibilities and their responsibility to enforce the civil rights laws;
- confusion on the part of workers about how and where to seek redress;
- lack of accountability.

I am proposing today a series of steps to bring coherence to the equal employment enforcement effort. These steps, to be accomplished by the Reorganization Plan and Executive Orders, constitute an important step toward consolidation of equal employment opportunity enforcement. They will be implemented over the next two years, so that the agencies involved may continue their internal reform.

Its experience and broad scope make the EEOC suitable for the role of principal Federal agency in fair employment enforcement. Located in the Executive Branch and responsible to the President, the EEOC has developed considerable expertise in the field of employment discrimination since Congress created it by the Civil Rights Act of 1964 [section 2000e-4 of this title]. The Commission has played a pioneer role in defining both employment discrimination and its appropriate remedies.

While it has had management problems in past administrations, the EEOC's new leadership is making substantial progress in correcting them. In the last seven months the Commission has redesigned its internal structures and adopted proven management techniques. Early experience with these procedures indicates a high degree of success in reducing and expediting new cases. At my direction, the Office of Management and Budget is actively assisting the EEOC to ensure that these reforms continue.

The Reorganization Plan I am submitting will accomplish the following:

On July 1, 1978, abolish the Equal Employment Opportunity Coordinating Council (42 U.S.C. 2000e-14) and transfer its duties to the EEOC (no positions or funds shifted).

On October 1, 1978, shift enforcement of equal employment opportunity for Federal employees from the CSC to the EEOC (100 positions and \$6.5 million shifted).

On July 1, 1979, shift responsibility for enforcing both the Equal Pay Act and the Age Discrimination in Employment Act from the Labor Department to the EEOC (198 positions and \$5.3 million shifted for Equal Pay; 119 positions and \$3.5 million for Age Discrimination).

Clarify the Attorney General's authority to initiate "pattern or practice" suits under Title VII in the public sector.

In addition, I will issue an Executive Order on October 1, 1978, to consolidate the contract compliance program—now the responsibility of Labor and eleven "compliance agencies"—into the Labor Department (1,517 positions and \$33.1 million shifted).

These proposed transfers and consolidations reduce from fifteen to three the number of Federal agencies having important equal employment opportunity responsibilities under Title VII of the Civil Rights Act of 1964 and Federal contract compliance provisions.

Each element of my Plan is important to the success of the entire proposal.

By abolishing the Equal Employment Opportunity Coordinating Council and transferring its responsibilities to the EEOC, this plan places the Commission at the center of equal employment opportunity enforcement. With these new responsibilities, the EEOC can give coherence and direction to the government's efforts by developing strong uniform enforcement standards to apply throughout the government: standardized data collection procedures, joint training programs,

programs to ensure the sharing of enforcement related data among agencies, and methods and priorities for complaint and compliance reviews. Such direction has been absent in the Equal Employment Opportunity Coordinating Council.

It should be stressed, however, that affected agencies will be consulted before EEOC takes any action. When the Plan has been approved, I intend to issue an Executive Order which will provide for consultation, as well as a procedure for reviewing major disputed issues within the Executive Office of the President. The Attorney General's responsibility to advise the Executive Branch on legal issues will also be preserved.

Transfer of the Civil Service Commission's equal employment opportunity responsibilities to EEOC is needed to ensure that: (1) Federal employees have the same rights and remedies as those in the private sector and in State and local government; (2) Federal agencies meet the same standards as are required of other employers; and (3) potential conflicts between an agency's equal employment opportunity and personnel management functions are minimized. The Federal government must not fall below the standard of performance it expects of private employers.

The Civil Service Commission has in the past been lethargic in enforcing fair employment requirements within the Federal government. While the Chairman and other Commissioners I have appointed have already demonstrated their personal commitment to expanding equal employment opportunity, responsibility for ensuring fair employment for Federal employees should rest ultimately with the EEOC.

We must ensure that the transfer in no way undermines the important objectives of the comprehensive civil service reorganization which will be submitted to Congress in the near future. When the two plans take effect; I will direct the EEOC and the CSC to coordinate their procedures to prevent any duplication and overlap.

The Equal Pay Act now administered by the Labor Department, prohibits employers from paying unequal wages based on sex. Title VII of the Civil Rights Act, which is enforced by EEOC, contains a broader ban on sex discrimination. The transfer of Equal Pay responsibility from the Labor Department to the EEOC will minimize overlap and centralize enforcement of statutory prohibitions against sex discrimination in employment.

The transfer will strengthen efforts to combat sex discrimination. Such efforts would be enhanced still further by passage of the legislation pending before you, which I support, that would prohibit employers from excluding women disabled by pregnancy from participating in disability programs.

