“AUTHORIZATION OF APPROPRIATIONS

“SEC. 131. In order to make the grants to carry out the purposes of section 130, there are authorized to be appropriated \$60,000,000 for the fiscal year ending June 30, 1971, \$105,000,000 for the fiscal year ending June 30, 1972, and \$130,000,000 for the fiscal year ending June 30, 1973.

“STATE ALLOTMENTS

“SEC. 132. (a) (1) From the sums appropriated to carry out the purposes of section 130 for each fiscal year, other than amounts reserved by the Secretary for projects under subsection (e), the several States shall be entitled to allotments determined, in accordance with regulations, on the basis of (A) the population, (B) the extent of need for services and facilities for persons with developmental disabilities, and (C) the financial need, of the respective States; except that the allotment of any State (other than the Virgin Islands, American Samoa, Guam, and the Trust Territory of the Pacific Islands) for any such fiscal year shall not be less than \$100,000 plus, if such fiscal year is later than the fiscal year ending June 30, 1971, and if the sums so appropriated for such fiscal year exceed the amount authorized to be appropriated to carry out such purposes for the fiscal year ending June 30, 1971, an amount which bears the same ratio to \$100,000 as the difference between the amount so appropriated and the amount authorized to be appropriated for the fiscal year ending June 30, 1971, bears to the amount authorized to be appropriated for the fiscal year ending June 30, 1971.

“(2) In determining, for purposes of paragraph (1), the extent of need in any State for services and facilities for persons with developmental disabilities, the Secretary shall take into account the scope and extent of the services specified, pursuant to section 134(b)(5), in the State plan of such State approved under this part.

“(3) Sums allotted to a State for a fiscal year and designated by it for construction and remaining unobligated at the end of such year shall remain available to such State for such purpose for the next fiscal year (and for such year only), in addition to the sums allotted to such State for such next fiscal year: *Provided*, That if the maximum amount which may be specified pursuant to section 134(b)(15) for a year plus any part of the amount so specified pursuant thereto for the preceding fiscal year and remaining unobligated at the end thereof is not sufficient to pay the Federal share of the cost of construction of a specific facility included in the construction program of the State developed pursuant to section 134(b)(13), the amount specified pursuant to such section for such preceding year shall remain available for a second additional year for the purpose of paying the Federal share of the cost of construction of such facility.

“(b) Whenever the State plan approved in accordance with section 134 provides for participation of more than one State agency in administering or supervising the administration of designated portions of the State plan, the State may apportion its allotment among such agencies in a manner which, to the satisfaction of the Secretary, is reasonably related to the responsibilities assigned to such agencies in

carrying out the purposes of this part. Funds so apportioned to State agencies may be combined with other State or Federal funds authorized to be spent for other purposes, provided the purposes of this part will receive proportionate benefit from the combination.

“(c) Whenever the State plan approved in accordance with section 134 provides for cooperative or joint effort between States or between or among agencies, public or private, in more than one State, portions of funds allotted to one or more such cooperating States may be combined in accordance with the agreements between the agencies involved.

“(d) The amount of an allotment to a State for a fiscal year which the Secretary determines will not be required by the State during the period for which it is available for the purpose for which allotted shall be available for reallocation by the Secretary from time to time, on such date or dates as he may fix, to other States with respect to which such a determination has not been made, in proportion to the original allotments of such States for such fiscal year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates such State needs and will be able to use during such period; and the total of such reductions shall be similarly reallocated among the States whose proportionate amounts were not so reduced. Any amount so reallocated to a State for a fiscal year shall be deemed to be a part of its allotment under subsection (a) for such fiscal year.

“(e) Of the sums appropriated pursuant to section 131, such amount as the Secretary may determine, but not more than 10 per centum thereof, shall be available for grants by the Secretary to public or nonprofit private agencies to pay up to 90 per centum of the cost of projects for carrying out the purposes of section 130 which in his judgment are of special national significance because they will assist in meeting the needs of the disadvantaged with developmental disabilities, or will demonstrate new or improved techniques for provision of services for such persons, or are otherwise specially significant for carrying out the purposes of this title.

“NATIONAL ADVISORY COUNCIL ON SERVICES AND FACILITIES FOR THE DEVELOPMENTALLY DISABLED

“SEC. 133. (a) (1) Effective July 1, 1971, there is hereby established a National Advisory Council on Services and Facilities for the Developmentally Disabled (hereinafter referred to as the ‘Council’), which shall consist of twenty members, not otherwise in the regular full-time employ of the United States, to be appointed by the Secretary without regard to the provisions of title 5, United States Code, governing appointments in the competitive civil service.

"(5) (A) provide for the furnishing of services and facilities for persons with developmental disabilities associated with mental retardation, (B) specify the other categories of developmental disabilities (approved by the Secretary) which will be included in the State plan, and (C) describe the quality, extent, and scope of such services as will be provided to eligible persons;

"(6) provide that services and facilities furnished under the plan for persons with developmental disabilities will be in accordance with standards prescribed by regulations, including standards as to the scope and quality of such services and the maintenance and operation of such facilities, except that during fiscal year 1971, the Secretary may waive, in whole or in part, the requirements of this paragraph;

"(8) provide that the State planning and advisory council shall be adequately staffed, and shall include representatives of each of the principal State agencies and representatives of local agencies and nongovernmental organizations and groups concerned with services for persons with developmental disabilities: *Provided*, That at least one-third of the membership of such council shall consist of representatives of consumers of such services;

"(14) set forth the relative need, determined in accordance with regulations prescribed by the Secretary, for the several projects included in the construction program referred to in paragraph (13), and assign priority to the construction of projects, insofar as financial resources available therefor and for maintenance and operation make possible, in the order of such relative need;

"(15) specify the per centum of the State's allotment (under section 132) for any year which is to be devoted to construction of facilities, which per centum shall be not more than 50 per centum of the State's allotment or such lesser per centum as the Secretary may from time to time prescribe;
