“(2) (A) In any case in which the Commissioner determines that satisfactory data for that purpose are available, the grant which a local educational agency in a State is eligible to receive under this subpart for a fiscal year shall (except as provided in paragraph (3)) be determined by multiplying the number of children counted under subsection (c) by 40 per centum of the amount determined under the next sentence. The amount determined under this sentence shall be the average per pupil expenditure in the State except that (i) if the average per pupil expenditure in the State is less than 80 per centum of the average per pupil expenditure in the United States, such amount shall be 80 per centum of the average per pupil expenditure in the United States, or (ii) if the average per pupil expenditure in the State is more than 120 per centum of the average per pupil expenditure in the United States, such amount shall be 120 per centum of the average per pupil expenditure in the United States.

“(B) In any case in which such data are not available, subject to paragraph (3), the grant for any local educational agency in a State shall be determined on the basis of the aggregate amount of such grants for all such agencies in the county or counties in which the school district of the particular agency is located, which aggregate amount shall be equal to the aggregate amount determined under subparagraph (A) for such county or counties, and shall be allocated among those agencies upon such equitable basis as may be determined by the State educational agency in accordance with the basic criteria prescribed by the Commissioner.

Grants for Puerto Rico.

“(C) For each fiscal year, the Commissioner shall determine the percentage which the average per pupil expenditure in Puerto Rico is of the lowest average per pupil expenditure of any of the fifty States. The grant which Puerto Rico shall be eligible to receive under this subpart for a fiscal year (exclusive of any amount received under paragraph (3) (D)) shall be the amount arrived at by multiplying the number of children counted under subsection (c) for Puerto Rico by the product of—

“(i) the percentage determined under the preceding sentence, and

“(ii) 32 per centum of the average per pupil expenditure in the United States.

“(3) (A) Upon determination by the State educational agency that a local educational agency in the State is unable or unwilling to provide for the special educational needs of children described in clause (C) of paragraph (1) of subsection (c), who are living in institutions for neglected or delinquent children, the State educational agency shall, if it assumes responsibility for the special educational needs of such children, be eligible to receive the portion of the allocation to such local educational agency which is attributable to such neglected or delinquent children, but if the State educational agency does not assume such responsibility, any other State or local public agency, as determined by regulations established by the Commissioner, which does assume such responsibility shall be eligible to receive such portion of the allocation.

“(B) In the case of local educational agencies which serve in whole or in part the same geographical area, and in the case of a local educa-

tional agency which provides free public education for a substantial number of children who reside in the school district of another local educational agency, the State educational agency may allocate the amount of the grants for those agencies among them in such manner as it determines will best carry out the purposes of this title.

“(C) In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Commissioner for authority during any particular fiscal year to make the allocations under this part (other than section 117) directly to local educational agencies without regard to the counties. If the Commissioner approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that such allocations will be made using precisely the same factors for determining a grant as are used under this part and that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Commissioner for a final determination.

“(D) (i) From one-half of any amount made available for this subpart for any fiscal year in excess of the amount made available for this subpart for fiscal year 1979, there shall be allotted to each State an amount which bears the same ratio to such excess as the product of—

“(I) the number of children in such State aged five to seventeen, inclusive, from families below 50 per centum of the median national income for four-person families from the 1975 survey of income and education conducted by the Bureau of the Census, multiplied by—

“(II) 40 per centum of the amount determined under the second sentence of paragraph (2) (A) and, in the case of Puerto Rico, the product determined under subparagraph (C) (i) and (ii) of this paragraph.

bears to the sum of such products for all the States.

“(ii) In any case in which the Commissioner finds that a State's percentage decrease in children from low-income families exceeds 25 per centum between the 1970 decennial census, as adjusted, and the 1975 survey of income and education, the Commissioner shall allocate funds based on the most current valid data available or based on a resurvey of the affected State by the Bureau of the Census.

“(iii) From the amount allotted to each State under division (i), the amount which each local educational agency in that State shall be eligible to receive under this subparagraph shall be an amount which bears the same ratio to the total amount allotted to such State under this subparagraph as the amount such local educational agency receives under paragraph (2) bears to the total amount of funds made available to local educational agencies in such State under such paragraph.

“(E) From the remaining one-half of any amount made available for this subpart for any fiscal year in excess of the amount made available for this subpart for fiscal year 1979 after the application of subparagraph (D), there shall be allotted to each State an amount determined in accordance with paragraph (2) of this subsection.

“(4) For purposes of this subsection, the term ‘State’ does not include Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

“(b) **MINIMUM NUMBER OF CHILDREN TO QUALIFY.**—A local educational agency shall be eligible for a basic grant for a fiscal year under

this subpart only if it meets the following requirements with respect to the number of children counted under subsection (c) :

“(1) In any case (except as provided in paragraph (3)) in which the Commissioner determines that satisfactory data for the purpose of this subsection as to the number of such children are available on a school district basis, the number of such children in the school district of such local educational agency shall be at least ten.

“(2) In any other case, except as provided in paragraph (3), the number of such children in the county which includes such local educational agency's school district shall be at least ten.

“(3) In any case in which a county includes a part of the school district of the local educational agency concerned and the Commissioner has not determined that satisfactory data for the purpose of this subsection are available on a school district basis for all the local educational agencies or all the counties into which the school district of the local educational agency concerned extends, the eligibility requirement with respect to the number of such children for such local educational agency shall be determined in accordance with regulations prescribed by the Commissioner for the purposes of this subsection.

“(c) CHILDREN TO BE COUNTED.—(1) (A) The number of children to be counted for purposes of this section, other than for subsection (a) (3) (D), is the aggregate of—

“(i) the number of children aged five to seventeen, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2) (A),

“(ii) the number of children aged five to seventeen, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (2) (B), subject to subparagraph (B) of this paragraph, and

“(iii) the number of children aged five to seventeen, inclusive, in the school district of such agency living in institutions for neglected or delinquent children (other than such institutions operated by the United States) but not counted pursuant to subpart 3 of part B for the purposes of a grant to a State agency, or being supported in foster homes with public funds.

“(B) For the purpose of division (ii) of subparagraph (A) of this paragraph the number of children aged five through seventeen, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (2) (B) shall be reduced by one-third for fiscal year 1979; except that such reduction shall not be applicable with respect to determinations made under section 117(b) of the number of children to be counted under this subsection.

“(2) (A) For the purposes of this section, the Commissioner shall determine the number of children aged five to seventeen, inclusive, from families below the poverty level on the basis of the most recent satisfactory data available from the Department of Commerce for local educational agencies (or, if such data are not available for such agencies, for counties); and in determining the families which are below the poverty level, the Commissioner shall utilize the criteria of poverty used by the Bureau of the Census in compiling the 1970 decennial census.

“(B) For purposes of this section, the Secretary shall determine the number of children aged five to seventeen, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current cri-

teria of poverty, from payments under the program of aid to families with dependent children under a State plan approved under title IV of the Social Security Act; and in making such determinations the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the 1970 decennial census for a nonfarm family of four in such form as those criteria have been updated by increases in the Consumer Price Index. The Secretary shall determine the number of such children and the number of children of such ages living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to him before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to him at the time of such determination.

42 USC 601.

“(C) When requested by the Commissioner, the Secretary of Commerce shall make a special estimate of the number of children of such ages who are from families below the poverty level (as determined under subparagraph (A) of this paragraph) in each county or school district, and the Commissioner is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information. For purposes of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

“(d) PROGRAM FOR INDIAN CHILDREN.—(1) From the amount allotted for payments to the Secretary of Interior under clause (B) (i) in the second sentence of subsection (a) (1), the Secretary of the Interior shall make payments to local educational agencies, upon such terms as the Commissioner determines will best carry out the purposes of this title with respect to out-of-State Indian children in the elementary and secondary schools of such agencies under special contracts with the Department of the Interior. The amount of such payment may not exceed, for each such child, 40 per centum of (A) the average per pupil expenditure in the State in which the agency is located or (B) 120 per centum of such expenditure in the United States, whichever is the greater.

“(2) The amount allotted for payments to the Secretary of the Interior under clause (B) (ii) in the second sentence of subsection (a) (1) for any fiscal year shall be, as determined pursuant to criteria established by the Commissioner the amount necessary to meet the special educational needs of educationally deprived Indian children on reservations serviced by elementary and secondary schools operated for Indian children by the Department of the Interior. Such payment shall be made pursuant to an agreement between the Commissioner and the Secretary containing such assurances and terms as the Commissioner determines will best achieve the purposes of this title. Such agreement shall contain (A) an assurance that payments made pursuant to this subparagraph will be used solely for programs and projects approved by the Secretary of the Interior which meet the applicable requirements of subpart 3 of this part and that the Department of the Inte-

“Subpart 2—Special Grants

“SPECIAL INCENTIVE GRANTS

20 USC 2721.

“SEC. 116. (a) ELIGIBILITY.—(1) Each local educational agency that is eligible to receive a payment under section 111 for any fiscal year shall be entitled to an additional grant under this section for that fiscal year if it is located in a State which has in effect for that fiscal year a State program meeting the requirements of paragraph (2) under which financial assistance is provided to meet the special education needs of educationally deprived children.