There is now virtually complete overlap in the employers, labor organizations, and employment agencies covered by Title VII and by the Age Discrimination in Employment Act. This overlap is burdensome to employers and confusing to victims of discrimination. The proposed transfer of the age discrimination program from the Labor Department to the EEOC will eliminate the duplication.

The Plan I am proposing will not affect the Attorney General's responsibility to enforce Title VII against State or local governments or to represent the Federal government in suits against Federal contractors and grant recipients. In 1972, the Congress determined that the Attorney General should be involved in suits against State and local governments. This proposal reinforces that judgment and clarifies the Attorney General's authority to initiate litigation against State or local governments engaged in a "pattern or practice" of discrimination. This in no way diminishes the EEOC's existing authority to investigate complaints filed against State or local governments and, where appropriate, to refer them to the Attorney General. The Justice Department and the EEOC will cooperate so that the Department sues on valid referrals, as well as on its own "pattern or practice" cases.

A critical element of my proposals will be accomplished by Executive Order rather than by the Reorga-

nization Plan. This involves consolidation in the Labor Department of the responsibility to ensure that Federal contractors comply with Executive Order 11246. Consolidation will achieve the following: promote consistent standards, procedures, and reporting requirements; remove contractors from the jurisdiction of multiple agencies; prevent an agency's equal employment objectives from being outweighed by its procurement and construction objectives; and produce more effective law enforcement through unification of planning, training and sanctions. By 1981, after I have had an opportunity to review the manner in which both the EEOC and the Labor Department are exercising their new responsibilities, I will determine whether further action is appropriate.

Finally, the responsibility for enforcing grant-related equal employment provisions will remain with the agencies administering the grant programs. With the EEOC acting as coordinator of Federal equal employment programs, we will be able to bring overlap and duplication to a minimum. We will be able, for example, to see that a university's employment practices are not subject to duplicative investigations under both Title IX of the Education Amendments of 1972 [section 1681 et seq. of Title 20, Education] and the contract compliance program. Because of the similarities between the Executive Order program and those statutes requiring Federal contractors to take affirmative action to employ handicapped individuals and disabled and Vietnam veterans, I have determined that enforcement of these statutes should remain in the Labor Department.

Each of the changes set forth in the Reorganization Plan accompanying this message is necessary to accomplish one or more of the purposes set forth in Section 901(a) of Title 5 of the United States Code. I have taken care to determine that all functions abolished by the Plan are done only under the statutory authority provided by Section 903(b) of Title 5 of the United States Code.

I do not anticipate that the reorganizations contained in this Plan will result in any significant change in expenditures. They will result in a more efficient and manageable enforcement program.

The Plan I am submitting is moderate and measured. It gives the Equal Employment Opportunity Commission—an agency dedicated solely to this purpose—the primary Federal responsibility in the area of job discrimination, but it is designed to give this agency sufficient time to absorb its new responsibilities. This reorganization will produce consistent agency standards, as well as increased accountability. Combined with the intense commitment of those charged with these responsibilities, it will become possible for us to accelerate this nation's progress in ensuring equal job opportunities for all our people.

§ 2000e-5. Enforcement provisions

(a) Power of Commission to prevent unlawful employment practices

The Commission is empowered, as hereinafter provided, to prevent any person from engaging in any unlawful employment practice as set forth in section 2000e-2 or 2000e-3 of this title.

(b) Charges by persons aggrieved or member of Commission of unlawful employment practices by employers, etc.; filing; allegations; notice to respondent; contents of notice; investigation by Commission; contents of charges; prohibition on disclosure of charges; determination of reasonable cause; conference, conciliation, and persuasion for elimination of unlawful practices; prohibition on disclosure of informal endeavors to end unlawful practices; use of evidence in subsequent proceedings; penalties for disclosure of information; time for determination of reasonable cause

Whenever a charge is filed by or on behalf of a person claiming to be aggrieved, or by a member of the Commission, alleging that an employer, employment agency, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining, including on-the-job training programs, has engaged in an unlawful employment practice, the Commission shall serve a notice of the charge (including the date, place and circumstances of the alleged unlawful employment practice) on such employer, employment agency, labor organization, or joint labor-management committee (hereinafter referred to as the "respondent") within ten days, and shall make an investigation thereof. Charges shall be in

writing under oath or affirmation and shall contain such information and be in such form as the Commission requires. Charges shall not be made public by the Commission. If the Commission determines after such investigation that there is not reasonable cause to believe that the charge is true, it shall dismiss the charge and promptly notify the person claiming to be aggrieved and the respondent of its action. In determining whether reasonable cause exists, the Commission shall accord substantial weight to final findings and orders made by State or local authorities in proceedings commenced under State or local law pursuant to the requirements of subsections (c) and (d) of this section. If the Commission determines after such investigation that there is reasonable cause to believe that the charge is true, the Commission shall endeavor to eliminate any such alleged unlawful employment practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during and as a part of such informal endeavors may be made public by the Commission, its officers or employees, or used as evidence in a subsequent proceeding without the written consent of the persons concerned. Any person who makes public information in violation of this subsection shall be fined not more than \$1,000 or imprisoned for not more than one year, or both. The Commission shall make its determination on reasonable cause as promptly as possible and, so far as practicable, not later than one hundred and twenty days from the filing of the charge or, where applicable under subsection (c) or (d) of this section, from the date upon which the Commission is authorized to take action with respect to the charge.

(c) State or local enforcement proceedings; notification of State or local authority; time for filing charges with Commission; commencement of proceedings

In the case of an alleged unlawful employment practice occurring in a State, or political subdivision of a State, which has a State or local law prohibiting the unlawful employment practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, no charge may be filed under subsection (a)¹ of this section by the person aggrieved before the expiration of sixty days after proceedings have been commenced under the State or local law, unless such proceedings have been earlier terminated, provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective date of such State or local law. If any requirement for the commencement of such proceedings is imposed by a State or local authority other than a requirement of the filing of a written and signed statement of the facts upon which the proceeding is based, the proceeding shall be deemed to have been commenced for the purposes of this subsection at the time such statement is sent by registered mail to the appropriate State or local authority.

¹ So in original. Probably should be subsection "(b)".

(d) State or local enforcement proceedings; notification of State or local authority; time for action on charges by Commission

In the case of any charge filed by a member of the Commission alleging an unlawful employment practice occurring in a State or political subdivision of a State which has a State or local law prohibiting the practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, the Commission shall, before taking any action with respect to such charge, notify the appropriate State or local officials and, upon request, afford them a reasonable time, but not less than sixty days (provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective day of such State or local law), unless a shorter period is requested, to act under such State or local law to remedy the practice alleged.

(e) Time for filing charges; time for service of notice of charge on respondent; filing of charge by Commission with State or local agency; seniority system

(1) A charge under this section shall be filed within one hundred and eighty days after the alleged unlawful employment practice occurred and notice of the charge (including the date, place and circumstances of the alleged unlawful employment practice) shall be served upon the person against whom such charge is made within ten days thereafter, except that in a case of an unlawful employment practice with respect to which the person aggrieved has initially instituted proceedings with a State or local agency with authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, such charge shall be filed by or on behalf of the person aggrieved within three hundred days after the alleged unlawful employment practice occurred, or within thirty days after receiving notice that the State or local agency has terminated the proceedings under the State or local law, whichever is earlier, and a copy of such charge shall be filed by the Commission with the State or local agency.

(2) For purposes of this section, an unlawful employment practice occurs, with respect to a seniority system that has been adopted for an intentionally discriminatory purpose in violation of this subchapter (whether or not that discriminatory purpose is apparent on the face of the seniority provision), when the seniority system is adopted, when an individual becomes subject to the seniority system, or when a person aggrieved is injured by the application of the seniority system or provision of the system.

(f) Civil action by Commission, Attorney General, or person aggrieved; preconditions; procedure; appointment of attorney; payment of fees, costs, or security; intervention; stay of Federal proceedings; action for appropriate temporary or preliminary relief pending final disposition of charge; jurisdiction and venue of United States courts; designation of judge to hear and determine case; assignment of case for hearing; expedition of case; appointment of master