“(2) A State program meets the requirements of this subsection if, under State law—

“(A) the program meets the requirements of section 131(c); and

“(B) not less than 50 per centum of the funds expended under the program in any school district of any local educational agency in the State in the fiscal year preceding any fiscal year in which the State receives a payment under this subpart is expended in school attendance areas of such agencies having high concentrations of children from low-income families.

“(b) AMOUNT OF GRANTS.—(1) Except as provided in paragraph (3), the aggregate amount to which the local educational agencies in a State are entitled under this section for any fiscal year shall be 50 per centum of the amount of State funds expended, in the most recent fiscal year for which data are available, under a State program meeting the requirements of paragraph (2) of subsection (a) of this section.

“(2) The amount of the additional grant for each local educational agency in a State under this section for any fiscal year shall bear the same ratio to the amount allocated to such State under subsection (a) of this section as the amount allocated to such local educational agency under section 111 of this title for such fiscal year bears to the aggregate amount allocated to all local educational agencies in the State under section 111 for such fiscal year.

“(3) The aggregate amount which the local educational agencies in a State shall be eligible to receive under this section for any fiscal year shall not exceed 10 per centum of the aggregate amount which all local

educational agencies in such State are eligible to receive under section 111 of this title for such fiscal year.

“(4) Each State which desires to receive payments under this section shall develop a system for determining the data required by subparagraph (2)(B) of subsection (a) of this section relating to the percentage of State funds expended in school attendance areas having high concentrations of children from low-income families and required by paragraph (1) of this subsection relating to the amount of State funds expended under the State program referred to in that paragraph. The State shall submit to the Commissioner such information as the Commissioner may request concerning that system.

Commissioner.

“(c) PAYMENTS; USE OF FUNDS.—(1) Except as provided in paragraph (3), the Commissioner shall pay to each State for each fiscal year the aggregate amount to which the local educational agencies in such State are entitled under subsection (b) after any ratable reductions under subsection (d).

“(2) The total amount to which the local educational agencies in a State are entitled under this section for any fiscal year shall be added to the amount paid to such State under section 191 for such year. From the amount paid to it under this subsection, the State shall distribute to each local educational agency of the State the amount of its additional grant as determined under subsection (b)(2).

Post, p. 2195.

“(3) Whenever the expenditures made by a State in accordance with subsection (a) in a fiscal year equal or exceed expenditures in the preceding fiscal year, the amount paid to such State under this section shall, subject to subsection (d), not be less than the amount paid to such State under this section in the preceding fiscal year, and the total of any increases required under this paragraph shall be derived by proportionately reducing the amount paid to States which were not entitled to a payment under this section in the preceding fiscal year, except that the amount paid to a State under this section for any fiscal year shall not exceed the maximum amount to which such State is entitled for such fiscal year under paragraph (1) of subsection (b).

“(4) The amount paid to a local educational agency under this part shall be used by such agency for activities undertaken pursuant to its application submitted under section 121 and shall be subject to all other requirements in subpart 3 of this part.

“(d) RATABLE REDUCTIONS.—If the sums appropriated pursuant to subsection (e) for a fiscal year are not sufficient to pay in full the total amounts which all local educational agencies are entitled to receive under this section, the amount to be paid such agencies shall be ratably reduced to the extent necessary to bring such payments within the limits of the amounts so appropriated. In case additional funds become available for making payments under this section for that year, such reduced amounts shall be increased on the same basis that they were reduced.

“(e) APPROPRIATIONS.—There are authorized to be appropriated for the purposes of this section such sums as may be necessary for fiscal year 1980 and for the three succeeding fiscal years.

“GRANTS FOR LOCAL EDUCATIONAL AGENCIES IN COUNTIES WITH ESPECIALLY HIGH CONCENTRATIONS OF CHILDREN FROM LOW-INCOME FAMILIES

“SEC. 117. (a) PURPOSE.—It is the purpose of this section to provide additional assistance to local educational agencies in counties with

especially high concentrations of children from low-income families to enable local educational agencies in such counties to provide more effective programs of instruction, especially in the basic skills of reading, writing, and mathematics, to meet the special educational needs of educationally deprived children.

“(b) ELIGIBILITY FOR AND AMOUNT OF SPECIAL GRANTS.—(1) Each county, in a State other than Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, which is eligible for a grant under this title for any fiscal year shall be entitled to an additional grant under this section for that fiscal year if—

“(A) the number of children counted under section 111(c) of this title for local educational agencies in such county for the preceding fiscal year exceeds five thousand, or

“(B) the number of children counted under section 111(c) exceeds 20 per centum of the total number of children aged five to seventeen, inclusive, in the school districts of local educational agencies in such county in that fiscal year,

except that no such State shall receive less than one-quarter of 1 per centum of the sums appropriated under subsection (d) for such section for such fiscal year.

“(2) For each county in which there are local educational agencies eligible to receive an additional grant under this section for any fiscal year the Commissioner shall determine the product of—

“(A) the number of children in excess of five thousand counted under section 111(c) for the preceding fiscal year or the number of children counted under that section in excess of 20 per centum of the total number of children aged five to seventeen, inclusive, in the school districts of local educational agencies in such county for that preceding fiscal year, whichever is greater, and

“(B) the quotient resulting from the division of the amount determined for those agencies under section 111(a) (2) of this title for the fiscal year for which the determination is being made divided by the total number of children counted under section 111(c) for that agency for the preceding fiscal year.

“(3) The amount of the additional grant to which an eligible county is entitled under this section for any fiscal year shall be an amount which bears the same ratio to the amount appropriated under subsection (d) for that fiscal year as the product determined under paragraph (2) for such county for that fiscal year bears to the sum of such products for all counties in the United States for that fiscal year.

“(4) For the purposes of this section, the Commissioner shall determine the number of children counted under section 111(c) for any county, and the total number of children aged five to seventeen, inclusive, in school districts of local educational agencies in such county, on the basis of the most recent satisfactory data available at the time the entitlement for such county is determined under section 111.

“(5) Funds allocated to counties under this part shall be allocated by the State educational agency, pursuant to regulations established by the Commissioner, among the several local educational agencies whose school districts lie (in whole or in part) within the county on the basis of the current distribution in the county of children aged five to seventeen, inclusive, from low-income families (using a poverty level selected by the State educational agency consistent with

the purposes of this title) as determined on the basis of the available data which such State educational agency determines best to reflect the current distribution in the county of children aged five to seven-teen, inclusive, from low-income families, except that in determining the number of such children in any local educational agency in which less than 20 per centum of the children are from low-income families, each such child shall be counted as a fraction in which the numerator is the percentage of low-income children in the school district of that agency and the denominator is 20.

“(c) PAYMENTS; USE OF FUNDS.—(1) The total amount to which the counties in a State are entitled under this section for any fiscal year shall be added to the amount paid to that State under section 191 for such year. From the amount paid to it under this section, the State shall distribute to local educational agencies in each county of the State the amount (if any) to which it is entitled under this section.

Post, p. 2195.

“(2) The amount paid to a local educational agency under this section shall be used by that agency for activities undertaken pursuant to its application submitted under section 121 and shall be subject to the other requirements in subpart 3 of this part.

“(d) APPROPRIATIONS.—There are authorized to be appropriated for the purposes of this section \$400,000,000 for fiscal year 1979, and such sums as may be necessary for each of the four succeeding fiscal years.

“Subpart 3—Program Requirements and Applications

“LOCAL PROGRAM APPLICATION

“SEC. 121. A local educational agency may receive a grant under this title for any fiscal year if it has on file with the State educational agency a current application, approved by the State educational agency, describing the programs and projects to be conducted with assistance provided under this title for a period of not to exceed three fiscal years, including the fiscal year for which the grant is to be made. Such an application may be amended at any time to describe changes in or additions to the activities originally set forth in the application. An application or amendment thereto shall be approved by the State educational agency upon its determination that the application provides for the use of such funds in a manner which meets the requirements of this subpart and is consistent with the assurances contained in the general application required by section 436 of the General Education Provisions Act, subject to such basic criteria as the Commissioner may prescribe.