(1) If within thirty days after a charge is filed with the Commission or within thirty days after expiration of any period of reference under subsection (c) or (d) of this section, the Commission has been unable to secure from the respondent a conciliation agreement acceptable to the Commission, the Commission may bring a civil action against any respondent not a government, governmental agency, or political subdivision named in the charge. In the case of a respondent which is a government, governmental agency, or political subdivision, if the Commission has been unable to secure from the respondent a conciliation agreement acceptable to the Commission, the Commission shall take no further action and shall refer the case to the Attorney General who may bring a civil action against such respondent in the appropriate United States district court. The person or persons aggrieved shall have the right to intervene in a civil action brought by the Commission or the Attorney General in a case involving a government, governmental agency, or political subdivision. If a charge filed with the Commission pursuant to subsection (b) of this section, is dismissed by the Commission, or if within one hundred and eighty days from the filing of such charge or the expiration of any period of reference under subsection (c) or (d) of this section, whichever is later, the Commission has not filed a civil action under this section or the Attorney General has not filed a civil action in a case involving a government, governmental agency, or political subdivision, or the Commission has not entered into a conciliation agreement to which the person aggrieved is a party, the Commission, or the Attorney General in a case involving a government, governmental agency, or political subdivision, shall so notify the person aggrieved and within ninety days after the giving of such notice a civil action may be brought against the respondent named in the charge (A) by the person claiming to be aggrieved or (B) if such charge was filed by a member of the Commission, by any person whom the charge alleges was aggrieved by the alleged unlawful employment practice. Upon application by the complainant and in such circumstances as the court may deem just, the court may appoint an attorney for such complainant and may authorize the commencement of the action without the payment of fees, costs, or security. Upon timely application, the court may, in its discretion, permit the Commission, or the Attorney General in a case involving a government, governmental agency, or political subdivision, to intervene in such civil action upon certification that the case is of general public importance. Upon request, the court may, in its discretion, stay further proceedings for not more than sixty days

pending the termination of State or local proceedings described in subsection (c) or (d) of this section or further efforts of the Commission to obtain voluntary compliance.

(2) Whenever a charge is filed with the Commission and the Commission concludes on the basis of a preliminary investigation that prompt judicial action is necessary to carry out the purposes of this Act, the Commission, or the Attorney General in a case involving a government, governmental agency, or political subdivision, may bring an action for appropriate temporary or preliminary relief pending final disposition of such charge. Any temporary restraining order or other order granting preliminary or temporary relief shall be issued in accordance with rule 65 of the Federal Rules of Civil Procedure. It shall be the duty of a court having jurisdiction over proceedings under this section to assign cases for hearing at the earliest practicable date and to cause such cases to be in every way expedited.

(3) Each United States district court and each United States court of a place subject to the jurisdiction of the United States shall have jurisdiction of actions brought under this subchapter. Such an action may be brought in any judicial district in the State in which the unlawful employment practice is alleged to have been committed, in the judicial district in which the employment records relevant to such practice are maintained and administered, or in the judicial district in which the aggrieved person would have worked but for the alleged unlawful employment practice, but if the respondent is not found within any such district, such an action may be brought within the judicial district in which the respondent has his principal office. For purposes of sections 1404 and 1406 of title 28, the judicial district in which the respondent has his principal office shall in all cases be considered a district in which the action might have been brought.

(4) It shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

(5) It shall be the duty of the judge designated pursuant to this subsection to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited. If such judge has not scheduled the case for trial within one hundred and twenty days after issue has been joined, that judge may appoint a master pursuant to rule 53 of the Federal Rules of Civil Procedure.

(g) Injunctions; appropriate affirmative action; equitable relief; accrual of back pay; reduction of back pay; limitations on judicial orders

(1) If the court finds that the respondent has intentionally engaged in or is intentionally en-

gaging in an unlawful employment practice charged in the complaint, the court may enjoin the respondent from engaging in such unlawful employment practice, and order such affirmative action as may be appropriate, which may include, but is not limited to, reinstatement or hiring of employees, with or without back pay (payable by the employer, employment agency, or labor organization, as the case may be, responsible for the unlawful employment practice), or any other equitable relief as the court deems appropriate. Back pay liability shall not accrue from a date more than two years prior to the filing of a charge with the Commission. Interim earnings or amounts earnable with reasonable diligence by the person or persons discriminated against shall operate to reduce the back pay otherwise allowable.

(2)(A) No order of the court shall require the admission or reinstatement of an individual as a member of a union, or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him of any back pay, if such individual was refused admission, suspended, or expelled, or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex, or national origin or in violation of section 2000e-3(a) of this title.

(B) On a claim in which an individual proves a violation under section 2000e-2(m) of this title and a respondent demonstrates that the respondent would have taken the same action in the absence of the impermissible motivating factor, the court—

(i) may grant declaratory relief, injunctive relief (except as provided in clause (ii)), and attorney's fees and costs demonstrated to be directly attributable only to the pursuit of a claim under section 2000e-2(m) of this title; and

(ii) shall not award damages or issue an order requiring any admission, reinstatement, hiring, promotion, or payment, described in subparagraph (A).