20 USC 2731.

20 USC 1232e.

“DESIGNATING SCHOOL ATTENDANCE AREAS

“SEC. 122. (a) GENERAL PROVISIONS.—(1) Except as provided in paragraph (2) and subsections (b), (c), (d), and (e) of this section, a local educational agency shall use funds received under this title in school attendance areas having high concentrations of children from low-income families (hereinafter referred to as ‘eligible school attendance areas’), and where funds under this title are insufficient to provide programs and projects for all educationally deprived children in eligible school attendance areas, a local educational agency shall annually rank its eligible school attendance areas from highest to lowest, according to relative degree of concentration of children

20 USC 2732.

from low-income families. A local educational agency may carry on a program or project assisted under this title in an eligible school attendance area only if it also carries on such program or project in all other eligible school attendance areas which are ranked higher under the first sentence. A local educational agency may designate any school attendance area in which at least 25 per centum of the children are from low-income families as an eligible school attendance area if the aggregate amount expended under this title and under a State program meeting the requirements of section 131(c) in that fiscal year in each school attendance area of that agency in which projects assisted under this title were carried out in the preceding fiscal year equals or exceeds the amount expended from those sources in that area in such preceding fiscal year. The same measure of low income, which shall be chosen by the local educational agency and which may be a composite of several indicators, shall be used with respect to all such areas, both to identify the areas having high concentrations of children from low-income families and to determine the ranking of each area.

“(2) (A) Notwithstanding the provisions of paragraph (1), in the selection of eligible school attendance areas, a local educational agency may, subject to the requirements of subparagraph (B), choose to rank all its school attendance areas as provided in paragraph (1) and also rank all its school attendance areas according to educational deprivation, and then serve all its school attendance areas ranked according to paragraph (1) in the order of their ranking under such paragraph unless another school attendance area ranked according to education deprivation has a substantially greater number or a substantially greater percentage of educationally deprived children, in which case such school attendance area may be served before service is provided to other school attendance areas ranked pursuant to paragraph (1) which have a substantially smaller number or substantially smaller percentage of educationally deprived children. In the event that a local educational agency chooses to exercise the option provided under this paragraph, it shall not serve any more school attendance areas than the number identified pursuant to paragraph (1).

“(B) Any local educational agency desiring to use the alternative ranking system described in subparagraph (A) shall, with the consent of the district-wide parent advisory council of that agency, apply for permission to use such system to the State educational agency of the State wherein such local educational agency is located. Such application shall be approved by such State educational agency only if such State educational agency finds that the use of such alternative ranking system will not substantially impair the delivery of compensatory education services to educationally deprived children from low-income families in project areas served by such local educational agency. Whenever a school district exercises the option under this paragraph and actually serves one or more school attendance areas ranked under this paragraph, none of the areas so ranked but not served shall be considered to be eligible school attendance areas under this title.

“(b) USE OF ENROLLMENT DATA IN CERTAIN SCHOOLS.—A local educational agency may use funds received under this title for educationally deprived children who are in a school of such agency which is not located in an eligible school attendance area, but at which the proportion of children in actual average daily attendance who are

from low-income families is substantially the same as the proportion of such children in such an area of that agency (hereinafter referred to as an 'eligible school').

"(c) CONTINUATION OF ELIGIBILITY FOR CERTAIN SCHOOL ATTENDANCE AREAS OR SCHOOLS.—An eligible school attendance area or an eligible school may be designated a project area under subsection (a) or a project school under subsection (b) for a fiscal year, even though it does not qualify under such subsections for that fiscal year, if such area or school was so designated in either of the two preceding fiscal years.

"(d) LOWER RANKED SCHOOL ATTENDANCE AREAS OR SCHOOLS HAVING SUBSTANTIALLY GREATER INCIDENCES OF EDUCATIONALLY DEPRIVED CHILDREN THAN HIGHER RANKED AREAS OR SCHOOLS.—The Commissioner shall issue regulations providing for an exception to subsection (a) permitting children in lower ranked eligible school attendance areas or eligible schools having substantially greater incidences of educational deprivation than areas or schools ranked higher under subsections (a) or (b) to receive assistance before such children in higher ranked areas or schools receive such assistance.

Regulations.

"(e) SKIPPING HIGHER RANKED SCHOOL ATTENDANCE AREAS OR SCHOOLS RECEIVING SERVICES OF THE SAME NATURE AND SCOPE FROM NON-FEDERAL SOURCES.—The Commissioner shall issue regulations providing for an exception to subsection (a) or (b) permitting local educational agencies to skip higher ranked eligible school attendance areas or eligible schools receiving, from non-Federal funds, services of the same nature and scope as would otherwise be provided under this title. Whenever children residing in eligible areas and attending private elementary and secondary schools are ineligible for services of the same nature and scope from non-Federal sources, such children shall be selected for programs and projects under this title without regard to the provisions of this subsection. The number of children receiving services under this title who attend private elementary and secondary schools shall be determined in each local educational agency receiving assistance under this title without regard to non-Federal compensatory education funds which serve children in public elementary and secondary schools who are also eligible for assistance under this title. Children attending private elementary and secondary schools who receive assistance under this title shall be identified in accordance with this section and without regard to skipping higher ranked school attendance areas or schools receiving services of the same nature and scope from non-Federal sources.

Regulations.

"CHILDREN TO BE SERVED

"SEC. 123. (a) GENERAL PROVISIONS.—Except as provided in subsections (b), (c), and (d) of this section and section 133, a local educational agency must use funds received under this title for educationally deprived children, identified in accordance with section 124(b) as having the greatest need for special assistance, in school attendance areas or schools satisfying the requirements of section 122.

20 USC 2733.

"(b) CONTINUATION OF ELIGIBILITY FOR EDUCATIONALLY DEPRIVED CHILDREN WHO ARE NO LONGER IN GREATEST NEED OF ASSISTANCE.—Whenever for a fiscal year, an educationally deprived child in a school attendance area or school satisfying the requirements of section 122, does not meet the requirement of subsection (a) requiring that he be

in greatest need of special assistance, but did not meet such requirement in any previous year, and is still educationally deprived, that child may participate in a program or project assisted under this title for the current fiscal year.

“(c) CONTINUATION OF ELIGIBILITY FOR EDUCATIONALLY DEPRIVED CHILDREN TRANSFERRED TO INELIGIBLE AREAS OR SCHOOLS IN THE SAME YEAR.—Educationally deprived children who begin participation in a program or project assisted under this title, in accordance with subsections (a) and (b) but who, in the same school year, are transferred to a school attendance area or school not receiving funds under this title, may, if the local agency so determines, continue to participate in a program or project funded under this title for the duration of that same school year.

Regulations.

“(d) SKIPPING CHILDREN DETERMINED TO BE IN GREATEST NEED OF ASSISTANCE WHO ARE RECEIVING SERVICES OF THE SAME NATURE AND SCOPE FROM NON-FEDERAL SOURCES.—The Commissioner shall issue regulations providing for an exemption to subsection (a) permitting local educational agencies, in providing services under this title, to skip educationally deprived children in greatest need of assistance who are receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided under this title.

“REQUIREMENTS FOR DESIGN AND IMPLEMENTATION OF PROGRAMS

20 USC 2734.

“SEC. 124. (a) PURPOSE OF PROGRAM.—A local educational agency may use funds received under this title only for programs and projects which are designed to meet the special educational needs of the children referred to in section 123. Such programs and projects may include the acquisition of equipment, payments to teachers of amounts in excess of regular salary schedules as a bonus for service in schools serving project areas, the training of teachers, and, where necessary, the construction of school facilities, and planning for such programs and projects.

“(b) ASSESSMENT OF EDUCATIONAL NEED.—A local educational agency may receive funds under this title only if it makes an assessment of educational needs each year to (1) identify educationally deprived children in all eligible attendance areas and to select those educationally deprived children who have the greatest need for special assistance; (2) identify the general instructional areas on which the program will focus; and (3) determine the special educational needs of participating children with specificity sufficient to facilitate development of high-quality programs and projects.

“(c) PLANNING.—A local educational agency may use funds received under this title for planning only if (1) the planning relates directly to programs or projects to be assisted under this title and has resulted, or is reasonably likely to result, in a program or project to be assisted under this title, and (2) such funds are needed because of the innovative nature of the program or project or because such agency lacks the resources necessary to plan adequately for programs and projects to be assisted under this title. The amount a local educational agency may use for plans for any fiscal year may not exceed 1 per centum of the amount determined for that agency for that year pursuant to section 111 or \$2,000, whichever is greater.

“(d) SUFFICIENT SIZE, SCOPE, AND QUALITY.—A local educational agency may use funds received under this title only for programs and

projects which are of sufficient size, scope, and quality to give reasonable promise of substantial progress toward meeting the special educational needs of the children being served, and to this end such programs and projects must involve an expenditure of not less than \$2,500, except that a State educational agency may reduce such \$2,500 requirement for a local educational agency if it determines that it would be impossible, for reasons such as distance or difficulty of travel, for such local educational agency to join effectively with other local educational agencies for the purpose of meeting the requirement.

“(e) EXPENDITURES RELATED TO RANKING OF PROJECT AREAS AND SCHOOLS.—A local educational agency may receive funds under this title only if such funds are allocated among project areas or schools for programs and projects assisted under this title on the basis of the number and needs of children to be served as determined in accordance with section 123.

“(f) COORDINATION WITH OTHER PROGRAMS.—(1) A local educational agency may receive funds under this title only if it demonstrates that, in the development of its application, it has taken into consideration benefits and services which are or may be available through other public and private agencies, organizations, or individuals. The local educational agency shall also demonstrate that in order to avoid duplication of effort and to ensure that all programs and projects complement each other, it has considered suggestions and offers of assistance made by other agencies which may aid in carrying out or making more effective the program or project for which the application is made.

“(2) A local educational agency may use funds received under this title for health, social, or nutrition services for participating children under this title only if such agency has requested from the State educational agency assistance in locating and utilizing other Federal and State programs to provide such services.

“(g) EVALUATIONS.—A local educational agency may receive funds under this title only if—

“(1) effective procedures are adopted for evaluating, in accordance with the evaluation schedule promulgated by the Commissioner under section 183(g), the effectiveness of the programs assisted under this title in meeting the special educational needs of educationally deprived children;

“(2) such evaluations will include, during each three-year period, the collection and analysis of data relating to the degree to which programs assisted under this title have achieved their goals, including the requirements of section 130, and will also include objective measurements of educational achievement in basic skills over at least a twelve-month period in order to determine whether regular school year programs have sustained effects over the summer; and

“(3) the evaluation will address the purposes of the programs, including the requirements of section 130, and the results of the evaluations will be utilized in planning for and improving projects and activities carried out under this title in subsequent years.

“(h) INFORMATION DISSEMINATION.—A local educational agency may receive funds under this title only if effective procedures are in existence for acquiring and disseminating to teachers and administrators significant information derived from educational research, demonstration, and similar projects, and for adopting, where appropriate, promising educational practices developed through such projects.

“(j) **PARENT PARTICIPATION.**—A local educational agency may receive funds under this title only if parents of children participating in programs assisted under this title are permitted to participate in the establishment of such programs and are informed of, and permitted to make recommendations with respect to, the instructional goals of the program and the progress of their children in such program, and such parents are afforded opportunities to assist their children in achieving such goals.

“(k) **SUSTAINING GAINS.**—A local educational agency may receive funds under this title only if, in developing programs to be assisted under this title, the local educational agency will give due consideration to the inclusion of components designed to sustain the achievements of children beyond the school year in which the program is conducted, through such means as summer programs and intermediate and secondary level programs.

“(l) **TRAINING OF EDUCATION AIDES.**—A local educational agency may receive funds under this title for programs and projects involving education aides, including volunteers, only if it has in effect well-developed plans providing for coordinated programs of training in which education aides, including volunteers, and the professional staff whom they are assisting will participate together.

"(ii) elect officers of the council after it has been fully constituted; and

"(iii) meet a sufficient number of times per year, according to a schedule and at locations to be determined by such council.

"(3) Any individual who is a teacher at a school serving a project area or is a parent of a child residing in an eligible school attendance area or attending an eligible school shall be eligible to be elected as a member of the district-wide advisory councils established pursuant to paragraph (1), but nothing in this sentence shall preclude the eligibility of other individuals who are residents in that district. No individual who is a teacher at a project school or a school serving a project area shall be ineligible to be elected as a member of a district-wide or project area or school advisory council on the basis of residency outside such area or district.

"(b) RESPONSIBILITIES OF ADVISORY COUNCILS.—Each local educational agency shall give each advisory council which it establishes under subsection (a) responsibility for advising it in planning for, and implementation and evaluation of, its programs and projects assisted under this title.

"(c) ACCESS TO INFORMATION.—(1) Each local educational agency shall provide without charge to each member of an advisory council established by such an agency under subsection (a) of this section—

"(A) a copy of the text of this title,

“(B) a copy of any Federal regulations and guidelines issued under such title; and

“(C) a copy of appropriate State regulations and guidelines associated with this title.

“(2) Each State educational agency shall provide a copy of any report resulting from State or Federal auditing, monitoring, or evaluation activities in any district to the parent advisory council established pursuant to subsection (a) (1) in such district.

“(d) TRAINING PROGRAMS.—Each local educational agency application for funding under this title shall describe a program for training the members of advisory councils established pursuant to subsection (a) to carry out their responsibilities as described in subsection (b). Such training program—

“(1) shall be planned in full consultation with the members of such advisory councils;

“(2) shall provide each member of each such council with appropriate training materials; and

“(3) may permit the use of funds under this title for expenses associated with such training, including expenses associated with the attendance of such members at training sessions.

“(e) WORKSHOPS ON PARENTAL INVOLVEMENT.—For each fiscal year for which payments are made to State educational agencies under this title, the Commissioner shall sponsor workshops in the several regions of the United States which shall be designed to assist local educational agencies to work with and provide training to parent advisory councils established under subsection (a) of this section and to facilitate parental involvement in the programs conducted under this title. The workshops shall be planned and conducted in consultation with members of parent advisory councils in the region served by the workshop.

20 USC 2736.

“SEC. 126. (a) MAINTENANCE OF EFFORT.—(1) Except as provided in paragraph (2), a local educational agency may receive funds under this title for any fiscal year only if the State educational agency finds that the combined fiscal effort per student or the aggregate expenditures (as determined in accordance with regulations of the Commissioner) of that agency and the State with respect to the provision of free public education by that agency for the preceding fiscal year was not less than such combined fiscal effort per student or the aggregate expenditures for that purpose for the second preceding fiscal year.

“(2) The Commissioner may waive, for one fiscal year only, the requirements of this subsection if he determines that such a waiver

would be equitable due to exceptional and unforeseen circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the local educational agency. In any case in which a waiver under this paragraph is granted, the Commissioner shall reduce the amount of Federal payment for the program affected for the current fiscal year in the exact proportion to which the amount expended (either on an average per pupil or aggregate basis) was less than the amount required by paragraph (1). No level of funding permitted under such a waiver may be used as the basis for computing the fiscal effort required, under paragraph (1), for years subsequent to the year covered by such waiver. Such fiscal effort shall be computed on the basis of the level of funding which would, but for such waiver, have been required.

“(3) The Commissioner shall establish objective criteria of general applicability to carry out the waiver authority contained in this subsection. Criteria.

“(b) **USE OF FUNDS LIMITED TO EXCESS COSTS.**—Subject to the provisions of section 131, a local educational agency may use funds received under this title only for the excess costs of programs and projects referred to in section 124(a). As used in this subsection, the term ‘excess costs’ means costs directly attributable to programs and projects which exceed the average per pupil expenditure of a local educational agency in the most recent year for which satisfactory data are available for pupils in the grade or grades included in such programs or projects. “Excess costs.”

“(c) **FEDERAL FUNDS TO SUPPLEMENT, NOT SUPPLANT REGULAR NON-FEDERAL FUNDS.**—A local educational agency may use funds received under this title only so as to supplement and, to the extent practical, increase the level of funds that would, in the absence of such Federal funds, be made available from regular non-Federal sources and from non-Federal sources for State phase-in programs described in section 131(b) for the education of pupils participating in programs and projects assisted under this title, and in no case may such funds be so used as to supplant such funds from such non-Federal sources.

“(d) **FEDERAL FUNDS REQUIRED TO SUPPLEMENT, NOT SUPPLANT NON-FEDERAL FUNDS FOR CERTAIN SPECIAL STATE AND LOCAL PROGRAMS.**—(1) Subject to section 132, a local educational agency may use funds received under this title only so as to supplement and, to the extent practical, increase the level of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for each of the special programs described in subsection (b) of section 131 for the education of educationally deprived children, in the aggregate, in eligible school attendance areas or attending eligible schools and in no case, as to supplant such funds from non-Federal sources.

“(2) It shall not be considered a violation of this subsection for a local educational agency, in carrying out a special program described in subsection (b) of section 131, to take into consideration funds made available under this title, and to coordinate such special programs with programs using such Federal funds, provided that educationally deprived children, in the aggregate, in eligible school attendance areas or attending eligible schools, receive at least the same level of such special State and local funds that would have been made available to such children in the absence of funds under this title.

“(3) For purposes of this subsection, the level of funds that, in the absence of funds under this title would have been made available to

such children shall be determined by reference to a plan for distributing such special funds. Such plan shall be based on objective criteria of need that do not discriminate against educationally deprived children, in the aggregate in eligible school attendance areas or attending eligible schools. The objective criteria chosen by the local educational agency shall prescribe, with particularity, the children as well as the schools, grade-spans, or school attendance areas eligible for assistance and the method for selecting the particular children who will receive assistance under such special State or local program and the schools or grade-spans which such children attend or the school attendance areas in which such children reside. The criteria for selecting children, schools, grade-spans, and school attendance areas for participation shall be either educational need, a reasonable proxy for educational need, level of poverty, or a combination of such factors. Educationally deprived children residing in eligible school attendance areas or attending eligible schools, satisfying such object criteria, must receive assistance under either this title or under such special State or local program before any child who does not satisfy such criteria receives such assistance.