(h) Provisions of chapter 6 of title 29 not applicable to civil actions for prevention of unlawful practices

In furtherance of such cooperative efforts, the Commission may enter into written agreements with such State or local agencies and such agreements may include provisions under which the Commission shall refrain from processing a charge in any cases or class of cases specified in such agreements or under which the Commission shall relieve any person or class of persons in such State or locality from requirements imposed under this section. If the Commission or the court, as the case may be, finds that the application of the regulation or order to the employer, employment agency, or labor organization in question would impose an undue hardship, the Commission or the court, as the case may be, may grant appropriate relief. If any person required to comply with the provisions of this subsection fails or refuses to do so, the United States district court for the district in which such person is found, resides, or transacts business, shall, upon application of the Commission, or the Attorney General in a case involving a government, governmental agency or political subdivision, have jurisdiction to issue to such person an order requiring him to comply.

RELIGIOUS LIBERTY

Pub. L. 103-317, title VI, §610, Aug. 26, 1994, 108 Stat. 1774, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) the liberties protected by our Constitution include religious liberty protected by the first amendment;

“(2) citizens of the United States profess the beliefs of almost every conceivable religion;

“(3) Congress has historically protected religious expression even from governmental action not intended to be hostile to religion;

“(4) the Supreme Court has written that ‘the free exercise of religion means, first and foremost, the right to believe and profess whatever religious doctrine one desires’;

“(5) the Supreme Court has firmly settled that under our Constitution the public expression of ideas may not be prohibited merely because the content of the ideas is offensive to some;

“(6) Congress enacted the Religious Freedom Restoration Act of 1993 [42 U.S.C. 2000bb et seq.] to restate and make clear again our intent and position that religious liberty is and should forever be granted protection from unwarranted and unjustified government intrusions and burdens;

“(7) the Equal Employment Opportunity Commission has written proposed guidelines to title VII of the Civil Rights Act of 1964 [42 U.S.C. 2000e et seq.], published in the Federal Register on October 1, 1993, that expand the definition of religious harassment beyond established legal standards set forth by the Supreme Court, and that may result in the infringement of religious liberty;

“(8) such guidelines do not appropriately resolve issues related to religious liberty and religious expression in the workplace;

“(9) properly drawn guidelines for the determination of religious harassment should provide appropriate guidance to employers and employees and assist in the continued preservation of religious liberty as guaranteed by the first amendment;

“(10) the Commission states in its proposed guidelines that it retains wholly separate guidelines for the determination of sexual harassment because the Commission believes that sexual harassment raises issues about human interaction that are to some extent unique; and

“(11) the subject of religious harassment also raises issues about human interaction that are to some extent unique in comparison to other harassment.

“(b) CATEGORY OF RELIGIOUS HARASSMENT IN PROPOSED GUIDELINES.—For purposes of issuing final regulations under title VII of the Civil Rights Act of 1964 [42 U.S.C. 2000e et seq.] in connection with the proposed guidelines published by the Equal Employment Opportunity Commission on October 1, 1993 (58 Fed. Reg. 51266), the Chairperson of the Equal Employment Opportunity Commission shall ensure that—

“(1) the category of religion shall be withdrawn from the proposed guidelines at this time;

“(2) any new guidelines for the determination of religious harassment shall be drafted so as to make explicitly clear that symbols or expressions of religious belief consistent with the first amendment and the Religious Freedom Restoration Act of 1993 [42 U.S.C. 2000bb et seq.] are not to be restricted and do not constitute proof of harassment;

“(3) the Commission shall hold public hearings on such new proposed guidelines; and

“(4) the Commission shall receive additional public comment before issuing similar new regulations.”

§ 2000e-13. Application to personnel of Commission of sections 111 and 1114 of title 18; punishment for violation of section 1114 of title 18

The provisions of sections 111 and 1114, title 18, shall apply to officers, agents, and employees of the Commission in the performance of their official duties. Notwithstanding the provisions of sections 111 and 1114 of title 18, whoever in violation of the provisions of section 1114 of such title kills a person while engaged in or on account of the performance of his official functions under this Act shall be punished by imprisonment for any term of years or for life.

EX. ORD. NO. 13145. TO PROHIBIT DISCRIMINATION IN FEDERAL EMPLOYMENT BASED ON GENETIC INFORMATION

Ex. Ord. No. 13145, Feb. 8, 2000, 65 F.R. 6877, provided: By the authority vested in me as President of the United States by the Constitution and the laws of the United States of America, it is ordered as follows:

SECTION 1. *Nondiscrimination in Federal Employment on the Basis of Protected Genetic Information.*

1-101. It is the policy of the Government of the United States to provide equal employment opportunity in Federal employment for all qualified persons and to prohibit discrimination against employees based on protected genetic information, or information about a request for or the receipt of genetic services. This policy of equal opportunity applies to every aspect of Federal employment.

1-102. The head of each Executive department and agency shall extend the policy set forth in section 1101 to all its employees covered by section 717 of Title VII of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000e-16).