“(e) COMPARABILITY OF SERVICES.—Subject to the provisions of section 131, a local educational agency may receive funds under this title only if State and local funds will be used in the district of such agency to provide services in project areas which, taken as a whole, are at least comparable to services being provided in areas in such district which are not receiving funds under this title. Where, under regulations of the Commissioner, all school attendance areas in the district of the agency are designated as project areas, the agency may receive such funds only if State and local funds are used to provide services which, taken as a whole, are substantially comparable, in accordance with regulations of the Commissioner, in each project area. Each local educational agency shall report on or before July 1 of each year with respect to its compliance with this subsection, except for local educational agencies which were not required to report upon the date of enactment of the Education Amendments of 1978, unless the Commissioner otherwise provides by regulation.

Ante, p. 2143.

“ACCOUNTABILITY

20 USC 2737.

“SEC. 127. (a) RECORDKEEPING.—Each local educational agency which receives funds under this title shall keep such records and afford such access thereto as the State educational agency shall prescribe, including records which fully disclose the amount and disposition of such funds, the total cost of programs and projects in connection with which such funds are used, the amount of the portion of the cost of the program or project supplied by other sources, and such other records as will facilitate an effective audit. Whenever a local educational agency carries on a single compensatory education program paid for out of funds under this title as well as State or local funds which meets all of the requirements of this title and whenever, under section 131, the local educational agency excludes expenditures from State and local sources in determining compliance with section 126 (b) and (e), the State educational agency need not require the Federal funds to be accounted for separately. In any proceeding, State or Federal, for the recoupment of any such funds which were misspent or misapplied, the percentage of the funds so misspent or misapplied which shall be

deemed to be Federal funds shall be equal to the percentage of the funds used, or intended for use, for the program or project which were Federal funds.

“(b) **REPORTING.**—Each local educational agency which receives funds under this title shall make an annual report and such other reports to the State educational agency, in such form and containing such information (which in the case of reports relating to performance is in accordance with specific performance criteria related to program objectives), as may be reasonably necessary to enable the State educational agency to perform its duties under this title, including information relating to the educational achievement of students participating in programs and projects assisted under this title.

“(c) **ACCESS TO INFORMATION.**—Each local educational agency which applies for or receives funds under this title shall make the application and all pertinent documents related thereto available to parents, teachers, and other members of the general public.

“COMPLAINT RESOLUTION

“SEC. 128. Each local educational agency which receives funds under this title shall develop and implement, in accordance with criteria prescribed by the Commissioner, written procedures for the resolution of complaints made to that agency by parent advisory councils, parents, teachers, or other concerned organizations or individuals concerning violations of this title, or of applicable provisions of the General Education Provisions Act in connection with programs under this title. Such procedures shall—

“INDIVIDUALIZED PLANS

“SEC. 129. It is the intent of the Congress to encourage, whenever feasible, the development for each educationally deprived child participating in a program under this title of an individualized educational plan (maintained and periodically evaluated), agreed upon jointly by the local educational agency, the teacher, a parent or guardian of the child, and, when appropriate, the child.

“SEC. 130. (a) **GENERAL REQUIREMENTS.**—To the extent consistent with the number of educationally deprived children in the school district of the local educational agency who are enrolled in private

elementary and secondary schools, such agency shall make provision for including special educational services and arrangements (such as dual enrollment, educational radio and television, and mobile educational services and equipment) in which such children can participate and meeting the requirements of sections 122 and 123, and subsections (a), (b), (d), and (1) of section 124, and subsection (c) of section 126. Expenditures for educational services and arrangements pursuant to this section for educationally deprived children in private schools shall be equal (taking into account the number of children to be served and the special educational needs of such children) to expenditures for children enrolled in the public schools of the local educational agency.

“(b) BY-PASS PROVISION.—(1) If a local educational agency is prohibited by law from providing for the participation in special programs for educationally deprived children enrolled in private elementary and secondary schools as required by subsection (a), the Commissioner shall waive such requirement, and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of subsection (a).

“(2) If the Commissioner determines that a local educational agency has substantially failed to provide for the participation on an equitable basis of educationally deprived children enrolled in private elementary and secondary schools as required by subsection (a), he shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of subsection (a), upon which determination the provisions of subsection (a) shall be waived.

“(3) (A) When the Commissioner arranges for services pursuant to this subsection, he shall, after consultation with the appropriate public and private school officials, pay to the provider the cost of such services, including the administrative cost of arranging for such services, from the appropriate allocation or allocations under this title.

“(B) Pending final resolution of any investigation or complaint that could result in a determination under this subsection, the Commissioner may withhold from the allocation of the affected State or local educational agency the amount he estimates would be necessary to pay the cost of such services.

“(C) Any determination by the Commissioner under this section shall continue in effect until the Commissioner determines that there will no longer be any failure or inability on the part of the local educational agency to meet the requirements of subsection (a).

Written notice.

“(4) (A) The Commissioner shall not take any final action under this subsection until the State educational agency and local educational agency affected by such action have had an opportunity, for at least forty-five days after receiving written notice thereof, to submit written objections and to appear before the Commissioner or his designee to show cause why such action should not be taken.

Petition.

“(B) If a State or local educational agency is dissatisfied with the Commissioner's final action after a proceeding under subparagraph (A) of this paragraph, it may within sixty days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner. The Commissioner thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28, United States Code.

“(C) The findings of fact by the Commissioner, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner may thereupon make new or modified findings of fact and may modify his previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

“(D) Upon the filing of a petition under subparagraph (B), the court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

“EXCLUSIONS FROM EXCESS COSTS AND COMPARABILITY PROVISIONS FOR CERTAIN SPECIAL STATE AND LOCAL PROGRAMS

“SEC. 131. (a) IN GENERAL.—For the purpose of determining compliance with the requirement of section 126(b) (relating to use of funds only for excess costs of programs and projects) and of section 126(e) (relating to comparability of services), a local educational agency may, at its option, exclude State and local funds expended for carrying out a special program or a State phase-in program.

20 USC 2751.

“(b) SPECIAL PROGRAM AND STATE PHASE-IN PROGRAM DEFINED.—For purposes of this section—

“(1) a special program is limited to—

“(A) a State compensatory education program which the Commissioner has determined in advance under subsection (e) meets the requirements of subsection (c) and which the State educational agency determines is being implemented by the local educational agency in accordance with subsection (c);

“(B) a State compensatory education program which the Commissioner has determined in advance under subsection (e) does not satisfy the requirements of subsection (c), but which he has determined permits the local educational agency, at its option, to use such special State funds in accordance with subsection (c), provided that the local educational agency designs a program which the State educational agency determines in advance under subsection (f) meets the requirements of subsection (c) and which the State educational agency determines will be implemented by the local educational agencies in accordance with subsection (c); or

“(C) a local compensatory education program which the State educational agency has determined in advance under subsection (f) meets the requirements of subsection (c) and which the State educational agency determines is being implemented in accordance with subsection (c); and

“(3) the program provides supplementary services designed to meet the special educational needs of the children who are participating,

“(4) the local educational agency keeps such records and affords such access thereto as are necessary to assure the correctness and verification of the requirements of clauses (1), (2), and (3) of this subsection, and

“(5) the State educational agency monitors performance under the program to assure that the requirements of clauses (1), (2), (3), and (4) of this subsection are met.

“(d) CERTAIN STATE PHASE-IN PROGRAMS.—A State education program which is being phased into full operation meets the requirements of this subsection if the Commissioner is satisfied that—

“(1) the program is authorized and governed specifically by the provisions of State law;

“(2) the purpose of the program is to provide for the comprehensive and systematic restructuring of the total educational environment at the level of the individual school;

“(3) the program is based on objectives, including but not limited to, performance objectives related to educational achievement and is evaluated in a manner consistent with those objectives;

“(4) parents and school staff are involved in comprehensive planning, implementation, and evaluation of the program;

“(5) the program will benefit all children in a particular school or grade-span within a school;

“(6) schools participating in a program describe, in a school level plan, program strategies for meeting the special educational needs of educationally deprived children;

“(7) the phase-in period of the program is not more than six school years, except that the phase-in period for a program commenced prior to the date of enactment of the Education Amendments of 1978 shall be deemed to begin on the date of enactment of such Amendments;

“(8) at all times during such phase-in period at least 50 per centum of the schools participating in the program are the schools serving project areas which have the greatest number or concentrations of educationally deprived children or children from low-income families;

“(9) State funds made available for the phase-in program will supplement, and not supplant, State and local funds which would, in the absence of the phase-in program, have been provided for schools participating in such program;

“(10) the local educational agency is separately accountable, for purposes of compliance with paragraphs (1) through (6), (8), and (9) of this subsection, to the State educational agency for any funds expended for such program; and

“(11) the local educational agencies carrying out the program are complying with paragraphs (1) through (6), (8), and (9) and the State educational agency is complying with paragraph (10).

“(e) **ADVANCE DETERMINATIONS BY THE COMMISSIONER.**—The Commissioner shall make an advance determination of whether or not a State Program described in subsection (b)(1)(A) or (B) or (b)(2) meets the requirements of subsection (c) or meets the requirements of subsection (d). The Commissioner shall require each State educational agency to submit to him the provisions of State law together with implementing rules, regulations, orders, guidelines, and interpretations which are necessary for him to make such an advance determination. The Commissioner’s determination shall be in writing and shall include the reasons for his determination. Whenever there is any material change in pertinent State law affecting the program, the State educational agency shall submit such changes to the Commissioner.

“(f) **ADVANCE DETERMINATION BY THE STATE EDUCATIONAL AGENCY.**—The State educational agency shall make an advance determination of whether or not a program described in subsection (b)(1)(C) meets the requirements of subsection (c). The State educational agency shall require each local educational agency to submit the provisions of local law, together with implementing rules, regulations, guidelines, and interpretations which are necessary to make such an advance determination. The State educational agency’s determination shall be in writing and shall include the reasons for the determination. Whenever there is any material change in pertinent local law affecting the program, the local educational agency shall submit such changes to the State educational agency.

“**LIMITED EXEMPTION TO SUPPLEMENT, NOT SUPPLANT, REQUIREMENT WHERE CERTAIN SPECIAL PROGRAMS FOR EDUCATIONALLY DEPRIVED CHILDREN ARE FULLY FUNDED**

“**SEC. 132.** Whenever for a fiscal year—

“(1) a local educational agency provides special State and local funds for programs for educationally deprived children which qualify under clause (A), (B), or (C) of section 131(b)(1) for an exception from the comparability and excess costs provisions under such section 131, and

“(2) the amount of such special State and local funds provided in eligible school attendance areas and for eligible schools when added to the Federal funds provided for programs under this subpart equals the amount such agency is eligible to receive for such fiscal year under section 111(a)(2) (without regard to adjustments under section 193),

then the local educational agency may, without being considered in violation of section 126(d), utilize additional State and local funds for special programs and projects which are solely for educationally deprived children residing in nonproject areas or attending nonproject schools, including areas and schools ineligible for assistance under

this title. The exemption in the preceding sentence does not apply to the extent the level of such special State and local funds, per child participating in such programs residing in ineligible school attendance areas or attending ineligible schools, exceeds the amount of funds, per child participating in programs in project areas, provided to the agency under this part plus the amount of such special State or local funds provided for use in such areas.

“SEC. 133. (a) USE OF FUNDS FOR SCHOOLWIDE PROJECTS.—In the case of any school serving an attendance area that is eligible to receive services under this title and in which not less than 75 per centum of the children are from low-income families (in accordance with criteria established by the Commissioner), the local educational agency may carry out a project under this title to upgrade the entire educational program in that school if the requirements of subsection (b) are met.

“(b) DESIGNATION OF SCHOOLS.—A school may be designated for a schoolwide project under subsection (a) if—

“(B) an instructional program designed to meet the special needs of all students in the school;

“(2) the plan has been developed with the involvement of those individuals who will be engaged in carrying out the plan, including parents, teachers, teacher aides, administrators, and secondary students if the plan relates to a secondary school;

“(3) the plan provides for consultation among those individuals as to the educational progress of all students;

“(4) the plan has been approved by the advisory council for that school established under section 125;

“(5) appropriate training is provided to teachers and teacher aides to enable them effectively to carry out the plan;

“(6) the plan includes procedures for evaluation involving the participation of the individuals listed in paragraph (2), and opportunities for periodic improvements in the plan based on the results of those evaluations;

“(7) (A) in the case of a school district in which there are one or more schools described in subsection (a) and there are also one or more other schools serving project areas, the local educational agency makes the Federal funds provided under this part available for children in such schools described in subsection (a) in amounts which per educationally deprived child served, equal or exceed the amount of such funds made available per educationally deprived child served in such other schools;

“(B) the local educational agency makes special supplementary State and local funds available for the children in schools described in subsection (a) in amounts which, per child served who is not educationally deprived, equal or exceed the amount of Federal funds provided under this part which, per educationally

deprived child served, are made available for children in such schools; and

“(C) the average per pupil expenditure in schools described in subsection (a) (excluding amounts expended under a State compensatory education program) for the fiscal year in which the plan is to be carried out will not be less than such expenditure in such schools in the previous fiscal year.

“(c) APPROVAL OF SCHOOL; OPERATION OF PROJECT.—(1) The State educational agency shall approve the plan of any local educational agency for a schoolwide project if that plan meets the requirements of subsection (b).

“(2) For any school which has such a plan approved, the local educational agency—

“(A) shall, in order to carry out the plan, be relieved of any requirements under this title with respect to the commingling of funds provided under this title with funds available for regular programs;

“(B) shall not be required to identify particular children as being eligible to participate in programs assisted under this title; and

"PART E—PAYMENTS

"PAYMENT METHODS

"SEC. 191. The Commissioner shall, from time to time pay to each State, in advance or otherwise, the amount which it and the local educational agencies of that State are eligible to receive under this title. Such payments shall take into account the extent (if any) to which any previous payment to such State educational agency under this title (whether or not in the same fiscal year) was greater or less than the amount which should have been paid to it. 20 USC 2841.

"AMOUNT OF PAYMENTS TO LOCAL EDUCATIONAL AGENCIES

"SEC. 192. From the funds paid to it pursuant to section 191 each State educational agency shall distribute to each local educational agency of the State which is eligible to receive a grant under this title and which has submitted an application approved pursuant to section 121 the amount for which such application has been approved, except that the amount shall not exceed the amount determined for that agency under this title. 20 USC 2842.

"ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS

"SEC. 193. (a) ADJUSTMENT ALLOCATION.—If the sums appropriated for any fiscal year for making the payments provided in this title other than amounts appropriated for subpart 2 of part A are not sufficient to pay in full the total amounts which all local and State educational agencies are entitled to receive under this title for such year, the amount available for each grant to a State agency eligible for a grant under subpart 1, 2, or 3 of part B shall be equal to the total amount of the grant as computed under each such subpart. If the remainder of such sums available after the application of the preceding sentence is not sufficient to pay in full the total amounts which all local educational agencies are entitled to receive under subpart 1 of part A of this title for such year, the allocations to such agencies shall, subject to adjustments under the next sentence, be ratably reduced to the extent necessary to bring the aggregate of such allocations within the limits of the amount so appropriated. The allocation of a local educational agency which would be reduced under the preceding sentence to less than 85 per centum of its allocation under subpart 1 of part A for the preceding fiscal year, shall be increased to such amount, the total of the increases thereby required being derived by proportionately reducing the allocations of the remaining local educational agencies, under the preceding sentence, but with such adjustments as may be necessary to prevent the allocation to any remaining local educational agency from being thereby reduced to less than 85 per centum of its allocation for such year. 20 USC 2843. *Ante*, p. 2158.

"(b) ADDITIONAL FUNDS ALLOCATION.—In case additional funds become available for making payments under this title for that year, allocations that were reduced pursuant to subsection (a) shall be increased on the same basis that they were reduced. In order to permit the most effective use of all appropriations made to carry out this title, the Commissioner may set dates by which (1) State educational agencies must certify to him the amounts for which the applications of educational agencies have been or will be approved by the State and (2) State educational agencies referred to in subpart 1 of part

B must file applications. If the maximum grant a local educational agency would receive (after any ratable reduction which may have been required under the first sentence of subsection (a) of this section) is more than an amount which the State educational agency determines, in accordance with regulations prescribed by the Commissioner, such agency will use, the excess amount shall be made available first to educational agencies in that State. Determinations of the educational agencies to which such excess amounts shall be made available shall be made by the State educational agency in furtherance of the purposes of this title in accordance with criteria prescribed by the Commissioner which are designed to assure that such excess amounts will be made available to other eligible educational agencies with the greatest need, for the purpose of, where appropriate, redressing inequities inherent in, or mitigating hardships caused by, the application of the provisions of section 111(a) as a result of such factors as population shifts and changing economic circumstances. In the event excess amounts remain after carrying out the preceding two sentences of this section, such excess amounts shall be distributed among the other States as the Commissioner shall prescribe for use by local educational agencies in such States for the purposes of this title in such manner as the respective State educational agencies shall prescribe.

Ante, p. 2153.