1-103. Executive departments and agencies shall carry out the provisions of this order to the extent permitted by law and consistent with their statutory and regulatory authorities, and their enforcement mechanisms. The Equal Employment Opportunity Commission shall be responsible for coordinating the policy of the Government of the United States to prohibit discrimination against employees in Federal employment based on protected genetic information, or information about a request for or the receipt of genetic services.

SEC. 2. *Requirements Applicable to Employing Departments and Agencies.*

1-201. Definitions.

(a) The term “employee” shall include an employee, applicant for employment, or former employee covered by section 717 of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000e-16).

(b) Genetic monitoring means the periodic examination of employees to evaluate acquired modifications to their genetic material, such as chromosomal damage or evidence of increased occurrence of mutations, that may have developed in the course of employment due to exposure to toxic substances in the workplace, in order to identify, evaluate, respond to the effects of, or control adverse environmental exposures in the workplace.

(c) Genetic services means health services, including genetic tests, provided to obtain, assess, or interpret genetic information for diagnostic or therapeutic purposes, or for genetic education or counseling.

(d) Genetic test means the analysis of human DNA, RNA, chromosomes, proteins, or certain metabolites in order to detect disease-related genotypes or mutations. Tests for metabolites fall within the definition of “genetic tests” when an excess or deficiency of the metabolites indicates the presence of a mutation or mutations. The conducting of metabolic tests by a department or agency that are not intended to reveal the presence of a mutation shall not be considered a violation of this order, regardless of the results of the tests. Test results revealing a mutation shall, however, be subject to the provisions of this order.

(e) Protected genetic information.

(1) In general, protected genetic information means:

(A) information about an individual’s genetic tests;

(B) information about the genetic tests of an individual’s family members; or

(C) information about the occurrence of a disease, or medical condition or disorder in family members of the individual.

(2) Information about an individual’s current health status (including information about sex, age, physical exams, and chemical, blood, or urine analyses) is not protected genetic information unless it is described in subparagraph (1).

1-202. In discharging their responsibilities under this order, departments and agencies shall implement the following nondiscrimination requirements.

(a) The employing department or agency shall not discharge, fail or refuse to hire, or otherwise discriminate against any employee with respect to the compensation, terms, conditions, or privileges of employment of that employee, because of protected genetic information with respect to the employee, or because of information about a request for or the receipt of genetic services by such employee.

(b) The employing department or agency shall not limit, segregate, or classify employees in any way that would deprive or tend to deprive any employee of employment opportunities or otherwise adversely affect that employee’s status, because of protected genetic information with respect to the employee or because of information about a request for or the receipt of genetic services by such employee.

(c) The employing department or agency shall not request, require, collect, or purchase protected genetic information with respect to an employee, or information about a request for or the receipt of genetic services by such employee.

(d) The employing department or agency shall not disclose protected genetic information with respect to an employee, or information about a request for or the receipt of genetic services by an employee except:

(1) to the employee who is the subject of the information, at his or her request;

(2) to an occupational or other health researcher, if the research conducted complies with the regulations and protections provided for under part 46 of title 45, of the Code of Federal Regulations;

(3) if required by a Federal statute, congressional subpoena, or an order issued by a court of competent jurisdiction, except that if the subpoena or court order was secured without the knowledge of the individual to whom the information refers, the employer shall provide the individual with adequate notice to challenge the subpoena or court order, unless the subpoena or court order also imposes confidentiality requirements; or

(4) to executive branch officials investigating compliance with this order, if the information is relevant to the investigation.

(e) The employing department or agency shall not maintain protected genetic information or information about a request for or the receipt of genetic services in general personnel files; such information shall be treated as confidential medical records and kept separate from personnel files.

SEC. 3. *Exceptions.*

1-301. The following exceptions shall apply to the nondiscrimination requirements set forth in section 1202.

(a) The employing department or agency may request or require information defined in section 1-201(e)(1)(C) with respect to an applicant who has been given a conditional offer of employment or to an employee if:

(1) the request or requirement is consistent with the Rehabilitation Act [of 1973, 29 U.S.C. 701 et seq.] and other applicable law;

(2) the information obtained is to be used exclusively to assess whether further medical evaluation

is needed to diagnose a current disease, or medical condition or disorder, or under the terms of section 1-301(b) of this order;

(3) such current disease, or medical condition or disorder could prevent the applicant or employee from performing the essential functions of the position held or desired; and

(4) the information defined in section 1-201(e)(1)(C) of this order will not be disclosed to persons other than medical personnel involved in or responsible for assessing whether further medical evaluation is needed to diagnose a current disease, or medical condition or disorder, or under the terms of section 1-301(b) of this order.