"PAYMENTS FOR STATE ADMINISTRATION

20 USC 2844.

"SEC. 194. (a) Except as provided in subsection (b), the Commissioner is authorized to pay to each State amounts equal to the amounts expended by it for the proper and efficient performance of its duties under this title, except that the total of such payments in any fiscal year shall not exceed—

"(1) 1.5 per centum of the amount allocated to the State and its local educational agencies and to other State agencies as determined for that year under this title; or

"(2) \$225,000, or \$50,000 in the case of Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands,

whichever is the greater, except that any amount paid by reason of clause (1) or (2) in excess of the limitations on such payments in effect prior to the effective date of the Education Amendments of 1978 shall be used exclusively for monitoring, audit resolution, enforcement, or similar compliance activities and shall supplement and not supplant funds otherwise available from non-Federal sources for such purposes.

"(b) The provisions of this section shall apply in any fiscal year in which the provisions of section 510(b) (2) are not met.

“(3) The findings of fact by the Commissioner, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner may thereupon make new or modified findings of fact and may modify his previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

“(B) for special programs and projects under section 608(a), whichever the Assistant Secretary determines will best achieve the purposes of this title. The Assistant Secretary shall distribute any amounts reapportioned among the States pursuant to clause (A) in proportion to the need of eligible applicants in each such State for approvable programs or projects.

“(2) The Assistant Secretary shall not fix a date for reapportionment, pursuant to this subsection, of any portion of any apportionment to a State for a fiscal year which date is earlier than one hundred and twenty days prior to the end of such fiscal year.

“(3) Notwithstanding the provisions of paragraph (1) of this subsection, no portion of any apportionment to a State for a fiscal year shall be available for reapportionment pursuant to this subsection unless the Assistant Secretary determines that the application for assistance under this title which have been filed by eligible applicants in that State for which a portion of such apportionment has not been reserved (but which would necessitate use of that portion) are applications which do not meet the requirements of this title, as set forth in sections 606, 607, and 610, or which set forth programs or projects of such insufficient promise for achieving the purposes of this title stated in section 602(b) that their approval is not warranted.

42 USC 2000d.

“(ii) which has been approved by the Secretary as adequate under title VI of the Civil Rights Act of 1964 for the desegregation of minority group segregated children or faculty in such schools; or

“(D) which, without having been required to do so, has adopted and is implementing, or will, if assistance is made available to it under this title, adopt and implement a plan to enroll and educate in the schools of such agency children who should not otherwise be eligible for enrollment because of nonresidence in the school district of such agency, where such enrollment would make a significant contribution toward reducing minority group isolation in one or more of the school districts; or

“(E) which is developing a plan of desegregation—

“(i) issued by a court of the United States or a court of any State, or any other State agency or official of competent jurisdiction, or

“(ii) undertaken by such agency voluntarily, and

which plan will require the desegregation of minority group segregated children or faculty in the elementary and secondary schools of such agency, or otherwise will require the elimination or reduction of minority group isolation in such schools, or which has been approved by the Secretary as adequate under title VI of the Civil Rights Act of 1964 for the desegregation of minority group segregated children or faculty in such schools, and the period for such planning does not exceed two years.

“(b) No local educational agency making application under this section shall be eligible to receive a grant or contract in an amount in excess of the amount determined by the Assistant Secretary, in accordance with regulations setting forth criteria established for such purpose, to be the additional cost to the applicant arising out of activities authorized under this title, above that of the activities normally carried out by the local educational agency.

Assistance,

“(c)(1) Except as provided in paragraph (2), no educational agency shall be eligible for assistance under this title if it has, after June 23, 1972—

“(A) transferred (directly or indirectly by gift, lease, loan, sale, or other means) real or personal property to, or made any services available to, any transferee which it knew or reasonably should have known to be a nonpublic school or school system (or any organization controlling, or intending to establish, such a school or school system) without prior determination that such nonpublic school or school system (i) is not operated on a racially segregated basis as an alternative for children seeking to avoid attendance in desegregated public schools, and (ii) does not otherwise practice, or permit to be practiced, discrimination on the basis of race, color, or national origin in the operation of any school activity;

“(B) had in effect any practice, policy, or procedure which results in the disproportionate demotion or dismissal of instructional or other personnel from minority groups in conjunction with desegregation or the implementation of any plan or the conduct of any activity described in this section, or otherwise engaged in discrimination based upon race, color, or national origin in the hiring, promotion, or assignment of employees of the agency (or other personnel for whom the agency has any administrative responsibility);

“(C) in conjunction with desegregation or the conduct of an activity described in this section, had in effect any procedure for the assignment of children to or within classes which results in the separation of minority group from nonminority group children for a substantial portion of the school day, except that this clause does not prohibit the use of bona fide ability grouping by a local educational agency as a standard pedagogical practice; or

“(D) had in effect any other practice, policy, or procedure, such as limiting curricular or extracurricular activities (or participation therein by children) in order to avoid the participation of minority group children in such activities, which discriminates among children on the basis of race, color, or national origin;

“(2) Whenever a local educational agency applies for assistance under clause (E) of section 606(a)(1), the provisions of clauses (C) and (D) of paragraph (1) of this subsection shall not apply if the local educational agency provides assurances in the application for assistance that the development of the plan for which assistance is sought will address the conditions described in such clauses (C) and (D).

“(3) (A) Applications for waivers under paragraph (1) may be approved only by the Secretary. The Secretary’s functions under this paragraph shall, notwithstanding any other provision of law, not be delegated.

“(9) provides that the applicant has not reduced its fiscal effort per student or the aggregate expenditure for the provision of free

public education for children in attendance at the schools of such agency for the fiscal year for which assistance is sought under this title to less than that of the second preceding fiscal year;

Ante, p. 2153.

Notice of ineligibility.

“(b) Except in the case of applications for assistance under section 608(a), the Secretary shall determine whether the applicant is eligible under section 606(c), and notify the applicant in writing of any determination of ineligibility under that subsection, including in detail the relevant information on which the determination of ineligibility is based, not later than March 1 of the year in which the academic year or other period for which the assistance is sought begins. Not later than June 30 of that year, the Assistant Secretary shall notify the applicant of the approval or disapproval of the application and the amount of its award, if any.

“(c) No application under this section may be approved which is not accompanied by the written comments of a committee established pursuant to clause (2) (B) of subsection (a). The Assistant Secretary shall not approve an application without first affording the committee an opportunity for an informal hearing if the committee requests such a hearing.

Applications, criteria for approval.

“(d) In approving applications submitted under this title (except for those submitted under sections 608(b) and 613) the Assistant Secretary shall apply the following criteria:

“(1) the need for assistance based on the expense or difficulty of effectively carrying out a plan described in section 606(a) and the program or projects for which assistance is sought;

“(2) the degree to which implementation of the plan described in section 606(a) has effected or will effect a decrease in minority group isolation in minority group isolated schools;

“(3) the recentness of the implementation of the plan described in section 606(a);

“(4) the degree to which the program or project for which assistance is sought affords promise of achieving the purposes of this title; and

“(5) the degree to which the plan described in section 606 involves to the fullest extent practicable the total educational resources, both public and private, of the community to be served.

“(e) (1) An application of a local educational agency for assistance under this title may cover a period of from one to five years. A new application shall be required for any assistance under this title for years subsequent to that period. The Assistant Secretary shall base the decision as to the length of time for which an application will be approved on—

Duration of
assistance.

“(A) the severity of the problems addressed by the program or project for which assistance is being sought;

“(B) the nature of the activities proposed in the application;

“(C) the likely duration of the problems addressed by the application; and

“(D) such other criteria, established by the Assistant Secretary as will assure the most effective use of this title.

“(2) If the Assistant Secretary approves an application of a local educational agency under this title for a period covering more than one fiscal year, no subsequent application shall be required from that agency in any fiscal year during that period unless the agency proposes to carry out, in any such fiscal year, activities not included in the approved application. However, payments to any such agency for any fiscal year subsequent to the first fiscal year for which the application has been approved shall be made only if—

“(A) sufficient appropriations are available for making payments in each such subsequent fiscal year; but such payments to applicants which are approved for a period of more than one year shall be made prior to any approval of funding requests from other applicants unless the Assistant Secretary finds that the urgency of needs elsewhere requires a reduction of the level of support for the applicants first approved;

“(B) the Assistant Secretary determines that the agency is not ineligible for assistance under section 606(d) in each subsequent fiscal year; and

“(C) the agency demonstrates, by such means as the Assistant Secretary may prescribe, that satisfactory progress is being made toward achieving the objectives of the program or projects for which assistance has been made available under this title.

the Congress declares it to be the policy of the United States, in order to establish equal educational opportunity for all children (A) to encourage the establishment and operation, where appropriate, of educational programs using bilingual educational practices, techniques, and methods, and (B) for that purpose, to provide financial assistance to local educational agencies, and to State educational agencies for certain purposes, in order to enable such local educational agencies to develop and carry out such programs in elementary and secondary

schools, including activities at the preschool level, which are designed to meet the educational needs of such children, with particular attention to children having the greatest need for such programs; and to demonstrate effective ways of providing, for children of limited English proficiency, instruction designed to enable them, while using their native language, to achieve competence in the English language.