(b) The employing department or agency may request, collect, or purchase protected genetic information with respect to an employee, or any information about a request for or receipt of genetic services by such employee if:

(1) the employee uses genetic or health care services provided by the employer (other than use pursuant to section 1-301(a) of this order);

(2) the employee who uses the genetic or health care services has provided prior knowing, voluntary, and written authorization to the employer to collect protected genetic information;

(3) the person who performs the genetic or health care services does not disclose protected genetic information to anyone except to the employee who uses the services for treatment of the individual; pursuant to section 1-202(d) of this order; for program evaluation or assessment; for compiling and analyzing information in anticipation of or for use in a civil or criminal legal proceeding; or, for payment or accounting purposes, to verify that the service was performed (but in such cases the genetic information itself cannot be disclosed);

(4) such information is not used in violation of sections 1-202(a) or 1-202(b) of this order.

(c) The employing department or agency may collect protected genetic information with respect to an employee if the requirements of part 46 of title 45 of the Code of Federal Regulations are met.

(d) Genetic monitoring of biological effects of toxic substances in the workplace shall be permitted if all of the following conditions are met:

(1) the employee has provided prior, knowing, voluntary, and written authorization;

(2) the employee is notified when the results of the monitoring are available and, at that time, the employer makes any protected genetic information that may have been acquired during the monitoring available to the employee and informs the employee how to obtain such information;

(3) the monitoring conforms to any genetic monitoring regulations that may be promulgated by the Secretary of Labor; and

(4) the employer, excluding any licensed health care professionals that are involved in the genetic monitoring program, receives results of the monitoring only in aggregate terms that do not disclose the identity of specific employees.

(e) This order does not limit the statutory authority of a Federal department or agency to:

(1) promulgate or enforce workplace safety and health laws and regulations;

(2) conduct or sponsor occupational or other health research that is conducted in compliance with regulations at part 46 of title 45, of the Code of Federal Regulations; or

(3) collect protected genetic information as a part of a lawful program, the primary purpose of which is to carry out identification purposes.

SEC. 4. *Miscellaneous.*

1-401. The head of each department and agency shall take appropriate action to disseminate this policy and, to this end, shall designate a high level official responsible for carrying out its responsibilities under this order.

1-402. Nothing in this order shall be construed to:

(a) limit the rights or protections of an individual under the Rehabilitation Act of 1973 (29 U.S.C. 701, et seq.), the Privacy Act of 1974 (5 U.S.C. 552a), or other applicable law; or

(b) require specific benefits for an employee or dependent under the Federal Employees Health Benefits Program or similar program.

1-403. This order clarifies and makes uniform Administration policy and does not create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its officers or employees, or any other person.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 1 of 1966, prepared in accordance with the Reorganization Act of 1949, as amended, and providing for reorganization of community relations functions in the area of civil rights.

After a careful review of the activities of the Federal agencies involved in the field of civil rights, it became clear that the elimination of duplication and undesirable overlap required the consolidation of certain functions.

As a first step, I issued Executive Orders 11246 and 11247 on September 24, 1965.

Executive Order 11246 simplified and clarified executive branch assignments of responsibility for enforcing civil rights policies and placed responsibility for the Government-wide coordination of the enforcement activities of executive agencies in the Secretary of Labor with respect to employment by Federal contractors and in the Civil Service Commission with respect to employment by Federal agencies.

Executive Order 11247 directed the Attorney General to assist Federal agencies in coordinating their enforcement activities with respect to title VI of the Civil Rights Act of 1964, which prohibits discrimination in federally assisted programs.

As a further step for strengthening the operation and coordination of our civil rights programs, I now recommend transfer of the functions of the Community Relations Service, established in the Department of Commerce under title X of the Civil Rights Act of 1964, to the Attorney General and transfer of the Service, including the Office of Director, to the Department of Justice.

The Community Relations Service was located in the Department of Commerce by the Congress on the assumption that a primary need would be the conciliation of disputes arising out of the public accommodations title of the act. That decision was appropriate on the basis of information available at that time. The need for conciliation in this area has not been as great

as anticipated because of the voluntary progress that has been made by businessmen and business organizations.

To be effective, assistance to communities in the identification and conciliation of disputes should be closely and tightly coordinated. Thus, in any particular situation that arises within a community, representatives of Federal agencies whose programs are involved should coordinate their efforts through a single agency. In recent years, the Civil Rights Division of the Justice Department has played such a coordinating role in many situations, and has done so with great effectiveness.