“SEC. 721. (a) Funds available for grants under this part shall be used for—

20 USC 3231.

“(1) the establishment, operation, and improvement of programs of bilingual education;

“(2) auxiliary and supplementary community and educational activities designed to facilitate and expand the implementation of programs described in clause (1), including such activities as (A) adult education programs related to the purposes of this title, particularly for parents of children participating in programs of bilingual education, and carried out, where appropriate, in coordination with programs assisted under the Adult Education Act, and (B) preschool programs preparatory and supplementary to bilingual education programs;

“(3) (A) the establishment, operation, and improvement of training programs for personnel preparing to participate in, or

personnel participating in, the conduct of programs of bilingual education and (B) auxiliary and supplementary training programs, which shall be included in each program of bilingual education, for personnel preparing to participate in, or personnel participating in, the conduct of such programs; and

“(4) planning, and providing technical assistance for, and taking other steps leading to the development of, such programs.

Grant applications.

“(b) (1) A grant may be made under this section only upon application therefore by one or more local educational agencies or by an institution of higher education, including a junior or community college, applying jointly with one or more local educational agencies (or, in the case of a training activity described in clause (3) (B) of subsection (a) of this section, by eligible applicants as defined in section 723). Each such application shall be made to the Commissioner at such time, in such manner, and containing such information as the Commissioner deems necessary, and

“(A) include a description of the activities set forth in one or more of the clauses of subsection (a) which the applicant desires to carry out; and

“(B) provide evidence that the activities so described will make substantial progress toward making programs of bilingual education available to the children having need thereof in the area served by the applicant.

“(2) (A) No order to submit an application in preparation for termination of assistance shall be issued to any local educational agency which shows adequate progress in meeting the goals of this title and which demonstrates a clear fiscal inability to carry on a program without such assistance, if—

“(i) there is a continuing presence of a substantial number of students of limited English proficiency in a program under this title in such school or group of schools;

“(ii) there has been a recent, substantial increase in the number of students of limited English proficiency who have enrolled in such program; or

“(iii) there is an obligation of the local educational agency in which such school or group of schools is located to initiate compliance with an order of a court of the United States or of any State respecting services to be provided for those children, or a plan approved by the Secretary as adequate under title VI of the Civil Rights Act of 1964 with respect to services to be provided for those children.

42 USC 2000d.

“(B) The Commissioner, after review of program operations by each local educational agency, may, on the basis of a finding, after notice and opportunity for a hearing, that a school or group of schools of such an agency does not have a long-term need for continued assistance under this title issue an order to such agency to prepare and submit within one year a revised application setting forth a schedule under which such school or group will cease receiving such assistance in the fifth year following the year of issuance of such order. Projects and activities for which funds were available prior to October 1, 1978, may continue to receive assistance under this part through September 30, 1983. The amount made available for the third, fourth, or fifth year of any such project or activity after the year of issuance of such an order shall be reduced in accordance with criteria established by the Commissioner designed to ensure the gradual assumption by the applicant of the costs of projects and activities assisted under this title.

“(C) The Commissioner shall annually review conditions in any school or group of schools for which an order has been issued under subparagraph (B), and shall suspend and withdraw any order issued under subparagraph (B) if, after such order has gone into effect, one or more of the conditions described in subparagraph (A) occurs, and shall permit the local educational agency involved to revise its application in the light of such conditions. Annual review.

“(D) Any order issued pursuant to subparagraph (B) shall be subject to review by the Commissioner if such review is sought within 60 days of the issuance of such order.

“(3) An application for a grant under this part may be approved only if— Grant applications, approval criteria.

“(A) the provision of assistance proposed in the application is consistent with criteria established by the Commissioner, after consultation with the State educational agency, for the purpose of achieving an equitable distribution of assistance under this part within the State in which the applicant is located, which criteria shall be developed by his taking into consideration (i) the geographic distribution of children of limited English proficiency, (ii) the relative need of persons in different geographic areas within the State for the kinds of services and activities described in subsection (a), (iii) with respect to grants to carry out programs described in clauses (1) and (2) of subsection (a) of section 721, the relative ability of particular local educational agencies within the State to provide such services and activities, and (iv) with respect to such grants, the relative numbers of persons from low-income families sought to be benefited by such programs;

“(B) in the case of applications from local educational agencies to carry out programs of bilingual education under subsection (a) (1), the Commissioner determines that the applicant shall expend adequate funds for purposes of such programs for auxiliary and supplementary training programs in accordance with the provisions of subsection (a) (3) (B) and section 723;

“(C) the Commissioner determines—

“(i) that the program will use the most qualified available personnel, including only those personnel who are proficient in the language of instruction and in English, to the extent possible, and the best resources, and will substantially increase the educational opportunities for children of limited English proficiency in the area to be served by the applicant;

“(ii) that in designing the program for which application is made, the needs of the children in nonprofit private elementary and secondary schools have been taken into account through consultation with appropriate private school officials; and consistent with the number of such children enrolled in such schools in the area to be served whose educational needs are of the type and whose language and grade levels are of a similar type which the program is intended to address, after consultation with appropriate private school officials, provision has been made for the participation of such children on a basis comparable to that provided for public school children; and

“(iii) that the program includes a plan for evaluation consistent with guidelines prescribed by the Commissioner;

“(D) the State educational agency has been notified of the application and has been given the opportunity to offer recommendations thereon to the applicant and to the Commissioner;

“(E) the Commissioner determines that the assistance provided under the application will contribute toward building the capacity of the applicant to provide a program of bilingual education on a regular basis which will be of sufficient size, scope, and quality to promise significant improvement in the education of children of limited English proficiency, and that the applicant will have the resources and commitment to continue the program when assistance under this title is reduced or no longer available;

“(F) the program of bilingual education for which assistance is sought will (i) serve those children most in need of assistance under this title, (ii) provide measurable goals for determining when those children no longer need such assistance, and (iii) provide, from State and local sources, for necessary followup services to sustain the achievement of the children after they have left the program, except that if any child is enrolled in a bilingual program assisted under this title for two years, that child shall have an individual evaluation establishing the need for continued services;

“(G) Federal funds made available for the project or activity will be so used as to supplement the level of State and local funds that, in the absence of those Federal funds, would have been expended for special programs for children of limited English proficiency and in no case to supplant such State and local funds, except that nothing in this clause shall (i) preclude a local education agency from using funds under this title for activities carried out under an order of a court of the United States or of any State respecting services to be provided such children, or to carry out a plan approved by the Secretary as adequate under title VI of the Civil Rights Act of 1964 with respect to services to be provided such children, or (ii) authorize any priority or preference to be assigned by the Commissioner to the funding of the activities under this title; and

“(H) the applicant demonstrates that, to the extent possible, personnel recruited and employed to carry out projects and activities under this title are bilingual.

“(4) In the consideration of initial applications from local educational agencies to carry out programs of bilingual education under paragraph (1) of this subsection, the Commissioner shall give priority to applications from local educational agencies which are located in various geographical regions of the Nation and which propose to assist children of limited English proficiency who have historically been underserved by programs of bilingual education, taking into consideration the relative numbers of such children in the schools of such local educational agencies and the relative need for such programs. In approving such applications, the Commissioner shall, to the extent feasible, allocate funds appropriated in proportion to the geographical distribution of children of limited English proficiency throughout the Nation, with due regard for the relative ability of particular local educational agencies to carry out such programs and the relative numbers of persons from low-income families sought to be benefited by such programs.

42 USC 2000d.

Such State program shall contain such provisions, agreements, and assurances as the Commissioner shall, by regulation, determine necessary and proper to achieve the purposes of this title, including assurances that funds made available under this section for any fiscal year will be so used as to supplement, and to the extent practical, increase the level of funds that would, in the absence of such funds, be made available by the State for the purposes described in this section, and in no case to supplant such funds.

State

“(B) Except as provided in the second sentence of this subparagraph, the Commissioner shall pay from the amounts authorized for these purposes pursuant to section 702 for each fiscal year to each State educational agency which has a State program submitted and approved under subparagraph (A) such sums as may be necessary for the proper and efficient conduct of such State program. “(e)(1) An application of a local educational agency for assistance under this title may cover a period of from one to three years. A new application shall be required for any assistance under this title for years subsequent to such period. The Commissioner shall base the decision as to the length of time for which an application will be approved on—

“(A) the severity of the problems addressed by the program for which assistance is being sought;

“(B) the nature of the activities proposed in the application;

“(C) the likely duration of the problems addressed by the application; and

“(D) such other criteria, established by the Commissioner, as will assure the most effective use of the available funds in achieving the purposes of this title.