Placing the Community Relations Service within the Justice Department will enhance the ability of the Justice Department to mediate and conciliate and will insure that the Federal Government speaks with a unified voice in those tense situations where the good offices of the Federal Government are called upon to assist.

In this, as in other areas of Federal operations, we will move more surely and rapidly toward our objectives if we improve Federal organization and the arrangements for interagency coordination. The accompanying reorganization plan has that purpose.

The present distribution of Federal civil rights responsibilities clearly indicates that the activities of the Community Relations Service will fit most appropriately in the Department of Justice.

The Department of Justice has primary program responsibilities in civil rights matters and deep and broad experience in the conciliation of civil rights disputes. Congress has assigned it a major role in the implementation of the Civil Rights Act of 1957, 1960, and 1964, and the Voting Rights Act of 1965. The Department of Justice performs related functions under other acts of Congress. Most of these responsibilities require not only litigation, but also efforts at persuasion, negotiation, and explanation, especially with local governments and law enforcement authorities. In addition, under the Law Enforcement Assistance Act the Department will be supporting local programs in the area of police-community relations.

The test of the effectiveness of an enforcement agency is not how many legal actions are initiated and won, but whether there is compliance with the law. Thus, every such agency necessarily engages in extensive efforts to obtain compliance with the law and the avoidance of disputes. In fact, title VI of the Civil Rights Act of 1964 requires each agency concerned to attempt to obtain compliance by voluntary means before taking further action.

Among the heads of Cabinet departments the President looks principally to the Attorney General for advice and judgment on civil rights issues. The latter is expected to be familiar with civil rights problems in all parts of the Nation and to make recommendations for executive and legislative action.

The Attorney General already has responsibility with respect to a major portion of Federal conciliation efforts in the civil rights field. Under Executive Order 11247, he coordinates the Government-wide enforcement of title VI of the Civil Rights Act of 1964, which relies heavily on the achievement of compliance through persuasion and negotiation.

In the light of these facts, the accompanying reorganization plan would transfer the functions of the Community Relations Service and of its Director to the Attorney General. In so providing, the plan, of course, follows the established pattern of Federal organization by vesting all the transferred powers in the head of the department. The Attorney General will provide for the organization of the Community Relations Service as a separate unit within the Department of Justice.

The functions transferred by the reorganization plan would be carried out with full regard for the provisions of section 1003 of title X of the Civil Rights Act of 1964 relating to (1) cooperation with appropriate State or local, public, or private agencies; (2) the confidentiality of information acquired with the understanding that it

would be so held; and (3) the limitation on the performance of investigative or prosecutive functions by personnel of the Service.

This transfer will benefit both the Department of Justice and the Community Relations Service in the fulfillment of their existing functions.

The Attorney General will benefit in his role as the President's adviser by obtaining an opportunity to anticipate and meet problems before the need for legal action arises.

The Community Relations Service, brought into closer relationship with the Attorney General and the Civil Rights Division of the Department of Justice, will gain by becoming a primary resource in a coordinated effort in civil rights under the leadership of the Attorney General. The Community Relations Service will have direct access to the extensive information, experience, staff, and facilities within the Department and in other Federal agencies.

Finally, the responsibility for coordinating major Government activities under the Civil Rights Act aimed at voluntary and peaceful resolution of discriminatory practices will be centered in one department. Thus, the reorganization will permit the most efficient and effective utilization of resources in this field. Together the Service and the Department will have a larger capacity for accomplishment than they do apart.

Although the reorganizations provided for in the reorganization plan will not of themselves result in immediate savings, the improvement achieved in administration will permit a fuller and more effective utilization of manpower and will in the future allow the performance of the affected functions at lower costs than would otherwise be possible.

After investigation I have found and hereby declare that each organization included in Reorganization Plan No. 1 of 1966 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I recommend that the Congress allow the reorganization plan to become effective.

LYNDON B. JOHNSON.

THE WHITE HOUSE, February 10, 1966.

In any proceeding for criminal contempt arising under title II, III, IV, V, VI, or VII of this Act, the accused, upon demand therefor, shall be entitled to a trial by jury, which shall conform as near as may be to the practice in criminal cases. Upon conviction, the accused shall not be fined more than \$1,000 or imprisoned for more than six months.

No person shall be convicted of criminal contempt hereunder unless the act or omission constituting such contempt shall have been intentional, as required in other cases of criminal contempt.

Nor shall anything herein be construed to deprive courts of their power, by civil contempt proceedings, without a jury, to secure compliance with or to prevent obstruction of, as distinguished from punishment for violations of, any lawful writ, process, order, rule, decree, or command of the court in accordance with the prevailing usages of law and equity, including the power of detention.
